BE IT FURTHER RESOLVED, that the purpose of this planning effort is to identify methods of strengthening the local food economy with an interest in social justice, through qualitative and quantitative analysis of local food supply and demand. In addition, the planning effort will identify methods of improving healthy food access in areas with limited access. The findings will be used to create linkages between consumers and producers as a long-term, economic development and public health strategy. The Food Action Plan will include data gathering and analysis of local food supply and demand in Columbus and Franklin
County, analysis of common themes present in local food stakeholder groups, and recommendations to strengthen healthy local food access and the local economy. Over the course of 18-24 months, the parties will research census and economic conditions relating to the local food industry, research existing local food policies and documents, conduct stakeholder interviews, survey stakeholders, and develop recommendations to strengthen the local food system.

($95,800.00)

WHEREAS, the Division of Sewerage and Drainage has a need to purchase a Lateral TV Camera Inspection System. WHEREAS, Best Equipment Co. is the sole source provider for all families of Envirosight video pipeline inspection equipment and software in the State of Ohio, and

WHEREAS, it has become necessary in the usual daily operation of the Department of Public Utilities, Division of Sewerage and Drainage, to authorize the Director of Finance and Management to establish a sole-source contract with Best Equipment Co. for the purchase of a Lateral TV Camera Inspection System, for the preservation of public health, peace, property and safety; now, therefore,

SECTION 3. That the expenditure of $95,800.00 or so much thereof as may be needed, be and the same hereby is authorized from the Sewerage Operating Fund, Fund No. 650 as follows:

OCA: 605089

SECTION 4. That this Ordinance shall take effect and be in force from and after the earliest period allowed by law.
Big Walnut Creek Water Quality Partnership, to apply for a grant through the USDA for funding to improve water quality and soil quality in the Scioto River watershed. The Department of Public Utilities, Division of Water, has been offered an opportunity to participate in this grant-funded project through the contribution of a total of $187,000.00. The contribution includes $20,000 per year for five (5) years in the form of cash and $87,000 worth of research, analysis and other expertise through the Division of Water, Watershed Masterplan development.

The Department of Public Utilities is requesting Council’s approval to enter into this partnership agreement once the grant is awarded (contingent upon affirmative award from USDA). The cost break-down is as follows: $20,000.00 (cash) per year for 5 years and $87,000.00 in in-kind match will be provided through the Watershed Master Plan process.

The five annual $20,000.00 payments will be on a year-to-year basis contingent on budget approval each year by Columbus City Council. Because the amount is $20,000, legislation is not required for the annual payments and will be paid through a purchase order and invoice. The Delaware County Soil and Water Conservation District will invoice the Division of Water annually in the amount of $20,000. The results of this project/study will help the Department of Public Utilities assess the effectiveness of new technology being developed to address water quality challenges presented by nutrient run-off into the source waters of Hoover and O'Shaughnessy reservoirs. The project will also facilitate implementation of conservation practices to reduce agricultural nutrient runoff.

This project will include the installation of two enriched bioreactors, one upstream of O'Shaughnessy Reservoir and one upstream of Hoover Reservoir. Monitoring and lab analysis of the two bioreactors will be conducted throughout the five year project. The use of Environmental Quality Incentives Program (EQIP) practices that promote best management practices for phosphorus use and management in the Upper Big Walnut Creek watershed (Delaware, Knox, Licking, and Morrow counties) are the third component of the project.

This project is to address Ohio’s State Level Priority Resource Concerns of water quality and soil quality, specifically phosphorus levels in Delaware County. The City of Columbus is concerned that phosphorus input into its reservoirs will continue to adversely affect water quality of the city's supply. O'Shaughnessy and Hoover reservoirs also contribute to the quality of life for local citizens through their scenic landscapes and myriad opportunities for recreation and wellness, all of which are dependent upon the caliber of the water.

**FISCAL IMPACT:** Starting in January 2015, the Department of Public Utilities will provide $20,000.00 annually in cash from the Water Operating Fund for 5 years (totaling $100,000.00) and $87,000.00 in in-kind contributions through the Watershed Master Plan process and other work by Division of Water employees. The division will monitor and track the cost of the in-kind contribution. This request is two-fold, to request the approval of Columbus City Council to authorize the Director of Public Utilities to enter into the partnership with DCSWCD and to fund the first year cash payment in the amount of $20,000.00. Because the future payments will be $20,000 each, legislation is not required for the annual payments and will be paid through a purchase order and invoice.

To authorize the Director of Public Utilities to participate as a grant match provider for a USDA Regional Conservation Partnership Program (RCPP) Grant being applied for and administered by the Delaware County Soil and Water Conservation District to research and “Promote Best Management Practices for Phosphorus” within the Central Ohio watershed; to authorize the expenditure of $20,000.00 for year one from the Water Operating Fund ($20,000.00).
WHEREAS, the Delaware County Soil and Water Conservation District has applied for a USDA Natural Resources Conservation Service Regional Conservation Partnership Program (RCPP) Grant and has invited the Department of Public Utilities to participate in the project by providing $20,000.00 a year for five (5) years in cash match and $87,000.00 in in-kind contributions to assist with research in the source water watershed for Columbus; and

WHEREAS, the research done through this grant will provide the Department of Public Utilities, Division of Water, with five years of data to help evaluate options to address phosphorus run-off from agricultural activity which directly impacts the watershed which provides source water to the Central Ohio area; and

WHEREAS, because the annual payments will be $20,000, no additional legislation will be required and payments will be made through a purchase order and invoice, and

WHEREAS, it is necessary to authorize the Director of Public Utilities to expend these funds to the Delaware County Soil and Water Conservation District for the purpose of participating in the Promoting Best Management Practices for Phosphorus project; Now, Therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Public Utilities be and hereby is authorized to enter into an agreement to provide matching funds for the Regional Conservation Partnership Program Grant obtained by the Delaware County Soil and Water Conservation District, to provide project funds in the amount of $20,000.00 per year for the next five years contingent on the approval of appropriations by Columbus City Council and $87,000.00 in in-kind contributions to the project.

SECTION 2. That the amount of $20,000.00 be payable to the Delaware County Soil and Water Conservation District located at 557 A. Sunbury Rd. Delaware, OH 43050-8656, for the Promoting Best Management Practices for Phosphorus project.

This legislation authorizes the Director of Public Utilities to execute Contract Modification No. 9 to the Organic Waste Processing Agreement between the City of Columbus (City), Kurtz Brothers Central Ohio, LLC (Kurtz) and the Solid Waste Authority of Central Ohio (SWACO).

This Modification No. 9 will fund the following provisions and services to this contract. Modification No. 9...
will be in effect from December 1, 2014 to and including November 30, 2015.

