Background: The City is the owner of certain real property along the riverbank, located in the vicinity of Dublin Road, Davidson Road, and Griggs Reservoir. It was discovered that a permanent structure, specifically a concrete and stone wall, currently encroaches upon the City’s real property. The owners of the encroaching structure, Ryan V. Briggs and Mary C. Briggs, requested that the City grant them the right to encroach upon the City’s property. The Department of Public Utilities and Recreation and Parks Department jointly determined that the granting of a Determinable Encroachment Easement for a period of ten (10) years, subject to the easement area being used solely for the purposes as defined by the City, will not adversely affect the City and should be allowed. Upon the expiration of the ten (10) year term, the Determinable Encroachment Easement will automatically terminate and all property rights shall revert to the City. The Department of Public Utilities, Division of Watershed Management, and the Columbus City Attorney, Real Estate Division, have established the value of the encroachment easement area at One Thousand, Two Hundred Sixty-seven, and 00/100 U.S. Dollars ($1,267.00). The following ordinance authorizes the Director of Finance and
Management, to execute those documents necessary to grant the Determinable Encroachment Easement on behalf of the City.

BACKGROUND:
This legislation authorizes the Director of the Department of Technology and the Director of the Department of Public Utilities to renew an annual agreement (Service Contract # L693) with PerkinElmer Health Sciences, Inc., for maintenance and support of the Laboratory Information Management System (LIMS). The original agreement (EL008929) was authorized by ordinance 1738-2008, passed November 24, 2008. The agreement was most recently renewed by authority of ordinance 0940-2012, passed May 21, 2012, through purchase order EL012877. This renewal will provide software maintenance and support services for the period June 1, 2013 through May 31, 2014 at a cost of $46,875.

LIMS enables the Division of Sewer and Drainage (DOSD) and the Division of Power and Water (DOPW) to manage water quality sample information, incorporate input from plant operations data sources, track 79,000 tests on 16,000 different samples annually, and transfer approved results to end users automatically. The LIMS system allows DOSD and DOPW to satisfy their regulatory reporting requirements more efficiently. This annual maintenance and support agreement is needed to provide for updated LIMS software and access to LIMS technical support. Without this agreement, the City would need to pay a substantially higher new license fee to obtain the latest version of LIMS software, and would be unable to resolve problems with the software requiring LIMS technical support.
This ordinance also requests approval to continue services provided by PerkinElmer Health Sciences, Inc. in accordance with sole source procurement provisions of Section 329 of the Columbus City Code; as it has been determined PerkinElmer Health Sciences, Inc. is the sole distributor of LIMS, and does not utilize distributors or re-sellers due to the complex nature of its product.

**FISCAL IMPACT:**
In 2011 and 2012, $53,013.00 and $45,510.00 was legislated respectively for software maintenance and support services to support the Laboratory Information Management System (LIMS). This year (2013), passage of this ordinance will authorize the expenditure of $46,875.00 from the Department of Technology, Internal Services Fund. With this renewal, the aggregate contract cost for maintenance and support will total $198,180.00; with an overall aggregate contract total of $718,032.00.

**CONTRACT COMPLIANCE:**
Vendor Name:   PerkinElmer Health Sciences, Inc.                CC#/F.I.D#:  04 - 3361624              Expiration Date:  02/14/2014

To authorize the Director of the Department of Technology and the Director of the Department of Public Utilities to renew an annual contract with PerkinElmer Health Sciences, Inc., to provide computer programming software maintenance and support on the Laboratory Information Management System (LIMS); in accordance with sole source provisions of the Columbus City Code; and to authorize the expenditure of $46,875.00 from the Department of Technology, Internal Services Fund. ($46,875.00)

WHEREAS, the Director of the Department of Technology and the Director of the Department of Public Utilities have a need to renew an annual contract for maintenance and support with PerkinElmer Health Sciences, Inc., for a twelve month term period from June 1, 2013 through May 31, 2014; and

WHEREAS, this contract renewal provides computer programming software maintenance support on the Laboratory Information Management System (LIMS) and obligates the vendor to provide updates and technical support for the software licenses to the Department of Public Utilities; and

WHEREAS, it is best to continue with these services in order to provide continuous support to the Department of Public Utilities to insure the required management of water quality information and reporting; and

WHEREAS, LIMS enables the Division of Sewer and Drainage (DOSD) and the Division of Power and Water (DOPW) to manage water quality sample information, incorporate input from plant operations data sources, track 79,000 tests on 16,000 different samples annually, and transfer approved results to end users automatically; and

WHEREAS, this agreement is being established in accordance with the sole source provisions of the Columbus City Code, Section 329.07; and

