Transfers of sums exceeding $100,000.00 shall be authorized only by the resolution of Council. SECTION 8. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this ordinance.

SECTION 9. That at the end of the grant period, any repayment of unencumbered balances required by the grantor is hereby authorized and any unused City match monies may be transferred back to the City fund from which they originated in accordance with all applicable grant agreements.

That for reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

1. BACKGROUND
The Division of Planning and Operations is responsible for maintaining the City's roadways. As a part of this activity, the City receives an annual allocation of funds from the County's $5.00 Auto License Tax for maintenance and upgrade work that has been completed by the City on arterial streets within City limits that are the responsibility of the Franklin County Engineer. This allocation is based on motor vehicle registrations within Columbus limits. After receipt, these funds are deposited into the City's County Auto License Tax Fund (Fund 264) and are then subsequently transferred to the Street Construction Maintenance and Repair Fund No. 265 when the maintenance activity is actually completed.

This ordinance authorizes the movement of funds from fund 264 to fund 265 by internal bill. All funds necessary to carry out the purpose of this ordinance are deemed appropriated in an amount not to exceed cash received from Franklin County in 2014.

2. FISCAL IMPACT
Actual and anticipated receipts into the County Auto License Tax Fund are estimated to be sufficient to support this appropriation and give The Division of Planning and Operations the ability to invoice for time and material work done on arterial streets owned by Franklin County, and to meet revenue projections of the Street Construction Maintenance and Repair Fund which supports the Division of Planning and Operations.

3. EMERGENCY DESIGNATION
Emergency action is requested in order to provide for this appropriation action taking effect immediately to promote efficient accounting practices and maintain prudent cash flow to division operating funds.

To authorize the appropriation of funds within the County Auto License Tax Fund; to authorize the Director of Public Service to expend said monies or so much thereof as may be needed for Franklin County Engineer-approved roadway construction and maintenance projects undertaken by the Division of Planning and Operations; and to declare an emergency.

WHEREAS, the Division of Planning and Operations is responsible for maintaining the City's roadways; and

WHEREAS, the City receives an annual allocation of funds from the County's $5.00 Auto License Tax for Franklin County Engineer-approved projects completed by the City on arterial streets within City limits; and

WHEREAS, these funds are deposited into the City's County Auto License Tax Fund and are used to reimburse costs incurred by the Division of Planning and Operations within other Funds; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Planning and Operations, Department of Public Service, in that an appropriation of funds is immediately necessary to allow these monies to be used for said purposes and to promote and reinforce efficient accounting practices and maintain prudent cash flow to division operating funds, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:
SECTION 1. That from the unappropriated balance of the County Auto License Tax Fund, Fund 264, and from all monies estimated to come into said fund from any and all sources and unappropriated for any other purpose during the fiscal year ending December 31, 2014, these funds are hereby authorized to be moved to fund 265 by internal billing.

SECTION 2. That all funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated in an amount not to exceed funds received from Franklin County in 2014, and the City Auditor shall establish such accounting codes as necessary.

SECTION 3. That the monies appropriated in Section 2 shall be paid upon order of the Director of Public Service and that no order shall be drawn or money paid except by voucher, the form of which shall be approved by the City Auditor.

SECTION 4. That the Director of Public Service be and hereby is authorized to expend these monies or so much thereof as may be needed to pay internal billings for Franklin County Engineer-approved roadway construction and maintenance work undertaken by the Division of Planning and Operations in and for the City of Columbus.

The City also charges a processing fee for residential projects. In addition, a $250 pre-application/commitment fee is also collected. These funds are being appropriated to provide funding for staff costs.

BACKGROUND: The need exists to enter into an Enterprise Zone Agreement with Jai Guru, LLC. The Ohio Enterprise Zone law O.R.C. Section 5709.62 (C) requires the City to enter into a Council-approved agreement between the City and participating companies.