**A. Trucked Waste Disposal Facility:**
Grant Kurtz Brothers Central Ohio, LLC the authority to design their facility to include the process of accepting trucked waste in addition to the fats, oils and grease (FOG) that they will be accepting under the terms of the original agreement. In so much as Kurtz was constructing a similar facility to the one operated by the Division of Sewerage and Drainage (DOSD) in the vicinity of Berliner Park, both parties agreed that it would be in their best interests to share a facility to accommodate both efforts thereby reducing costs and a duplication of services. This facility will be operated and maintained by Kurtz under the terms of this agreement.

**B. Incinerator Ash Beneficial Reuse Program:**
Grant Kurtz Brothers Central Ohio, LLC the authority to continue a beneficial reuse program for wastewater treatment incinerator ash that is generated by the City's two wastewater treatment plants. Ash has been historically stored at the treatment plants in lagoons and land filled at considerable expense to DOSD. This program will allow for up to 9,972.3 tons of wastewater treatment incinerator ash a year to be removed and adapted for beneficial reuse under this provision, at a rate of $30.97 per ton, which is less than the current land filling cost to the City.

**C. Fixed Rate Sewerage Sludge Processing Term:**
Continue a fixed rate fee of $33.50 per wet ton of sewerage sludge processing for the duration of this contract (10 + 5 year extension). This contract authorizes the transfer to the Organic Waste Recovery and Reuse System of up to 25,000 wet tons of sewerage sludge per year at this rate. This contract will provide DOSD with an additional beneficial alternative use option for sewerage sludge.

1. **Amount of additional funds:** The amount of additional funds needed for this contract is $1,146,342.00. The original contract was established without funding. The total City cost of the original contract and all modifications is $4,947,017.00. This modification represents an extension of the contract period of December 1, 2014 through and including November 30, 2015.

2. **Reason for additional funds was not foreseen:** The need for additional funds was foreseen, an extension is provided in the original contract. Drafting Date:  10/28/2014
Current Status:  Passed
Version:  1
Matter Type:  Ordinance

The purpose of this legislation is to authorize the Director of Public Utilities to modify and extend an existing
agreement with AEP Retail Energy for electric power costs services associated with the water treatment
process.

The City of Columbus, Division of Water is a retail customer with AEP Ohio and owns a water treatment
infrastructure that is metered and billed by AEP Ohio. AEP Retail Energy is a competitive retail electric
service provider and affiliate of AEP Ohio. The Division of Water has coordinated with AEP Retail Energy to
reduce the power cost associated with the water facilities on the AEP Ohio system. By switching the
generation and transmission of the water treatment infrastructure on the AEP Ohio system to AEP Retail
Energy in 2011, the Division of Water reduced the cost power per megawatt hour (MWh) from $81.52 to
$62.75 for an approximate 40 month savings of $925,000.00. AEP Ohio continues to charge the Division of
Water for distribution and customer charges. All contractual information has been reviewed and approved by
the City Attorney's Office. The Department of Public Utilities feels it is in the best interest of the City of
Columbus to modify and extend this agreement with AEP Retail Energy to take advantage of the power cost
savings. This ordinance is being submitted as an emergency so that the department will not have interruption in
the agreement and will be able to continue to take advantage of the cost savings to the Division of Water.

extend the existing agreement for an additional 40 months beginning January 2015.

2. Reason additional needs were not foreseen: This is a planned modification to be completed prior to the
January 2015 expiration date.

3. Reason other procurement processes not used: This is a continuation of the current agreement that
benefits the Division of Water and its ratepayers by reducing the megawatt hour cost for an approximate
annual savings of over $900,000.00.

4. How was cost determined: This planned modification does not cost the Division of Water any funds.

FISCAL IMPACT: No funding is required for this contract

To authorize the Director of Public Utilities to modify and extend the existing agreement due to expire in
January 2015 with AEP Retail Energy for power costs associated with the water treatment process and to
declare an emergency.

WHEREAS, The City of Columbus, Division of Water is a retail customer with AEP Ohio and electric power

Legislation Number: 2561-2014
Drafting Date: 10/29/2014
Version: 1

1. BACKGROUND
The purpose of this ordinance is to amend Ordinance 1970-2014 in order to add additional funding to the
original ordinance and correct the original wording.

The purpose of Ordinance 1970-2014 was to authorize the Director of Public Service to enter into contracts
and issue purchase orders in the amount of up to $52,000.00 to replace the security system and overhead doors
at the Department of Public Service’s facility at 1800 E. 17th Avenue.

The reason that Public Service is requesting this amendment is that the original proposal dated July 15, 2013,
from Matrix Systems is superseded by a revised proposal dated October 28, 2014, as costs have changed since
the issuance of the original proposal. Due to the increase in costs, it is necessary to amend the amount of the
original ordinance from $52,000.00 to $60,000.00. Also, the project will no longer replace the overhead doors
but will have damaged components replaced consisting of but not limited to: motors, sensors, etc.

2. FISCAL IMPACT
The new projected cost for the project is $60,000.00, an increase of $8,000.00 above the original estimate of
$52,000.00. Funds are available for this project in the Street and Highway Improvement Fund within the
Department of Public Service. Amendment to the 2014 Capital Improvements Budget is necessary to establish
sufficient cash and authority in the proper project.

3. EMERGENCY DESIGNATION
Emergency action is requested so building security can be restored to full capability without delay.
To amend Ordinance 1970-2014 in order to add funds to the project and to clarify language; and to declare an emergency. ($8,000.00)

WHEREAS, Ordinance 1970-2014 authorized the Director of Public Service to enter into contracts and issue purchase orders in the amount of up to $52,000.00 to replace the security system and overhead doors at the Department of Public Service’s facility at 1800 E. 17th Avenue; and

WHEREAS, after passage of Ordinance 1970-2014 it was determined manufacturer price hikes caused an increase in costs to the project and the overhead doors did not need to be replaced but were to be repaired; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service in that additional funds should be authorized immediately so that building security can be restored to full capability without delay, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

The existing security system is not functioning and must be replaced. Damaged overhead door components will also be replaced as part of the security system project. Council Variance Application: CV14-048

APPLICANT: Guy Williams Jr.; c/o David L. Hodge, Atty.; Smith & Hale, LLC; 37 West Broad Street, Suite 460, Columbus, OH 43215.

