Permit and Rental Services Section

Revised

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. **Abandoned** - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. **Header dock** - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. **Finger dock** - A secondary dock extension from the header dock.
4. **Mooring** - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. **Ramp** - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. **“I” Dock** - For purposes of these administrative rules, an “I” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. **“T” Dock** - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. **“L” Dock** - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.
9. **“U” Dock** - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. **Platform Dock** - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. **Spuds** - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. **Stake** - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. **Rip rap** - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. **Director** - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. **Structure** - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. **Building** - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. **Encroachment** - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

**Administrative Rules:**

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
   d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.
5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special care should be used when selecting fasteners and hardware. (US ACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore) The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.

15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O’Shaughnessy Reservoirs. Mooring anchors must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.
16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director’s determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1.) Submit a new or renewal dock/stake permit application
2.) Submit a signed Responsibility Form
3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:

   i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
   c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private
floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.

25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section.
or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.

Notice/Advertisement Title: To approve Resolution 14-27 concerning quarantine and isolation authority
RESOLUTION 14-27

To authorize the Health Commissioner of the City of Columbus (“Health Commissioner”) to act on behalf of the Board of Health in administering and enforcing certain provisions of Sections 3707.04 through 3707.32 in situations that do not rise to the level of a public health emergency as defined in Chapter 775 of the Columbus City Health Code as specified herein:

WHEREAS, Section 3707.04 to 3707.32 of the Ohio Revised Code provide authority and establish requirements relating to quarantine and isolation; and

WHEREAS, the Board of Health has primary authority to enforce, within the City of Columbus, the provisions of Sections 3707.04 to 3707.32 of the Ohio Revised Code relating to quarantine and isolation; and

WHEREAS, the need to quarantine and/or isolate a person exposed to and/or suffering from a communicable disease at the time such exposure or infection is confirmed is a circumstance that renders a meeting of the board impractical or impossible; and

WHEREAS, a delay of action until a meeting of the board could occur compromises public health where there is the need to quarantine and/or isolate a person exposed to and/or suffering from a communicable disease at the time such exposure or infection is confirmed; and

WHEREAS, Section 3707.34 of the Ohio Revised Code authorizes the Health Commissioner to act on behalf of the Board of Health in administering the provisions of Sections 3707.04 to 3707.32 of the Revised Code; and

WHEREAS, the Board of Health finds that the adoption of the policy set forth herein is necessary for the public health and is consistent with Section 3707.34 of the Ohio Revised Code; and

WHEREAS, an emergency exists in the usual daily operation of Columbus Public Health in that it is immediately necessary to approve this Resolution No.14-27 so that such plans are enforceable at the earliest possible date, thereby preserving the public health, peace, safety and welfare; now therefore,

BE IT RESOLVED BY THE BOARD OF HEALTH OF THE CITY OF COLUMBUS:

Section 1. That, pursuant to Section 3707.34 of the Ohio Revised Code, this policy is hereby adopted.

Section 2. That any of the reportable diseases classified as “Class A diseases” by Section 3701-3-02(A)(1) of the Ohio Administrative Code are hereby declared by the Board of Health to be quarantinable in the case of a person being exposed to such communicable disease or to be subject to required isolation in the case of a person suspected as being infected with such communicable disease.
Section 3. That the Health Commissioner may determine that after investigating any complaint of communicable disease as identified in Section 2 of this Resolution, an immediate threat to the public health exists but does not meet the standard for declaring a public health emergency, that circumstances make it impractical or impossible to have a meeting of the Board, and/or delaying action until a meeting of the Board would compromise public health.

Section 4. That in those circumstances described in Section 3 of this Resolution, the Health Commissioner is hereby delegated the authority to act on behalf of the Board of Health in administering and enforcing the provisions of Sections 3707.04 to 3707.32 of the Ohio Revised Code regarding quarantine and isolation.

Section 5. That an order of isolation and/or quarantine shall be issued by the Health Commissioner only upon the Health Commissioner's determination that there is no less restrictive and equally efficacious alternative sufficient to protect the health.

Section 6. That actions taken by the Health Commissioner regarding quarantine and isolation shall be consistent with the authority granted the Board of Health by the provisions of sections 3707.04 to 3707.32 of the Ohio Revised Code.

Section 7. That any action taken by the Health Commissioner in accordance with the Policy shall be deemed actions of the Board of Health unless the Board of Health votes to nullify the Health Commissioner’s action.

Section 8. That this Policy may be rescinded by the Board of Health upon a determination by the Board that the authority hereby delegated to the Health Commissioner is no longer necessary.

Section 9. That, as used in the Resolution, the terms Health Commissioner, public health emergency, communicable disease, isolation, and quarantine have the same definition as contained in Chapter 775.01 of the Columbus City Health Code.

Section 10. That this Resolution is being submitted to Columbus City Council for concurrent approval as required by Section 3707.34(B) of the Ohio Revised Code.

Section 11. That this Resolution shall take effect and be in force from and immediately after its passage.
