This legislation authorizes the Director of Public Utilities to enter into a planned contract modification (Mod #1) with 360water, Inc., for the purpose of providing professional training and technical services necessary to execute the Department of Public Utilities (DPU) Training and Safety Programs. This work is part of the City's continued effort to upgrade and maintain training and safety programs. The Department of Public Utilities has personnel that require training on equipment, process systems, environmental programs, Utility specific items, and safety. This contract will address those areas of need. The work may include, but is not limited to: safety training, maintenance tool training; facility process coursework development; ICP Integrated Contingency Plan updates; SPCC Spill Prevention, Control and Countermeasures Plan update; and other similar training tasks as assigned.

360water, Inc. is currently working on the Indianola SPCC/Oil Handling Procedures Course Integration for the main facility, which is being funded by the Division of Water. It has been requested that the Division of Power Electrical Substation content be added to this course as well. The Division of Power will fund the incorporation of this additional content within the course. A detail of the scope of the additional content is attached.

This first modification is part of the planned scope of services included in the contract. The original language allowed for the option to renew the contract for four (4) additional years, on a year to year basis upon mutual agreement, budget authority and approval by Columbus City Council. The funding is for approximately one (1) year or until the scope of work is completed and funds are exhausted. The new expiration date will be June 16, 2015.

**Amount of additional funds to be expended:** $405,000.00

1. **Amount of additional funds:**
Total amount of additional funds for this contract modification No. 1 is $405,000.00. Total contract amount including this modification is $765,000.00

2. **Reasons additional goods/services could not be foreseen:**
The need for additional funds was known at the time of the initial contract, as this is a planned modification of the contract. The need for additional content to be added to the coursework was not realized until recently, but this type of addition was provided for within the scope of the original contract. This legislation is to encumber the funds budgeted for fiscal year 2014, along with the additional funds necessary to cover the cost of the additional coursework content, for the Department of Public Utilities.

3. **Reason other procurement processes are not used:**
The funding provided by this contract modification is for continuation of the existing work of the contract. In so much as the majority of this work was planned for and anticipated within the original procurement, it is not reasonable or cost effective to undertake a new procurement to acquire the
additional content to the coursework. No lower pricing more attractive terms and conditions are anticipated at this time.

4. **How cost of modification was determined:**
The contract duration is for five (5) years, and the professional services shall be funded by incremental appropriation, through the use of modifications. The original award provided funding for the initial period of 2013. Modification No. 1 provides funding for both the planned modification for 2014 and the cost of adding the additional coursework content, based on an RFP submitted by 360water, Inc., outlining the scope of work to be added and the costs associated with this addition.

**SUPPLIER:** 360water, Inc. (31-1704111), Expires May 28, 2015. This vendor holds FBE certification with the City of Columbus.

The Subcontractors are:
CAD Concepts, Inc. (31-1390280) Expires November 8, 2014. This vendor holds FBE certification with the City of Columbus.

Chester Engineers (20-2401674) Expires May 1, 2015. This vendor holds MIA (MBE) certification with the City of Columbus.

These companies is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.

**FISCAL IMPACT:** $405,000.00 is budgeted and available for this planned modification. $325,000.00 will be funded by the Division of Sewerage and Drainage (DOSD), $75,000.00 will be funded by the Division of Water (DOW), and $5,000.00 will be funded by the Division of Power (DOP).

1. BACKGROUND

The Division of Refuse Collection utilizes both manual side loading and front loading refuse trucks in city-wide residential trash pick-up. The Department of Public Service and Fleet Management recognize the need to replace older trucks in its fleet beyond the useful service life of the vehicle. The City will establish two, one-time contracts for the purchase of five (5) manual side loading diesel refuse trucks and six (6) front loading CNG refuse trucks. The terms of the proposed contracts are from the date of execution by the City up to and including the manufacturer's build out date.

The Purchasing Office opened formal bids (SA005311) April 10th, 2014 for the purchase of five (5) Manual Side Loading Refuse Trucks for the Division of Refuse Collection. Two bids were received.

Item #1B will not be awarded; it has been determined that only 16 cubic yard trucks will be purchased.

Total amount of this purchase will be $786,740.00.

The Purchasing Office opened formal bids (SA005310) April 10th, 2014 for the purchase of six (6) Front Loading Refuse Trucks for the Division of Refuse Collection. Three bids were received. It is a priority of Columbus City Council to identify opportunities to support various neighborhood initiatives that enhance the well-being of Columbus residents. To that extent, City Council has identified $20,000 in the Neighborhood Initiatives Fund for Council to enter into a contract with Radio One Columbus for sponsorship of Stone Soul Picnic 2014 to help raise awareness and reduce incidents of infant mortality.

The Greater Columbus Infant Mortality Task Force is charged with creating a community plan to reduce the number of infants who die or face ongoing illnesses and disabilities in their first year of life. To that end, Radio One plans to execute a comprehensive campaign that impacts the community by incorporating grassroots events and on-air components that will present opportunities for Central Ohioans to be exposed to the critical messages of the Greater Columbus Infant Mortality Task Force. Sponsorship of this event aligns with Columbus City Council’s priority of the reduction of the cases of infant mortality in the City of Columbus.

FISCAL IMPACT: Funding for such sponsorship was allotted in the Neighborhood Initiatives Fund, Fund 018.

EMERGENCY DESIGNATION: It is requested that this ordinance be handled in an emergency manner due to the time sensitive deadlines of event sponsorship.

1. BACKGROUND
This ordinance authorizes the appropriation of $152,276.41 within the Municipal Motor Vehicle License Tax Fund for the Division of Planning and Operations and authorizes the Director of the Department of Public Service to enter into a contract modification to reimburse the Franklin County Engineer’s Office up to an additional $152,276.41 for snow and ice removal services for the 2013-2014 winter season within this fund.