PROPOSED USE: Mixed residential development with reduced standards.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. This site is comprised of eight separate lots that have been recently zoned AR-1, Apartment Residential District, and is subject to Ordinance No. 1593-2014 (CV14-016) which allowed mixed residential development (1-4 unit buildings) with reduced development standards in two sub areas (36 total units). The requested Council variance will replace three (3) three-unit dwellings with three (3) four-unit dwellings, but will reduce the total number of bedrooms. The site plan is virtually the same as approved with Ordinance No. 1593-2014. The new proposal is for thirty-nine (39) total units: four (4) four-unit dwellings, six (6) two-unit dwellings, and one (1) single-unit dwelling on one lot (Sub Area 1), and a three-unit dwelling and a two-unit dwelling per lot for two separate lots (Sub Area 2). A variance is necessary because the AR-1 District does not permit single- and two-unit dwellings within a multiple dwelling development, nor does it allow two dwellings on one lot. Other variances include fronting on a public street for rear dwellings, and reductions to building lines, perimeter yard, and parking lot landscaping and screening. The site is located within the planning area of the Fifth by Northwest Neighborhood Plan (2009), which recommends mixed-use development for this location. Staff finds that the proposal meets the Plan’s considerations, and believes that it will not add incompatible uses since there have been variances already granted to the applicant in this area for similar developments.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.21, Landscaping and screening; 3312.25, Maneuvering; 3312.29, Parking space; 3333.055, Exception for single- or two-family dwelling; 3333.09, Area requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard permitted; 3333.24, Rear yard; 3333.25, Side or rear yard obstruction; and 3333.255, Perimeter yard, of the Columbus City Codes; for the property located at 1397 CHAMBERS ROAD (43212), to permit the construction of one-, two-, three-, and four-unit dwellings with reduced development standards in the AR-1, Apartment Residential District, and to repeal Ordinance No. 1593-2014, passed on July 21, 2014 and to declare an emergency (Council Variance # CV14-048).

WHEREAS, by application No. CV14-048, the owner of property at 1397 CHAMBERS ROAD (43212), is requesting a Council Variance to permit one four (4) four-unit dwellings, three three-unit dwellings, six two-unit dwellings, and one (1) one-unit dwelling on one lot (Subarea 1), and a three-unit dwelling and a two-unit dwelling per lot for two separate lots (Subarea 2), with reduced development standards in the AR-1, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-12, ARLD and AR-1, Apartment residential district use, permits a minimum of three (3) three- or four-unit dwellings as a multiple dwelling development on one lot, while the applicant proposes to construct four (4) four-unit dwellings, six (6) two-unit dwellings, and one (1) single-unit dwelling on one lot (Subarea 1), and a three-unit dwelling and a two-unit dwelling per lot for two separate lots (Subarea 2); and
WHEREAS, Section 3312.21, Landscaping and screening, requires parking lots to have screening within 80 feet of residentially zoned property, while the applicant proposes no screening of the proposed parking lots in both Subareas; and

WHEREAS, Section 3312.25, Maneuvering, requires parking spaces to have sufficient access and maneuvering area on the lot where the parking spaces are located, while the applicant proposes to allow maneuvering over property lines for Lots 1 and 2 in Subarea 2; and

WHEREAS, Section 3312.29, Parking space, requires that a parking space shall be a rectangular area of not less than nine (9) feet by eighteen (18) feet, while the applicant proposes three (3) parking spaces that are 8.5 feet wide on Lot 1 in Subarea 2; and

WHEREAS, Section 3333.055, Exception for single- or two-family dwelling, allows one (1) one-unit dwelling or one (1) two-unit dwelling on a lot platted on or before January 14, 1959, while the applicant proposes to construct a three-unit dwelling and a two-unit dwelling on each lot in Subarea 2; and

WHEREAS, Section 3333.09, Area requirements, requires a minimum lot width of fifty (50) feet in the AR-1, Apartment Residential District, while the applicant proposes to maintain lot widths in Subarea 2 of forty-five (45) feet for Lot 1 and forty (40) feet for Lot 2; and

WHEREAS, Section 3333.16, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for the rear dwellings in both Subareas; and

WHEREAS, Section 3333.18, Building lines, requires the building setback to be twenty-five (25) feet from Chambers Avenue, while the applicant proposes a building line of thirteen (13) feet for Subarea 1 and 14.6 feet in Subarea 2; and

WHEREAS, Section 3333.23(d), Minimum side yard permitted, requires the side yard to be equal to one-sixth of the height of the building where it exceeds two and one-half stories in height, or seven (7) feet for a forty-two foot high building, while the applicant proposes minimum side yards in Subarea 2, Lot 1 of six (6) feet on the east side for the front dwelling, and four (4) feet on the east side for the rear dwelling; and in Subarea 2, Lot 2 of five (5) feet on the east side and three (3) feet on the west side for the front dwelling, and six (6) feet on the east side for the rear dwelling; and

WHEREAS, Section 3333.24, Rear yard, requires that each dwelling, apartment house, or other principal building shall be erected so as to provide a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes reduced rear yards in Subarea 2 of fourteen (14) percent on Lot 1 and sixteen (16) percent on Lot 2 twenty-two (22) percent for both lots; and

WHEREAS, Section 3333.25, Side or rear yard obstruction, requires side and rear yards to be unobstructed, while the applicant proposes to allow parking in the proposed side and rear yards in Subarea 2; and

WHEREAS, Section 3333.255, Perimeter yard, requires a twenty-five (25) foot perimeter yard for a multiple dwelling development, while the applicant proposes a zero (0) to three (3) foot perimeter yard in Subarea 1 as shown on the Site Plan; and

WHEREAS, the Fifth By Northwest Area Commission recommends approval; and
WHEREAS, City Departments recommend approval because the requested variance to allow carriage house development meets the Fifth by Northwest Neighborhood Plan density and design considerations. The proposal will not add incompatible uses since there have been variances already granted to the applicant in this area for similar developments. Staff views the variances to allow one- and two-unit buildings and to permit dwellings without frontage on a public street as technicalities which will have no negative effect on the development or the surrounding area. The loss of green space within the proposed development is being offset by the applicant designating 2,680 square feet as open space in Subarea 1; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1397 CHAMBERS ROAD (43212), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.21, Landscaping and screening; 3312.25, Maneuvering; 3312.29, Parking space; 3333.055, Exception for single- or two-family dwelling; 3333.09, Area requirements; 3333.16, Fronting on a public street; 3333.18, Building lines; 3333.23(d), Minimum side yard permitted; 3333.24, Rear yard; 3333.25, Side or rear yard obstruction; and 3333.255, Perimeter yard, of the Columbus City Codes, is hereby granted for the property located at 1397 CHAMBERS ROAD (43212), insofar as said sections prohibit one and two-unit dwellings and two dwellings on one lot; with no parking lot screening; maneuvering over property lines for parking spaces in Subarea 2; parking spaces that are 8.5 feet wide in Subarea 2; reduced lot widths of forty (40) and forty-five (45) feet in Subarea 2; rear dwellings having no frontage on a public street; reduced building lines from twenty-five (25) feet to 13.5 feet in Subarea 1 and to 14.5 feet in Subarea 2; reduced minimum side yard from seven (7) feet to six (6) feet on the east side and five (5) feet on the west side for the front dwelling, and four (4) feet on the east side for the rear dwelling for Subarea 2, Lot 1, and to five (5) feet on the east side and three (3) feet on the west side for the front dwelling, and six (6) feet on the east side for the rear dwelling for Subarea 2, Lot 2; reduced rear yards in Subarea 2 of fourteen (14) percent on Lot 1 and sixteen (16) percent on Lot 2 twenty-two (22) percent; parking in the proposed side and rear yards in Subarea 2; and a reduced perimeter yard from twenty-five (25) feet to between zero (0) and three (3) feet in Subarea 1; said property being more particularly described as follows:

Legislation Number: 2625-2014
Drafting Date: 11/5/2014
Current Status: Passed
Version: 2
Matter Type: Ordinance

Council Variance Application: CV14-049

APPLICANT: Metropolitan Holdings LLC; c/o David L. Hodge, Atty.; Smith & Hale, LLC; 37 West Broad Street, Suite 460, Columbus, OH 43215.