Jai Guru, LLC is an affiliate of Sintel Hotel Group, which consists of numerous affiliated hotels in the Central Ohio Area. All of the hotels are owned privately by closely held companies. The purchase of a Wyndham brand limited service hotel in 1997 was the first in the group. Today, the Sintel Hotel Group has grown to include a portfolio of close to 740 rooms. That growth has also included the development and operational strategy within the entire group to operate with premium service as the number one criteria. The Sintel Hotel Group now includes Hilton and Intercontinental Hotels Group its family of hotels. Intercontinental Hotels Group franchises the Holiday Inn Express and the Staybridge brand.

The proposed Staybridge Suites hotel project involves the construction of a 93 room hotel above a two-level parking garage at 3121 Olentangy River Road, within the Columbus North Enterprise Zone. The $10 million project ($8.5 million for building construction and $1.5 million for furniture, fixtures and equipment) will include seven stories and a total of 67,000 square feet and will replace a car wash and drive-thru at the site currently. A total of five (5) jobs will be created that are above the $12.00 an hour range.

1. BACKGROUND

This ordinance authorizes the Director of Public Service to purchase advertising space in The Daily Reporter. The advertising space will be used to publish public notices of property owners issued a notice of violation for sidewalks.

The purpose of this code is to protect the health, safety, and welfare of all persons in order to prevent and/or abate hazardous sidewalk conditions within the public right-of-way.

The Department of Public Service has investigated complaints about sidewalks submitted through the City’s 311 system. An inspector has determined sidewalks are in violation of City Code and need to be repaired. The public notices will be posted in conjunction with a certified letter sent to the property address notifying the property owner of the violation and of their obligation to repair the sidewalk.
Searches in the System for Award Management System (Federal) and the Findings for Recovery list (State) produced no findings against The Daily Reporter.

The Board of Park Commissioners of the Columbus and Franklin County Metropolitan Park District, a park district organized under Ohio Revised Code, Chapter 1545 (“Metro-Parks”), entered into a grant agreement with the Ohio Environment Protection Agency (“OEPA”) to obtain funds to restore, protect, and preserve the Blacklick Creek riparian corridor. Specifically, the Property is in the Blacklick Creek riparian corridor, and Metro-Parks requested for the City to grant perpetual, conservation easement rights over the entire acreage of the Property. CRPD reviewed and determined that it is in the City’s best interest to grant perpetual, nonexclusive, conservation easement rights over the entire acreage of the Property, at no cost, because Metro-Parks’ receipt of OEPA grant funds to restore, protect, and preserve the Property and the Blacklick Creek riparian corridor is a benefit to the City and public and fosters intergovernmental cooperation. Therefore, this ordinance authorizes the City’s Director of CRPD to execute those documents approved by the Columbus City Attorney, Real Estate Division, to quit claim grant perpetual, conservation easement rights to Metro-Parks over the entire acreage of the Property.

Transfer of this right-of-way will facilitate the renovation of Stewart Elementary School, located on property adjacent to the aforementioned right-of-way. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility...
easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way. A value of $51,727.50 was established for this right-of-way. Columbus City Schools submitted a request for mitigation of the established value of the aforementioned right-of-way. Current Status: Passed
Version: 1
Matter Type: Ordinance

Background: This legislation authorizes the appropriation and transfer of $6,563,556.50 from the Special Income Tax Fund, to the Franklin County Convention Facilities Authority Fund. The City provides fifty percent of this backing, while Franklin County is responsible for the other fifty percent. Since 1990, no such payments have been needed, nor are any anticipated.

BACKGROUND: This legislation authorizes the Director of the Department of Development to amend contract EL014130 with the Community Shelter Board by extending the contract termination date from January 31, 2014 to September 30, 2014. The additional time will allow the Community Shelter Board to complete the Navigator pilot program portion of the larger Safety Net Program.

Contract EL014130 provides $3,022,304 from the General Fund to the Community Shelter Board for the Safety Net Program which supports homeless emergency shelters, the Maryhaven Engagement Center, related homeless shelter services and homelessness prevention and transition services that includes the Navigator pilot program. This program started later than expected and will not be completed until September 30, 2014 so a contract extension is now necessary.

Emergency action is requested to allow vital program services to continue without interruption.

FISCAL IMPACT: No additional funds are needed for this amendment.