WHEREAS, this ordinance is needed to renew an annual contract for maintenance and support on the LIMS with PerkinElmer Health Sciences, Inc., to avoid interruption of service, thereby preserving the public health, property, peace, safety, and welfare; now therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Current Status: Passed
Version: 1
Matter Type: Ordinance

1. BACKGROUND
The Department of Public Service employs personnel that are engaged in traffic sign and signal installation, permanent pavement marking application, and roadway improvement design and construction. Project costs incurred by the operating fund are salaries, overhead, overtime, materials and other direct costs. These personnel and project expenses are budgeted within and paid from the division's operating fund, the Street Construction, Maintenance and Repair Fund. These costs can be capitalized. Doing so is consistent with earlier efforts by the Division to reimburse its operating fund when the operating fund incurred expenses more appropriate to capital improvement funding.

This ordinance authorizes the expenditure of $983,137.00 or so much thereof as may be necessary for this purpose. A portion of the costs were accrued from engineer time worked on projects from pay periods 24 through 26 of 2012.

2. FISCAL IMPACT
Funding for this expenditure is budgeted and available within the Streets and Highways G.O. Bond Fund, no. 704. The 2012 revenue estimate for the Street Construction, Maintenance and Repair Fund reflects and assumes this revenue. C.I.B. amendments and funds transfers are necessary to move monies and authority to the appropriate projects.

3. EMERGENCY DESIGNATION
Emergency action is requested to allow the reimbursement of these operating expenses at the earliest possible time to make the Street Construction Maintenance Repair Fund whole.
To authorize the Director of Public Service to expend $983,137.00 or so much thereof as may be necessary to reimburse the Street Construction, Maintenance and Repair Fund for traffic sign and signal installation, permanent pavement marking, roadway improvement design and construction expenses, salaries, overhead, overtime, materials and other direct costs incurred by the Fund in connection with the Division of Planning and Operations' capital improvements program in 2013; to amend the 2013 C.I.B.; to authorize the transfer and expenditure of monies within the Streets and Highways G.O. Bond Fund for the Department of Public Service; and to declare an emergency. ($983,137.00)

WHEREAS, these costs can be capitalized; and

WHEREAS, the 2012 revenue estimate for the Street Construction, Maintenance and Repair Fund reflects and assumes this revenue; and

WHEREAS, it is necessary to amend the 2013 C.I.B. and transfer funds to the appropriate projects within the Streets and Highways G.O. Bonds Fund; and

WHEREAS, it is necessary to authorize this expenditure in order to provide adequate operating resources for the Division of Mobility Options, Division of Planning and Operations and Division of Design and Construction; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Planning and Operations and Division of Design and Construction in that this reimbursement should be authorized to provide reimbursement to the Street Construction Maintenance and Repair Fund at the earliest possible time and make this fund whole, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

1. BACKGROUND
The Department of Public Service and the Department of Public Utilities are responsible for snow and ice control and removal on the City's roadway system. Rock salt is used extensively in these operations. It is necessary for the Department of Public Service and the Department of Public Utilities to have the ability to purchase rock salt for the 2013 - 2014 winter season.

The Ohio Department of Transportation (ODOT) is in the process of establishing its annual cooperative purchasing contract, Contract No. 18, which allows participating government agencies to purchase rock salt from a selected vendor. The vendor for this contract will be determined by ODOT. ODOT will bid the cooperative purchasing contract as a cooperative contract for use by other governmental agencies, in accordance with Chapter 5513.01 (B) of the Ohio Revised Code.

The purpose of this legislation is to authorize the Director of the Department of Finance and Management to enter into a contract with ODOT to participate in the cooperative purchasing contract and enter into a contract with ODOT's selected vendor (to be determined at a later date) for the purchase of rock salt, per the guidelines of the cooperative purchasing contract.

This legislation also authorizes the Director of the Department of Finance and Management to establish blanket purchase orders with ODOT's selected vendor for the Department of Public Service and the Department of Public Utilities. The funding authorized by this ordinance is for expenses that will occur during the winter months of 2013-2014. BACKGROUND:
This ordinance authorizes the Director of the Department of Technology to enter into a one year agreement with G3 Technology Partners for services in support of the City’s Interactive Voice Response (IVR) system. The IVR system supports the City’s 311 and Utilities call centers, as well as the Technology Help Desk. Services provided under this agreement are annual maintenance and support services ($87,011.95), training services ($9,900.00), and professional services for emergency technical support ($6,800.00). These services are necessary to ensure continued functioning of the IVR system and to enhance DoT staff capabilities to support the system. The agreement is for the period April 1, 2013 to March 31, 2014, and the total cost of the agreement is $103,711.95.

