Health Department, to modify a contract with Decade Software Company, LLC for provisioning a batch payment import module of the EnvisionConnect hosted system. The original contract (EL000490) was established by the Health Department in 2000 and provided language that allows for contract modifications. The agreement was most recently renewed by authority of ordinance 0805-2013, passed April 15, 2013, through purchase order EL014435. The term of this contract modification is from the date of a certified purchase order through June 30, 2014, and will provide for set-up, licensing, and support services at a total cost of $11,844.00.

In an effort to continue to improve operational efficiencies, while providing the highest level of customer service to its clients, the Columbus Public Health Department (CPH) would like to streamline payment processing for Environmental Health licensing fees (and other services) and provide greater flexibility of payment options for the public. The Environmental Health program at CPH handles financial processing of over three million dollars annually, represented by over 8,000 financial transactions. To provide greater flexibility in payment options, as well as to reduce intensive (manual) payment processing, CPH would like to utilize a payment module that will allow for payment processing over the CPH website. This will allow Environmental Health’s licensing process to be open for business 24/7 and will give operators and other services provided to the public a more efficient way to do business with this organization. The proposed solution requires a module add-on, known as the “Batch Payment Import Module”, to EnvisionConnect, an externally hosted automated system application from Decade Software Company, which currently supports the entire Environmental Health operation. This add-on module will allow payments that are taken through outside financial institutions (in this case, via the web) to be interfaced with the EnvisionConnect application electronically for automated financial and operational processing.

The total cost of this modification includes a one-time set-up fee of $5,040.00 and a recurring annual fee of $6,804.00 (total of $11,844.00). This modification is needed to accommodate growing demand for e-payment services among CPH clients. At the time of the original agreement over ten years ago, the need for this modification was not known. Decade is the sole source supplier of the EnvisionConnect system, so the City is unable to obtain the add-on module through alternate procurement methods. The price of this modification was negotiated by CPH and Decade.

Decade Software Company, LLC is the sole provider of licensing, services and maintenance and support for EnvisionConnect software. As such, this ordinance is being established in accordance with the sole source provisions of the Columbus City Code, Section 329.07.

**EMERGENCY:**
Emergency action is requested to expedite authorization of this contract in order to initiate services from the supplier at the prices proposed.

**FISCAL IMPACT:**
In 2012 and 2013, $78,300.00 was legislated respectively each year for annual software license, hosting and support service fees for the EnvisionConnect with Decade Software Company, LLC. The cost for this contract modification for provisioning a batch payment import module of the EnvisionConnect hosted system is $11,844.00. This expenditure is budgeted and available within the Department of Public Health Grants Fund. The contract aggregate total including this renewal is $983,994.00.

BACKGROUND: This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Moody-Nolan, Inc. for professional services for the Reeb Avenue Building renovation.

The original contract for professional consulting services was by City Council through Ordinance No. 2112-2012, passed October 3, 2012. A modification of the contract is necessary to complete the design concept which has been approved through the preliminary design effort, in order to meet the needs of the community. The construction of this project will be funded through a combination of City of Columbus bond funds and private sector contributions provided by local investors. At the time the original design contract fee and $7.5 million construction cost were estimated, no programming or conceptual design had been performed. Now that the programming and conceptual design is completed, based on input from the local investors and the community groups that will be occupying the building, the construction cost is now estimated to be $12.1 million. This results in the need for a more extensive design effort than was originally contemplated.

The proposed project involves the renovation of the existing 45,116 sq. ft. building originally constructed in 1900; the renovation of the existing 4,480 sq. ft. addition constructed in 1968; and the addition of 18,040 sq. ft. of building adjacent to the 1968 section. These renovations and addition will support much needed services within the Southern Gateway community. Among the many functions to be provided by the not-for-profit groups that will occupy this facility will be child care, educational services to children of all ages, support
services for families, and workforce development programs, Moody-Nolan has institutional knowledge of the project, has performed extensive pre-design services, and has produced the conceptual design alternatives. It is practical and cost effective for the coordination and continuity of the project to use Moody-Nolan for this modification. Selecting another consultant could lead to duplicated work and delays. Therefore it is not in the best interest of the City to select another architect for these professional services. Prices already established in the contract were used to determine the cost of this modification.

Emergency action is requested so as to keep the momentum of this important community project going.

Moody-Nolan Contract Compliance No. 31-1256984, expiration date June 8, 2014.

FISCAL IMPACT: The cost of this modification is $746,164.00. Sufficient funding is available in the Construction Management Taxable Bonds Fund.

BACKGROUND: This legislation authorizes the Director of the Department of Development to enter into a contract with the Community Shelter Board, Inc. (CSB) in order to assist in the purchase of a vacant warehouse which will be renovated and converted into the Front Door Shelter serving homeless individuals.

Over the last three years, CSB’s shelters have served 14% more single men and women. As a result, waitlists continue to grow - at times more than 125 people have been waiting for a shelter bed because they are all full. That means people are sleeping on the streets and in abandoned buildings. Shelter providers report that the increase in demand has also resulted in a 10-14 day wait for women seeking a shelter bed to receive one. Thanks to the City of Columbus, CSB expanded the shelter capacities in July to meet this shelter demand;
however, emergency shelters are not able to sustain this increased level of need without additional capacity and funding for shelter beds and associated services. More shelter capacity is needed, especially during periods of extreme weather when usage spikes.

Over the last three years, CSB’s family shelter has served 65% more families. On average last month, 111 families were served nightly at the YWCA Family Center - a facility that was built to shelter 50 families a night.

CSB is ready to implement the Front Door Shelter to add capacity by purchasing a 62,000 square foot vacant warehouse (Project) for $2.3 million. Approximately 40,000 square feet will be converted into the Front Door Shelter - a 250 bed homeless shelter serving single adults (men and women) experiencing homelessness, plus overflow space for 20-40 families experiencing homelessness. The remaining 22,000 square feet will be reserved for possible future development including a medical clinic to serve homeless individuals, on-site job training, and possibly CSB Offices. The City is committing these funds from the 2012 and 2013 Bond Sale ($700,000) to the Project. Additional funding of $5,000,000 for the acquisition and renovation of the building will be coming from the Ohio Housing Finance Agency and private corporations. The renovation of this building is estimated to be $3.6 million. Construction is scheduled to be completed in the spring of 2014. Operating support for the project will come in the form of grants and fundraising conducted by CSB.

The shelter will be owned by CSB and operated by CSB’s partner agencies: The YMCA of Central Ohio, YWCA and Southeast. Resident services will be provided by these and other non-profit service providers.

**EMERGENCY JUSTIFICATION:** Emergency action is in order to implement crisis response initiative and comply with project development timelines.