To authorize the Director of the Department of Development to amend the Safety Net Program contract with
the Community Shelter Board by extending the termination date to September 30, 2014; and to declare an emergency.

Background:
The Clean Ohio Trails Fund (COTF) Grant is a state-funded and administered reimbursement program through the Ohio Department of Natural Resources that will cover up to 75% of funding for a trails project. In order to guarantee the best possible score on our grant application, the City of Columbus (the applicant) must rank the Scioto Greenways Trails Project as its #1 COTF-eligible project in the 2014 application cycle.

The $2,500,000 Scioto Greenways Trails Project is a discrete portion of the larger Scioto Greenways project that involves many phases (removing the Main Street Low Head Dam, restoring the Scioto River, building 33 acres of new greenspace, and constructing 1.5 miles of new trails) and is already underway.

The Scioto Greenways Trails Project, which will not begin until December 2014 and for which we are seeking COTF support, will include the construction of linear trails. These trails will be shared bike and pedestrian paths,
replete with landscaping and furnishings appropriate to both the environmentally sensitive riparian environment and the aesthetic quality of Columbus’ civic core. The new trail segments will tie into a broader system of trails, including a 60-mile regional trail network including Scioto, Olentangy, Alum Creek, and I-670 Trails, which connect five Central Ohio municipalities. Additionally, the trails will form part of the Ohio-to-Erie Trail, which will eventually extend from Cleveland to Cincinnati via Columbus. In the immediate area, the trails will improve connections between Dodge Park, Bicentennial Park, the COSI area and Genoa Park, Battelle Park, and North Bank Park, while from a regional perspective, they will connect the Scioto Audubon Metro Park, OSU Wetlands Park, and Antrim Park.

**Fiscal Impact:** We are requesting the maximum COTF award - $500,000 - for the Scioto Greenways Trails Project. Eighty percent ($2,000,000) of the $2,500,000 project will be matched by Federal Highway Administration funding for local public agencies, administered by the Ohio Department of Transportation. There are no City funds involved in this portion of the Scioto Greenways Project.

To authorize the Director of the Recreation and Parks Department to apply for a grant from the Ohio Department of Natural Resources - Clean Ohio Trails Fund (COTF) in the amount of $500,000.00 for the Scioto Greenways Trails Project; and to declare an emergency. ($500,000.00)

Legislation Number: 2873-2013
Drafting Date: 11/25/2013
Current Status: Passed
Version: 1
Matter Type: Ordinance

BACKGROUND:
The Columbus Recreation and Parks Department on behalf of the City of Columbus, Ohio, an Ohio municipal corporation (“City”), desires to quit claim grant to the Columbia Gas of Ohio, Inc., an Ohio corporation (“CGO”), perpetual and temporary easement rights in, on, over, across, upon, through, and burdening portions of the City’s real property located at 1900 Wilson Road, Columbus, Ohio 43228 [Franklin County Tax Parcel 560-154646] (“Raymond Golf Course”). CGO is replacing and upgrading its utility infrastructure, and CGO
needs a new, replacement easement from the City at Raymond Golf Course. CGO no longer needs the easement rights associated with its existing easement described and recorded in Ohio Record Volume 5, Page 498, Recorder’s Office, Franklin County, Ohio (“Old-Easement”), burdening Raymond Golf Course. In exchange for the City granting a new, replacement easement to CGO, CGO is releasing its easement rights in the Old Easement. CGO will only be permitted to use the new, replacement easement for the rights to install, control, construct, reconstruct, replace, operate, maintain, repair, and remove an underground natural gas pipeline and its appurtenances (collectively, “Improvement”). The City’s Recreation and Parks Department determined that the new, replacement easement requested by CGO to construct the Improvement should be granted for consideration in the amount of Twenty Thousand and 00/100 U.S. Dollars ($20,000.00). Therefore, this ordinance authorizes the City’s Director of the Columbus Recreation and Parks Department to execute those documents approved by the Columbus City Attorney, Real Estate Division, to quit claim grant an easement to CGO.

CONTRACT COMPLIANCE №: Not applicable.