At the end of the season, the county and the city settled up expenses for each jurisdiction. BACKGROUND:
The Scioto Greenways Project involves the removal of the Main Street dam, the restoration of the Scioto River, and construction of park improvements and related utility and bridge improvements along both sides of the Scioto River between the confluence of the Scioto River and the Olentangy River to approximately 800 feet south of the current Main Street dam.

To allow for the completion of the Scioto Greenway Project, the Santa Maria ship will need to be removed from the river. The ship will be lifted from the river and transported to a location on land while the river project is completed. While out of the water, the city, in coordination with Santa Maria Inc., will determine the best course of action for the future of the ship. This legislation will modify ordinance #1253-2012, which authorized the original agreement with the Columbus Downtown Development Corporation to manage the Scioto Greenways Project, by increasing Recreation & Parks funding for the project by $500,000.00.

This ordinance is contingent upon receipt of bond sale proceeds.
EMERGENCY JUSTIFICATION:
The Santa Maria will need to be removed from the water as soon as possible so that the Scioto Greenways Project remains on schedule.

FISCAL IMPACT:
Additional capital funding in the amount of $500,000.00 is budgeted from the Recreation & Parks Voted Bond Fund for this work, bringing the total funding for Recreation and Parks to $15,694,346.00. The remaining $5,982,346 will be paid in 2015, contingent upon capital appropriations.

To authorize the Directors of Recreation and Parks to modify the Scioto Greenways Primary Agreement with the Columbus Downtown Development Corporation (CDDC) for the removal of the Main Street Dam and the development of the Scioto River for additional costs related to the removal and assessment of the Santa Maria; to authorize the expenditure of $500,000.00 from the Recreation and Parks Voted Bond Fund; and to declare an emergency. ($500,000.00)

WHEREAS, it is necessary for Recreation & Parks to modify the Scioto Greenways Primary Agreement with the Columbus Downtown Development Corporation for additional costs related to the removal and assessment of the Santa Maria; and

WHEREAS, an emergency exists in the usual daily operation of the Recreation and Parks in that it is immediately necessary to modify the Scioto Greenways Primary Agreement so the Santa Maria can be removed as soon as possible in order to keep the Scioto Greenways Project on schedule, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Recreation and Parks is hereby authorized to modify the Scioto Greenways Primary Agreement with the Columbus Downtown Development Corporation for additional costs related to the removal and assessment of the Santa Maria.

BACKGROUND: This legislation authorizes the City Clerk to report to the Franklin County Auditor in Ohio all charges which are due to the City of Columbus, Department of Development and are certified for payment to said County Auditor in conformance with Sections 701.07 through 701.19 of the Columbus City Code for weed and solid waste removal. In the assessment period covered by this legislation (November 1st 2013 through April 30th 2014), owners of 480 properties within Columbus were notified to abate weed and solid waste nuisances. Those properties where violations were not abated were turned over to the Environmental Nuisance Weed and Solid Waste Program for compliance. Abatement was completed using the services of private and/or city contractors. This legislation provides for assessment of the costs associated with the weed and solid waste abatement process.

Emergency action is required so that assessments can be placed on the January 2015 tax duplicate.

FISCAL IMPACT: No funding is required for this legislation. This legislation provides a mechanism for recovery of costs associated with the weed and solid waste abatement program.

To authorize assessments for weed and solid waste removal on properties in violation of weed and solid waste regulations as set forth in the Columbus City Code; and to declare an emergency.

WHEREAS, the owners of certain vacant lots and structures in the City of Columbus have allowed the growth of noxious weeds, grasses and/or the accumulation of solid waste on their properties; and
WHEREAS, said owners have been duly notified of the requirements of the law in such circumstances; and

WHEREAS, said owners have failed to provide mowing services and solid waste removal as set forth in Section 701.07 through Section 701.19 of the Columbus City Code; and

WHEREAS, an emergency exists in the usual daily operation of the City of Columbus in that it is immediately necessary to authorize assessments for weed and solid waste removal on properties in violation of weed and solid waste regulations as set forth in the Columbus City Code so that assessments can be placed on the January 2015 tax duplicate, thereby preserving the public health, peace, property, safety, and welfare; NOW, THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

The Department of Finance & Management processed ordinance 0925-2014 earlier this year, which authorized the expenditure of $100,000 for membership dues and subscriptions. WHEREAS, an emergency exists in the usual daily operation of the Department of Recreation and Parks in that it is immediately necessary to enter into contract with Habitat for Humanity to adhere the terms of the KaBOOM grant and build the playground before August 30, 2014, thereby preserving the public health, peace, property, safety and welfare; NOW, THEREFORE

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Revised

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. **Abandoned** - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. **Header dock** - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. **Finger dock** - A secondary dock extension from the header dock.
4. **Mooring** - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. **Ramp** - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. **“I” Dock** - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.
9. **“U” Dock** - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. **Platform Dock** - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. **Spuds** - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. **Stake** - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. **Rip rap** - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. **Director** - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. **Structure** - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. **Building** - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. **Encroachment** - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

**Administrative Rules:**

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
   d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.
5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special care should be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore). The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.

15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O'Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.
16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director’s determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1. Submit a new or renewal dock/stake permit application
2. Submit a signed Responsibility Form
3. Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18) In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:
   i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
   c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private
floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.

25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section.
or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.
A Sign Language Interpreter will be made available provided the Planning Division Office is given a reasonable notice of at least forty-eight (48) hours prior to the scheduled Regular meeting time. To schedule, please call 645-0663. To confirm the meetings, contact staff.