**FISCAL IMPACT:** Funds for this project are included in the 2013 Capital Improvements Budget under Housing Preservation, Emergency Shelter Repair. These funds represent two years of Capital Improvement Funds that were previously set aside in 2012 and 2013 for this purpose. The 2014 allocation of $350,000 in Capital Improvement Funds is also safeguarded for this purpose and will be requested in 2014.

To authorize the Director of the Department of Development to enter into a contract with the Community Shelter Board to assist in the purchase of a vacant warehouse which will be renovated and converted into the Front Door Shelter serving homeless individuals; to authorize the expenditure of $700,000.00 from the Housing Preservation Fund; and to declare an emergency. ($700,000.00)

**WHEREAS,** the Director of the Department of Development desires to enter into an agreement with Community Shelter Board to assist in the purchase of a vacant warehouse which will be renovated and converted into the Front Door Shelter: a 250 bed homeless shelter serving single adults (men and women) experiencing homelessness, plus overflow space for 20-40 families experiencing homelessness; and

**WHEREAS,** the Emergency Shelter Repair Program will provide funds to assist in the purchase of an emergency shelter facility; and

**WHEREAS,** the Community Shelter Board is non-profit organization that is implementing a community endorsed crisis response system, that includes the Front Door Shelter, in order to improve services to homeless individuals; and
WHEREAS, an emergency exists in the usual daily operation of the City in that it is immediately necessary to enter into an agreement with the Community Shelter Board to implement the Emergency Shelter Repair Program in order to comply with the project development time lines, all for the preservation of the public health, peace, property, safety and welfare; and NOW THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the Director of the Department of Development is hereby authorized to enter into a contract with Community Shelter Board, Inc. to assist in the purchase of a vacant warehouse which will be renovated and converted into the Front Door Shelter serving homeless individuals.

Section 2. That for the purpose as stated in Section 1, the sum of $700,000.00, or so much thereof as necessary, is hereby authorized to be expended from the Housing Preservation Fund, Fund 782, Project 782003-100000 Emergency Shelter Repair, Department of Development, Division 44-10, Object Level One 06, Object Level Three 6615, OCA Code 782003.

Section 3. That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

Section 4. That the City Auditor is authorized to establish proper accounting project numbers and to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this ordinance.

Section 5. That for the reasons stated in the preamble hereto, which hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

Background
The department has operated the Martin Janis Center, located at 600 E. 11th Ave. on the grounds of the Ohio Exposition Center, under a lease agreement with the state of Ohio since the early 1970’s. The current lease expires November 30, 2013. We have been negotiating a new lease with the state since early in 2013. The lease is for 10 years with an option for an additional 10 years for a total of 20 years. Total cost of the lease $10.

Fiscal Impact:
$10 is budgeted within the Recreation and Parks Operating Fund 285. Payment will be made as directed by the State of Ohio and in accordance with the lease agreement.

Emergency Justification:
Emergency action is requested to prevent a break in programs and activities for the participants of the facility.

SECTION 4. That for reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or 10 days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND

This ordinance authorizes an increase in sewer rates effective January 1, 2014 for the Division of Sewerage and Drainage and to amend Chapter 1147 of the Columbus City Codes, 1959.
The proposed rate configuration for 2014 recognizes that water and sewer charges disproportionately affect lower income groups. The Department of Public Utilities will continue the Low Income Discount Program that discounts participant's sewer commodity portion of their sewer bill by 20%.

Requested adjustments in rates result in a typical inside city residential sanitary sewer rate increase of 2.0%. When a water increase of 0% and a 1% increase in stormwater rates is considered, the overall impact on a typical residential customer in the City of Columbus is 1.11% and for a typical outside city residential customer 1.01%. Outside city customers are not charged stormwater fees.

In 2005, in Ordinance No.1904-2005, Passed November 28, 2005, Council created a Clean River Fee to recover costs of construction of projects necessary to meet the requirements of the two consent orders that mandate elimination of wet weather flow from Combined Sewer Overflows and Sanitary Sewer Overflows. This charge was assessed based on each property's measured impervious surface area. Since 2005, Council has approved across-the-board rate increases, including the Clean River Fee. In doing so, the Clean River Fee was not calibrated to pay for all wet weather construction costs. The Department of Public Utilities, with approval of the Sewer and Water Advisory Board (SWAB), recommends that the Clean River Fee again be increased with an across-the-board rate increase. This will continue to allow wet weather construction projects to be paid for by a blend of the Clean Water Fee, based on ERU, and commodity charges.

The proposed rate structure is necessary to continue to address projects related to the two (2) consent orders entered into in 2002 and 2004 mandating the City of Columbus to mitigate wet weather flow from Combined Sewer Overflows (CSO) and Sanitary Sewer Overflows (SSO). Rates are also necessary for operating costs and various other infrastructure improvements.

The Division of Sewerage and Drainage charge some industrial customers an extra strength charge. Extra strength charges are for the treatment of high strength wastewater generated by various industries that require additional treatment processes within the wastewater treatment plants. To address higher than normal extra strength charges and to stay economically competitive, the Department of Public Utilities is requesting reducing the 2014 Extra Strength Charges as follows: 10% for BOD; 15% for TKN and no rate adjustments for SS.

The Sewer and Water Advisory Board (SWAB) met on September 25, 2013 and after reviewing the Department of Public Utilities projected expenditures for 2014, recommends to City Council an increase of 2.0% in sewer rates, no increase to sewer capacity fees and a reduction of the extra strength charges as stated above.

**FISCAL IMPACT:** These rate increases will generate approximately $2.7 million in additional revenue in 2014.

To amend Chapter 1147 of the Columbus City Codes 1959, to enact new sanitary sewer service rates for the year beginning January 1, 2014; and to repeal the existing Sections being amended.

