BACKGROUND
This ordinance authorizes the Administrative and Presiding Judge of the Franklin County Municipal Court to contract with BIS Digital, Inc. and authorizes the expenditure of up to $199,997.00 from the Municipal Court special revenue Computer Fund for a courtroom audio/video recording systems. In 2011 the Court purchased three audio/video recording systems from three different vendors; BIS Digital, Jefferson Audio Video Systems and Joloha. When those purchases were made two of the systems were purchased as sole source and the third was already here but upgraded to be comparable with the other two. They tested them all out and determined that the BIS system worked best with our computer system. The BIS system is the only that would play back both audio and visual recordings. The other two would only play back audio recordings so there is a difference in the software.

The court is installing courtroom recorders in all of the Judge’s courtrooms. The audio/video recording will allow for; reduce storage demands by keeping files electronically instead of on paper; increase safety & security of court proceedings records as electronic files of court proceedings will be backed up off-site each evening; and reduce the demands on court reporters for day transcripts. These are a few of the benefits that
would be provided by the recordings.

BACKGROUND: This legislation authorizes the Finance and Management Director to enter into a contract on behalf of the Office of Construction Management with General Temperature Control for the renovation of the existing HVAC ventilation system at the North Market, 59 Spruce Street.

The North Market is Columbus’ only public market and is visited by millions of people annually - by locals, visitors, tourists, and conventioneers. The current Market was purchased by the City in 1992, and then renovated in partnership with the City and private entities.

The product mix offered by vendors at the North Market has changed significantly over the past 15 years to meet the demands of the customer base patronizing the Market. This change in customer demand has resulted in a shift in the vendor mix with the majority of merchants now offering meals prepared on site for North Market shoppers. Much of the ventilating equipment has been in place since the Market was opened in 1995, has exceeded its life expectancy and is not energy efficient.

This project is intended to increase fresh air flow to correct health and fire safety related problems while vastly improving the customers’ experience by minimizing food odors that linger in the air and on customer clothing and reducing grease and soot deposits on surfaces and equipment on the Market’s interior. In order to update
the current ventilation system to meet modern code standards four new make-up air units will be installed on the roof; ten new kitchen hoods will be installed throughout the vendor area, and a new building exhaust fan. The new make-up air units will allow for more precise control of both the temperature and humidity within the building to create a comfortable environment for patrons and vendors. Also, to meet the increased electrical demand from the kitchen hoods, allow for the addition of cooking equipment and preparation of healthier food alternatives, as well as, create expanded retail business opportunities, the electrical panels at several locations with the building will be upgraded as part of this project. Work will be performed in cooperation with the North Market Development Authority and the merchants; however, due to the scope of this work, some business interruption and customer inconvenience will be impossible to avoid.

Finance and Management will also be working with the North Market Development Authority to renegotiate the property lease for the Market. The term of the current lease ends in 2015; however, the City and the Authority Board are in agreement that there is a need to revisit and reestablish an appropriate capital reserve for future renovations and upgrades to the Market, as well as to explore maintenance responsibilities in hopes of achieving operational efficiencies.

Formal bids were solicited and two vendors submitted a bid on February 25, 2013 as follows (0 FBE, 0 MBE):

The Office of Construction Management recommends the bid award be made to the most responsive and responsible bidder, General Temperature Control.

Emergency action is requested so that needed renovations can be completed as soon as possible to meet the operational needs of the North Market, thereby providing necessary services to the businesses, patrons and visitors of the facility.

SECTION 4 That this ordinance shall take effect and be in force from and after the earliest period allowed
That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or 10 days after its passage if the Mayor neither approves nor vetoes the same.

BACKGROUND: The Department of Public Safety, Division of Police, purchased wiretap equipment and software (ADACS4 - Advanced Digital Audio Collection System) in 2003 through grant funds. The Division of Police uses this system as an investigative tool. It provides access to the highest levels of criminal organizations and accelerates investigative outcomes. Fewer resources and time are needed to convict suspects who have otherwise insulated themselves from prosecution. The system has not been updated since 2003. The Division currently pays $20,000 a year for a maintenance service agreement; however, the Sytech Technicians report that in the near future they will be unable to repair any breakdowns due to the age of the hardware and software. In 2012-2013, the system has failed at critical moments in investigations. This ordinance is requesting to enter into a contract with SyTech Corporation for an upgrade to our current system’s (ADACS4) hardware and software. There is also a need to appropriate funds in the Mandatory Drug Fine Fund in order to be able to fund this expense. A total of $41,400.00 to cover the cost of the hardware and software upgrades will be funded from the Mandatory Drug Fine Fund.

