SA005378 - Education / Early Start Columbus RFP

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

Early Start Columbus Background & Purpose

In 2013, The Columbus Education Commission recommended that the community support quality preschool for every four-year old in Columbus City Schools by the year 2020. Quality preschool instruction provides meaningful value to a child's educational performance and preparation for school. Research tells us that 85 percent of a child's brain development takes place by the age of five, and that a child's education and environment during the first five years can greatly impact the child's ability to develop the skills necessary to become successful. Young children who attend preschool and are exposed to a high-quality educational setting are more likely to show stronger language development, literacy and mathematics skills, and social skills than children who have no preschool experience.

The City joins many public and business leaders in supporting preschool opportunities and believes that these opportunities prepare children for kindergarten, set the foundation for other important benchmarks such as the 3rd Grade reading guarantee, and set children on the pathway of success.

The purpose of the Early Start Columbus initiative is to ensure that 4-year olds will receive a quality preschool experience that will help them enter kindergarten ready for success, in addition to meeting the child care needs of low-income working families. The City of Columbus has committed \$5 million towards early childhood education. To this end, the Early Start Columbus initiative will play a central role in ensuring quality education for our young students.

Purpose of Request for Proposal

The purpose of Early Start Columbus is to 1) increase the number of spaces available in center based early education settings; and 2) ensure that the children receiving services from the funding enter Columbus City Schools kindergarten ready for success, while meeting the child care needs of working families.

The Request for Proposal (RFP) is to identify agencies/entities that (1) can meet all Early Start Columbus program requirements and provide high quality preschool education and early care services; and (2) will assure effective oversight and program and fiscal management aligned to the requirements listed in the Request for Proposal.

SA005385 - Public Service - HVAC Services

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

1. PROJECT INFORMATION

This request for proposal is a repost. Solicitation number SO046163 was removed and replaced due to significant changes in the equipment list and a reduction in the number of locations covered from seven (7) to six (6).

1.1. Project Overview:

The purpose of this request for proposal is to solicit bids to establish an HVAC preventative maintenance and break/fix contract. The preventative maintenance portion of the contract will follow the manufacturer's recommended service schedule. The break/fix portion of the contract will be on a time and materials basis for emergency heating and air conditioning service needs. This contract will be for the City of Columbus, Department of Public Service, Division of Planning and Operations. There are six (6) sites that will be serviced by this contract. Those sites contain approximately 90 pieces of HVAC equipment manufactured by a variety of companies including but not limited to Liebert, Trane, York, Reheen, Reznor, Bryant, Titan, General Electric, Johnson Controls, Direct Digital and American Standard.

Price will not be the sole determining factor in the award of this bid. A bidder must have a valid HVAC contractor's license issued by the State of Ohio and be an authorized manufacturer service provider for the HVAC equipment awarded to them under this contract. Bidders are also required to provide written descriptions concerning service, experience, qualifications, and price. Bid responses will be scored by an evaluation committee. The contract may be awarded as a whole to one bidder or divided among multiple bidders.

1.2. Contract Term:

The initial term of this contract shall be for one year with the option of up to three (3) additional one-year renewals. The first year of the contract will begin when the contract is fully executed and ends on June 30, 2015. Contract extensions are done in writing through the City's contract modification process, signed by an authorized representative of the City and the Contractor, and must be approved by the appropriate City authorities.

For additional information concerning this bid, including procedures for obtaining a copy of the bid document(s) and how to submit a proposal, you must go to the City of Columbus Vendor Services web page (<http://vendorservices.columbus.gov>) and view this bid number in the open solicitations listing. Columbus Recreation and Parks Permit and Rental Services Section

Revised

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: **“The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.”** Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to **renew the annual permit** or (ii) **transfers title to the property**.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. **Abandoned** - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. **Header dock** - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. **Finger dock** - A secondary dock extension from the header dock.
4. **Mooring** - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. **Ramp** - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. **“I” Dock** - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.