**WHEREAS,** it is necessary to establish new sewer sanitary services rates, effective January 1, 2014, for
sewerage services to properties discharging into the sanitary sewerage system of the City of Columbus in order to recover the cost of rendering said sewerage services for the calendar year; and

WHEREAS, the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage requests a two percent (2%) increase in sewer rates for 2014 to pay for necessary ongoing operations and needed improvements; and

WHEREAS, the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage requests that the charges for industry Extra Strength rates be reduced as follows: 10% for BOD; 15% for TKN and no rate adjustments for SS, and

WHEREAS, the City of Columbus, Department of Public Utilities requests that sewer capacity fees not be increased in fiscal year 2014, and

WHEREAS, in addition to the commodity rates, City Council finds it necessary to continue a Clean River Fee to fund the wet weather capital improvement projects required by the Consent Orders with the State of Ohio; and

WHEREAS, City Council finds that the most appropriate way to assess the Clean River surcharge is by correlating the surcharge to the amount of impervious surface, as the factor most closely associated with increased inflow and infiltration is impervious cover from urban development; and

WHEREAS, City Council recognizes that increased sewer rates disproportionately impact low income residents. Low income residents already pay a higher percentage of their household income in utility bills, and this percentage would increase with higher rates; and

WHEREAS, City Council further recognizes that past rate increases in the City have demonstrated that increasing rates leads to increased delinquencies among the City's customers; delinquencies rates are higher among low income residents. It is well recognized that increased delinquencies are expensive for the City and its customers; and

WHEREAS, City Council finds that continuing the discount rate for low income users at 20% is appropriate to assist those least able to manage the impacts of increased sewer and water rates; and

WHEREAS, the Sewer and Water Advisory Board has adopted recommendations that are consistent with the rates established in this legislation; and

WHEREAS, City Council finds that the rates and the low income discount established are equitable to all of the City's customers; now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That effective January 1, 2014, Section 1147.11 of the Columbus City Codes, 1959, be and is hereby amended to read as follows:

1147.11 Rate Schedules.

(a) Charges Within Corporate Limits. For the purpose stated in Sections 1147.02 and 147.12 there is hereby
charged to each user situated within the corporate limits of the city, having any active sewer connection with the sewerage system of such city or otherwise discharging sewerage, industrial wastes, water or other liquids, either directly or indirectly into the city's sewerage system, sewer charges as hereinbefore provided, and in the amount determinable as follows:

(1) For any such lot, parcel of land, building or premises having any connection with the city's sewerage system or otherwise discharging sanitary sewerage, industrial wastes, water or other liquids, either directly or indirectly into the city's sewerage system, such charge shall be based upon the quantity of water used therein as the same is measured by a water meter or meters there in use, as hereinafter described, and there shall be charged:

The charges as prescribed in the rate schedule as follows: SEE ATTACHED FILE

(b) Charges Outside Corporate Limits. For the purpose stated in Sections 1147.02 and 1147.12, there is hereby charged to each user situated outside the corporate limits of the city, having any active sewer connection with the sewerage system of such city or otherwise discharging sewage, industrial wastes, other liquids, either directly or indirectly into the city's sewerage system, sewer charges as hereinbefore provided, and in the amount determinable as follows:

(1) For any such lot, parcel of land, building or premises having any connection with the city's sewerage system or otherwise discharging sanitary sewage, industrial wastes, water or other liquids, either directly or indirectly into the city's sewerage system, such charge shall be based upon the quantity of water used thereon or therein as the same is measured by a water meter or meters there in use, as hereinafter described, and there shall be charged:

The charges as prescribed in the rate schedule as follows: SEE ATTACHED FILE

SECTION 2. That sewer rates herein established shall be applicable to all sewer used on or after January 1, 2014.

SECTION 3. That effective January 1, 2014, existing Section 1147.11, (a) and (b) of the Columbus City Codes, 1959, be and are hereby repealed.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

BACKGROUND:

This ordinance authorizes an increase in Stormwater charges effective January 1, 2014 and to amend Chapter 1144 of the Columbus City Codes, 1959. The stormwater charges per Equivalent Residential Unit (ERU) will increase from $4.48 to $4.52 per month for a typical Inside City residential customer.

The requested adjustment in rates results in a stormwater rate increase of 1%. When a water increase of 0%
and a sanitary sewer increase of 2.0% are considered the overall impact on a typical residential customer in the City of Columbus is 1.11% and for a typical residential customer outside the city 1.01%. Stormwater fees are only charged to City of Columbus customers, outside city customers do not pay stormwater charges.

The stormwater rates were decreased by 2% in 2012 and there was not an increase in these rates in 2013.

The stormwater ERU charge is assessed based on each property’s measured impervious surface area. Each Equivalent Residential Unit (ERU) is based on 2000 sq ft of impervious surface area. Residents are charged at one (1) ERU per residence. All other customers are charged based on measured impervious area divided by 2000 sq ft to determine an ERU equivalent.

The Sewer and Water Advisory Board met on September 25, 2013 and after reviewing the Department of Public Utilities projected expenditures for 2014, recommends to City Council an increase of 1% in stormwater rates.

**FISCAL IMPACT**: These rate increases will generate approximately $307 thousand in additional revenue in 2014.

To amend Section 1144.08 of the Columbus City Codes, 1959, effective January 1, 2014, to increase Stormwater fees; and to repeal the existing Section being amended.

**WHEREAS**, the Sewer and Water Advisory Board met on September 25, 2013 and after reviewing the Department of Public Utilities projected expenditures for 2014, recommends to City Council an increase of 1% in stormwater rates, and

**WHEREAS**, stormwater fees are not charged to those customers outside of the City of Columbus, and

**WHEREAS**, it is necessary to increase the monthly Stormwater charges from $4.48 per Equivalent Residential Unit (ERU) to $4.52 per ERU to accurately match needed revenue to estimated program expenses; now, therefore,

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:**

**SECTION 1.** That effective January 1, 2014, Section 1149.08(b) of the Columbus City Codes, 1959, be and is hereby amended to read as follows:

1149.08 Rate Structure

(b) The charge as prescribed in the rate schedule is as follows:

$0.1472 \to \text{0.1485} \ per \ day \ per \ Equivalent \ Residential \ Unit \ (ERU)$

**SECTION 2.** That stormwater rates herein established shall be applicable for all stormwater charges on or after January 1, 2014.
SECTION 3: That effective January 1, 2014, existing Section 1149.08 (b) of the Columbus City Codes, 1959, be and are hereby repealed.

SECTION 4. That this Ordinance shall take effect and be in force from and after the earliest period allowed by law.

BACKGROUND:

This ordinance authorizes no increase in water rates effective January 1, 2014 for the Division of Water and to amend Chapter 1105 of the Columbus City Codes, 1959.

The proposed rate configuration for 2014 recognizes that water and sewer charges disproportionately affect lower income groups. The Department of Public Utilities will continue the Low Income Discount Program that discounts participant's sewer commodity portion of their quarterly bill by 20%.

Requested adjustments in rates result in a typical inside city residential water rate increase of 0%. When a sewer increase of 2.0% and a 1% increase in stormwater rates are considered, the overall impact on a typical residential customer in the City of Columbus is 1.11% and for a typical outside city residential customer 1.01%. Outside city customers are not charged stormwater fees.

The Sewer and Water Advisory Board (SWAB) met on September 25, 2013 and after reviewing the Department of Public Utilities projected expenditures for 2014, recommends to City Council 0% increase in water rates and no increase to the water capacity charges.