PROPOSED USE: Mixed residential development with reduced standards.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site is developed with single and multi-unit dwellings and zoned AR-1, Apartment Residential District, and is subject to Ordinance No. 1546-2014, passed on July 21, 2014 (CV14-015), which allowed mixed residential development (1-4 unit buildings) with reduced development standards in two sub areas (35 total units). The requested Council variance will replace three (3) three-unit dwellings with two (2) four-unit dwellings and two (2) two-unit dwellings, but will reduce the total number of bedrooms. The site plan is virtually the same as approved with Ordinance No. 1546-2014. The new proposal is for four (4) four-unit dwellings, eight (8) two-unit dwellings.
and two (2) single-unit dwellings for a total of 34 units in Subarea 1. Additionally, an existing four-unit dwelling is included in this request, and is a part of Subarea 2. A variance is necessary because the AR-1 District does not permit single- and two-unit dwellings within a multiple dwelling development. Other variances include fronting on a public street for rear dwellings, and reductions to building lines, perimeter yard, and parking lot landscaping and screening. The site is located within the planning area of the *Fifth by Northwest Neighborhood Plan* (2009), which recommends mixed-use development for this location. Staff finds that the proposal meets the Plan’s considerations, and believes that it will not add incompatible uses since there have been variances already granted to the applicant in this area for similar developments. It is both staff's and the applicant's understanding that if additional parcels in this area are zoned for similar developments, the applicant will be required to provide community open space as part of the new proposals.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD and AR-1, Apartment residential district use; 3312.21, Landscaping and screening; 3312.49, Minimum number of parking spaces required; 3333.09, Area requirements; 3333.16, Fronting; 3333.18, Building lines; 3333.25, Side or rear yard obstruction; and 3333.255, Perimeter yard of the Columbus City Codes; for the property located at 1506 CHESAPEAKE AVENUE (43212), to permit the construction of one-, two-, and four-unit dwellings with reduced development standards in the AR-1, Apartment Residential District, and to repeal Ordinance No. 1546-2014, passed on July 21, 2014 and to declare an emergency (Council Variance # CV14-049).

WHEREAS, by application No. CV14-049, the owner of property at 1506 CHESAPEAKE AVENUE (43212), is requesting a Council Variance to permit four (4) four-unit dwellings, eight (8) two-unit dwellings and two (2) single-unit dwellings on one lot (Subarea 1), and a four-unit dwelling on a separate lot (Subarea 2), with reduced development standards in the AR-1, Apartment Residential District; and

WHEREAS, Section 3333.02, AR-12, ARLD and AR-1, Apartment residential district use, permits a minimum of three (3) three- or four-unit dwellings as a multiple dwelling development on one lot, while the applicant proposes to construct four (4) four-unit dwellings, eight (8) two-unit dwellings and two (2) single-unit dwellings on one lot Subarea 1; and

WHEREAS, Section 3312.21, Landscaping and screening, requires parking lots to have screening within 80 feet of residentially zoned property, while the applicant proposes no screening of the proposed parking lot in Subarea 1; and

WHEREAS, Section 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces per unit for four (4) or more dwelling units for a total of six (6) required spaces, while the applicant proposes to provide a total of three (3) parking spaces in Subarea 2; and

WHEREAS, Section 3333.09, Area requirements, requires a minimum lot width of fifty (50) feet in the AR-1, Apartment Residential District, while the applicant proposes to create a lot with a width of forty-nine (49) feet in Subarea 2; and

WHEREAS, Section 3333.16, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for rear dwellings in Subarea 1; and

WHEREAS, Section 3333.18, Building lines, requires the building setback to be twenty-five (25) feet from Chesapeake Avenue, while the applicant proposes a building line of twelve (12) feet for Subarea 1; and

WHEREAS, Section 3333.25, Side or rear yard obstruction, requires side and rear yards to be open to the sky.
WHEREAS, Section 3333.255, Perimeter yard, requires a twenty-five (25) foot perimeter yard for a multiple dwelling development, while the applicant proposes a perimeter yard that varies between zero (0) feet and three (3) feet in Subarea 1 as shown on the Site Plan; and

WHEREAS, the Fifth By Northwest Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the request to reconfigure the approved site plan remains compatible with the Fifth by Northwest Neighborhood Plan (2009), which recommends mixed-use development for this area and includes recommended design guidelines for future residential development. Staff finds that the proposal meets the Plan’s considerations, and believes that it will not add incompatible uses to the area since there have been variances already granted to the applicant along Chesapeake Avenue for similar developments. It is both staff's and the applicant's understanding that if additional parcels in this area are zoned for similar developments, the applicant will be required to provide community open space as part of the new proposals; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1506 CHESAPEAKE AVENUE (43212), in using said property as desired; and

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore:

BACKGROUND: As a result of a Request For Proposal process in accordance with Section 329.14 of the Columbus City Codes, three medical insurance bid responses were reviewed by the City's Evaluation Committee, comprised of five members.

Each proposal was evaluated on the following criteria as required by section 329.14: competency to perform, quality and feasibility of the offerors technical proposal, ability to perform the required service competently, past performance, and the cost structure of the proposal. United Healthcare is recommended as the medical insurance benefits administrator. United Healthcare has provided excellent services for the City of Columbus and has guaranteed a three year administrative rate. The medical insurance plan administrative rate of $28.93 per employee per month is effective February 1, 2015 until January 31, 2016. United Healthcare offers the ability to continue to duplicate negotiated benefits.

To maintain insurance programs in accordance with the negotiated labor contracts, additional funding of the medical insurance program is necessary to insure continuation of the medical insurance program. Cost estimates were based on 2013-14 trust fund expenditures using a three year average of actual city utilization, expected changes due to union negotiations, as well as input from insurance carriers and from the City's employee benefits consultant. The contract is for a three-year period, subject to annual appropriation.

Emergency action is requested to ensure the medical insurance program for city employees is able to commence as soon as contractually possible, thereby maintaining continuity of service.

Contract compliance number is 41-1289245

BACKGROUND: This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Feinknopf Macioce Schappa Architects for professional architectural and engineering consulting services for various city renovation projects. This serves as a blanket contract for renovations to city and building components, and plan review services. Ordinance No. 0510-2014, passed by City Council on March 26, 2014, authorized the original contract for professional architectural and engineering consulting services for various city renovation projects.