These services have previously been provided to the City under a UTC (FL004507) awarded to G3 Technology Partners by authority of ordinance 1679-2009, passed December 7, 2009. The Departments of Technology and Finance & Management attempted to rebid this UTC through solicitation SA004730, which received three responses on January 10, 2013. Due to recent changes in the Interactive Intelligence (IVR system manufacturer) catalog that occurred after the bid specification was developed, the published bid specifications did not accurately identify the hardware, software and services items the City wanted to purchase. Consequently, bidders were not able to provide a complete and accurate response to the solicitation, so no award was made. As there is an immediate need to obtain critical support and training services, there is not sufficient time to publish another formal bid for these services and award a contract. This one year agreement with the current supplier, G3 Technology Partners, will allow sufficient time to update the bid specifications and obtain needed services through competitive procurement.

Given the unsuccessful attempt to obtain services through a formal bid, this ordinance requests a waiver of competitive bidding requirements of Columbus City Code, in accordance with section 329.27.

EMERGENCY:
Emergency action is requested to expedite authorization of this contract in order to initiate services from the
supplier at the negotiated prices.

**FISCAL IMPACT:**
In 2011 and 2012, the Department of Technology encumbered $134,368.75 and $112,853.52 respectively with G3 Technology Partners for the purchase of an Interactive Auto dialer software, training, professional services, maintenance and support for the IVR system. The cost associated with this legislation is $103,711.95, the funds are available within the Department of Technology, Information Services Division, Internal Services Fund and other fund agencies DoT direct charge budget.

**BACKGROUND:** Ordinance 2797-2012, which passed December 17, 2012, authorized the Department of Finance & Management to enter into contract for the purchase of twenty-nine (29) police cruisers on behalf of the Division of Police. These vehicles (Model 2013 AWD Interceptor-Taurus), will replace existing police cruisers that are high mileage and high maintenance and are scheduled for replacement. All the units will require up-fitting (the installation of light bars, cameras, communications infrastructure, etc.). Fleet Management and Support Services will work together to up-fit the twenty-nine (29) cruisers prior to being placed into service.

Funding for the purchase of these twenty-nine (29) cruisers was identified within the 2012 Public Safety Operating Budget. This purchase was legislated at 2012 year-end, as it became apparent that certain 2012 fiscal year budget surpluses could be used to fund cruiser acquisition.

Ordinance 1439-2012, which passed July 23, 2012, authorized the Department of Finance & Management to enter into contract with Parr Public Safety Equipment, Inc. for the up-fitting of seventy-five (75) Crown Victoria Police Interceptors on behalf of the Division of Police. Ordinance 0925-2012, which passed May 7, 2012, authorized the purchase of said vehicles.

In an effort to expedite the service of these vehicles the Department of Finance & Management respectfully requests the waiver of the competitive bidding process for the up-fitting of these twenty-nine (29) police cruisers. Parr Public Safety Equipment is the agreed upon company for the up-fitting of these vehicles.

Parr Public Safety Equipment Inc. Contract Compliance#: 20-1619573, expires 12/31/2013

**Emergency action** is requested so that Fleet Management can immediately address the up-fitting of these twenty-nine (29) cruisers for the Division of Police and therefore expedite the ability to have them placed into service.

**WHEREAS,** to expedite such up-fitting in order to place cruiser in service as quickly as possible, Parr Public
Safety Equipment has been deemed the vendor best suited to immediately address the up-fitting of these twenty-nine (29) vehicles; and

WHEREAS, Parr Public Safety has certified installers and meets all requirements on installation and warranty work thereby validating the warranty; and

1. BACKGROUND
This ordinance authorizes the Director of Public Service to modify the Brick Rehabilitation - Pearl Street-Short North Brick Rehabilitation contract (Capital Improvement Project No. 530105-100002) in the amount of $130,000.00 and to establish funds for construction administration and inspection in the amount of $15,000.00.

Ordinance 1422-2011 authorized the Director of Public Service to enter into a construction contract for this project with Thompson Excavation, LTD. The scope of the project was the reconstruction of the brick pavement on Pearl Street from Russell Street to Warren Street and from Hubbard Avenue to Prescott Street.

Following the beginning of construction of this project, the Departments of Public Service and Development began working with Developers of a new mixed use project called ‘The Hub’, which is located on the corner of Hubbard and High Streets. Due to the timing of their private construction project and the proximity to Pearl Street from Hubbard to Prescott Place, the Department of Public Service elected to non-perform some work in the original contract. All other work in the original contract has been completed.

Subsequently, Ordinance 1249-2012 authorized the Department of Public Service to change the scope of the contract to utilize funds from the non-performed items for reconstruction of the brick pavement, new sidewalk, sidewalk rehabilitation, and construction of ADA ramps on Elm Street between North Front Street and Wall Street. All newly scoped work has been completed.

