The updated plan was initiated in cooperation with the Far North Columbus Communities Coalition (FNCCC). The FNCCC provided guidance during the process. Stakeholder interviews and workshops were also held to provide the community with opportunities for input. The resulting plan addresses future land use and urban design.

On June 3, 2014, the FNCCC approved the plan. The Development Commission reviewed the plan on July 10, 2014 and voted unanimously to recommend its adoption to City Council.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval

FISCAL IMPACT: No funding is required for this legislation.

To adopt the Far North Area Plan as a guide for development, redevelopment, and the planning of future public improvements.

WHEREAS, the Far North Area Plan is intended to serve as a guide for development, redevelopment, and the planning of future public improvements; and

BACKGROUND: This legislation is for the option to establish a UTC contract for Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel for the Division of Fleet Management, the primary user. This contract will provide for the purchase of various diesel fuels for delivery at various City of Columbus locations, for use in vehicles and various non-vehicle equipment such as generators and pumps. The term of the proposed option contract would be approximately two years, expiring September 30, 2016, with the option to renew for one (1) additional year. The Purchasing Office opened formal bids on June 12, 2014.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA005400). Twenty-one (21) bids were solicited: (M1A-0, F1-0, MBR-2). Six (6) bids were received.

Due to inherent issues with diesel fuel gelling in cold weather and with the large volume of deliveries the City of Columbus requires, specifications require that the successful bidder also own their own terminals to afford greater control and reliability. The first two apparent low bidders did not meet that requirement and are non-responsive. The next low bidder meets that requirement. The Purchasing Office is recommending award to the overall lowest, responsive, responsible and best bidder as follows:

Benchmark Biodiesel, Inc., MAI, CC# 26-1274251 expires 05/16/2016, All Items, $1.00
Total Estimated Annual usage 1.3 million gallons, Division of Fleet Management, the primary user
The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search. This ordinance is being submitted as an emergency because, without emergency action, no less than 37 days will be added to this procurement cycle and the efficient delivery of valuable public services will be slowed.

FISCAL IMPACT: Funding to establish this option contract is from the General Fund. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

To authorize the Finance and Management Director to enter into a contract for the option to purchase Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel with Benchmark Biodiesel, Inc., to authorize the expenditure of $1.00 to establish the contract from the General Fund, and to declare an emergency. ($1.00).

WHEREAS, Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel is used in vehicles and various equipment throughout the City of Columbus; and,

WHEREAS, the Purchasing Office advertised and solicited formal bids on June 12, 2014 and selected the overall lowest, responsive, responsible and best bidder; and

WHEREAS, this ordinance addresses Purchasing objective of 1) maximizing the use of City resources by obtaining optimal products/services at low prices and 2) encouraging economic development by improving access to City bid opportunities and 3) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, in order to maintain a supply of Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel, this is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operation of the Purchasing Office in that it is immediately necessary to enter into a contract for the option to purchase Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director be and is hereby authorized to enter into the following contract for the option to purchase Ultra Low Sulfur Diesel, BioDiesel and Non-Road Diesel in accordance with Solicitation No. SA005400 for a term of approximately two years, expiring September 30, 2016, with the option to renew for one (1) additional year, as follows:

Benchmark Biodiesel, Inc., All Items, $1.00

SECTION 2. That the expenditure of $1.00 is hereby authorized from the General Fund, Organization Level 1: 45-01, Fund 10, OCA: 450047, Object Level 3: 2270 to pay the cost thereof.

SECTION 3. That for the reason stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.
BACKGROUND: This ordinance authorizes the Director of the Finance and Management to modify a contract with Modern Office Methods Inc., on behalf of the Print Shop, which is housed in the Financial Management Division. Purchase Order DE100100 was created on March 7, 2014 and was estimated to provide sufficient funds to cover first year lease copier payments, color, black and white copies, supplies and maintenance. The Recreation and Parks Department’s own print equipment was out of service for a period of time and the Print Shop was able to accommodate and assist with all their print and copy jobs in a timely manner. Recreation and Parks typically does not use the Print Shop, as they have their own equipment. Due to this unforeseen circumstance, the cost of copies has exceeded the amount allocated on the Modern Office Methods contract. Therefore, it is necessary to modify this contract in order for the Print Shop to provide uninterrupted service to various city departments through February, 2015 as originally planned.

This contract is based on Solicitation SO045574.

Due to unforeseen additional print jobs, an estimated additional $20,000.00 will be needed to cover expenses through February 28, 2015, which will be the end of the first year of the four year contract.

Emergency action is requested to allow for uninterrupted services by the Print Shop to city departments.

FISCAL IMPACT: Funding is available in the Print and Mail Services Fund. Agencies are billed monthly for services provided by the Print Shop.