This modification authorizes additional funding for the blanket contract for renovations to city building and building components. A blanket contract is an efficient mechanism by which smaller renovation projects can be more efficiently scoped and bid. Actual construction projects designed under this contract come back to Council for authorization. It is practical and cost effective for ongoing coordination and planning to modify this contract with Feinknopf Macioce Schappa Architects. It would not be in the best interests of the city to go with another vendor at this time.

Emergency action is requested so that needed renovations within the city may be designed and/or assessed as quickly as possible.

Feinknopf Macioce Schappa Architects Contract Compliance No. 31-1284919, expiration date November 12, 2015.

Fiscal Impact: The cost of this contract is $150,000.00. This legislation authorizes the expenditure of $75,000.00 from the Construction Management Capital Improvement Fund and $75,000.00 from the Safety Voted Bond Fund, for a total expenditure of $150,000.00.

To amend the 2014 Capital Improvement Fund; to authorize the City Auditor to transfer funds within the Construction Management Capital Improvement Fund and the Safety Voted Bond Fund; to authorize the Director of Finance and Management to modify a contract on behalf of the Office of Construction Management with Feinknopf Macioce Schappa Architects for professional architectural and engineering consulting services for various city renovation projects; to authorize the expenditure totaling $150,000.00 from the Construction Management Capital Improvement Fund and the Safety Voted Bond Fund; and to declare an emergency. ($150,000.00)

WHEREAS, it is necessary to amend the 2014 Capital Improvement Budget and to transfer cash between projects within the Construction Management Capital Improvement Fund and the Safety Voted Bond Fund; and
WHEREAS, Ordinance No. 0510-2014, passed by City Council on March 26, 2014, authorized the original contract for professional architectural and engineering consulting services for various city renovation projects; and

WHEREAS, the Finance and Management Department, Office of Construction Management, desires to modify a contract with Feinknopf Macioce Schappa Architects for general architectural and engineering consulting services for various city renovation projects; and

WHEREAS, an emergency exists in the usual daily operation of the Finance and Management Department, Office of Construction Management, in that it is immediately necessary to authorize the Finance and Management Director to modify a contract with Feinknopf Macioce Schappa Architects for professional architectural and engineering services for various necessary renovation projects within the city, so that needed renovations may be accomplished as quickly as possible; thereby preserving the public health, peace, property, safety, and welfare; now, therefore:

BACKGROUND: In 1984, the City responded to concerns raised by Ohio Environmental Protection Agency (EPA) and Federal Occupational Safety and Health Administration (OSHA) regarding potential exposures to employees at the City Trash Burning Power Plant. The City began testing employees at the Columbus Department of Health. In particular, the Occupational Clinic provided medical surveillance examinations, pre-placement examinations, immunizations, health and fitness assessments, clearance for respirator wear, assessment of workers’ fitness for duty, consultation, hearing conservation training and audiometric testing.

In 2006, the Department of Health became Columbus Public Health. The entity’s primary focus is monitoring community health status, identifying and addressing public health threats, enforcing laws that protect the public's health and providing services to prevent and control disease. In the face of this change, and to provide focused and coordinated occupational safety and health medical services in accordance with the federal Public Employment Risk Reduction Program (PERRP), OSHA and the state Bureau of Workers Compensation (BWC), the City of Columbus shifted the operations of employee occupational safety and health medical services from Columbus Public Health to the Department of Human Resources.

Currently, the Occupational Safety and Health Clinic provides surveillance exams to City employees at risk and appropriate follow up; identifies occupationally related disease or disability; assists in rehabilitation activities; determines fitness and suitability for assigned work; promotes and maintains federal OSHA compliance; promote health, wellness and quality of life by preventing and controlling disease/injury; provides assistance in injury care activities and in rehabilitation activities; and provides educational and/or training programs promoting employee wellness and safe work practices.

September 1, 2011 was the bid opening. The Proposal Evaluation Committee included 5 members. Two vendors submitted proposals and each were interviewed. Those proposals were evaluated based on the following criteria: Ability of Offeror to Perform Required Service Competently and Expeditiously (20 points possible); Past Performance of Offer (20 points possible); Environmentally Preferable Factor (15 points possible); Cost or Pricing Structure of Offeror Proposal (25 points possible).

This ordinance authorizes and directs the Director of Human Resources to modify and extend the current contract for occupational safety and health medical services for the City of Columbus with Mount Carmel Occupational Health and Wellness, and to authorize the expenditure of $339,935.00 to be paid out of the employee benefits fund in the Human Resources Department. The contract is for a five-year period, subject to annual appropriation; this ordinance represents the fourth year. This contract will be for a period of 13 months. BACKGROUND: Ord. No. 1489-2014, approved by City Council on July 21, 2014, authorized the Department of Technology (DoT), and Columbus Public Health (CPH) to enter into an agreement with NextGen Healthcare Information Systems, LLC ("NextGen") for provisioning, hosting and ongoing support of an electronic medical record system at CPH’s 240 Parsons Avenue facility. The hosted NextGen system enables CPH to operate five major clinical operations and provides for an extensive array of services. The software enables patient registration, appointment scheduling, monitoring and tracking of patient test results, creation and processing of electronic medical records, and generation of reports to help manage clinic operations.

This is the first year that the city has purchased services directly from NextGen. This new relationship was necessary in order for CPH to obtain needed functionality necessary to comply with federal and state laws. Subject to mutual agreement and approval of proper city authorities, the agreement includes options to renew for four (4) additional one year terms. The total cost associated with the first year of this agreement is $440,651.80, which includes $139,933.00 for the first year of support and hosting (a reoccurring cost).

This ordinance authorizes a modification to that contract (Contract No. EL016123) to provide for additional users and to cover additional expenses associated with the conversion of data from our old system. This need for additional users and data conversion services was not known at the time of the original agreement, so the need for this modification could not be foreseen. The cost for these additional services will not exceed $20,000.00. The total cost of the contract will increase to an amount not to exceed $460,651.80.

The Contract Compliance No. for NextGen Healthcare Information Systems, LLC, is 330702959 and expires 06/13/2016. This ordinance is submitted as an emergency in order to ensure that additional user licenses are available to staff as soon as possible and to avoid any further delays in the conversion of data.

FISCAL IMPACT: Funding for this $20,000.00 modification is budgeted and available within the Special Purpose Fund, Fund Number 223, Subfund Number 310. The total cost of the contract after this modification will be $460,651.80.

To authorize the Directors of the Departments of Technology and Columbus Public Health to modify and increase a contract with NextGen Healthcare Information Systems, LLC to provide for additional user licenses and data conversion services; to authorize the expenditure of $20,000.00 from the Special Purpose Fund; and to declare an emergency ($20,000.00).