FISCAL IMPACT: The City’s receipt of the Twenty Thousand and 00/100 U.S. Dollars ($20,000.00) from CGO will be deposited with the City’s Golf Division Fund, Fund № 284.

EMERGENCY JUSTIFICATION: Emergency action is requested so to not delay the construction of natural gas utilities, which will preserve the public peace, health, property, safety, and welfare.

To authorize the Director of the Recreation and Parks Department to execute those documents approved by the Columbus City Attorney, Real Estate Division, to quit claim grant temporary and perpetual easement rights to the Columbia Gas of Ohio, Inc., an Ohio corporation, upon portions of the City’s real property located at 1900 Wilson Road, Columbus, Ohio 43228; and to declare an emergency. BACKGROUND: The Division of Fire, Bureau of Fire Prevention, under the authority of Chapter 25 of the Columbus City Codes, 1959, charges fees for inspections, services and plan review to persons and businesses in the City of Columbus. The Code, as it is written, sets out that all payments for the aforementioned charges are due by July 1 of each year. Further, the Code articulates that payments after July 30 of each year are considered delinquent and subject to a penalty.

The Department of Public Safety, Division of Fire, requests an update to the code language to better conform to current business processes. As inspections might occur and be invoiced at any time during the year, the Division of Fire requests to set payment due dates that have a connection to the invoice date, rather than to a specific date on the calendar. Therefore, the Public Safety Department, Division of Fire, recommends that Code Section 2502.077 be changed to set the payment due date of fire prevention inspection fees at 30 days after the invoice date and delinquent inspection fees at 60 days after invoice date.

FISCAL IMPACT: No funding is required for this legislation.

To amend Chapter 25 of the Columbus City Codes, 1959, Section 2502.077 relating to Permit Renewal and Inspection Fees; to update the code to better conform to The Division of Fire's current business processes.

1. Background:
The City of Columbus, Department of Public Service, received a request from The Annunciation Greek Orthodox Cathedral (hereafter, “the Church”) asking that the City sell the right-of-way identified as a 0.034 acre portion of the Worden Alley right-of-way south of Spruce Street between School Alley and Armstrong Street. Transfer of this right-of-way will allow for the development of property adjacent to the above noted right-of-way currently owned by the Church located at 492 Armstrong Street. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way. A value of $7,905.00 was established for this right-of-way. The Church submitted a request for mitigation of the established value of the aforementioned right-of-way. After review of the request, the Land Review Commission voted to recommend a fifty (50) percent mitigation of cost and that the above referenced right-of-way be transferred to the Church for $3,952.50.

2. FISCAL IMPACT:
The City will receive a total of $3,952.50 that will be deposited in Fund 748, Project 537650, as consideration for the transfer of the requested right-of-way.

To authorize the Director of the Department of Public Service to execute those documents required to transfer a 0.034 acre portion of the Worden Alley right-of-way south of Spruce Street between School Alley and Armstrong Street to The Annunciation Greek Orthodox Cathedral.

WHEREAS, the City of Columbus, Department of Public Service, received a request from The Annunciation
Greek Orthodox Cathedral, asking that the City transfer the right-of-way identified as a 0.034 acre portion of the right-of-way between portion of the Worden Alley right-of-way south of Spruce Street between School Alley and Armstrong Street to the Church; and

WHEREAS, acquisition of the right-of-way will allow the Church to expand an existing structure and perform enhancements on property that is adjacent to the above noted right-of-way, located at 492 Armstrong Street; and

WHEREAS, the City of Columbus, Department of Public Service, Division of Planning and Operations, by this transfer, extinguishes its need for this public right-of-way; and

WHEREAS, per current practice, comments were solicited from interested parties, including City agencies, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way to the Church; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way; and

WHEREAS, a value of $7,905.00 was established for this right-of-way; and

WHEREAS, The Annunciation Greek Orthodox Cathedral has submitted a request for mitigation of the established value for this right-of-way; and

WHEREAS, the Land Review Commission voted to recommend a fifty (50) percent mitigation of the established value and that the aforementioned right-of-way be transferred to the Church for the amount of $3,952.50; and now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

1. BACKGROUND: The Department of Public Utilities, Division of Sewerage and Drainage, Stormwater Section entered into a professional engineering agreement with Korda/Nemeth Engineering, Inc. for the Marion Road Area Neighborhood Project No. 2, in accordance with Ordinance No. 1138-2012, passed June 25, 2012.