To authorize the Director of the Finance and Management Department to modify an existing contract with Modern Office Methods Inc. to allow the Print Shop to fund unforeseen expenses for copier lease, supplies and maintenance; to authorize the expenditure of $20,000.00 from the Print and Mail Services Fund; and to declare an emergency. ($20,000.00)

WHEREAS, the Print Shop assisted Recreation and Parks with printing needs when that department’s own printing equipment was out of service for a period of time; and

WHEREAS, the resulting expenses from this assistance caused the funding allocation originally estimated in the current purchase order with Modern Office Methods Inc. to be depleted; and

WHEREAS, additional funding is necessary to allow the Print Shop to provide services to departments through February, 2015 when the first year of the four year contract with Modern Office Methods is up; and

WHEREAS, in order for the Print Shop to maintain the ability to provide uninterrupted service without interruption to city agencies, this ordinance is being submitted for consideration as an emergency measure; and

WHEREAS, an emergency exists in the usual daily operations of the Finance and Management Department,
Print Services, in that it is immediately necessary to increase funding for print services, thereby preserving the public health, peace, property, safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director be and is hereby authorized and directed to modify a contract with Modern Office Method Inc. in the amount of $20,000.00 through February 28, 2015.

SECTION 2. That the expenditure of $20,000.00 is hereby authorized from the Print and Mail Services, Fund 517, OCA 451237, Object Level One: 03, Object Level 03: 3372 to pay the cost thereof.

SECTION 3. That the monies in the foregoing Section 2 shall be paid upon order of the Director of the Finance and Management Department, and that no order shall be drawn or money paid except by voucher, the form of which shall be approved by the City Auditor.

SECTION 4. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications.

SECTION 5. That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

SECTION 6. That the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared an emergency measure and shall take effect and be in force from and after its passage and approvals by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

1. BACKGROUND
This legislation authorizes the Director of Public Service to enter into contracts and issue purchase orders in the amount of up to $52,000.00 to replace the security system and overhead doors at the Department of Public Service’s facility at 1800 E. 17th Avenue.

The existing security system is not functioning and must be replaced. Damaged overhead doors will also be replaced as part of the security system project. The new security system will use Matrix Systems security equipment (the existing city standard security equipment). The system will be remotely monitored by city security staff as the city’s downtown buildings are.

A bidding waiver is requested for the purchase of hardware and the installation/repair costs associated with this project. The 1800 E. 17th Avenue facility is not funded through the general fund and the costs of these systems must be paid by Public Service instead of the city’s Department of Finance and Management. The equipment to be installed is to be compatible with the city’s established standard for security systems so city security can monitor the systems. To ensure the needed compatibility, the equipment and installation work will be procured from the same companies used by the Department of Finance and Management.

The following companies will be used for this project:

BACKGROUND: The Columbus Department of Development is proposing to enter into a Columbus Downtown Office Incentive with PrivIT, Inc.

A subsidiary of a Canadian company with sales offices in London, Ontario and corporate operations in Columbus, PrivIT, Inc. has developed patented web-based technology for the collection, distribution and analysis of personal health information with the aim of improving the health and safety of all those involved in organized sports and activities. The company’s web-based system is designed for ease of use to assist athletes, parents, children, administrators, and other professionals along one of four initial tracts: e-PPE, MiFitness Health Record, MiChilds Health Record, and MiCamper Health Record.

Currently, PrivIT, Inc. occupies approximately 3,300 square feet of office space at 330 W. Spring Street, Suite 250 Columbus, Ohio 43215 and is under a lease agreement until July 31, 2018 but anticipates needing approximately 15,000 square feet as the Columbus operation grows. PrivIT, Inc. intends to grow at the current site, but is evaluating a variety of location options to accommodate their expected future growth. Once the final location is selected, PrivIT, Inc. will then determine the cost related to leasehold improvements. PrivIT, Inc. will invest approximately $48,000 related to the acquisition of furniture and fixtures and stand-alone computers at a project location in downtown Columbus, retain 6 full-time permanent positions with an estimated annual payroll of approximately $555,003, and create 30 new full-time permanent positions with an estimated new annual payroll of approximately $2,005,000.

PrivIT, Inc. qualifies for the Columbus Downtown Office Incentive in an amount equal to fifty percent (50%) of the amount of new employee city income tax withholding, or approximately $75,188, over the incentive term of three (3) years with the possibility of receiving two additional cash payments totaling approximately $50,125 (five year total of approximately $125,313), should PrivIT, Inc. exercise its lease renewal option to extend the lease term by a minimum of two (2) years or execute a new lease at another location within the downtown business district, resulting in a total lease term of at least seven (7) years and a total incentive term of five (5) years. The Columbus Department of Development recommends granting the Columbus Downtown Office Incentive to PrivIT, Inc.

FISCAL IMPACT: No funding is required for this legislation.

