Council Variance Application: CV14-012

APPLICANT: Dr. Chris Smiley; c/o Jackson B. Reynolds, III, Atty.; Smith & Hale LLC; 37 West Broad Street, Suite 460; Columbus, OH 43215.

PROPOSED USE: Limited C-2, Office Commercial District uses.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The requested Council variance will expand the permitted uses and remove staffing restrictions approved with Ordinance No. 912-84, passed June 4, 1984 (CV84-054), in the R-1, Residential District. The property is currently being used as an optometry office and is limited to one doctor and 3 additional employees. Limited C-2, Office Commercial District uses are proposed, and no other variances are requested. The site is located within the planning area of the *Northwest Plan (2007)*, and while no specific land use recommendations are provided for this location, the Plan does recommend that infill development be compatible with the existing development. This property has been used as an office for some time and no site changes are proposed. The existing tree rows to the south and west of the parking lot provides a buffer to adjacent residences, and the request includes a commitment that they will be maintained.

To grant a Variance from the provisions of Section 3332.03, R-1, Residential district, of the Columbus City Codes, for the property located at **7801 OLENTANGY RIVER ROAD (43235)**, to permit limited C-2, Office Commercial District uses in the R-1, Residential District, and to repeal Ordinance No. 912-84, passed June 4, 1984 (Council Variance # CV14-012).

WHEREAS, by application No. CV14-012, the owner of property at **7801 OLENTANGY RIVER ROAD (43235)**, is requesting a Council Variance to permit limited C-2, Office Commercial District uses in the R-1, Residential District; and

WHEREAS, Section 3332.03, R-1, Residential district, does not permit commercial uses, while the applicant proposes limited C-2, Office Commercial District uses in the R-1, Residential District within a building that was converted to a medical office as approved by Ordinance No. 912-84, passed June 4, 1984 (CV84-054); and

WHEREAS, the Zoning Staff has reservations about using the Council Variance process to allow thirty-five different C-2 District uses, and believes that it would be more appropriate for the applicant to request a rezoning to an L-C-2, Limited Commercial District; and
WHEREAS, City Departments recommend approval because this property has been used as an office for some time and no site changes are proposed. The existing tree rows to the south and west of the parking lot provides a buffer to adjacent residences, and the request includes a commitment that they will be maintained; and

WHEREAS, said ordinance requires separate submission for all applicable permits for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owner of the property located at 7801 OLENTANGY RIVER ROAD (43235), in using said property as desired; now, therefore:

Need: The Civil Service Commission needs to modify the contract and increase the maximum authorized expenditure in the contract with the Ohio State University for pre-employment physicals and cardiovascular
stress testing of public safety recruits in preparation for Police and Fire Academy classes. This modification is required in order to add funds for upcoming academy classes. Funding is typically added prior to each class beginning in order to avoid tying up money in the event of changes to class dates. Bid Information: In 2013, the City of Columbus Civil Service Commission published a Request for Proposals (SA005185) for these services and accepted proposals through January 8, 2014. Two proposals were submitted; an evaluation committee reviewed these proposals and selected The Ohio State University (Ordinance 0403-2014).

Emergency Designation: Emergency legislation is requested in order to allow sufficient time for the Department of Public Safety to continue to schedule police and fire candidates for upcoming recruit classes.

Contract Compliance Number: 31-6025986, governmental agency, no expiration date.

FISCAL IMPACT: Funding for this service was budgeted in the Civil Service Commission’s 2014 general fund budget.

To authorize and direct the Executive Director of the Civil Service Commission to modify and increase the contract with The Ohio State University for the administration of pre-employment physicals and cardiovascular stress testing of public safety recruits, and to authorize the expenditure of $40,000.00 from the General Fund; and to declare an emergency ($40,000.00).

WHEREAS, the City of Columbus Civil Service Commission initially accepted proposals from qualified companies for medical services; and

WHEREAS, the Civil Service Commission awarded the contract to The Ohio State University; and

WHEREAS an emergency exists in the usual daily operation of the Civil Service Commission, in that it is immediately necessary to modify and increase the contract with Ohio State University in order to continue scheduling public safety recruits in preparation for upcoming academy classes, and thereby preserving the public peace, property, health, safety and welfare; now therefore

Legislation Number: 2124-2014
Drafting Date: 9/11/2014
Current Status: Passed
Version: 1
Matter Type: Ordinance

The purpose of this legislation is to authorize the Director of Public Utilities to modify and increase a service agreement with Environmental Systems Corporation for software support and maintenance for the StackVision DASProtect Sentry for the Division of Sewerage and Drainage.