FISCAL IMPACT: The Division Water expects to pay for all operating expenses for the fiscal year 2014 through current rate structure.

To amend Chapter 1105 of the Columbus City Codes, 1959, to enact new water rates for the year beginning January 1, 2014; and to repeal the existing Sections being amended.

WHEREAS, it is necessary to establish new water services rates, effective January 1, 2014, for water service provided by the City of Columbus in order to recover the cost of rendering said water services; and

WHEREAS, the City of Columbus, Department of Public Utilities Division of Water requests that no rate increase be applied in water rates for 2014; and

WHEREAS, the City of Columbus, Department of Public Utilities requests that water capacity fees not be
increased in fiscal year 2014, and

WHEREAS, City Council recognizes that increased water rates disproportionately impact low income residents. Low income residents already pay a higher percentage of their household income in utility bills, and this percentage would increase with higher rates; and

WHEREAS, City Council further recognizes that past rate increases in the City have demonstrated that increasing rates leads to increased delinquencies among the City's customers; delinquencies rates are higher among low income residents. It is well recognized that increased delinquencies are expensive for the City and its customers; and

WHEREAS, City Council finds that continuing the discount rate for low income users at 20% is appropriate to assist those least able to manage the impacts of increased sewer and water rates; and

WHEREAS, the Sewer and Water Advisory Board has adopted recommendations that are consistent with the rates established in this legislation; and

WHEREAS, City Council finds that the rates and the low income discount established therein are equitable to all of the City's customers; now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the existing Sections 1105.04 and 1105.041 of the Columbus City Codes, 1959, shall be and are hereby amended effective January 1, 2014 to read as follows:

BACKGROUND: This legislation authorizes the Finance and Management Director to enter into a contract on behalf of the Office of Construction Management with Gateway Mechanical, Inc. for the renovation of the hot water heating boiler at the Jerry Hammond Center, 1111 East Broad Street. It has been determined that it is necessary to replace three of five hot water heating boilers located at the Jerry Hammond Center. As part of the assessment it was determined that several of the hot water comfort heating boilers have ruptured and are leaking water and/or are otherwise deficient. The boilers have far surpassed their normal and expected life expectancy and have been repaired numerous times. The remaining two boilers are of the same age but are more functional; however, they have been targeted for replacement within the next several years.

Formal bids were solicited and six companies submitted bids on October 9, 2013 as follows (0 FBE, 0 MBE):
Gateway Mechanical, Inc. $340,900.00
Aggressive Mechanical, Inc. $377,000.00
Vaughn Industries, LLC. $382,900.00
H & A Mechanical, Inc. $386,000.00
General Temperature $408,000.00
Kirk Williams Company, Inc. $724,651.00

The Office of Construction Management recommends the bid award be made to the most responsive and responsible bidder, Gateway Mechanical, Inc.

Emergency action is necessary so as to initiate the necessary renovations as soon as possible. Failure of one or more of the boilers would significantly impair the City's ability to properly heat this facility.

Fiscal Impact: The cost of this contract is $340,900.00. A transfer of $123,795.00 between projects within the Construction Management Capital Improvement Fund is necessary to provide sufficient authority for said project.

This ordinance authorizes the Director of Finance and Management to enter into contract with Big Belly Solar for the purchase of solar compactor units under Section 329.07(e) of the Columbus City Code (sole source procurement). The contract amount is for $39,054.00.

The City of Columbus seeks ways to be an environmentally friendly and green community as part of Mayor Michael B. Coleman’s Get Green Columbus initiative. The Mayor’s Office of Environmental Stewardship and the Department of Public Service’s Division of Refuse Collection worked in partnership with the Short North Alliance to seek a way of reducing litter and trash can overflows in the Short North area, while also encouraging recycling and reducing the trips required for servicing trash and recycling receptacles. The solar compactors are a double-unit, with one side for trash and one side for recyclables. Solar power is used to compact the trash and recyclables, increasing storage capacity and reducing trips needed to collect the trash and recyclables. Solar power is also used to communicate with the service provider when the compactor is approaching full. This allows a collection vehicle to be dispatched when needed instead of on a regular schedule, providing an additional environmental benefit.

This equipment will be installed as part of a pilot program to test the effectiveness of the units. The purchase includes all equipment, software, and licensing needed to make seven double-units operational for five years. All of the units will be installed in the Short North area.

Big Belly Solar claims to be the only manufacturer of this type of equipment. A search was conducted and a substitute product from another company was not located. Pricing was negotiated with Big Belly Solar and quantity discounts were applied. We are requesting to make the purchase under the sole source procurement provision of the Columbus City Code, Section 329.07(e).

Searches in the System for Award Management (Federal) and the Findings for Recovery list (State) produced no findings against Big Belly Solar.

2. FISCAL IMPACT
Funding for this purchase is available within the General Fund, Mayor’s Office of Environmental Stewardship.

3. EMERGENCY DESIGNATION
Emergency action is requested so installation can occur before the winter months, allowing the testing of the solar component during the months with the least amount of sunshine.

4. CONTRACT COMPLIANCE
The Contract Compliance number for Big Belly Solar is 331056366 and Expires 10/11/15.

To authorize the Director of Finance and Management to enter into contract with Big Belly Solar for the purchase of solar compactor units in accordance with the City’s sole source provision; to authorize the expenditure of up to $39,054.00 from the General Fund, Mayor’s Office of Environmental Stewardship, to make this purchase; and to declare an emergency. ($39,054.00)

WHEREAS, the City of Columbus seeks to be an environmentally friendly and green community as part of Mayor Michael B. Coleman’s Get Green Columbus initiative; and

WHEREAS, as part of that initiative, a solar compactor has been identified that can reduce trash can overflows, encourage recycling, and reduce the trips required for servicing trash and recycling receptacles, which will increase the City’s environmental friendliness; and
WHEREAS, no other manufacturer of solar compactors was found; and

WHEREAS, an emergency exists in the usual daily operation of the Mayor’s Office of Environmental Stewardship and the Department of Public Service, Division of Refuse Collection, in that installation needs to occur before the winter months, allowing the testing of the solar component during the months with the least amount of sunshine, thereby preserving the public health, peace, property, safety and welfare; now, therefore:

Legislation Number: 2521-2013
Drafting Date: 10/22/2013
Current Status: Passed
Version: 1
Matter Type: Ordinance

The Director of Public Utilities entered into a contract with The Righter Company, Inc. to provide Specialty Maintenance Crafts for various Divisions of the Department of Public Utilities, FEM Project No. 0101.4. This Modification #6 is to add additional funding for repairs at various locations of the Division of Sewerage and Drainage and the Division of Water.