To authorize the Director of the Department of Development to enter into a Columbus Downtown Office Incentive Agreement with PrivIT, Inc. as provided in Columbus City Council Resolution 0088X-2007, adopted June 4, 2007.

WHEREAS, the City desires to increase employment opportunities and encourage establishment of new jobs in the City in order to improve the overall economic climate of the City and its citizens; and

WHEREAS, Resolution 0088X-2007, adopted June 4, 2007, authorized the Department of Development to establish the Columbus Downtown Office Incentive Program as amended; and
WHEREAS, the Department of Development has received a completed application for the Columbus Downtown Office Incentive from PrivIT, Inc.; and

WHEREAS, PrivIT, Inc. currently occupies approximately 3,300 square feet of office space at 330 W. Spring Street, Suite 250 Columbus, Ohio 43215 and is under a lease agreement until July 31, 2018 but anticipates needing approximately 15,000 square feet as the Columbus operation continues to grow at the current site; and

WHEREAS, PrivIT, Inc. is evaluating a variety of location options to accommodate their expected future growth; and

WHEREAS, PrivIT, Inc. will invest approximately $48,000 related to the acquisition of furniture and fixtures and stand-alone computers at a project location in downtown Columbus, retain 6 full-time permanent positions with an estimated annual payroll of approximately $555,003, and create 30 new full-time permanent positions with an estimated new annual payroll of approximately $2,005,000; and NOW THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of the Department of Development is hereby authorized to enter into a Columbus Downtown Office Incentive Agreement, pursuant to Columbus City Council Resolution 0088X-2007, with PrivIT, Inc. for an annual cash payment equal to fifty percent (50%) of the amount of City withholding tax withheld on new employees for a term of three (3) years with the option to increase the term by two (2) years, should PrivIT, Inc. exercise its lease renewal option to extend the lease term by a minimum of two (2) years or execute a new lease at another location within the downtown business district, resulting in a total lease term of at least seven (7) years, on the estimated job creation of 30 new full-time permanent positions to be located within the downtown business district.

SECTION 2. Each year of the term of the agreement with PrivIT, Inc. that a payment is due, the City's obligation to pay the incentive is expressly contingent upon the passing of an ordinance appropriating and authorizing the expenditure of monies sufficient to make such payment and the certification of the City Auditor pursuant to Section 159 of the Columbus City Charter.

SECTION 3. That the City of Columbus Downtown Office Incentive Agreement is signed by PrivIT, Inc. within 90 days of passage of this ordinance, or this ordinance and the credit herein shall be null and void.

SECTION 4. That the Director of the Department of Development is hereby authorized to amend the Columbus Downtown Office Incentive Agreement with PrivIT, Inc. for certain modifications to the agreement requested in writing by the company and or the City and deemed appropriate by the Director of Development with these modifications being specifically limited to reductions in length of term, methods of calculating the incentive, or adding or deleting business entities associated with the employment commitments related to this incentive. All other requested amendments must be approved by City Council.

SECTION 5. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
BACKGROUND: This legislation is for the option to establish four (4) UTC contracts for Office Supplies, Accessories and Office Papers (Recycled) to be used by various City agencies. The term of the proposed option contracts is two (2) years, through July 31, 2016. The contracts may be extended for one (1) additional year, subject to mutual agreement by both parties. The Purchasing Office opened formal bids on June 19, 2014.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA005448). One hundred eighty-one (181) bids were solicited: (M1A-7, F1-3). Five (5) bids were received.

Multiple contracts are being awarded for Office Supplies, Accessories and Office Papers (Recycled). The specification stated that no more than two (2) contracts would be awarded to the lowest, responsive, responsible and best bidders, per category.

At this time, the City of Columbus has embarked on a implementing a new e-catalog, as approved by Ordinance 1078-2013. The catalog system purchased from Vinimaya, Inc. will allow City agencies to shop City contracts. The requesting agency will log into the e-catalog, search for the item needed and the e-catalog will search the City catalogs, including these four (4) suppliers, bringing back the results that meet the searched term and providing the user with the contracted price.

The City will upload into the e-catalog most catalog type and price list type UTC contracts. By uploading these four (4) catalogs to the e-catalog, the agencies will be able to search, review and order the needed items at discounted and best value prices. This change will enable the City agencies to more efficiently purchase Office Supplies, Accessories, and Office Papers (Recycled) with cost savings.

A waiver of regulations is being submitted to award to multiple suppliers and to award four (4) contracts as the Code does not envision multiple awards for the same category.