Bid Information: The proprietary nature of the ADACS4 that the Division seeks to upgrade require that the equipment and installation be purchased from the sole source provider, SyTech Corporation.

This company is not debarred according to the System for Award Management (SAM) or prohibited from being awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

Contract Compliance No.: 54-1587652, expires 6-08-2014

Emergency Designation: Emergency legislation is necessary so that Police may continue to investigate criminal action utilizing the upgraded software and hardware and current contractor.

FISCAL IMPACT: This ordinance authorizes an expenditure of $41,400.00 for a contract with SyTech Corporation for upgrading the hardware and software of the Advanced Digital Audio Collection System 4 (ADACS4).

To authorize and direct the Director of Finance and Management to enter into a contract with SyTech Corporation for the Division of Police to upgrade the Advanced Digital Audio Collection System 4 (ADACS4) in accordance with provisions of sole source procurement; to authorize an appropriation and expenditure of $41,400.00 from the Mandatory Drug Fine Fund; and to declare an emergency. ($41,400.00)

WHEREAS, the Division of Police needs to enter into a contract for the software and hardware upgrade of the Advanced Digital Audio Collection System 4 (ADACS4); and

WHEREAS, the ADACS4 system is an invaluable tool for law enforcement in the investigation of organized crime rings; and
WHEREAS, it is in the best interest of the City to enter into this contract in accordance with provisions of
Section 329.07 (e)(1) sole source of the Columbus City Codes, 1959; and

in order to allow this purchase; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Police, Department of Public
Safety, in that it is immediately necessary to enter into a contract for the upgrades to the ADACS4 system for
the immediate preservation of the public peace, property, health, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

as follows:

BACKGROUND:
This ordinance authorizes the Director of the Department of Technology to renew a contract with Software House International (SHI), for annual subscription and support of IBM Rational software. The original contract (EL012954) was awarded to SHI through solicitation SA004367, authorized by ordinance 1125-2012, passed June 11, 2012. The contract included options to renew for two (2) additional years, subject to mutual agreement and approval of proper City authorities. This ordinance will authorize the second year of the contract, providing service for the period July 1 2013 to June 30, 2014, at a cost of $38,601.47.

DoT uses IBM Rational software to manage its technology application development, enabling the Applications and Quality Assurance Sections to deliver high quality support to its city department customers, utilizing industry best practices in application development. DoT purchased IBM Rational license subscriptions by authority of ordinance 1259-2009, passed November 9, 2009 (purchase order FL004485). This agreement will enable the DoT to receive the latest versions of IBM Rational software and access IBM technical support. This support needs to be renewed annually.

The SHI response to solicitation SA004367 included amended terms to the City’s standard agreement. These amended terms have been reviewed and approved by the City Attorney. Given the amended terms, this ordinance requests waiver of competitive bidding requirements, in accordance with section 329.27 of Columbus City Code.

FISCAL IMPACT:
In 2012, $36,370.49 was legislated for annual subscription and support of IBM Rational software for Software House International (SHI). The cost for this contract renewal is $38,601.47. This expenditure is budgeted and available within the Department of Technology, Information Services Division, Internal Services Fund. The contract aggregate total including this renewal is $74,971.96.
To authorize the Director of the Department of Technology to renew a contract with Software House International (SHI), for annual subscription and support of IBM Rational software; to waive the competitive bidding provisions of the Columbus City Code; to authorize the expenditure of $38,601.47 from the Department of Technology Information Services Division, Internal Services Fund. ($38,601.47)

WHEREAS, this legislation authorizes the Director of the Department of Technology to renew a contract with Software House International (SHI), for annual subscription and support of IBM Rational software. DoT uses IBM Rational software to manage its technology application development, enabling the Applications Section to deliver high quality support to its city department customers, utilizing industry best practices in application development; and

WHEREAS, the original contract (EL012954) was awarded to SHI through solicitation SA004367. This ordinance will authorize the second year of the contract, providing service for the period July 1 2013 to June 30, 2014, at a cost of $38,601.47; and

WHEREAS, the SHI response also included amended terms to the City's standard agreement. These amended terms have been reviewed and approved by the City Attorney. Given the amended terms, this ordinance requests waiver of competitive bidding requirements, in accordance with section 329.27 of Columbus City Code; and

WHEREAS, it is necessary for the Director of the Department of Technology to renew a contract with SHI for subscription support of the IBM Rational software, as not to impact the daily operation of the services provided; thereby preserving the public health, peace, property, safety, and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1: That the Director of the Department of Technology is hereby authorized to renew a contract with Software House International (SHI), for IBM Rational software support, in the amount of $38,601.47, with a coverage term period of July 1, 2013 through June 30, 2014.