A modification to this agreement was prepared by the Division of Water in order to include design of a water line replacement on Smith Road between Lockbourne Road and Fairwood Avenue, Ordinance No. 0295-2013, passed March 4, 2013.

A second modification to this agreement was requested by the Department of Public Service to include design of sidewalks and resurfacing on Smith Road between Fairwood Avenue and Lockbourne Road, Ordinance No. 1489-2013, passed July 22, 2013.

The Department of Public Service is requesting to modify this contract to include preparation of easement descriptions and right-of-way plans associated with the sidewalk design along Smith Road between Fairwood Avenue and Lockbourne. The funding for this portion of the work will be funded with UIRF monies. The UIRF Project was approved by City Council on March 18, 2013.

The work proposed by this contract modification overlaps with the stormwater and water improvements. By combining the work into one project, the professional design services are more economical, and the disruption to the community will be minimized by having all work done under one construction contract.

2. ORIGINAL ENGINEERING CONTRACT AWARD: Korda/Nemeth Engineering, Inc. was selected in accordance with the procedures set forth in Columbus City Code, Section 329.14, "Awarding professional service contracts through Requests for Proposals". Three Requests for Proposals (RFP's) were received and opened on February 24, 2012 from firms having the experience necessary to complete the project: Korda/Nemeth Engineering, Inc., MS Consultants, Inc., and Hockaden & Associates.

Upon review of the technical proposals, the bidders were ranked using criteria specified in City Code, and more specifically: proposal quality, competence to perform required work, project schedule, and local workforce. Based upon these criteria, Korda/Nemeth Engineering, Inc. was selected as the highest-ranked bidder and chosen for this project.

The Contract Compliance Number for Korda/Nemeth Engineering, Inc. is 31-0922991 (expires 7/6/13 MAJ). Additional information regarding each bidder, description of work, contract time frame and detailed amounts can be found on the attached Information form.
Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Korda/Nemeth Engineering, Inc.

2.1 **Amount of additional funds to be expended:** $54,264.00

- Original Contract Amount: $105,695.00 (EL013486)
- Modification #1: $29,304.00 (EL014206)
- Modification #2: $54,264.00 (EL014849)
- Modification #3 (current): $37,565.00

Amount of original contract and Mod #1: $226,828.00

2.2 **Reasons additional goods/services could not be foreseen:**

Contract modifications were not anticipated in the original contract. The Department of Public Service requested participation in the Division of Sewerage and Drainage's project when planning coordination revealed that both departments need to construct improvements on Smith Road.

2.3 **Reason other procurement processes are not used:**

The work proposed by this contract modification overlaps with the previously legislated stormwater and water improvements. By combining the work into one project, the professional design services are more economical. The disruption to the community will be minimized by having all work done under one construction contract.

2.4 **How cost of modification was determined:**

A cost proposal was provided by Korda/Nemeth Engineering, Inc., reviewed by the Department of Public Service, and was deemed acceptable.

3. **ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:** This project will reduce cost by reducing system leakage. The Neighborhood Liaison(s) will be contacted and informed of this project during the construction phase. Further community outreach may result through the Neighborhood Liaison Program.

4. **FISCAL IMPACT:** A transfer of funds within the Streets & Highway G.O. Bonds Fund will be necessary as well as an amendment to the 2013 Capital Improvements Budget.