The Purchasing Office is recommending award to the overall lowest, responsive, responsible and best bidders as follows:

Bulldog Office Products, Inc., CC# 251292273; Expires 8/18/2016 - (F1)
Office Depot, Inc., CC# 592663954; Expires 6/18/2016
Sterling Paper Company, CC# 314317038; Expires 3/26/2015
Staples Contract & Commercial, Inc., operating as Staples Advantage; CC#043390816; Expires 5/2/2015

**AN14-006**

**BACKGROUND:** This ordinance approves the acceptance of certain territory (AN14-006) by the City. The Ohio Revised Code stipulates that to be effective, City acceptance must take place a minimum of 60 days (but not more than 180) from the receipt by the City Clerk of the approval notice from the county. Should City Council not take such action within this timeframe, the annexation will not take place. This petition was filed with Franklin County on May 21, 2014. City Council approved a service ordinance addressing the site on June 2, 2014. Franklin County approved the annexation on June 24, 2014 and the City Clerk received notice on July 8, 2014.

**FISCAL IMPACT:** Provision of municipal services does represent cost to the City; however, the annexation of land also has the potential to create revenue to the City.

**Drafting Date:** 8/26/2014  
**Current Status:** Passed  
**Version:** 1  
**Matter Type:** Ordinance

**BACKGROUND:** The Development Department, in cooperation with the Department of Public Service,
selected the Parsons Avenue Arterial Street Rehabilitation Broad Street to Franklin Avenue Project for artist involvement and determined a project budget of $101,000. The project is located just outside of the Ohio Department of Transportation’s Capital Crossroads Project. The area is within the boundaries of both the Olde Towne East Civic Association and the Near East Area Commission. At the request of the Columbus Art Commission, the project will include an artist working with the design team retained by the Department of Public Service. The outcome of the public art project is open, which means that in addition to the artist integrating their ideas into the project design, the art created may be wholly integrated into the streetscape (e.g., pavement design, seating, tree grates, etc.), a specific installation or series of installations (e.g., sculptures, mosaics, etc.), or some combination thereof.

A statewide Request for Qualifications/Artist Call (RFQ) for this project was issued May 5th thru June 8th of this year via GoARTS!, the Greater Columbus Arts Council’s (GCAC) web-based artist submission platform. The RFQ was promoted extensively through GCAC and the Ohio Art League. It was also shared for distribution with the King Arts Complex, Cultural Arts Center, The Ohio State University and Columbus College of Art and Design faculty and alumni associations, as well as with other Ohio-based art organizations. A total of eight artist submissions were received, from which the Advisory Panel unanimously selected artists Olga Ziemska, Tom Huddle, and Erwin Redl as finalists. The Artist Advisory Panel seated by the Columbus Art Commission included:

- David Barker, Columbus Art Commission
- Kevin Conlon, Artist and Provost, Columbus College of Art and Design
- Antoinette Barker, Near East Area Commission Appointment
- Tyler Cann, Curator, Columbus Museum of Art
- Larissa Boiwka, Olde Towne East Neighborhood Association Appointment
- Lori Duiguid, DPS Transportation and Pedestrian Committee

At their June 23, 2014 hearing, the Art Commission unanimously approved the Artist Advisory Panel recommendation of Ziemska, Redl, and Hubbard as each being artistically qualified for the Parsons Avenue Public Art Commission. The three finalists were interviewed by a team including two representatives from the DPS project design team, DPS project coordinator, Planning/Public Art Coordinator, Columbus Art Commissioner David Barker and Near East Area Commissioner, Antoinette Barker. The interview team unanimously selected artist Olga Ziemska from Cleveland, Ohio for this public art commission. An artist talk open to the public will also be included in the artist contract.

This ordinance is submitted as emergency in order to expedite the contract with artist Olga Ziemska and maintain the DPS schedule for the Parsons Avenue Arterial Street Rehabilitation Broad Street to Franklin Avenue Project.

WHEREAS, a statewide artist call was released in Spring 2014 from which an Artist Advisory Panel with Art Commission and community appointees selected three artist finalists to interview; and

SECTION 4. That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

SECTION 5. That for the reasons stated in the preamble hereto, which hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

**BACKGROUND:** The purpose of this ordinance is to authorize the Director of the Department of Development to apply for and accept $920,951.00 in grant assistance from the Roadwork Development (629) Account of the Ohio Development Services Agency, contingent on State Controlling Board approval, for improvements to a public roadway on Easton Square Place, Columbus, OH 43219 to benefit the expansion of operations by ADS Alliance Data Systems, Inc., and to appropriate and expend the monies within the General Government Grant Fund.

The roadwork grant, and this associated request for authorization to apply for and accept the grant, are part and parcel of an incentive package to allow ADS Alliance Data Systems, Inc. to expand its Columbus operation. ADS Alliance Data Systems, Inc. will invest approximately $80.5 million related to improving and expanding its facility. A total of 1,300 full-time permanent positions will be retained and 700 new full-time permanent positions will be created within three years.