SECTION 2: That the expenditure of $38,601.47 or so much thereof as may be necessary is hereby authorized to be expended from:

BACKGROUND: In 1999 the Capitol South Community Urban Redevelopment Corporation, the Greater Columbus Chamber of Commerce and the Columbus Department of Trade and Development initiated an effort to work with downtown property owners to create a Special Improvement District (SID) in the core area of downtown. Property owners were surveyed and overwhelmingly were in support of creating a SID. The SID was created for a five (5) year period and was very successful. The 5 year period concluded in 2006 and the property owners started again with the creation of another SID, with slightly different boundaries, but still called the Capital Crossroads Special Improvement District. In 2011 the SID was reauthorized for another 5 years. The property owners initiated a one petition process in which at least 60% of the property owners within the District signed that they were interested in forming a SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0338-2011, passed March 14, 2011. Another action required by the Ohio Revised Code is the approval of the Plan of Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution 0025X-2011, passed March 14, 2011. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Capital Crossroads Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution 0046X-2011, passed April 4, 2011. A final piece of legislation, providing for the levy of assessment to property owners, was approved by City Council by Ordinance 0936-2011, passed June 20, 2011. Each assessment is to be returned to the SID for operational requirements as set forth in the District Plan.

This legislation appropriates and approves the expenditure of assessments collected in Fiscal Year 2013 that are to be returned to the SID. This legislation also allows the Director of Development to enter into a contract with the Capital Crossroads Special Improvement District of Columbus, Inc. for disbursement of these funds.

FISCAL IMPACT: Funds for this expenditure will be received from the levy of assessments collected from property owners in the Capital Crossroads Special Improvement District. These funds are deposited into and expended from Agency Fund 307.

To authorize the Director of the Department of Development to enter into a contract with the Capital Crossroads Special Improvement District of Columbus, Inc. for the implementation of services set forth in the District Plan; to direct the City Auditor to appropriate and expend up to $2,280,000.00 from assessments levied from property owners; and to declare an emergency. ($2,280,000.00)

WHEREAS, City Council approved the creation and implementation of a plan for services for the Capital Crossroads Special Improvement District of Columbus, Inc. for a period of 5 years from July 1, 2011 through June 30, 2016; and

WHEREAS, City Council has also levied assessments in accordance with the Ohio Revised Code, Chapter 1710 for such purposes, which funds are in the process of collection and are required by law to be distributed to the District by the City; and

WHEREAS, the assessment funds collected by the County and forwarded to the City for disbursement will be available in March 2013; and

WHEREAS, emergency action is necessary because the Capital Crossroads SID needs this money to operate
its’ organization and to fund its’ initiatives in a timely manner; and

BACKGROUND: In 2003 the Discovery District Development Corporation asked Capitol South Community Urban Redevelopment Corporation to initiate an effort to work with Discovery District property owners to create a Special Improvement District (SID) on the east side of downtown. Property owners were surveyed and overwhelmingly were in support of seeing a proposal to create a SID. The SID was created for a five year period and has been very successful. The SID property decided to terminate the existing Plan for Improvements and Services a year early and reauthorize the Discovery Special Improvement District for an additional five year period, with slightly different boundaries, but still called the Discovery Special Improvement District. The property owners initiated a one-petition process to reauthorize the SID in which at least 60% of the property owners within the District signed that they are interested in reauthorizing the SID and approving the Articles of Incorporation. This petition was accepted and approved by Columbus City Council by Ordinance 0479-2010, passed April 5, 2010. Another action required by the Ohio Revised Code is the approval of the Plan for Improvements and Services and the inclusion of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution 0033X-2010, passed April 5, 2010. The third piece of legislation was to declare the necessity to implement the Plan of Services adopted by the Discovery Special Improvement District of Columbus, Inc., and to levy a special assessment for the services. This legislation was approved by Columbus City Council by Resolution 0059X-2010, passed May 10, 2010. A final piece of legislation, providing for the levy of assessment to property owners, was approved by City Council by Ordinance 0888-2010, passed June 21, 2010. Each assessment is to be returned to the SID for operational requirements as set forth in the District Plan.
This legislation appropriates and approves the expenditure of assessments collected in FY 2013 that are to be returned to the SID. This legislation also allows the Director of Development to enter into a contract with the Discovery Special Improvement District of Columbus, Inc. for disbursement of these funds.