The Department of Public Utilities advertised Request for Proposals (RFP's) for the subject services in the City Bulletin in accordance with the provisions of Section 329 (SA004059). Seventy one (71) vendors (62 MAJ, 9 MBE, 0 FBE) were solicited and one (1) proposal (1 MAJ), from The Righter Company, Inc., was received on August 24, 2011. The proposal was reviewed based on quality and feasibility and The Righter Company, Inc. was determined to be qualified to provide the services for the Specialty Maintenance Crafts project, for which the Division Administrator has concurred. The original contract was for a period of one year with two (2) one year renewal options on a year to year basis upon mutual agreement, availability of funding and Columbus City Council approval. The Department of Public Utilities utilized the second extension option as part of Ordinance #2089-2013. This is the 3rd year of a three (3) year contract. The contract will expire on December
Additional funding for the Division of Sewerage and Drainage is required to complete some previously authorized work tasks due to unforeseen issues.

1. RFP to renovate security system for the Southerly Waste Water Treatment Plant (SWWTP) did not include electrical power to the doors with panic bars. These doors require electrification to provide a mechanical means to maneuver the bar and unlatch the closing mechanism once the door is placed on the key card/ security system.
2. RFP for SWWTP Gate Operators, during field investigations of the security system it was determined that the gate operators had failed and needed to be replaced.
3. RFP for SWWTP CMT Trailer Demobilization had additional hauling costs due to the amount of broken and corroded field furnishings that was not anticipated or uncovered until the documentation was relocated to SMOC. The relocation of our Construction Management Group to Jackson Pike Waste Water Treatment Plant included unforeseen costs to make the offices tolerable. These items were necessary repair of waterlines, toilet repairs, roof repairs, door repairs, and handrails.

Additional funding is required for roof repair of two areas of the Sewer Maintenance Operations Center Facility (SMOC) that are currently leaking and need repair prior to the winter season. One area is above the sleeping quarters of the firefighters housed on the second floor and the other area is above occupied office space.

Additional funding for the Division of Water is required to complete repairs to a large air compressor at the Parsons Avenue Water Plant (PAWP). This compressor is one of two used to move lime and soda ash from the outdoor storage silos to the inside day bins above the actual lime and soda feeders. The two compressors are a run one with a standby set-up. When the Plant transports they use one of the compressors so the very near term does not present a dire situation, but one of them runs for some number of hours nearly every day of the week. Both compressors are of the same late 1970s vintage and if the second compressor fails, the Plant will be limited to direct unloading which puts additional limitations on the plant operations flexibility.

As the Plant staff disassembled the inoperable compressor it was determined that the necessary overhaul is beyond the current manpower availability and will likely require an unpredictable list of obsolete parts that the vendor can obtain faster than the City could to get this compressor back in operation without unnecessary delays.

SUPPLIER: The Righter Company, Inc. (310889208) Expires 1/7/2015
The Righter Company, Inc. does not hold MBE/FBE status.

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.

1. **Amount of additional funds:** Total amount of additional funds needed for this contract modification No. 6 is $153,800.00 for the Division of Sewerage and Drainage, and $20,000.00 for the Division of Water, for a total contract modification amount of ADD $173,800.00. Total contract amount including this modification is $2,082,811.00.

2. **Reason additional funds were not foreseen:** The need for additional funding was unknown at the time of the original contract. This legislation is to encumber the funds necessary to complete work for the Department of Public Utilities at various facilities of the Division of Sewerage and Drainage, and, at
the Parsons Avenue Water Treatment Plant.

3. Reason other procurement processes not used: Work under this modification is a continuation of services included in the scope of the original bid contract. No lower pricing/more attractive terms and conditions are anticipated at this time.

4. How was cost determined: The Department of Public Utilities and The Righter Company, Inc. negotiated the cost of the additional work.

**EMERGENCY:** Emergency designation is requested for this modification to allow for the expedient repair of equipment and facilities as to avoid interruption of service delivery and to preserve the public safety.

**FISCAL IMPACT:** There is sufficient budget authority within the Sewerage System Operating Fund and the Water Operating Fund for these expenditures. The contract amount will be utilized to provide services under this contract for DOSD and DOW facilities.

BACKGROUND:
This legislation authorizes the Director of the Department of Technology to renew an agreement with DLT Solutions, LLC for Autodesk software subscription renewals and technical support, on behalf of the Departments of Public Service and Public Utilities. Council Variance Application # CV13-034

APPLICANT: YDT Sinclair Road, LLC; 942 A Freeway Drive North; c/o Mark Taggart.

PROPOSED USE: Automotive maintenance and repair.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is developed with a warehouse building zoned in the M-1, Manufacturing District. The applicant requests a Council variance to allow the building to be used for automotive maintenance and repair. Automotive maintenance and repair facilities are not permitted in the M-1, Manufacturing District, but assembly, manufacturing, processing, and treatment of automobiles and automotive parts is permitted. The use is also permitted in the C-4, Commercial and M, Manufacturing Districts. Furthermore, the M-1 District allows bus garages and truck depots where routine vehicle maintenance is permitted. The automotive maintenance and repair proposed for this site is much less intense than the maintenance of a fleet of buses or trucks, and industrial uses will still be permitted by retaining the M-1, Manufacturing District. Approval of this request will not introduce an incompatible use to the area. No recommendation is being made regarding the hardship aspect of this request.

To grant a Variance from the provisions of Section 3365.01, M-1, Manufacturing District, of the Columbus
City Codes, for the property located at 930 FREEWAY DRIVE NORTH (43229), to permit automotive maintenance and repair in the M-1, Manufacturing District and to declare an emergency (Council Variance # CV13-034).

WHEREAS, by application No. CV13-034, the owner of the property at 930 FREEWAY DRIVE NORTH (43229), is requesting a Council Variance to permit automotive maintenance and repair in the M-1, Manufacturing District; and

WHEREAS, Section 3365.01, M-1, Manufacturing District, prohibits automotive maintenance and repair facilities, while the applicant proposes an automobile maintenance and repair facility within the existing building; and

WHEREAS, City Departments recommend approval because although automotive maintenance and repair facilities are not permitted in the M-1, Manufacturing District, assembly, manufacturing, processing, and treatment of automobiles and automotive parts is permitted. Furthermore, the M-1 District allows bus garages and truck depots where routine vehicle maintenance is permitted. The automotive maintenance and repair proposed for this site is much less intense than the maintenance of a fleet of buses or trucks, and industrial uses will still be permitted by retaining the M-1, Manufacturing District. Approval of this request will not introduce an incompatible use to the area; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 930 FREEWAY DRIVE NORTH (43229), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of public peace, property, health and safety; now, therefore:

ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and
after its passage and approval by the Mayor or 10 days after its passage if the Mayor neither approves
nor vetoes the same.