WHEREAS, Ord. No. 1489-2014, approved by City Council on July 21, 2014, authorized the Department of Technology (DoT), and Columbus Public Health (CPH) to enter into an agreement (Contract No. EL016123) with NextGen Healthcare Information Systems, LLC ("NextGen") for provisioning, hosting and ongoing support of an electronic medical record system at CPH’s 240 Parsons Avenue facility

WHEREAS, the Department of Technology (DoT) and Columbus Public Health have a need to modify and increase said contract with NextGen Healthcare Information Systems, LLC to provide for additional user licenses and data conversion services; and

WHEREAS, this ordinance is submitted as an emergency in order to ensure that additional user licenses are
available to staff as soon as possible and to avoid any further delays in the conversion of data; and

WHEREAS, an emergency exists in the usual daily operation of the city in that it is immediately necessary to modify and increase an existing contract with NextGen Healthcare Information Systems, LLC, for additional user licenses and data conversion services for Columbus Public Health, to avoid service interruptions, thereby preserving the public health, peace, property, safety and welfare; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Directors of the Departments of Technology and Columbus Public Health are hereby authorized and directed to modify and increase Contract No. EL016123 with NextGen Healthcare Information Systems, LLC for additional user licenses and data conversion services in an amount not to exceed $20,000.00.

SECTION 2. That to pay the cost of said modification, the expenditure of $20,000.00, or so much thereof as may be necessary, is hereby authorized to be expended from the Special Purpose Fund, Fund No. 223, Subfund No. 310, Department of Health, Division No. 50-01, OCA - 223310, Object Level One - 06, Object Level Three - 6655.

SECTION 3. That this contract modification is made and entered into in accordance with the provisions of Chapter 329 of the Columbus City Code dealing with contract modifications.

SECTION 4. That the City Auditor is authorized to make any accounting changes to revise the funding source for any contract or contract modifications associated with this ordinance.

SECTION 5. That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

SECTION 6. That for the reasons stated in the preamble hereto, which is made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND: This legislation authorizes the Finance and Management Director to modify a contract on behalf of the Office of Construction Management with Mull & Weithman Architects, Inc. for professional architectural and engineering consulting services for various city renovation projects. This serves as a blanket contract for renovations to city buildings and building components. Ordinance No. 0505-2014, passed by City Council on March 26, 2014, authorized the original contract for professional architectural and engineering consulting services for various city renovation projects.

This modification authorizes additional funding for the blanket contract for renovations to city building and building components. A blanket contract is an efficient mechanism by which smaller renovation projects can be more efficiently scoped and bid. Actual construction projects designed under this contract come back to Council for authorization. It is practical and cost effective for ongoing coordination and planning to modify this contract with Mull & Weithman Architects, Inc. It would not be in the best interests of the city to go with another vendor at this time.

Emergency action is requested so that needed renovations within the city may be designed and/or assessed as quickly as possible.

Fiscal Impact: The cost of this contract is $250,000.00. This legislation authorizes the expenditure of
$75,000.00 from the Construction Management Capital Improvement Fund; $125,000.00 from the Safety Voted Bond Fund; $15,000.00 from the Information Services Capital Improvement Bond Fund; $25,000.00 from the General Permanent Improvement Fund; and $10,000.00 from the Development Services Fund. Sufficient funding is available in these funds for the stated purpose.

To amend the 2014 Capital Improvement Budget; to authorize the City Auditor to transfer funds within the Construction Management Capital Improvement Fund, the Safety Voted Bond Fund, the Information Services Capital Improvement Fund, the General Permanent Improvement Fund and the Development Services Fund; to authorize the Director of Finance and Management to modify a contract on behalf of the Office of Construction Management with Mull & Weithman Architects, Inc.; to authorize the expenditure totaling $250,000.00 from the Construction Management Capital Improvement Fund, the Safety Voted Bond Fund, the Information Services Capital Improvement Fund, the General Permanent Improvement Fund, and the Development Services Fund; and to declare an emergency. ($250,000.00)

WHEREAS, it is necessary to amend the 2014 Capital Improvement Budget and to transfer cash between projects within the Construction Management Capital Improvement fund, the Safety Voted Bond Fund, the Information Services Capital Improvement Fund, the General Permanent Improvement Fund, and the Development Services Fund; and

WHEREAS, Ordinance No. 0505-2014, passed by City Council on March 26, 2014, authorized the original contract for professional architectural and engineering consulting services for various city renovation projects; and

WHEREAS, the Finance and Management Department, Office of Construction Management, desires to modify a contract with Mull & Weithman Architects, Inc. for professional architectural and engineering consulting services for various city renovation projects; and

WHEREAS, an emergency exists in the usual daily operation of the Finance and Management Department, Office of Construction Management, in that it is immediately necessary to authorize the Director to modify a contract with Mull & Weithman Architects, Inc. for professional architectural and engineering consulting services, so that needed renovations may be accomplished as quickly as possible; thereby preserving the public health, peace, property, safety, and welfare; now, therefore:

BACKGROUND: This legislation authorizes the Finance and Management Department to expend monies for labor, materials, equipment, standard services, and professional services in conjunction with a boiler replacement at the Beacon Building, 50 West Gay Street.

An original boiler at the Beacon Building is approaching 60 years old and is close to reaching the end of its useful life. The specific unit in question is part of a three boiler heating system for the Building. The unit is still functioning, however due to its age and increasingly deteriorated condition it is likely that the unit will fail soon. As there is significant lead time needed for design services, asbestos remediation and removal of the existing unit, as well as acquisition and installation of the new unit. Therefore, Finance and Management recommends that the competitive bidding provisions of Columbus City Code, 1959 be waived so as to ensure that the new unit is installed and ready for use at the earliest possible time. All best efforts will be used to identify the appropriate vendors with the necessary skills to provide the needed part or service at the lowest cost to the city.

BACKGROUND: This legislation authorizes the Director of Finance and Management, on behalf of the Facilities Management Division, to expend monies in the amount of $30,500.00 for the purchase of new radios for City Hall security personnel. A earlier ordinance (2251-2014) was passed by City Council on October 20, 2014 and authorized the Director of Finance and Management to establish a purchase order from an existing Universal Term Contract (UTC) with Motorola Solutions, Inc. It was later discovered that this UTC expired
prior to the earlier ordinance being passed by City Council. The Purchasing Office is currently in the process of establishing a new UTC for radios. This ordinance therefore requests City Council to repeal Ordinance 2251-2014 and to authorize the Director of Finance and Management to expend monies for the purchase of new radios for City Hall security personnel. Any contracts or purchase orders established will follow the competitive bidding provisions of the Columbus City Codes.

The current radios will soon be inoperable due to the new radio band reorganization and thus, nonfunctional starting in 2015. The radios themselves are obsolete and parts will no longer be available for service. The new radios are in line with the radio capabilities of the rest of the City of Columbus departments and will enable the Security section of Facilities to maintain needed communication abilities.