9. “U” Dock - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.
10. Platform Dock - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.
11. Spuds - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.
12. Stake - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.
13. Rip rap - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.
14. Director - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.
15. Structure - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”
16. Building - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.
17. Encroachment - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

Administrative Rules:

- 1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.
- 2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
 - a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
 - b) Detailed plan of the dock illustrating:
 - i) Dimensions
 - ii) Materials
 - iii) Method of attachment to shore
 - iv) Proposed alterations
 - c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
 - d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).
- 3) The overall width of any section of any private floating dock may not be less than four (4) feet.
- 4) The overall width of any Finger dock may not exceed six (6) feet.

- 5) The overall width of any header dock may not exceed eight (8) feet.
- 6) The overall width of any platform dock may not exceed twelve (12) feet.
- 7) The overall width of any ramp section may not exceed eight (8) feet.
- 8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore specialcareshould be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.
- 9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore) The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.
- 10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.
- 11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers).The specific site of the landing platform will be determined by the Director based upon best management practices.
- 12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.
- 13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).
- 14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner's boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner's sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.
- 15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O'Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner's address must be clearly marked upon the buoy.

- 16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.
- 17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director's determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the "responsible party") may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:

- 1.) Submit a new or renewal dock/stake permit application
- 2.) Submit a signed Responsibility Form
- 3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.
- 19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1" in diameter at the ground may be approved on a limited basis with permission.
- a) When necessary due to site conditions, the following improvements may be considered for a permit.
 - i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
 - ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer than six (6) inches together.
 - iii) Options "i" and "ii" combined provided all conditions of both are met.
 - b) Paths may not be approved if the following conditions exist:
 - i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
 - c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).
- 20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private

floating or permanent dock.

- 21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, "under-ground electric - do not dig". The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

- 22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be **in writing** as part of the proposed dock plan and include specifications of the lift device.
- 23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat *feet* that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.
- 24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.
- 25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.
- 26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section

or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder's dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

- 27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director's written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.
- 28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the "Water Supply Reservoir Cooperative Management Agreement", or by any law enforcement officer within their jurisdiction.
- a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor's web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.

Notice/Advertisement Title: Request for Purchase Proposals - 555 Nationwide Boulevard

Contact Name: Ann Kelly

Contact Telephone Number: 614-645-5182

Contact Email Address: aekelly@columbus.gov

REQUEST FOR PURCHASE PROPOSALS

APPROXIMATELY 1.188 ACRES

555 Nationwide Boulevard

COLUMBUS, OHIO 43215

REQUEST FOR PURCHASE PROPOSALS

The **City of Columbus** is inviting purchase offers for a portion of the subject site, located at 555 Nationwide Boulevard, Columbus Ohio, in the Arena District and is identified as Franklin County Auditor's Parcel 010-066777. The site offered contains approximately 1.188 acres. See attached Exhibit A. The City seeks a developer-led team that includes the necessary disciplines to ensure project success. The team must demonstrate relevant experience and financial success in completing similar urban redevelopment projects, including those involving historic structures. The team members must demonstrate relevant experience in architecture (including historic preservation and adaptive reuse), landscape architecture, civil engineering, and environmental remediation.

In seeking purchase offers, the City is prioritizing the adaptive reuse of this property for commercial purposes, with at a minimum, retention of the Original Generator Plant. This site plays an important role in terms of the further development of the Arena District and benefits from future residential development expected on the north side of Nationwide Boulevard, as well as, the site's close proximity to a variety of employers, sports, and entertainment venues. The City expects the reuse of this property to add to the City's tax base, provide employment opportunities, and preserve an important part of the City's architectural history and urban fabric.