A letter dated April 17, 2014 from the Ohio Development Services Agency and JobsOhio, extended an amount up to $920,951.00 in public roadwork development grant assistance to the City of Columbus in support of the proposed investment by ADS Alliance Data Systems, Inc. The Director of the Department of Development responded by a letter dated August 27, 2014 accepting the offer of assistance.
Total infrastructure costs to accommodate the expansion of the facility are estimated to be approximately $6.93 million and will be shared by the State of Ohio and the City of Columbus.

This legislation is submitted as an emergency in order to meet the state roadwork grant application deadline and to make use of the state grants as soon as possible after State Controlling Board approval.

**FISCAL IMPACT:** There is no cost to apply for and accept the state roadwork development grant. If successful, the City will receive an amount up to $920,951.00 to apply towards public roadway improvements on Easton Square Place between Stelzer Road and Morse Crossing. This ordinance contains an appropriation within the General Government Grant Fund and authorizes expenditure for this purpose.

To authorize and direct the Director of the Department of Development to apply for and accept an amount up to $920,951.00 in grant assistance from the Ohio Development Services Agency for public roadway improvements on Easton Square Place between Stelzer Road and Morse Crossing to benefit the expansion of operations by ADS Alliance Data Systems, Inc.; to authorize the appropriation of these monies within the General Government Grant Fund; to authorize the expenditure of $920,951.00 or so much as may be necessary from the General Government Grant Fund; and to declare an emergency. City Council has facilitated a series of meetings with representatives of Columbus' 17 area commissions, which serve many Columbus neighborhoods. The overarching goals of these meetings have been to strengthen the relationship between neighborhood leaders and City Council, and to identify new strategies whereby the City may continue to support, empower, and partner with area commissions and other neighborhood and civic organizations to enhance our service to the community. One opportunity identified through this process was the need for more training opportunities for our neighborhood leaders. To that end, City Council wishes to enter into contract with the German Village Society in order for them to provide scholarships for 2014 Great Placemakers Lab.

The American Planning Association (APA) designated German Village as one of the nation's 10 Great Neighborhoods in America in 2011. Building on this recognition and the fact that Columbus is a city of remarkable neighborhoods, the German Village Society is presenting a 3.5-day workshop focused on the elements and characteristics of successful neighborhoods.

Columbus is an ideal laboratory for learning about the art of great placemaking. German Village's 50+ years of historic preservation; the Short North's exciting infill development; innovative partnerships for affordable housing and job creation in Olde Towne East and Weinland Park; and the reimagining of neighborhoods such as Franklinton make our city a perfect setting to learn about each neighborhood's unique "path to transformation."

The workshop is for those people whose passion and perseverance are the strength of all great communities. The 3.5-day workshop will include one day of traditional track-based, conference learning and one day of experiential learning within our neighborhoods. Council deems this project an appropriate use of $5,000.00 Neighborhood Initiatives Fund monies.

To authorize and direct City Council to enter into contract with the German Village Society for the 2014 Great Placemakers Lab; to authorize the appropriation and expenditure of up to $5,000.00 from the Neighborhood Initiatives Fund; and to declare an emergency. ($5,000.00)

WHEREAS, Columbus City Council has led a series of meetings designed to enhance the relationship between City Council and the 17 area commissions that serve many Columbus neighborhoods; and

WHEREAS, City Council has sought new opportunities to support, empower, and partner with area commissions, civic, and neighborhood groups which serve the public; and

WHEREAS, a need for more training opportunities was identified and requested by neighborhood leaders and community advocates; and

WHEREAS, in an effort to extend additional opportunities for training to neighborhood leaders, City Council wishes to enter into contract with the German Village Society to provide scholarships for the 2014 Great Placemakers Lab; and

WHEREAS, City Council amended the 2014 budget to further emphasize the importance of strategic investments in projects that will ultimately improve the quality of life in the city, and Council deems this project an appropriate use of $5,000.00; and
WHEREAS, an emergency exists in the usual daily operation of the City in that it is immediately necessary to appropriate funds in order to provide scholarships for the upcoming neighborhood training; now therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the City Auditor be and is hereby authorized and directed to appropriate $5,000 in the Neighborhood Initiatives Fund, Fund 018, to City Council Department No. 20-01, Object Level One 03, Object Level Three 3337, OCA Code 200018.

SECTION 2. That City Council is hereby authorized to contract with the German Village Society and is authorized and directed to expend up to $5,000.00 to provide scholarships to neighborhood leaders participating in the 2014 Great Placemakers Lab to be held Tuesday, September 16 - Friday September 19, 2014.

SECTION 3. That for the reason stated in the preamble here to, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), for Capital Improvements Project Number 611023-100000 - DESIGN OF AN INTERACTIVE EDUCATIONAL STORMWATER EXHIBIT pursuant to Columbus City Code 329.14. Proposals will be received at the Division of Sewerage and Drainage, 1250 Fairwood Avenue, Room 1021, Columbus, Ohio 43206 until 5:00 P.M. on Friday, October 3, 2014.