WHEREAS, it is necessary to establish a new auditor’s certificate to set aside funding for the purchase of new radios for City Hall security personnel and any purchase orders and/or contracts established from this auditor’s certificate will follow the competitive bidding provisions of Columbus City Code; and

Legislation Number: 2721-2014
Drafting Date: 11/11/2014
Version: 1

CURRENT STATUS: Passed

Matter Type: Ordinance

BACKGROUND: This ordinance authorizes the transfer of funds within the Fleet Management Operating Fund to better align budgetary appropriations with anticipated annual expenditures. The Fleet Management Division is projecting a $624,794 budget surplus in personnel appropriations, which is due in large part to staffing vacancies that will remain unfilled for the balance of the 2014 fiscal year. Due to cost increases in various parts and service expenditures, it has become evident that $500,000 of budget appropriation for supplies and services are needed for the balance of the current fiscal year and, as such, should be transferred to the correct accounting designation within the Fleet Management Division’s operating budget. This ordinance therefore authorizes the transfer of funds ($500,000) for this purpose.

In addition, this legislation authorizes the Finance and Management Director to issue purchase orders for ultra-low sulfur diesel and bio diesel for the Fleet Management Division. Formal competitive bids for bio and ultra-low sulfur diesel fuels were received by the Purchasing Office pursuant to Solicitation No. SA005400 and a Universal Term Contract (FL005963) has been established with Benchmark Biodiesel, Inc. This ordinance will also authorize the Finance and Management Director to establish purchase orders with Ricart Properties, for Ford OEM automotive parts. The City of Columbus bid and successfully awarded Ricart Properties (FL005813). These companies are not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract to the Auditor of State unresolved findings for recovery certified search.

**Fiscal Impact:** The Fleet Management Division spent $4,629,849.94 for bulk bio and ultra-low diesel fuels deliveries in 2013. In 2014 Fleet Management has expended or encumbered a total of $3.8 million for diesel fuel. An additional expenditure of $150,000 is necessary through the end of this fiscal year for these fuels, an additional expenditure of $50,000 is necessary through the end of this fiscal year for parts and $30,000 is necessary for auto body repairs. Furthermore, funds have been budgeted within the Fleet Management Division 2014 operating budget for the purposes outlined above. The transfer of funds from personnel to the materials/supplies and services designations is requested to more accurately reflect where actual expenses will be incurred. It should be noted that the 2014 operating budget for the Fleet Management Division remains unchanged in total.

**Emergency Action:** is requested to ensure an uninterrupted supply of bulk bio diesel and ultra-low sulfur diesel fuels and to ensure an uninterrupted supply of vehicle parts and supplies. These fuels and parts are used by city vehicles, including Police, Fire and Refuse Collection vehicles.

**SECTION 1.** That from the monies in the fund known as the "Fund for General Purposes", otherwise known as the General Fund (fund 010), and from all monies estimated to come into said fund from any and all sources during the 12 months ending December 31, 2015, there be and hereby are appropriated to the use of the several departments, commissions and offices and Object Level 1s for which the corporation has to provide the following sums for use during the 12 months ending December 31, 2015:

See Attachment: ORD2620-2014 GF Appropriation 2015 by Div

**SECTION 2.** That the monies appropriated in the foregoing Section 1 shall be paid upon the order of the respective department directors or Elected Officials for which the appropriations are made except that small claims in amount not to exceed Two Thousand Five Hundred Dollars ($2,500.00) may be paid as authorized by Chapter 335 of the Columbus City Code, 1959, as amended; and except that payments or transfers between

Administrative Rules for private boat docks and stakes on City Reservoirs (not to include boat club leased properties):

Columbus City Code, section 921.01-8 (O)(1) provides that: “The Recreation and Parks Commission may adopt administrative rules for floating boat dock construction, maintenance and other privileges pertaining to the use of undeveloped city parkland. Violation of administrative rules shall result in the temporary or permanent revocation of docking privileges and/or impoundment of vessel(s) and removal of associated structures on parkland.” Pursuant to the above-mentioned authority, the Recreation and Parks Commission does hereby approve and adopt the following administrative rules listed below.

These Administrative Rules shall be effective thirty days after being approved and signed by the Recreation and Parks Commission and the Director of the Recreation and Parks Department and published in the City Bulletin. These Rules may be superseded by an act of City Council.

Existing authorized docks exceeding any applicable design limitations as specified in these rules, may continue to be authorized until such time as the contiguous property owner either (i) fails to renew the annual permit or (ii) transfers title to the property.

The Recreation and Parks Department reserves the right to require general liability insurance naming the City of Columbus as an addition insured from private dock, stake, or mooring customer with at least a ninety (90) day notice.

As used in these Rules, the following definitions shall apply:

1. Abandoned - means any personal property, including a dock or other structure, that has remained on or attached to City property for at least 48 hours that does not have a valid dock permit, or is extensively damaged, or is considered a navigational hazard, regardless of whether it is being actively used by a contiguous property owner.
2. Header dock - The primary structure of a floating dock. The section of dock in which other dock sections or a ramp is attached to.
3. Finger dock - A secondary dock extension from the header dock.
4. Mooring - buoy or float providing a tie off for a boat, set to an anchor to hold the boat secure.
5. Ramp - The section of the dock that connects the floating portion of the dock to the shore (some docks may be on feet or wheels).
6. “T” Dock - For purposes of these administrative rules, an “T” dock shall mean a dock extending from shore in a straight line, generally perpendicular to the shoreline, with no sections attached to the header dock.
7. “T” Dock - For purposes of these administrative rules, a dock generally consisting of a header dock with a finger dock attached in the shape of a “T”, or can be an inverted “T” shape.
8. “L” Dock - For purposes of these administrative rules, an “L” dock is a dock shaped like an “L”, with one side being the header dock and the other side a finger dock, and can be placed in several positions according to need or preference.
9. **“U” Dock** - For purposes of these administrative rules, a “U” dock consists of a header dock generally parallel to the shore (but may be perpendicular), with at least two finger docks extending from the header dock into the shape of a “U”, “F”, “E” or similar type shape.

10. **Platform Dock** - For purposes of these administrative rules, a platform dock is a dock that is attached to shore by a ramp, and generally is described as a square or rectangular shape (although it may take different shapes), and can moor multiple vessels from respective sides.

11. **Spuds** - For the purpose of these administrative rules, spuds are defined as metal posts, no wider than 4” in diameter, inside a sleeve attached to the dock that stabilize the dock by use of friction against the riverbed and not by being driven, drilled, augured or pushed into the riverbed. The “foot” end of the spud (the portion against the river bottom) must be capped or otherwise closed and not be an open pipe. Spuds should not have chisel shaped or pointed ends.

12. **Stake** - A metal or wood post, not to exceed four (4) inches in diameter, extending a minimum of four (4) feet and a maximum of six (6) feet above the ground, to secure a watercraft to shore.

13. **Rip rap** - The placement of rocks or other similar materials as approved by the Division of Power and Water in accordance with United States Army, Corps of Engineers regulations to prevent or reduce shoreline erosion.