The DASProtect Sentry is a comprehensive support and maintenance plan for the StackVision and data controller products which are utilized to monitor and report stack emissions of the incinerator smoke stacks at the Jackson Pike and Southerly Wastewater Treatment Plants. This monitoring and reporting of stack emissions helps the treatment plants meet their environmental compliance objectives to remain EPA compliant.

Environmental Systems Corporation is the developer of the software and provides all support and maintenance of the software. This legislation is being submitted in accordance with the pertinent Sole Source provisions of Section 329 of the Columbus City Code.

The combined total of the quotes for the purchase of support and maintenance for both treatment plants has exceeded the $20,000.00 threshold limit. Southerly Wastewater Treatment Plant had already established a purchasing document for their service agreement with the company, for 2014. Due to this fact, when it was time for the Jackson Pike Wastewater Treatment Plant to establish a purchasing document for their annual
service agreement there was not enough funds available under the $20,000 threshold limit. The necessary funding has been established to provide for support and maintenance from March 1, 2014 through July 31, 2014. It is now necessary to establish additional funding for the time period of August 1, 2014 through February 28, 2015.

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.

1. Amount of additional funds: Total amount of additional funds needed for this contract modification No. 1 is $8,036.58. Total contract amount including this modification is $13,777.00.

2. Reason additional funds were not foreseen: Additional funds were foreseen, but due to the fact that the total cost for both Treatment Plants combined exceeds the $20,000.00 threshold limit, a portion of the yearly cost is required to be legislated.

3. Reason other procurement processes were not used: Work under this modification is a continuation of services included in the scope of the original agreement.

4. How was the cost determined: The total cost for the annual support and maintenance for Jackson Pike is $13,777.00. The billing was divided into two periods so that part of the coverage could be established and paid for without delay while the balance of the yearly coverage cost is being legislated.

FISCAL IMPACT: $8,036.58 is needed for this software support and maintenance service agreement. Budgeted funds will be reprioritized to cover the cost of this service agreement.

$34,884.00 was spent in 2013
$27,554.00 was spent in 2012

EMERGENCY DESIGNATION: This ordinance is being submitted as an emergency so as to allow for the payment of the coverage period without delay to avoid the potential of the vendor not providing the necessary software support and maintenance needed to maintain the monitoring and reporting of stack emissions that helps the treatment plants meet their environmental compliance objectives to remain EPA compliant.

To authorize the Director of Public Utilities to modify and increase a service agreement with Environmental Systems Corporation for the purchase of Software Support and Maintenance for the Division of Sewerage and Drainage in accordance with the pertinent provisions of Sole Source procurement of the Columbus City Code, to authorize the expenditure of $8,036.58 from the Sewerage System Operating Fund, and to declare an emergency. WHEREAS, the combined total for the purchase of Software Support and Maintenance for both treatment plants has exceeded the yearly $20,000.00 threshold limit, and

WHEREAS, Southerly Wastewater Treatment Plant has already established a purchasing document with the company, for 2014, and

WHEREAS, due to the $20,000.00 threshold limit Jackson Pike Wastewater Treatment Plant was unable to establish a purchasing document for the entire year. The necessary funding has been established to provide for support and maintenance from March 1, 2014 through July 31, 2014. It is now necessary to modify and increase ED050201 to establish additional funding for the time period of August 1, 2014 through February 28, 2015, and

WHEREAS, Environmental Systems Corporation is the developer of the software and provides the support and maintenance of the software, and

WHEREAS, the Division of Sewerage and Drainage is requesting this agreement to be established in accordance with the pertinent provisions of Sole Source procurement of Section 329 of the Columbus City Code, and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Utilities, Division of Sewerage and Drainage in that it is immediately necessary to modify and increase the service agreement with Environmental Systems Corporation to allow for the payment of the coverage period without delay to avoid the potential of the vendor not providing the necessary software support and maintenance needed to maintain the monitoring and reporting of stack emissions that helps the Jackson Pike Treatment Plant meet its environmental compliance objectives to remain EPA compliant; now, therefore

Legislation Number: 2156-2014
Drafting Date: 9/15/2014  Current Status: Passed
Version: 1  Matter Type: Ordinance

1. BACKGROUND
This ordinance authorizes the Director of Public Service to provide additional funding to the Ohio Department of Transportation (ODOT) for the construction of a northbound lane from Billingsley Road north to
approximately 0.1 mile south of Hard Road, the FRA-Sawmill NB Lane Improvements, (PID 95628) project. The project also includes the resurfacing of Sawmill Road from the I-270 bridge north to Billingsley Road.