General Project Descriptions

611023-100000 --- DESIGN OF AN INTERACTIVE EDUCATIONAL STORMWATER EXHIBIT

The City of Columbus Division of Sewerage and Drainage (DOSD) initiated CIP 611023 in partnership with the Grange Insurance Audubon Center (GIAC) and Columbus and Franklin County Metropolitan Parks District to create a cohesive, interactive educational site with unique experiences that engage visitors in learning about how individual behaviors impact the community. The Environmental Protection Agency has said that pollution carried by stormwater is the biggest threat to our waterways and individual daily activities can greatly reduce the amount of pollution entering our streams.

The project area is the GIAC facility at 505 West Whittier St., Columbus, OH 43215, and the land immediately surrounding it. This area already houses many green features in and around its building, including examples of stormwater BMPs which will be made interactive and part of a comprehensive educational site as part of this project. The site contains space available for the construction of one new stormwater management feature which will be included in this design.

giac-audubon.org/Tour/home.html hosts a view of the GIAC and Scioto Audubon Metro Parks site and highlights some of the features found there.

Target Audiences shall include but may not be limited to:

* All age groups
* Students
* Families
* Home Owner Associations
* Developers/contractors

Visitor Experiences shall include but may not be limited to:

* Buy-in and support for stormwater BMPs
* Expand range of known options to choose from
* Know that what we each do matters
* Inform people on how we can become a part of policy change
* We are/this is part of a shift in culture - not impossible, part of a process, how can you start
* Collaboration - we are each part of the success
* Spectrum from formal to natural plantings and styles
* An understanding of the causes of stream bank erosion and how BMPs can help slow erosion
* Know the connection between what goes on in your yard and the quality of our waterways
* What a healthy stream/river looks like
* Myth or fact on pests (rats, ticks, mosquitoes) in BMP areas
* Advantage of meadow vs. mowed area
* Effect of pesticides and fertilizers on water quality
* Importance of backyard habitat especially during changes in climate that are occurring
* Limit paper, brochures, handout materials and other disposable content

Other Considerations:

* Add a page that features the project onto GIAC's existing web site
* Built-in allowance for evolution of green technologies
* Keep information current
* Plan for regular updates and ongoing maintenance

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. **Abandoned** - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.

2. **Header dock** - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.

3. **Finger dock** - A secondary dock extension from the header dock.

4. **Mooring** - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.

5. **Ramp** - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).

6. **“I” Dock** - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.

7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.

8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.
9. **“U” Dock** - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. **Platform Dock** - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. **Spuds** - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. **Stake** - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. **Rip rap** - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. **Director** - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. **Structure** - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. **Building** - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. **Encroachment** - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

**Administrative Rules:**

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
   d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.
5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore specialcareshould be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore). The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.

15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O’Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.
16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director’s determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1.) Submit a new or renewal dock/stake permit application
2.) Submit a signed Responsibility Form
3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:
   i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
   c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private
floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.

25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section.
or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.

I. Application of Policy.
   This policy shall apply to:

   A. Property Owners who propose a signalized private driveway(s),
      access, and/or private street(s) with a public street in the City of
      Columbus;
   B. Property Owners whose driveway(s), access, and/or private street(s)
      align with an existing or proposed signalized intersection in the City of
      Columbus, except a single family residence driveway;
   C. Political subdivisions whose public street(s) align with a signalized
      intersection in the City of Columbus;
   D. Political subdivisions desiring to contract with the City of Columbus for
      operation and/or maintenance of traffic signals within their jurisdiction.
   E. Existing signalized intersections annexed into the City of Columbus,
      except a single family residence driveway.
   F. Property Owners who propose a signalized crosswalk mid-block or at
      an intersection of an unmarked or unsignalized public street in the City
      of Columbus.

   Singularly, hereafter “Interested Party”.

II. Effective Date.
   This policy shall be effective September 20, 2014, and shall supersede all
   previous administrative policies pertaining to Traffic Signal Maintenance
   Contracts.

III. Terms.
   A. Interested Parties shall enter into a Traffic Signal Maintenance
      Contract, hereafter "Contract", with the City of Columbus. Said
      Contract shall require the Interested Party to fund all or part of the
      costs to operate, maintain, repair, and upgrade a traffic signal or
      pedestrian beacon device in the Public Rights-of-Way according to this
      policy. Such obligation for the traffic signal shall be made for as long
      as that the traffic signal is warranted as defined in the Traffic Code of
      the City of Columbus and the Ohio Manual of Uniform Traffic Control
      Devices, as long as the responsible shares are paid (as defined in
Section IV), and / or as long as the Contract is not breached. Such obligation for the pedestrian beacon device shall be made for as long as the pedestrian beacon device is warranted as defined in the Ohio Manual of Uniform Traffic Control Devices and per Department of Public Service procedures, as long as the responsible shares are paid (as defined in Section IV), and / or as long as the Contract is not breached.