To authorize the Director of Public Utilities to modify the professional engineering services agreement with Korda/Nemeth Engineering, Inc. for the Smith Road Sidewalk & Resurfacing Project; to amend the 2013 Capital Improvements Budget; and to authorize a transfer and expenditure up to $37,565.00 within the Streets & Highway G.O. Bonds Fund. ($37,565.00)

WHEREAS, Modification No. 1 was authorized by Ordinance No. 0295-2013, passed March 4, 2013, was executed on April 4, 2013, and approved by the City Attorney on April 10, 2013 with Korda/Nemeth Engineering, Inc. to include additional design services for a water line replacement in Smith Road between Lockbourne Road and Fairwood Avenue, for the Division of Water; and

WHEREAS, Modification No. 2 was authorized by Ordinance No. 1489-2013, passed July 22, 2013, was executed on September 9, 2013, and approved by the City Attorney on October 2, 2013 with Korda/Nemeth Engineering, Inc. to include design of additional sidewalks and resurfacing in Smith Road between Lockbourne Road and Fairwood Avenue, for the Division of Water; and

WHEREAS, it is necessary to authorize the Director of the Department of Public Utilities to execute a third contract modification for the preparation of easement descriptions and right-of-way plans associated with the sidewalk design along Smith Road between Fairwood Avenue and Lockbourne with Korda/Nemeth Engineering, Inc.; and

WHEREAS, it is necessary for this Council to authorize the transfer and expenditure of funds within the Streets & Highway G.O. Bonds Fund; and

**PUBLIC HEARING**  
**MONDAY, February 3, 2014**  
5:00 p.m.  
CITY HALL, 2ND FLOOR COUNCIL CHAMBERS
BACKGROUND: The Columbus City Council adopted 2007 Northwest Plan recommends consideration of commercial overlays for certain corridors. The Regional Commercial Overlay was subsequently established along portions the Sawmill and Bethel corridors in 2010. At that time, the Northwest Civic Association requested that the city consider extending overlay status to additional areas in the future. This proposal is in response to that request. It includes a combination of Community Commercial Overlay (CCO) and Regional Commercial Overlay (RCO) designations. While differing in their specific standards, the CCO and RCO both work in conjunction with existing zoning districts to improve the character of commercial corridors, facilitate streetscape continuity, and encourage pedestrian-friendly development.

The Planning Division worked cooperatively with the Northwest Civic Association in developing the proposal. The process included staff meetings with the association, two rounds of property owner mailings, a public open house and a project website. The association voted to support this proposal on August 7, 2013. The Columbus Development Commission recommended the proposal to City Council on October 10, 2013.

0144-2014
To establish Community and Regional Commercial Overlays in portions of Northwest Columbus through the enactment of new Sections 3372.759, 3372.765, 3372.873, and 3372.875 of the Columbus City Code; to amend Sections 3372.702 and 3372.802 of the Columbus City Code; and to repeal the existing sections being amended.

Revised

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. Abandoned - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. Header dock - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. Finger dock - A secondary dock extension from the header dock.
4. Mooring - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. Ramp - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. “I” Dock - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a
straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.

7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.

8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.

9. **“U” Dock** - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. **Platform Dock** - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. **Spuds** - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. **Stake** - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. **Rip rap** - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. **Director** - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. **Structure** - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. **Building** - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. **Encroachment** - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

**Administrative Rules:**

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Detailed plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.

5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special care should be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore) The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.
15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O’Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.

16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director’s determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1.) Submit a new or renewal dock/stake permit application
2.) Submit a signed Responsibility Form
3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stars must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18) In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:
i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.

c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.
25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

   a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.

B. A term of office on the Commission shall be three years, beginning at the annual meeting in July and continuing until the annual meeting three years thereafter.

C. The Commission may declare a vacancy when a member resigns or can no longer serve as a Commissioner.

1. A simple majority of members present at a regular meeting is sufficient to accept a resignation and declare a vacancy.

2. If a Commissioner can no longer serve as Commissioner and a resignation is not submitted, a vacancy exists only if at least three quarters of members present vote to declare a vacancy.

3. If the Commission declares a vacancy at least twelve months before the term expires, the Commission shall call for a special election to fill the unexpired term. If a vacancy is declared less than twelve months before the term expires, the Commission shall recommend to the Mayor a candidate for appointment to the unexpired term.

E. No Commissioner shall represent the Commission, except as specifically authorized by the Commission. This shall not be construed as a restriction upon the right of the individual Commissioners to represent their own views before public or private bodies, whether in agreement or disagreement with the Commission.