Ordinance 1709-2014 authorized the Director of Public Service to provide funds to ODOT prior to ODOT opening bids. If additional funds were needed after the bid opening, the Director of Public Service would seek Council approval for the additional funds. ODOT opened bids in August 2014 and additional city funding is needed to proceed with the project.

2. FISCAL IMPACT
The additional funding needed for the Department of Public Service’s portion of the project is $20,820.00. The total amount the city is contributing through the Department of Public Service is $115,920.00 ($95,100.00 (Ord. 1709-2014) plus $20,820.00 (authorized by this ordinance)). An amendment to the 2014 Capital Improvements fund is necessary for the purpose of providing sufficient spending authority for the aforementioned project expenditure.

3. EMERGENCY DESIGNATION

WHEREAS, the city has partnered with the Ohio Department of Transportation in order to construct improvements on Sawmill Road north of I-270 on the north side of Columbus (FRA-Sawmill NB Lane Improvements, (PID 95628)); and

WHEREAS, it is necessary to provide additional funding to ODOT; and

WHEREAS, it is necessary to authorize an amendment to the 2014 Capital Improvements Budget for the purpose of providing sufficient spending authority for the aforementioned project expenditure; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, in that it is necessary to provide funding at the earliest possible time to ODOT to maintain the project schedule thereby preserving the public health, peace, property, safety and welfare; now therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

BACKGROUND: This legislation is for the option to establish a Universal Term Contract (UTC) for Flygt Pump Parts and Services for the Division of Sewerage and Drainage, the sole user. This contract will provide for purchase of parts and repair services for the maintenance and repair of Flygt pump and mixer systems at the City’s two wastewater treatment plants and the wastewater system managed by the Sewer Maintenance Operations Center. The term of the proposed option contract would be approximately two years, expiring November 30, 2016, with the option to renew for one (1) additional year. The Purchasing Office opened formal bids on September 4, 2014.

The Purchasing Office advertised and solicited competitive bids in accordance with Section 329.06 (Solicitation No. SA005532). Eighty (80) bids were solicited: (M1A-0, F1-2, MBR-2). One (1) bid was received.

The Purchasing Office is recommending award to the overall lowest, responsive, responsible and best bidder as follows:

Xylem Water Solutions USA, Inc., MAJ, CC# 45-208074 expires 03/05/2016, All Items, $1.00 Total Estimated Annual Expenditure: $150,000, Division of Sewerage and Drainage, the sole user

The company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search. This ordinance is being submitted as an emergency because, without emergency action, no less than 37 days will be added to this procurement cycle and the efficient delivery of valuable public services will be slowed.

FISCAL IMPACT: Funding to establish this option contract is from the General Fund. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

WHEREAS, in order to maintain a supply of Flygt Pump Parts and Services, this is being submitted for consideration as an emergency measure; and

**BACKGROUND:** This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Schooley Caldwell Associates for professional architectural and engineering consulting services for the new Front and Long Street building. To bring on a new design firm now would cause unnecessary delays and duplication of work. Prices already established in the contract and negotiation of additional fees was used to determine the cost of this modification.

Background:
This ordinance authorizes the Director of the Recreation and Parks Department to enter into contract with Plan-it Geo for the Tree Canopy Analysis. Funding was previously established by Ordinance 1343-2014 for the management of the Emerald Ash Borer infestation. This analysis will develop a comprehensive canopy report that will clearly convey the current state of Columbus’ tree canopy. The report will also help us to estimate the amount of canopy that has been lost due to the Emerald Ash Borer infestation and the risk of additional canopy loss caused by other invasive pests in the regional area. A lush, diverse and healthy tree canopy is essential to combatting climate change and creating a sustainable community. The largest impact to Columbus’ tree canopy currently is the estimated loss of close to 200,000 ash trees (public and private) due to the Emerald Ash Borer (EAB) infestation.