**FISCAL IMPACT:** Funds for this expenditure will be received from the levy of assessments collected from property owners in the Discovery Special Improvement District. These funds are deposited into and expended from Agency Fund 310.

To authorize the Director of the Department of Development to enter into a contract with the Discovery Special Improvement District of Columbus, Inc. for the implementation of services set forth in the District Plan; to direct the City Auditor to appropriate and expend up to $720,000.00 from assessments levied from property owners; and to declare an emergency. ($720,000.00)

**WHEREAS,** City Council has also levied assessments in accordance with the Ohio Revised Code, Chapter 1710 for such purposes, which funds are in the process of collection and are required by law to be distributed to the District by the City; and

BACKGROUND: In 2005 the Northland Alliance, the Morse Road SID Exploratory Committee, and the City
of Columbus Development Department initiated an effort with property owners on Morse Road from Indianola
Avenue to Cleveland Avenue to create a Special Improvement District (SID). The property owners initiated a
one petition process in which at least 60% of the property owners within the District signed that they are
interested in forming a SID and approving the Articles of Incorporation. This petition was accepted and
approved by Columbus City Council by Ordinance 0414-2006, passed February 27, 2006. Another action
required by the Ohio Revised Code is the approval of the Plan of Improvements and Services and the inclusion
of City owned property in said plan. This legislation was approved by Columbus City Council by Resolution
0023X-2006, passed March 6, 2006. The third piece of legislation was to declare the necessity to implement
the Plan of Services adopted by the Morse Road Special Improvement District of Columbus, Inc., and to levy a
special assessment for the services. This legislation was approved by Columbus City Council by Resolution

property owners, was approved by City Council by Ordinance 1180-2006, passed July 10, 2006. Each
assessment is to be returned to the SID for operational requirements as set forth in the District Plan.

returned to the SID. This legislation also allows the Director of Development to enter into a contract with the
Morse Road Special Improvement District of Columbus, Inc. for disbursement of these funds.

FISCAL IMPACT: Funds for this expenditure will be received from the levy of assessments collected from
property owners in the Morse Road Special Improvement District. These funds are deposited into and
expended from Agency Fund 309.

Special Improvement District of Columbus, Inc. for the implementation of services set forth in the District
Plan; to direct the City Auditor to appropriate and expend up to $300,000.00 from assessments levied from
property owners; and to declare an emergency. ($300,000.00)

Legislation Number: 0925-2013

Matter Type: Ordinance

Council Variance Application: CV13-011

APPLICANT: Columbus Scholar House I, LLC; c/o James V. Maniace, Atty.; 65 East State Street, Suite 100; Columbus, Ohio 43215.

PROPOSED USE: Mixed-use development.

NEAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is zoned in the R-2F, Residential District, and developed with a three-story, 19,970 square foot office/retail/apartment building as approved by Ordinance No. 1271-2011, passed on September 12, 2011 (CV11-016), for redevelopment of the historic “Charles” site at 905 East Long Street. The requested Council variance will carry over the previous variances for the existing building, and will allow the construction of a six-unit apartment building (108 South Seventeenth Street), and an eighteen-unit apartment building (90 South Seventeenth Street). 90 South Seventeenth Street was previously developed with a day care center, and is subject to rezoning Ordinance No. 0924-2013 (Z13-019), a request from CPD, Commercial Planned Development District to R-2F, Residential District. The site is located within the planning area of the Near East Area Plan (2005), which recommends higher-density residential and mixed-use development for this location. The site also lies within the East Long Street Urban Commercial Overlay (UCO), and the planning area of the King-Lincoln District Plan (2002), which identifies the intersection of East Long Street and North Seventeenth Street as a “Key Commercial Revitalization Site”. A variance is necessary because the R-2F District prohibits commercial uses, and allows only a maximum of two units within one dwelling. Variances for building height, setback, a reduction of 28 required parking spaces, parking lot screening, and UCO provisions as they apply to upper-story windows and landscaping and screening are included in the request. A hardship exists in that various City plans and overlays recommend mixed-use/multi-unit residential development of the site, but the R-2F zoning designation prevents redevelopment of a mixed-use nature without City Council action.
To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential District; 3312.21(B), (C), and (D), Landscaping and screening; 3312.49, Minimum number of parking spaces required; 3321.05(B) (2), Vision clearance; 3332.21, Building lines; 3332.29, Height district; 3372.605(E) (3), Building design standards; and 3372.607(A), (B), and (D), Landscaping and screening, of the Columbus City Codes; for the property located at 905 EAST LONG STREET, and 90 AND 108 NORTH SEVENTEENTH STREET (43203), to permit a mixed use office/retail/ten-unit apartment building and a six-unit apartment building on one lot, and an eighteen-unit apartment building on a separate lot, with reduced development standards in the R-2F, Residential District, and to repeal Ordinance No. 1271-2011, passed on September 12, 2011 and to declare an emergency (Council Variance # CV13-011).

WHEREAS, by application No. CV13-011, the owners of the property at 905 EAST LONG STREET, and 90 AND 108 NORTH SEVENTEENTH STREET (43203), are requesting a Council Variance to permit a mixed use office/retail/ten-unit apartment building and a six-unit apartment building on one lot, and an eighteen-unit apartment building on a separate lot, with reduced development standards in the R-2F, Residential District; and

WHEREAS, Section 3332.037, R-2F, Residential District Use, permits one single-unit or one two-unit dwelling on a lot, while the applicant will maintain an existing office/retail/apartment building with 971 square feet of retail space and 2,696 square feet of office space on the first floor, and a maximum of ten apartment units total on the second and third floors (905 East Long Street), and proposes to construct a new six-unit apartment building (108 South Seventeenth Street) on the same lot, and a new eighteen-unit apartment building to the south across the alley (90 South Seventeenth Street) as shown on the Site Plans; and

WHEREAS, Section 3312.21(B), (C), and (D), Landscaping and screening, requires interior landscaping, perimeter landscaping, and screening for parking lots, while the applicant proposes no interior parking lot landscaping, no parking lot landscaping, no screening along the west side of the parking lot for 905 East Long Street and 108 North Seventeenth Street, and no screening along the north and south sides of the parking lot for 90 North Seventeenth Street, but instead proposes landscaping and screening as shown on the Site Plans; and

WHEREAS, Section 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces per dwelling unit, 1 parking space per 450 square feet of general office space, and 1 parking space per 250 square feet of retail space, or a maximum total of thirty-one (31) spaces with UCO reductions per 3372.609 for 905 East Long Street and 108 South Seventeenth Street, and a maximum total of twenty-seven (27) spaces for 90 South Seventeenth Street, while the applicant proposes twenty (20) parking spaces for 905 East Long Street and 108 South Seventeenth Street, and ten (10) parking spaces for 90 South Seventeenth Street; and

WHEREAS, Section 3321.05(B) (2), Vision clearance, requires that a clear vision triangle shall be maintained on each residential lot adjacent to a street intersection, while the applicant proposes to maintain encroachment into the clear vision triangle at the intersection of East Long Street and North Seventeenth Street as shown on the Site Plan (Sheet SP .21); and

WHEREAS, Section 3332.21, Building lines, requires the building setback line to be the average distance of building setbacks on contiguous lot or parcels, but in no case less than ten (10) feet, while the applicant proposes a five (5) foot building line along South Seventeenth Street as shown on the Site Plans; and

WHEREAS, Section 3332.29, Height district, requires that no building or structure shall exceed a height of thirty-five (35) feet, while the applicant will maintain a maximum building height of thirty-eight (38) feet for
the existing turret at 905 East Long Street, and proposes a maximum building height of thirty-eight (38) feet for 90 North Seventeenth Street; and

WHEREAS, Section 3372.605(E) (3), Building design standards, requires that twenty-five (25) percent of the second and third floor building frontages must be window glass for the existing building at 905 East Long Street, while the applicant proposes to maintain 17.5 percent window glass; and