The Hub mixed use development project has now progressed to the point where it is now possible for the reconstruction of Pearl Street from Hubbard to Prescott Place to occur without construction conflicts or the likelihood of damage to the reconstructed street.

Original contract amount: $599,919.21 (Ordinance 1422-2011, EL012179)
Modification no. 1 amount: $0.00 (Ordinance 1249-2012)
Modification no. 2 amount: $130,000.00 (this Ordinance)
The total contract amount, including this modification: $729,919.21

Searches in the System for Award Management (Federal) and Findings for Recovery (State) produced no findings against Thompson Excavation, LTD.

2. FISCAL IMPACT
Funding for this contract in the amount of $145,000.00 which includes inspection fees is available and will be funded from the Northland and Other Acquisitions Fund, number 735.

3. CONTRACT COMPLIANCE
Thompson Excavation, LTD.’s contract compliance number is 522451675 and expires 5/19/13.

Legislation Number: 0832-2013
Drafting Date: 3/27/2013
Current Status: Passed
Version: 1
Matter Type: Ordinance

This ordinance is necessary for the City of Columbus to comply with Ohio Public Employees Retirement System (OPERS) requirements regarding Recognition of Pick-Up of Employee Contributions, to aid in the proper recognition of employer "pick-up" (or pre-tax) contributions.

To comply with OPERS requirements regarding Recognition of Pick-up of Contributions, for employees covered by the Management Compensation Plan, and to declare an emergency.

WHEREAS, the employees covered by the Management Compensation Plan are contributing members of OPERS; and

WHEREAS, the City of Columbus has previously adopted a pick-up plan for employees covered by the Management Compensation Plan and who are contributing members of OPERS; and

WHEREAS, OPERS has requirements for reporting changes to pick-up contribution plans; and

WHEREAS, the City of Columbus wishes to change its prior ordinance in order to continue the pick-up under
the OPERS requirements; and

WHEREAS, passage of this ordinance reaffirms Columbus City Council acceptance of the pick-up changes as identified in Section 3 of Ordinance 0308-2012 which amended Section 4(D) of the Management Compensation Plan Ordinance 1150-2007,

WHEREAS, an emergency exists in the usual daily operation of the City of Columbus in that it is immediately necessary to comply with OPERS requirements regarding Recognition of Pick-up of Contributions, to aid in the proper recognition of employer "pick-up" (or pre-tax) contributions thereby preserving the public health, peace, property, safety and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That effective May 12, 2013, 6.0% of the statutorily required employee contributions to OPERS shall be picked-up and paid as a fringe benefit by the City of Columbus for each person within the classes identified in Section 2 herein. This "pick-up" by the City of Columbus shall be designated as public employee contributions and shall be in lieu of contributions to OPERS by each person within the classes identified in Section 2 herein. No person subject to this "pick-up" shall have the option of choosing to receive the statutorily required contribution to OPERS directly instead of having it "picked-up" by the City of Columbus or of being excluded from the "pick-up". The City of Columbus, shall, in reporting and making remittances to OPERS, report that the public employees contribution for each person subject to this "pick-up" has been made as provided by the statute. Therefore, contributions, although designated as employee contributions, are employer-paid, and employees do not have the option to receive the contributions directly. All contributions are paid by the employer directly to the plan.

SECTION 2. The "pick-up" by the City of Columbus provided in Section 1 of this ordinance shall apply to all persons who are full-time active employees of the City of Columbus, covered by the Management Compensation Plan, and were hired before January 1, 2010 and who are contributing members of OPERS.

SECTION 3. Under the fringe-benefit method of employer pick-up, salary is not modified; however, the employer will pay the employees' statutorily required contribution to OPERS. For all City of Columbus employees identified in Section 2 herein, all remaining balances of statutorily required employee contributions, 4% effective May 12, 2013, will be administered under the salary reduction method. Additionally, for all full-time employees of the City of Columbus covered by the Management Compensation Plan who are hired on or after January 1, 2010, all statutorily required employee contributions will be administered under the salary reduction method.

SECTION 4. The City of Columbus Auditor is hereby authorized and directed to implement the provisions of this ordinance to change a portion of the "pick-up" of the statutorily required contributions to OPERS for those persons reflected in Section 2 herein so as to enable them to have a portion of their employee contributions paid by the employer.

SECTION 5. Passage of this ordinance reaffirms Columbus City Council acceptance of the pick-up changes as identified in Section 3 of Ordinance 0308-2012 which amended Section 4(D) of the Management Compensation Plan Ordinance 1150-2007.

SECTION 6. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this Ordinance is hereby declared to be an emergency measure and shall take effect and be in force
from and after its passage and approval by the Mayor or ten (10) days after its passage if the Mayor neither approves or vetoes the same.