Bids were advertised through Vendor Services, in accordance with City Code Section 329, on July 11, 2014 and received by the Recreation and Parks Department on August 1, 2014. Bids were received from the following companies:

Background: This ordinance is submitted to settle the lawsuit known as Elizabeth S. Salini, et al. v. City of Columbus, Case No. 14CV-02-1577 in the Franklin County Court of Common Pleas, for the total amount of One Hundred Seventy-Five Thousand Dollars ($175,000.00).

On February 4, 2013, Elizabeth S. Salini suffered permanent physical injury as a result of being struck in the head by a loose brick which was thrown up from a brick crosswalk by a Central Ohio Transit Authority bus traveling north on South High Street. The incident occurred at the intersection of South High Street and East Mound Street in Columbus, Ohio. Plaintiff was standing on the southeast corner of the intersection waiting for the light to change so she could cross High Street. The plaintiffs allege that the City negligently failed to keep the street in repair and to remove obstructions, including loose bricks, from South High Street.

Fiscal Impact: Funds were not specifically budgeted for this settlement, however, sufficient monies are available in the Street Construction Maintenance and Repair Fund (Fund 265) to pay the amount for this purpose.

To authorize and direct the City Attorney to settle the case of Elizabeth S. Salini, et al. v. City of Columbus, pending before the Franklin County Court of Common Pleas; to appropriate $175,000.00 from the unappropriated balance of the Street Construction Maintenance and Repair Fund; to authorize the expenditure of $175,000.00; and to declare an emergency.

WHEREAS, on February 12, 2014, the plaintiffs filed a lawsuit in the Franklin County Court of Common Pleas, Case No. 14CV-02-1577, against the City of Columbus. The plaintiffs alleged that the city negligently failed to keep South High Street in repair and to remove obstructions, thereby causing the incident resulting in
permanent physical injury to plaintiff Elizabeth S. Salini; and,

WHEREAS, following the evaluation of plaintiffs’ claims in the course of litigation, the parties reached an agreement to settle this matter. Due to the dispute of this claim and the risks and uncertainties associated with continued litigation and trial, the settlement amount was deemed acceptable by the City of Columbus, along with dismissal of the lawsuit with prejudice and a release of the City of Columbus from all further liability; and,

WHEREAS, by reason of the foregoing, and in order to meet the timeframe of the agreement and avoid the possible payment of interest, an emergency exists in the usual daily operation of the Department of Public Service and for further preservation of the public health, peace, property, safety and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Section 1. That the City Attorney be and hereby is authorized and directed to settle all claims against the City of Columbus, its officers, agents and employees in the lawsuit of Elizabeth S. Salini, et al. v. The Director of the Department of Public Service shall enter into an original agreement with Dublin for the work included in this project. If the cost of work is greater than the estimate, the Director shall enter into a contract modification for the additional cost and Dublin shall make an additional deposit. Section 5. Covenants and Agreements of City. In addition to the other covenants of the City herein, the City further covenants and agrees as follows:

(a) Authority and Actions. The City is, and upon delivery of the Series 2014 Bonds will be, duly authorized by the Constitution and the laws of the State of Ohio, particularly Article XVIII of the Constitution of Ohio, and by its Charter, to issue the Series 2014 Bonds, to execute and deliver the Series 2014 Bond Purchase Agreement and all other instruments and documents related to such issuance to which it is a party, to provide the security for payment of the Debt Service Charges on the Series 2014 Bonds in the manner and to the extent set forth herein and in the Trust Agreement, all as authorized by the Legislative Authority. All actions on the part of the City for the issuance of the Series 2014 Bonds, and the execution and delivery of the instruments and documents related to such issuance, have been or will be duly and effectively taken. The Series 2014 Bonds will be valid and enforceable special obligations of the City according to the terms thereof.

(b) Payment of Debt Service Charges. The City will, solely from the sources herein or in the Trust Agreement provided, pay or cause to be paid the Debt Service Charges on each and all Series 2014 Bonds on the dates, at the places and in the manner provided herein and the Certificate of Award, in the Trust Agreement and in the Series 2014 Bonds.