B. Traffic signals and pedestrian beacons are types of traffic control devices. For purposes of this policy and the Contract, a traffic control device is defined as, but not limited to, the traffic signal and appurtenances, pedestrian hybrid beacons and appurtenances, rectangular rapid flashing beacons and appurtenances, pedestrian-activated warning beacons and appurtenances, traffic signs, ADA ramps, and pavement markings for the private drive, access, or street.

C. In the case of a proposed new or the upgrade of an existing traffic signal or pedestrian beacon device, the City shall enter into Contract only with the Interested Party prior to City approval of the traffic control device construction plans, whether those plans are the product of an Engineering Consultant or City of Columbus Staff.

D. In the case of a transfer or assignment of a Contract based upon the 2003 policy from one property owner to another, the 2003 contract with the original party shall be terminated and the new Interested Party shall enter into Contract with the City under this policy. Failure of the new Interested Party to enter into a Contract with the City under this policy may result in removal of the traffic control device.

E. The Contract and/or Real Estate Instruments, as prepared and approved by the City Attorney’s Office, Department of Real Estate, shall be recorded with the County Recorder’s Office where the signal or pedestrian beacon device is located and provide that the obligations of the Interested Party shall run with the Interested Party’s property benefited by the traffic control device. The Interested Party shall be invoiced for the recording fees.

F. The City of Columbus shall not enter into more than one Contract per intersection driveway, private street, or pedestrian beacon device.
G. The City of Columbus agrees to operate, maintain, repair, and upgrade the traffic control device for as long as the traffic signal or pedestrian beacon device is warranted, as long as the responsible shares (as defined in Section IV) are paid, and / or as long as the Contract is not breached.

H. The City of Columbus may conduct signal warrant or pedestrian traffic analysis from time to time. All signal warrant and pedestrian device analyses shall be conducted according to the Ohio Manual of Uniform Traffic Control Devices or other Department of Public Service procedures. If a traffic signal or pedestrian beacon device does not meet warrants, guidelines of the OMUTCD, or Department of Public Service procedures, the traffic control device may be removed. The Director / designee of the Department of Public Service shall make the final determination. The Interested Party shall be notified in writing prior to submitting the recommendation to the Director / designee.

I. At or about age 20 of the traffic control device, the City shall do an inspection of the signal and shall determine when it shall be refurbished. The Interested Party shall pay their Proportional Share of the cost of refurbishing the traffic control device.

IV. Responsible Share.

A. The percentage of costs for the operation, maintenance, repair, upgrade, and electricity for the traffic control device allocated to the Interested Party shall be based on the impact of their driveway, access or private street on the warranting of the traffic signal or pedestrian beacon device at the intersection, hereafter Proportional Share.

B. The Proportional Share to the Interested Party for a pedestrian beacon device is 100%.

C. The Proportional Share to the Interested Party for a traffic signal device shall be assigned as follows:
   1. one hundred percent (100%) – locations where the Interested Party has the only approach to the public street, e.g., the intersection is T-intersection; or
   2. seventy-five percent (75%) – locations where the intersection has a public street approach, but only the driveway, private
street, or public street from another Interested Party warrants the traffic signal; or
3. fifty percent (50%) – locations where both the driveway, private street, or public street from another Interested Party and the public street approach within the City of Columbus warrants the traffic signal; or
4. twenty-five percent (25%) – locations where the driveway, private street, or public street from another Interested Party does not warrant the traffic signal as the traffic signal is already warranted by existing approaches).
5. If there are multiple private driveways or streets adjoining a public road, the multiple Interested Parties shall split the cost. Exact split shall be determined upon plan review by the City of Columbus.
6. The Director / designee of the Department of Public Service reserves the right to determine other split percentages as needed based upon the specifics of each project. The Director / designee shall provide each Interested Party an explanation of the split percentage and how it was determined.

D. If the City of Columbus has a Contract with an Interested Party at a signalized intersection and another private road or driveway is built to access the same intersection, the City shall assess the responsibility of the new Interested Party and reassess the original Interested Party according to this policy and amend the existing Contract with the original Interested Party, as necessary. The amendment to the original Interested Party shall be recorded and the new Interested Party shall be invoiced for the recording fees for amending the original Interested Party’s contract.

E. In addition to the Proportional Share described above, the Interested Party shall be responsible for:
1. 100% of the total cost for the non-routine maintenance and major emergency repair of the traffic control device affecting their driveway/private road or the signalized crosswalk. If the entire intersection or signalized crosswalk requires repair, the
Interested Party agrees to pay its Proportional Share of the costs.