BACKGROUND: This ordinance authorizes a contract for the purchase of Conducted Electrical Weapons
(CEWs) and associated supplies from Vance's Outdoor Inc., for the Division of Police in the amount of
$525,599.35. The Department of Public Safety, Division of Police needs to establish a contract for the
purchase of replacement CEWs and ancillary supplies and warranties because a significant portion of the
current CEWs used by Police are either out of certification or soon will be. The Division purchased seventy
(70) CEWs and related supplies earlier this year, via 0767-2013, utilizing funds specifically appropriated by
City Council this year in the Public Safety Initiative Fund. This ordinance will allow for the purchase of
three-hundred forty (340) additional replacement CEWs, along with necessary supplies and warranties.

This ordinance also waives the competitive bidding provisions of Columbus City Codes. The Division of
Police believes that only the CEW manufactured by Taser International Inc., is acceptable due to street use,
training, certification, and re-certification required for all police officers. There is only one supplier in the
Ohio area authorized to the sell CEW’s, cartridges, warranties and accessories. Taser International has stated
that the only authorized dealer in Ohio is Vance's Outdoors Inc. Therefore, this ordinance requests a waiver of
competitive bidding. Another company does manufacture a CEW but the Police Division does not believe it is
suitable for its needs. This other product, produced by Karbon Arms, has been tested by Division of Police
personnel, and has been determined to not operate in a manner acceptable to those trained in its use.
Therefore, the Division recommends that it is in the City's best interest to waive the competitive bidding
provisions of the City Code to allow for this purchase.

This ordinance also appropriates funds in the Law Enforcement Seizure Fund and transfers funds within the
Division’s General Fund Budget.

This company is not debarred according to the Federal excluded parties listing or prohibited from being
awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

Emergency Designation: Emergency legislation is requested, as Vance's Outdoors Inc. is currently offering a
$105 trade in credit program through the end of December 2013.

Contract Compliance Number: 54-2072038, expires 02/08/2014

FISCAL IMPACT: This ordinance authorizes an expenditure of $525,599.35 from the Law Enforcement
Seizure and the General Fund for the purchase of replacement CEW’s, CEW supplies, and warranties from
Vance Outdoors Inc. The Division has already spent $199,862.13 out of an appropriated amount of $200,000
from the Safety Initiative Fund earlier this year for CEW replacements. The remaining $137,87 will be used in
this ordinance. The Division of Police spent $95,285.00 for CEW supplies in 2012, $108,145.70 in 2011, and
$98,528.85 in 2010.

To authorize the Director of Finance and Management to enter into a contract for the purchase of replacement
Conducted Electrical Weapons (CEWs), and related warranties and supplies with Vance's Outdoors Inc. for the
Division of Police; to authorize the appropriation of $250,000 within the Law Enforcement Seizure Fund; to authorize a transfer of $275,461.48 within the Division’s General Fund Budget; to authorize the expenditure of $525,599.35 from the Law Enforcement Seizure, Public Safety Initiative Fund, and the General Fund, to waive the competitive bidding provisions of the Columbus City Codes, 1959; and to declare an emergency. The successor-Grantor of the Easement, Hudson Square LLC ("Hudson"), an Ohio limited liability company, requests the City to release all of the City’s rights from the Easement. The City’s Department of Public Utilities, Division of Sewerage and Drainage, reviewed, approved, and determined releasing all of the City’s rights to the Easement does not adversely affect the City and should be granted at no cost, because the Easement is no longer needed by the City and deemed unnecessary due to a sanitary mainline extension under Sanitary Sewer Plans RP-16190 through RP-16191 (formerly CC-16054). Therefore, this ordinance authorizes the Director of the Department of Public Utilities to execute those documents prepared and approved by the Columbus City Attorney, Real Estate Division, necessary to release all of the City's sewer utility rights in the Easement.

BACKGROUND: This legislation authorizes the Director of the Finance and Management to amend the contract for the Purchase of Organic Emulsion Polymer UTC (FL005497) with Polydyne Inc. to include the purchase of Organic Emulsion Polymer in totes. The UTC with Polydyne currently allows for the purchase of Organic Emulsion Polymer in bulk truck deliveries.

Plant construction at the Jackson Pike Sewage Plant has temporarily eliminated the storage facilities used for bulk Organic Emulsion Polymer and there is now a need to purchase Organic Emulsion Polymer in totes provided by the manufacturer. This additional request requires City Council approval under the requirements of Chapter 329.16.

Emergency action is requested to ensure the continuation of Organic Emulsion Polymer as a sewage treatment additive without interruption.

Polydyne Inc., CC#341810283 (Expires 02/12/2015)

Total Estimated Annual Expenditure: $ 1,400,000.00

1. Amount of additional funds: No additional funds are required for this modification, Sewerage and Drainage will encumber funds for any purchases resulting from this action.

2. Reason additional needs were not foreseen: Plant construction at the Jackson Pike Sewage Plant has temporarily eliminated the storage facilities used for bulk Organic Emulsion Polymer and there is now a need to purchase Organic Emulsion Polymer in totes provided by the manufacturer. This information was not available at the time of the original bid.

3. Reason other procurement processes not used: The Purchasing Office opened bid SA004778 on February 14, 2013 and after significant product testing Polydyne was awarded the contract for their Clarifloc CE-1460 Organic Emulsion Polymer. As this change will result in an equal amount of bulk Organic Emulsion Polymer not being purchased from the UTC, the Purchasing Office negotiated with Polydyne to continue receipt of the same product.

4. How cost was determined: The Purchasing Office negotiated with the current contract holder and totes of approximately 2,000 pounds will be added to contract FL005497 at $.088/ lb. (contract price for bulk truckload remains at $0.80 / lb.).

This company is not debarred according to the Federal Excluded Parties Listing or the State Auditor's Findings For Recovery Database.
FISCAL IMPACT: No additional funds are required for this modification, Sewerage and Drainage will encumber funds for any purchases resulting from this action.