SITE DESCRIPTION

The site is an irregular rectangular shape, level at grade. All utilities are present at the site and it is Zone AE per FEMA Flood Panel 39049C0309K, effective 6/17/2008. The site contains four buildings and an electrical substation. This RFP addresses the redevelopment of the site with a focus on the Original Generator Plant that was constructed in 1904 and as an option, the adjacent Chimney Stack, and Boiler Plant. The 1.188 acre portion of the site would be split from the parent parcel and will have separate parcel identification. The City will retain ownership of the parent parcel for use by its Department of Public Utilities, Division of Power. If it is determined that, to effectively redevelop the parcel split site, an access easement from the City's parent parcel will be necessary, the City will work with the purchaser to develop an access easement. The City will work with the purchaser to address the need, if necessary, for additional parking required to accommodate jobs created at the site that cannot be accommodated within the foot print of the split parcel. The site and Original Generator Plant are further described on Exhibit B attached.

The City intends that the remaining existing buildings identified in Exhibit B not identified for adaptive reuse on the parcel split be demolished and on the parent parcel, plans to demolish the Warehouse and build a new building on the site adjacent to the electric substation.

ZONING

The property is located within the Downtown District (DD) as defined by Title 33, Chapter 3359.03 of the Columbus City Code. The DD permits a wide range of land uses and includes a design review process managed by the Downtown Commission. The Commission issues Certificates of Approval, which are required prior to issuance of a building, graphics, or zoning permit by the Department of Building and Zoning Services. The Commission is staffed by the City's Department of Development - Planning Division.

SUBMISSION AND REVIEW OF PROPOSALS

Proposals for the purchase and development of the property must be submitted on or before ***May 8, 2014*** (the "Submission Date"). ***Five (5) printed copies and one (1) digital copy on a flash drive of the proposal must be***

provided. The City of Columbus reserves the right to extend the Submission Date at its sole discretion. The request for proposals shall not obligate the City of Columbus to award, transfer, or convey the subject real property. The City of Columbus hereby reserves the absolute right to accept or reject any and all proposals submitted.

Proposals to be submitted via U.S. Mail or courier to:

Proposal Format: Each proposal shall be limited to twenty (20) pages with supporting material included in an appendix. All Proposals must contain, at a minimum, the following information and be provided in the following order:

1. Cover Letter summarizing the prospective purchaser's interest in the property and planned use.
2. Background summary of the company submitting the proposal - services provided, experience (design, construction, and operation), personnel, capacity and must include any sub-consultants with a background summary for each such sub-consultant.
3. Description of the proposed development of the property. Prospective purchasers are encouraged to submit schematic or conceptual renderings of the proposed development, site access, parking, landscaping, and supporting market analysis, etc. in order to aid the City in its review.
4. Proposed schedule for the development of the property.
5. Financials:
 - a. proposed purchase price for the property
 - b. preliminary pro forma
 - c. documentation of financing for the project
 - d. any request for public assistance in developing the site including proposed property tax abatements, TIF's, historic tax credit applications, or other public financing requests.
 - e. respondent shall demonstrate sufficient financial resources to ensure the proposed project can be completed within 18 months of transfer of title and operated for a period of no less than 10 years.
6. References: Minimum of three references of relevant projects must be included.
7. Appendices: Any supporting material.

The City will review proposals, contact references, and may, at its discretion, schedule interviews with respondents to gather additional information. Proposals will be evaluated based upon but not limited to the following: the development concept and proposed treatment of the historic building including sensitivity to environmental site conditions; the respondent's successful past performance experience with urban infill development projects and commercial historic rehabilitation/adaptive reuse of buildings; the economic development impact of project (including jobs created and retained, tax benefits to the City, or other direct economic impacts), the respondent's planned financial investment in the property (including leveraged investment of public to private funding) and commitment of financing; and the respondent's financial capacity and ability to complete the project. As stated previously, the City of Columbus reserves the absolute right to accept or reject any and all proposals submitted and the City's final acceptance of any proposal will be based upon the negotiation of a real estate sales contract and other necessary documents with terms that are acceptable to the City.

SITE INSPECTION

A site tour is scheduled on **April 22, 2014 at 2:00 p.m.** to provide prospective responders an opportunity to view the property.

Questions may be referred to the Real Estate Management Office at 614-645-5189.