WHEREAS, Section 3372.607(A), (B), and (D), Landscaping and screening, requires the following for the existing building at 905 East Long Street: parking lot screening comprised of a solid masonry or stone fence that does not exceed a height of four (4) feet, or a mixture of a four (4) foot high metal fence and a three (3) foot wide landscaped area; and ground-mounted mechanical equipment located behind the principal building screened to the height of the equipment, while the applicant proposes no perimeter parking lot landscaping, no screening along the west side of the parking lot, a wood privacy fence that is six (6) feet in height, and partially screened ground-mounted mechanical equipment located to the side of the building as shown on the Site Plan (Sheet SP .21); and

WHEREAS, the Near East Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the requested Council variance will carry over the previous variances for the existing mixed use office/retail/ten-unit apartment building, and will allow the new construction of six- and eighteen-unit apartment buildings. A hardship exists in that the Near East Area Plan and King-Lincoln District Plan recommend mixed-use and multi-unit residential development of the site, but the R-2F zoning designation prevents redevelopment of a mixed-use nature without City Council action. Furthermore, the northern part of the site is located within the East Long Street Urban Commercial Overlay which provides more rationale to support commercial uses at this location; and

WHEREAS, said ordinance requires separate submission for all applicable permits Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 905 EAST LONG STREET, and 90 AND 108 NORTH SEVENTEENTH STREET (43203), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3332.037, R-2F, Residential District; 3312.21(B), (C), and (D), Landscaping and screening; 3312.49, Minimum number of parking spaces required;
3321.05(B) (2), Vision clearance; 3332.21, Building lines; 3332.29, Height district; 3372.605(E) (3), Building design standards; and 3372.607(A), (B), and (D), Landscaping and screening, of the Columbus City Codes, is hereby granted for the property located at 905 EAST LONG STREET, and 90 AND 108 NORTH SEVENTEENTH STREET (43203), insofar as said sections prohibit a mixed use office/retail/ten-unit apartment building and a six-unit apartment building on one lot, and an eighteen-unit apartment building on a separate lot, with no interior parking lot landscaping, no perimeter parking lot landscaping, and no screening along the west side of the parking lot for 905 East Long Street and 108 North Seventeenth Street, and no screening along the north and south sides of the parking lot for 90 North Seventeenth Street, a reduction in the required number of parking spaces from thirty one (31) spaces to twenty (20) spaces for 905 East Long Street and 108 North Seventeenth Street, and from twenty-seven (27) spaces to ten (10) spaces for 90 North Seventeenth Street, encroachment of the building into the clear vision triangle at the intersection of East Long Street and North Seventeenth Street, a reduction in the required building setback line from ten (10) feet to five (5) feet, an increased building height of thirty-eight (38) feet for 905 East Long Street and 90 North Seventeenth Street, a reduction in the required window glass percentage of the second and third floor building frontages from twenty-five (25) percent to 17.5 percent for 905 East Long Street, no perimeter parking lot landscaping as required by the UCO, no screening along the west side of the parking lot as required by the UCO, a wood privacy fence that is six (6) feet in height in the UCO, and partially screened ground-mounted mechanical equipment located to the side of the building; said property being more particularly described as follows:

Legislation Number: 0935-2013
Drafting Date: 4/8/2013
Version: 2
Current Status: Passed
Matter Type: Ordinance

Council Variance Application: CV13-012

APPLICANT: Columbus Scholar House I, LLC; c/o James V. Maniace, Atty.; 65 East State Street, Suite 100; Columbus, Ohio 43215.

PROPOSED USE: Four-unit dwelling.

NEAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site is comprised of two separate parcels zoned in the R-2F, Residential District, one of which was formerly developed with a non-conforming 4-unit dwelling that was recently demolished. The requested Council variance will allow the construction of a new four-unit dwelling. The site is located within the planning area of the Near East Area Plan (2005), which recommends new residential development compatible with existing housing design. It also recommends mixed-use development and higher density housing on and adjacent to East Long Street. A variance is necessary because the R-2F District allows only a maximum of two units within one dwelling. Variances for parking lot screening, stacked parking, setback, and maximum side yard are included in the request. Since the current configuration of the property would allow a two-unit dwelling on each parcel, Staff has determined that the proposed four-unit dwelling is acceptable at this location, and is also consistent with the established development pattern of the area in that there are several existing or proposed multi-unit residential uses within close proximity to the site.