To authorize the Finance and Management Director to modify the Universal Term Contract for the option to purchase Organic Emulsion Polymer with Polydyne, Inc. to include the purchase of polymer in totes in addition to bulk delivery; and to declare an emergency. ($0.00)

WHEREAS, the Purchasing Office advertised and solicited formal bids on February 14, 2013 and selected and awarded contract FL005497 to the lowest, responsive, responsible and best bid. The Purchasing Office negotiated to add totes of approximately 2,000 pounds to contract FL005497; and

WHEREAS, this ordinance addresses Purchasing objective of 1) maximizing the use of City resources by obtaining optimal products/services at low prices and 2) encouraging economic development by improving access to City bid opportunities and 3) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, Organic Emulsion Polymer is used in the City's wastewater treatment processes and totes are required as existing bulk storage is unavailable during plant construction, this is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Sewerage and Drainage in that it is immediately necessary to enter into a contract for the option to purchase Organic Emulsion Polymer that is used in the City's wastewater treatment processes, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director be and is hereby authorized to modify FL005497 with Polydyne Inc. to include totes of approximately 2,000 pounds at $0.88 per pound.

SECTION 2. That this modification is in accordance with Section 329.16 of the Columbus City Codes.

SECTION 3. That for the reason stated in the preamble here to, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

1. INTRODUCTION: This property was annexed to the City of Columbus in 1991. Columbus City Ordinance 3096 - 1998 rezoned this portion of the property to L - ARO, Limited Apartment Residential Office District and CPD, Commercial Planned Development for the purpose of permitting uses specified as office, retail, and multi-family residential. Because of the changing characteristics and the development of proximate properties, the property owner is requesting rezoning to expand the existing Commercial Planned Development
District (CPD) to eliminate the multi-family use and to permit a mix of office, retail, and commercial uses for approximately 12.5± acres within a portion of the property that is Subarea 4 and Subarea 5 of Columbus City Ordinance 3096 - 1998.

In this request to rezone the subject property, the applicant is requesting zoning in two subareas. The first subarea is to be developed purely with office uses; the second subarea is to be developed with retail uses. This rezoning request is in response to market demand, as well as the expressed sentiment from the City of Columbus that this property is better suited to office and retail/commercial uses than the multi-family uses permitted under its current zoning classification.

Amendment: This request is to amend the zoning text to permit alternative building materials for part of the site.

H. CPD Criteria:

Natural Environment
The existing site consists primarily of open fields with some vegetation.

Circulation
The property will be accessed primarily from Central College Road and secondarily from New Albany Road West.

Visual Form
The form of the development will be sensitive to the natural features of the site. In addition, size and character of all structures will be in context with the local area and comply with all standards set forth in this development text.

Visibility
Views into the site are primarily unobstructed however will be buffered as referenced is Section C herein.

Proposed Development
The size, type, and character of the proposed development will meet the zoning, land use and standards set forth in this development text.
Traffic Behavior Patterns
It is anticipated that most traffic will access the site from the north.

Emissions
Noise and other vehicular emissions will be dependent on land use and potential users.

Subarea 2 6.298± Acres (CPD)
Subarea 2, because of its frontage along both Central College Road and New Albany Road West may be characterized by office, and retail/commercial development.

1. PERMITTED USES:

1. The following uses shall be permitted within Subarea 2. Those uses permitted under Chapter 3356, C-4, Commercial District and Chapter 3357, C-5 Commercial District of the Columbus City Code. Excepting therefrom:

- Coin-operated laundries
- Community food pantry
- Crematory
- Display advertising
- Drive-in motion picture theaters

2. DEVELOPMENT STANDARDS: Except as otherwise noted above and therein, the applicable development standards of Chapter 3356 shall apply to Subarea 2.

A. Density, Height, Lot and/or Setback commitments.
1. Setbacks from Central College Road shall be twenty feet for all buildings, canopies and parking, loading, and maneuvering areas.

2. Setbacks from all other interior streets shall be zero for all buildings, canopies and parking, loading, and maneuvering areas.

3. Setback from New Albany Road West shall be 150 feet for all buildings, 100 feet for canopies, parking, loading, and maneuvering areas.

4. Setbacks from any property line not adjacent to a public right-of-way shall be zero for all buildings and parking, loading, and maneuvering areas.

5. Maximum office density shall be 12,000 sq. ft. per acre.

6. Lot coverage for buildings and paved areas shall not exceed 80% of the lot area.

7. The maximum height shall be three stories, not to exceed 65 feet in height.

B. Access, Loading, Parking and/or other Traffic related commitments.

1. Due to the mixed use nature of the proposed development it would be impossible to have each use on its own tax parcel with all its required parking and loading spaces. In addition the mixture of the proposed uses would make it appropriate to consider the effect of a shared parking analysis on determining the required number of parking spaces. Driveways, parking aisles, and maneuvering areas may be divided by property lines so long as the overall dimensions met the city zoning code minimum requirements. The following parking ratios shall be provided unless varied by a shared parking analysis or by the Board of Zoning Adjustment.

- Retail: 1 parking space for every 250 sq. ft. of gross floor area
- Restaurant: 1 parking space for every 75 sq. ft. of gross floor area
- Office (general and medical): 1 parking space for every 333 sq. ft. of gross floor area

In order to arrive at the final required parking figure it is necessary to reduce the parking demand for each use by recognizing three reduction factors that are uses in the ULI shared parking analysis. The reduction factors are vacancy allowance, non-auto transportation (walk, COTA, cab, bike) and captive market allowance (% of people visiting more than one business).

<table>
<thead>
<tr>
<th>Reduction Factor</th>
<th>Retail</th>
<th>Restaurant</th>
<th>Office</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vacancy</td>
<td>2%</td>
<td>0%</td>
<td>9%</td>
</tr>
<tr>
<td>Non-auto transportation</td>
<td>4%</td>
<td>4%</td>
<td>4%</td>
</tr>
<tr>
<td>Captive market allowance</td>
<td>18%</td>
<td>15%</td>
<td>15%</td>
</tr>
</tbody>
</table>

The parking figures calculated from the ratios are then reduced by the appropriate reduction factor for each use to arrive at the total required number of parking spaces. Division of Transportation may also give the applicant credit for on street parking spaces if the Division determines that such a request is appropriate for the proposed development.

Should the applicant decide to provide fewer parking spaces than calculated by the above method, they shall prepare a shared parking analysis for the proposed project pursuant to the requirements of the Division of Transportation. The Division of Transportation shall review this shared parking analysis and if the Division...
approves the study, the applicant shall provide the number of parking spaces shown in the study.

C. Buffering, Landscaping, Open space and/or Screening commitments.

1. A street tree row shall be established along Central College Road and New Albany Road West containing one tree for every 30-feet of road frontage. Such trees shall be those specified in the Columbus Street Program guidelines for the City of Columbus Forester and located a minimum of 1 foot from the edge of right-of-way unless the City of Columbus approves planting these trees within the right-of-way. Unless otherwise specified, minimum tree size at installation shall be 2 ½” caliper. In addition a 3 or 4 rail white horse fence shall be installed along the frontage of Central College Road and New Albany Road West.