(c) Performance of Covenants. The City will faithfully observe and perform at all times all agreements, covenants, undertakings, stipulations and provisions contained in this Ordinance, the Trust Agreement and the Series 2014 Bonds, and in all proceedings of the Legislative Authority pertaining to the Series 2014 Bonds or the Utility. The City represents and warrants that it is duly authorized by the Constitution and the laws of the State of Ohio, particularly Article XVIII of the Constitution of Ohio, to issue the Series 2014 Bonds authorized hereby, to execute the Third Supplemental Trust Agreement and to pledge the Pledged Revenues and the Special Funds (each as defined in the Trust Agreement) in the manner and to the extent herein and in the Trust Agreement set forth; that all actions on its part for the issuance of the Series 2014 Bonds and the execution and delivery of the Trust Agreement have been duly and effectively taken and, if Additional Bonds are issued pursuant hereto, will be duly taken as provided herein and in the Trust Agreement, and that the Series 2014 Bonds in the hands of the holders thereof are and will be legal, valid, and binding special obligations of the City enforceable according to the terms thereof. Each provision of this Ordinance, each Series 2014 Bond and all other documents to be executed by the City in connection with the issuance of the Series 2014 Bonds, is binding upon each officer of the City as may from time to time have the authority under law to take such actions as may be necessary to perform all or any part of the duty required by such provision. Each duty of the City and of its officers and employees undertaken pursuant to the Series 2014 Bonds is established as a duty of the City and of each such officer and employee having authority to perform such duty, specifically enjoined by law, upon the City and each of those officers and employees having authority thereunder or by provision of law to perform the duty, resulting from an office, trust or station, within the meaning of Section 2731.01, Ohio Revised Code, providing for enforcement by writ of mandamus.

(d) Tax-Exempt Bond Provisions. The City hereby covenants that it will comply with the requirements of all existing and future laws which must be satisfied in order that interest on the Series 2014 Bonds is and will continue to be excluded from gross income for federal income tax purposes, including without limitation restrictions on the use of the property financed with the proceeds of the Series 2014 Bonds so that the Series 2014 Bonds will not constitute “private activity bonds” within the meaning of Section 141 of the Internal...
Revenue Code of 1986, as amended (the “Code”). The City further covenants that it will restrict the use of the proceeds of the Series 2014 Bonds in such manner and to such extent, if any, as may be necessary, after taking into account reasonable expectations at the time the debt is incurred, so that they will not constitute arbitrage bonds under Section 148 of the Code and the regulations prescribed thereunder or (the “Regulations”).

The City Auditor or the Director of Finance and Management is hereby authorized and directed (a) to make or effect any election, selection, designation, choice, consent, approval or waiver on behalf of the City with respect to the Series 2014 Bonds as permitted or required to be made or given under the federal income tax laws, for the purpose of assuring, enhancing or protecting favorable tax treatment or the status of the Series 2014 Bonds or interest thereon or assisting compliance with requirements for that purpose, reducing the burden or expense of such compliance, reducing any rebate amount or any payment of penalties, or making any payments of special amounts in lieu of making computations to determine, or paying, any excess earnings as rebate, or obviating those amounts or payments, as determined by the City Auditor or the Director of Finance and Management, which action shall be in writing and signed by the City Auditor or the Director of Finance and Management, or any other officer, including the City Clerk, on behalf of the City; (b) to take any and all actions, make or obtain calculations, and make or give reports, covenants and certifications of and on behalf of the City, as may be appropriate to assure such exclusion of interest from gross income and the intended tax status of the Series 2014 Bonds; and (c) to give an appropriate certificate on behalf of the City, for inclusion in the transcript of proceedings, setting forth the facts, estimates and circumstances, and reasonable expectations of the City pertaining to Section 148 and the Regulations, and the representations, warranties and covenants of the City regarding compliance by the City with Sections 141 through 150 of the Code and the Regulations.

The City Auditor shall keep and maintain adequate records pertaining to investment of all proceeds of the Series 2014 Bonds sufficient to permit, to the maximum extent possible and presently foreseeable, the City to comply with any federal law or regulation now or hereafter having applicability to the Series 2014 Bonds which limits the amount of Bond proceeds which may be invested at an unrestricted yield or requires the City to rebate arbitrage profits (or penalties in lieu thereof) to the United States Department of the Treasury. The City Auditor is hereby authorized and directed to file such reports with, and rebate arbitrage profits (or penalties in lieu thereof) to, the United States Department of the Treasury, to the extent that any federal law or regulation having applicability to the Series 2014 Bonds requires any such reports or rebates, and moneys necessary to make such rebates are hereby appropriated for such purpose. The payment of any rebate arbitrage profits (or penalties in lieu thereof) made to the United States Department of the Treasury shall be authorized and paid from such fund or funds as determined by the City Auditor.