To grant a Variance from the provisions of Sections 3332.037, R-2F, Residential District; 3312.21(B), Landscaping and screening; 3312.25, Maneuvering; 3312.29, Parking space; 3332.21, Building lines; 3332.25(B), Maximum side yards required; and 3332.26(C)(3), Minimum side yard permitted, of the Columbus City Codes; for the property located at 48 NORTH SEVENTEENTH STREET (43203), to permit a four-unit dwelling with reduced development standards in the R-2F, Residential District and to declare an emergency (Council Variance # CV13-012).
WHEREAS, by application No. CV13-012, the owner of the property at 48 NORTH SEVENTEENTH STREET (43203), is requesting a Council Variance to permit a four-unit dwelling with reduced development standards in the R-2F, Residential District; and

WHEREAS, Section 3332.037, R-2F, Residential District, permits one single-unit or one two-unit dwelling on a lot, while the applicant proposes to construct a new four-unit dwelling as shown on the Site Plan; and

WHEREAS, Section 3312.21(B), Landscaping and screening, requires perimeter landscaping and screening in parking lots, while the applicant proposes no landscaping and screening; and

WHEREAS, Section 3312.25, Maneuvering, requires every parking space to have sufficient access and maneuvering area anywhere on a lot including aisles or circulation areas, while the applicant proposes maneuvering over and through parking spaces; and

WHEREAS, Section 3312.29, Parking space, allows stacked parking spaces only for single- and two-unit dwellings, or multi-unit dwellings with individual garage/driveway arrangements, while the applicant proposes four (4) stacked parking spaces behind four parking spaces as shown on the Site Plan; and

WHEREAS, Section 3332.21, Building lines, requires the building setback line to be the average distance of building setbacks on contiguous lot or parcels, but in no case less than ten (10) feet, while the applicant proposes a four (4) foot building line along South Seventeenth Street as shown on the Site Plan; and

WHEREAS, Section 3332.25(B), Maximum side yards required, requires the sum of the widths of the side yards to be twenty (20) percent of the lot width, or sixteen (16) feet for an eighty (80) foot wide lot, while the applicant proposes a maximum side yard of thirteen (13) percent of the lot width, a total of nine (9) feet eight (8) inches; and

WHEREAS, Section 3332.26(C)(3), Minimum side yard permitted, requires a side yard of no less than five (5) feet, while the applicant proposes a minimum side yard of four (4) feet ten (10) inches along the north and south property lines; and

WHEREAS, the Near East Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the current configuration of the property would allow a total of four units with a two-unit dwelling on each parcel. Staff has determined that the proposed four-unit dwelling is acceptable at this location, and is also consistent with the established development pattern of the area in that there are several existing or proposed multi-unit residential uses within close proximity to the site; and

WHEREAS, said ordinance requires separate submission for all applicable permits and a Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair
established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owner of the property located at 48 NORTH SEVENTEENTH STREET (43203), in using said property as desired;

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

1. BACKGROUND

This legislation authorizes the Director of Public Service to enter into contract with TranSystems Corporation for the amount of up to $250,000.00 for the Intersection Improvements - Hilliard Rome Road at Feder Road contract.

The intent of this project is to provide the City of Columbus preliminary and final engineering for improvements to the Intersection Improvements - Hilliard Rome Road at Feder Road. Design will proceed in two parts. This ordinance will allow the Director of Public Service to enter into contract for Part 1, preliminary engineering. The Director anticipates doing a planned modification for Part 2 for final engineering at a later date. The specific scope of work for Part 2 will be developed upon completion of Part 1.

The intersection of Hilliard-Rome Road at Feder Road/Fisher Road intersection is operating well above its capacity. It is anticipated that the constructed project will install upon completion of an upcoming interchange project on the westbound exit ramps, vehicles will exit I-70 with less delay which may further increase backups at the Hilliard-Rome at Feder/Fisher intersection. The primary goal of this project is to improve capacity of the Hilliard-Rome at Feder/Fisher intersection. In accomplishing this goal, considerations should also be made to improving safety for vehicles using intersections and driveways impacted by the function of the Hilliard-Rome at Feder/Fisher intersection and to complete street improvements. Since the function of the intersection is dependent on the function of the intersection of the I-70 eastbound exit ramp at Hilliard-Rome and the I-70 eastbound entrance ramp from Hilliard-Rome, those should also be studied for potential improvements that would further relieve congestion at the Hilliard-Rome at Feder/Fisher intersection.