2. The developer shall plant four deciduous trees per 100-feet of frontage along Central College Road within the setback. These trees shall be grouped to appear natural in character.

BACKGROUND: This legislation authorizes the Director of the Department of Development to establish a purchase order for the purpose of providing emergency home repair services to low and moderate-income households in Columbus. The purchase order will provide $125,000.00 from the Community Development Block Grant (CDBG) Fund. Emergency repair services will include heating, plumbing, electrical and other emergency home repairs needed to protect the health and safety of the citizens of Columbus.

The purchase order will be established per the State Requirements contract with McDaniel’s Construction Corporation, Inc. Ordinance 582-87 authorizes City agencies to participate in the Ohio Department of Administrative Services (DAS) cooperative contracts when deemed to be “cost effective” to the City of Columbus. The Department of Development will provide emergency home repair services to low and moderate income homeowners utilizing an established State Term contract, based on the concept of Job Order Contracting (JOC). The JOC allows the City to get commonly encountered construction projects done using a different contracting method. By using JOC, the City hopes to reduce costs, time and errors for certain renovation, repair and construction projects.

The State of Ohio bid the JOC through the use of a unit price book which provides for preset costs for specific construction tasks. Winning bidders were selected based on their mark-up or discount from these preset costs. The Department of Development wishes to use this contract to measure its effectiveness in comparison to the traditional construction procurement method. The terms and pricing of this purchase order are based upon the State of Ohio contract RS#901512 that is available for use by political sub-divisions of the State of Ohio.

Emergency action is necessary to allow for the continuation of emergency repair services.

FISCAL IMPACT: $125,000.00 is allocated from the 2013 Community Development Block Grant Fund for
this expenditure.

This ordinance will amend the existing Downtown Residential CRA to rename the CRA to be the Columbus Downtown CRA, to revise the terms of project applicability within the CRA to include not only the renovation of existing structures or construction of new structures for residential purposes but the renovation of existing structures or construction of new structures for commercial and industrial purposes as well, to eliminate any requirements for payments in lieu of taxes (PILOTS) and to eliminate “Targeted Action Areas” all within the existing boundaries of the CRA.

Emergency action is requested to facilitate further development of real estate within the Columbus Downtown CRA.

FISCAL IMPACT: No funding is required for this legislation.

To authorize the Director of the Department of Development to submit to the Director of the Ohio Development Services Agency an amendment to the certification of the Columbus Downtown Residential Community Reinvestment Area; and to declare an emergency.

WHEREAS, Council desires to pursue all reasonable and legitimate incentive measures to assist and encourage residential and commercial development and redevelopment within the downtown areas of the City that have not enjoyed sufficient investment or reinvestment in residential and commercial remodeling, renovation or new construction; and

WHEREAS, Ordinance 1698-78, approved by Council on August 3, 1978, authorized the Columbus Department of Development to carry out a Community Reinvestment Program pursuant to Sections 3735.65 to 3735.70 of the Ohio Revised Code, and established certain administrative procedures for the program; and

WHEREAS, on September 28, 1992, Council approved Resolution 170X-92 designating the Seneca Towers CRA as a community reinvestment area as established by Sections 3735.65 to 3735.70 of the Ohio Revised Code; and

WHEREAS, on July 29, 2002, Council approved Ordinance 1345-2002 which adjusted the boundaries of the Seneca Towers CRA, modified the classes of residential improvements eligible for tax exemptions and the periods and amounts of exemptions applicable to those improvements, and to rename the Seneca Towers CRA as the Columbus Downtown Residential CRA; and
WHEREAS, Council by this ordinance intends to, among other things, amend the existing Downtown Residential CRA to rename the CRA to be the Columbus Downtown CRA, to revise the terms of project applicability within the CRA to include not only the renovation of existing structures or construction of new structures for residential purposes but the renovation of existing structures or construction of new structures for commercial and industrial purposes as well, to eliminate any requirements for payments in lieu of taxes (PILOTS) and to eliminate “Targeted Action Areas” all within the existing boundaries of the CRA; and

the city of Columbus will provide upon annexation of a territory located in Perry Township. This ordinance is
required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An
annexation petition has been filed with Franklin County for this property. A service ordinance must be passed
before the annexation meeting takes place before the Board of County Commissioners of Franklin County.
Information regarding municipal services that would be available, should the subject site be annexed, has been
compiled and is reflected in this ordinance. If the petition is approved by the County Commissioners, a second
City ordinance accepting the annexation will be necessary to complete the process. The time frames specified
in the ORC require that this legislation be filed as emergency.

**FISCAL IMPACT:** The statement of municipal services and zoning conditions for a proposed annexation area
has no fiscal impact. While provision of the stated services does represent cost to the City, annexation of land
also has the potential to create revenue to the City.

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a
proposed annexation (AN13-007) of .846 ± acres in Perry Township to the City of Columbus as required by
the Ohio Revised Code; and to declare an emergency.

WHEREAS, a petition for the annexation of certain territory in Perry Township was duly filed by Pauline B.
Kossow, Trustee on November 5, 2013; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Franklin
County on December 10, 2013; and

WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority
shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory
proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority
adopt an ordinance stating zoning buffering conditions; and

WHEREAS, the property is located within the boundaries of the adopted Northwest Plan, which recommends
preserving existing residential areas. The property is not located in a Pay as We Grow Area; and

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is
immediately necessary to present this ordinance to the Franklin County Board of Commissioners in accordance
with time frame set forth in the Ohio Revised Code, all for the preservation of the public peace, property,
health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the City of Columbus will provide the following municipal services for .846 ± acres in Perry
Township upon the annexation of said area to the city of Columbus:
Public Safety: The City of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Single family homes would qualify for city provided 90-gallon front curb refuse collection service. Any other development would require compliance with Title 13 requirements; Commercial/business uses are required to provide their own refuse collection.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: This site will be served by the Division of Water from an existing 1.5-inch water main located in Skyline Drive.

Sewers: All sanitary and storm sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

Sanitary: Records indicate that this property can be served by an existing 10” sanitary sewer situated in an easement approximately 30 feet south of the southern property line. Mainline extension is required. There is an approved CC sanitary plan proposed to be constructed under our Sewer Assessment Program. The Sewer Assessment mainline was designed to provide service to this property.

Storm: All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and applicable codes in effect at the time of development.

Section 2. If this .846 ± acre site is annexed, and if the City of Columbus permits uses in the annexed territory that the City of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Perry Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Perry Township. For the purpose of this section, “buffer” includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

Section 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