(e) Transcript. The City Auditor or the Director of Finance and Management, or any other officer, including the City Clerk, and each of them acting alone, or any other officer of the City shall furnish to the Original Purchaser a true transcript of proceedings, certified by such officer, of all proceedings had with reference to the issuance of the Series 2014 Bonds, together with such information from the records as is necessary to determine the regularity and validity of the issuance of the Series 2014 Bonds.

(f) Further Assurances. The City shall do all things and take all actions on its part necessary to comply with obligations, duties and responsibilities on its part under the Series 2014 Bond Purchase Agreement and all other instruments and documents related to the issuance of the Series 2014 Bonds to which it is a party. Nothing in this Ordinance, the Series 2014 Bond Purchase Agreement or any instrument and document related to the issuance of the Series 2014 Bonds shall be construed as requiring the City to use any moneys from any source other than Pledged Revenues.

Section 6. Third Supplemental Trust Agreement; Other Documents. In order to further provide for the issuance of and to secure the payment of the principal of and premium, if any, and interest on the Series 2014 Bonds and the performance of the City as provided in this Ordinance, the Series 2014 Bonds and the Trust
Agreement, the Director of Finance and Management and the City Auditor, and either of them alone, are authorized and directed to execute, acknowledge and deliver, as may be appropriate, in the name and on behalf of the City, the Third Supplemental Trust Agreement, substantially in the form on file with the City Clerk and containing such terms, covenants and conditions not inconsistent with this Ordinance as shall be approved by the City Attorney. The Mayor, the Director of Finance and Management, and the City Auditor, and any of them, are hereby authorized to execute on behalf of the City such other documents as shall be in their judgment necessary or appropriate in connection with issuance of the Series 2014 Bonds.

The Director of Finance and Management and the City Auditor, and any other appropriate officer of the City, alone or in conjunction with any of the foregoing, are authorized to execute, deliver and, if applicable, file, for and in the name and on behalf of the City, any certifications, financing statements, assignments and other instruments and documents which are necessary or appropriate to perfect the assignments contemplated in the Trust Agreement, to consummate the transactions contemplated in the Series 2014 Bonds, and to carry out the intent of this Ordinance. Such documents shall be in the form not substantially inconsistent with the terms of this Ordinance, as they in their discretion shall deem necessary or appropriate.

Section 7. **Lien of Pledge Hereunder.** The Pledged Revenues are subject to the lien of the pledge hereunder and under the Trust Agreement without any physical delivery of the Pledged Revenues or further act, and the lien of that pledge is valid and binding against all parties having claims of any kind against the City (irrespective of whether those parties have notice of such pledge), and creates a perfected security interest for all purposes of Chapter 1309, Ohio Revised Code, without the necessity for separation or delivery of the Pledged Revenues or for the filing or recording of the Trust Agreement or any other ordinance, resolution or instrument by which that pledge is created or any certificate, statement or other document with respect to that pledge. The pledge of and lien on the Pledged Revenues under the Trust Agreement shall be effective and the money therefrom and thereof may be applied to the purposes for which pledged without necessity for any further act of appropriation.

Section 8. **Compliance with Open Meeting Requirements.** It is hereby found and determined that all formal actions of this Council concerning and relating to the adoption of this Ordinance were adopted in an open meeting of this Council, and that all deliberations of this Council and of any of its committees that resulted in such formal action, were in meetings open to the public, in compliance with all legal requirements including Section 121.22 of the Ohio Revised Code.

Section 9. **Effective Date.** In accordance with Section 55(b) of the Charter of the City of Columbus, Ohio, this Ordinance shall take effect and be in force from and immediately after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

Revised Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. **Abandoned** - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. **Header dock** - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. **Finger dock** - A secondary dock extension from the header dock.
4. **Mooring** - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. **Ramp** - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. **“I” Dock** - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.
9. “U” Dock - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. Platform Dock - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. Spuds - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. Stake - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. Rip rap - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. Director - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. Structure - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. Building - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. Encroachment - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

Administrative Rules:

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
   d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.
5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special care should be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore) The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.

15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O’Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.
16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director’s determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1.) Submit a new or renewal dock/stake permit application
2.) Submit a signed Responsibility Form
3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:
   i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
   c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private Columbus City Bulletin (Publish Date 10/11/2014)
floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.

25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section.
or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.
A Sign Language Interpreter will be made available provided the Planning Division Office is given a reasonable notice of at least forty-eight (48) hours prior to the scheduled Regular meeting time. To schedule, please call 645-0663. To confirm the meetings, contact staff.