2. 100% of the costs of improvements directly related to a site development or expansion of an existing development, rezoning, zoning variance, special permit, or subdivision plat associated with the traffic control device. This shall include, but is not limited to, costs for traffic study, design, and construction. If a background improvement not directly related to a site development or expansion of an existing development, rezoning, zoning variance, special permit, or subdivision plat warrants changes that impact the entire intersection, the Interested Party agrees to pay its Proportional Share.

V. **Annexed Traffic Signal Installations.**
   A. Should a traffic signal or other traffic control device that serves a private driveway, private street, or public street in another political subdivision be annexed into the City of Columbus, the Department of Public Service shall conduct a warrant analysis to determine whether the traffic signal or other traffic control device is warranted.
   B. If the signal or other traffic control device is warranted, the Interested Party shall enter into a Contract according to the requirements of this policy.
   C. If the signal or other traffic control device is not warranted, the Department of Public Service shall recommend the removal of the traffic control device according to Section III above.

VI. **Electricity Cost.**
   The Interested Party shall be contractually responsible for their Proportional Share of the actual electric cost to operate the traffic signal or pedestrian beacon.

VII. **Routine Maintenance Fee Calculation.**
   A. The City of Columbus shall assess an annual maintenance fee intended to cover the routine maintenance of the traffic control device for traffic signals and pedestrian beacons.
B. Annual Routine Maintenance is defined as, but not limited to a "730" and / or "760" type of maintenance call for signal control problems including, but not limited to, minor problems with span, cable, signal-ped heads, push buttons and span mounted signs; minor emergencies; communication failures inside the cabinet; controller malfunctions; cabinet problems (load switches, flasher, conflict monitor, detector units, etc.); bulb outages; testing of the cabinet conflict monitor; and inspections every five (5) years.

C. This fee is not intended to cover:
   1. installation of the traffic control device; or
   2. repairs outside of maintenance and major emergency repairs; or
   3. upgrades to the signal operation.
   Items 1-3 above will be directly billed to the Interested Party in the appropriate percentage of responsibility as identified in the Contract.

D. The calculation of the annual maintenance fee for a traffic control device shall be based upon the age of the signal or pedestrian beacon. See Exhibit A for the fee schedule.
   For illustration purposes: if the Interested Party is responsible for one leg of an intersection and the signal or beacon is installed in 2014, it shall have annual maintenance fee of $377.00 for the first year of service, increasing by 3% per year thereafter. On year five, the annual maintenance fee increases to $802.00, increasing by 3% per year until age 10. On year eleven, the annual maintenance fee shall be $1,268.00, increasing by 3% each year until it is refurbished.

C. If an Interested Party takes over maintenance of a traffic control device from a prior property owner, the Interested Party shall pay the same maintenance fee cost as the prior property owner for the remainder of that calendar year in which the transfer occurred. The maintenance fee for the following calendar year shall be based upon Exhibit A and shall be based upon the age of the signal.
   For illustration purposes: the Interested Party is responsible for one leg of an intersection, the signal or beacon is eight
(8) years old, and the Interested Party takes over in 2014, the maintenance fee amount for 2015 shall be $733.00.

D. The Interested Party shall be contractually responsible for their Proportional Share of the annual maintenance fee cost of the traffic control device as calculated above.

VIII. Invoicing.

The City of Columbus agrees to submit to the Interested Party itemized bills for the recording fee, maintenance fee, electric cost, materials, labor, and equipment used in the operation, maintenance, repair, and upgrade of the traffic control device in/about the first quarter of each year. The amount invoiced for electric cost shall be for the previous year's electric use and the maintenance fee invoice shall be for the current year's cost. Invoicing for repairs outside of maintenance and emergency repairs shall be direct billed as those services are performed.

IX. Failure to Pay.

A. If an Interested Party fails to make payment to the City of Columbus for any of the fees included in this policy or the executed contract within ninety (90) days of the date on the invoice, the City of Columbus may remove or flash the signal head or flashing beacon and install another type of traffic control device. The Interested Party shall be invoiced for cost of removal of the signal head or flashing beacon, other adjustments to the intersection, and installation of a new device.

B. If an Interested Party fails to make payment to the City of Columbus for any of the fees included in this policy or the executed contract within one hundred eighty (180) days of the date on the invoice, the City of Columbus may flash the signal head or remove the mast arm/wire, pole, appurtenances, and traffic signs and install another type of traffic control device. The Interested Party shall be invoiced for cost of removal of the traffic control device, other adjustments to the intersection, and installation of a new device. If the traffic control device is removed by the City of Columbus for nonpayment the City may seek a judgment lien on the property of the total amount due, which may include, but is not limited to: prior amount due, amount due
while invoice is not paid; installation/removal costs outlined above; and attorney and court fees.

X. Revision History.