The Department of Public Service, Office of Support Services, solicited Requests for Proposals for the Intersection Improvements - Hilliard Rome Road at Feder Road contract. The project was formally advertised on the Vendor Services web site from March 7, 2013, to March 28, 2013. The city received four responses. All proposals were deemed responsive and were fully evaluated when the Evaluation Committee met on April 4, 2013.

This 20,000 square foot building is being redeveloped from its former use as a floral distribution facility into the new administrative facility for the offices, medical, optical and dental services, and a much larger dining hall and community kitchen. The building HVAC, electrical and plumbing systems are being retrofitted and improved for its new use in addition to adding restrooms, demising walls for all the new offices, new flooring and lighting. The new community kitchen will nearly triple the available seating capacity from its former site located at 151 N. Sixth St. which currently serves nearly 17,000 clients monthly. It will also be more efficient and equipped with both previously used and new appliances necessary to prepare the needed meals. In addition, the former community kitchen space at 151 N. Sixth St. Men’s Shelter will be gutted and renovations will occur in order to develop a resource center complete with computer work stations which homeless clients can use to access employment and housing opportunities. The roof will also be improved along with some necessary exterior facade repairs and a new entrance to the building is to be installed. The cost of acquisition and contracted work for this building is approximately $2,000,000.00.

Emergency action is necessary to allow for the LSS Faith Mission to continue its renovation process without interruption.

FISCAL IMPACT: A portion of the funding needed for this project will come from cancelling $275,000.00 from an Auditor Certificate. The remaining funding will be transferred between projects to provide sufficient cash. Full funding for this purpose is budgeted within the 2013 Capital Improvements Budget in the Housing Preservation Fund 782.

On October 25, 2012, six responses to a Request for Proposal for City ACH credit transaction services issued by the City Treasurer were received. The RFP included specifications for the processing of electronic ACH credit payments to the Division of Income Tax, Office of the Auditor. Representatives from the Auditor's Office and also the Columbus Depository Commission have approved the selection of Key Bank, N.A. as the most responsive bidder of those submitted by qualified service providers. Pursuant to the Request for Proposal, the contract for services to the Division of Income Tax shall be an initial term of one year with an option for the Division to renew annually for the following nine years. Allowable expenditure for the first contract year shall not exceed $60,000.00.

The contract for ACH credit services provides for the processing of electronic ACH credit files and payment transactions of city income tax receipts. The City benefits from the automation provided by the ACH credit process, thereby relieving the Division of Income Tax of the time consuming task of opening mail and the data capture of tax information in addition to expediting the deposit of funds to the City.

To authorize and direct the City Auditor to enter into a contract with Key Bank, N.A. for electronic processing of ACH credit payment transactions for the Division of Income Tax for the period June 1, 2013 through May 31, 2014, to authorize the expenditure of $60,000.00 from the General Fund and to declare an emergency ($60,000.00).

WHEREAS, the City Auditor wishes to enter into a contract for the provision of ACH credit banking services for the processing of income tax remittances, as specified within the Request for Proposal for City banking services, and

WHEREAS, the selection of Key Bank, N. A., to provide such services was approved by the Columbus Depository Commission at its April 18, 2013 meeting, and

WHEREAS, the ACH credit service contract shall be for a period of one (1) year with an option for the Division of Income Tax to renew annually for the following nine years, and

WHEREAS, an emergency exists in the usual daily operation of the Income Tax Division in that it is
necessary to ensure uninterrupted banking services by entering into a contract with Key Bank N.A., thereby preserving the public health, peace, property, safety and welfare, now, therefore,

Columbus City Councilmember Michelle M. Mills, chair of the Public Safety & Judiciary Committee, will hold a public meeting to discuss a proposed pilot program that will allow mobile food vendors, including food trucks, push carts, and ice cream trucks, to sell to patrons from the street. In light of the growing food truck industry and ongoing conversations with stakeholders, the City of Columbus is creating a Mobile Food Vendor Pilot Program that will address some of the current limitations on food trucks. The pilot program will permit licensed mobile food vendors to legally sell from designated oversized parking metered spots and unmetered spots on the street. The purpose of the pilot program is to inform the development of a long term policy and permanent legislation to better address this growing industry.