14. **Director** - “Director” shall mean the Director of Recreation and Parks or his or her duly authorized designee.

15. **Structure** - “Structure” means a combination of materials, other than a building, to form a construction that is safe and stable including, but not limited to, docks, stadium, gospel or circus tent, reviewing stand, platforms, staging, observation tower, shed, coal bin, or fence in excess of six (6) feet in height. The term “structure” shall be construed as if followed by the words “or parts thereof.”

16. **Building** - “Building” means any structure having a roof supported by columns or walls, or any series of structures separated only by “fire separations” but contained under a common roof or within common walls, and requiring a building permit in accordance with Title 41 of the Building Code that is used for shelter, occupancy, enclosure, or support of persons, animals, or property.

17. **Encroachment** - “Encroachment” means any building, structure, or personal property that extends beyond the property line of a contiguous property owner and trespasses onto City owned or controlled property.

**Administrative Rules:**

1) Plans for new docks and stakes or for alterations to existing docks and stakes must be submitted to the Columbus Recreation and Parks, Permit and Rental Services Section. All structures must comply with the current City of Columbus Code (CCC 921.01-8), and all specifications authorized by the United States Army Corps of Engineers under federal regulation. When in conflict, whichever code is more restrictive takes precedence. In cases where private property meets the water’s edge, dock permits are still required pursuant to the following rules, as the City of Columbus regulates all City waterways. A valid Land Stewardship Agreement must be on file with the City of Columbus prior to the issuance of any dock or stake permit.

2) Plans for new docks and stakes or alterations to existing docks and stakes must include the following:
   a) Plat plan of the property with the owner’s name and address and the proposed location of the dock or stake plainly marked.
   b) Detailed plan of the dock illustrating:
      i) Dimensions
      ii) Materials
      iii) Method of attachment to shore
      iv) Proposed alterations
   c) Proposed dates for construction and installation (which must be at least 10 business days later than the date of submission) are subject to the approval of the plan.
   d) Requests for stairs, if necessary, must be included in the application (certain restrictions apply, see items 17 and 18).

3) The overall width of any section of any private floating dock may not be less than four (4) feet.

4) The overall width of any Finger dock may not exceed six (6) feet.
5) The overall width of any header dock may not exceed eight (8) feet.

6) The overall width of any platform dock may not exceed twelve (12) feet.

7) The overall width of any ramp section may not exceed eight (8) feet.

8) Flotation for the floating docks must meet or exceed Federal and Ohio Department of Natural Resources standards. Metal drums and plastic barrels are not permitted. Treated wood materials used for decking and/or walkways shall comply with Federal and State Environmental Protection Agency recommendations and regulations. All wooden materials should be free of any chemicals that are toxic to aquatic life. Lumber pressure-treated with Alkaline Copper Quaternary (AQC) process is very corrosive therefore special precautions should be used when selecting fasteners and hardware. (USACOE Rule #3) Galvanized or plated hardware should be used in dock construction.

9) The dock (including any ramp, attachment(s) and including any vessel(s)) may not extend greater than forty (40) feet from the on shore platform or twenty five percent (25%) of the width of the channel at that point, whichever is less. The overall area of any dock, including any vessel(s) docked at that location, may not exceed twenty-six (26) feet in width (parallel to shore). The forty (40) feet will be the measurement of the length of the dock and ramp at the point it is attached to the landing platform or otherwise affixed to shore and not the distance it extends into the reservoir due to the angle of attachment.

10) The floating dock structure shall not have any walls or enclosed areas. An open sided canopy may be permitted provided that the overall height of the canopy structure does not exceed twelve (12) feet from the surface of the dock. Canopy covers must be metal, canvas, nylon or other fabric and no advertising may be displayed on the canopy.

11) As part of the floating dock permit there may be a landing platform area on shore, not to exceed eighty (80) square feet in size. The only purpose of this platform is to provide a secure structure to serve as an attachment point for the floating dock. No concrete, cement or mortar is permitted as part of this platform. This structure may not include any walls, roofs or other improvements except an approved handrail if desired. The landing platform shall be constructed at ground level unless the terrain is not even, then only elevated enough so that the platform may be level as close to the ground as possible. The landing platform may not extend over the water beyond the ordinary high water mark (as defined by the U.S. Army Corps of Engineers). The specific site of the landing platform will be determined by the Director based upon best management practices.

12) No part of the floating dock, stake(s), or permitted landing platform may be constructed from any materials or constructed in any manner to be considered a permanent structure. (i.e. there will be no use of concrete and all sections must be removable by use of common hand tools). Tying to trees (either the dock or any watercraft) or attachment to any natural feature (rocks, stumps, etc.) is strictly prohibited.

13) Each qualified, contiguous, private property owner will be permitted a maximum of one private floating dock permit. Each private floating dock may be permitted to moor no more than three vessels registered to that private property owner (provided that all three vessels and dock fit into the area described in item 9).

14) The proposed location of the private floating dock, stake(s) or mooring shall be determined by the Director and contained within the area of City of Columbus owned shoreline defined by an extension of the contiguous, private property owner’s boundary lines. In cases where the angles are not perpendicular, or nearly perpendicular, this area will be determined by drawing a line perpendicular to the shoreline back to the contiguous, private property owner’s sideline. In the case of private moorings, the length of the mooring rope/chain/cable shall not allow the vessel to exceed this area. If there is not a suitable site within this area, the request may be denied.

15) When permitted, private moorings must be located no farther than fifty (50) feet from the normal pool shoreline, but may not be any further than 25% of the width of the channel at that point. Moorings will only be considered for use on Hoover and O’Shaughnessy Reservoirs. Moorings must be approved before placement and should be properly sized for the boat being moored (items such as used engine blocks are specifically prohibited). Each private mooring must be marked with at least a twelve (12) inch round diameter, orange marine buoy. The owner’s address must be clearly marked upon the buoy.
16) When an application is approved, a contiguous, private property owner may install a boat stake or stakes. The stake(s) shall be driven or set into the ground by the permit holder at a site designated by the Director. No concrete or cement may be used. The stake(s) shall have a space for the permit decal and owner's address to be displayed, facing the water. The stake(s) shall be maintained in a safe condition by the permit holder and removed by the permit holder in the event that the stake permit is not renewed for any succeeding year. Boat stake(s) may not be relocated (due to low water levels, better access or any other reason) without written permission from the Director.

17) If the Director determines that any dock, structure, stairs, or other previously approved improvement (located on or attached to City property) has become a detriment to the City, the person who installed such improvement shall remove it at their expense upon receiving written notice of the Director's determination. If the person who installed the improvement is no longer the contiguous property owner, the City may remove and dispose of said encroachment.

If the current contiguous property owner wishes to continue to use the improvement in conjunction with a pre-existing dock or stake, that property owner (referred to herein as the “responsible party”) may submit a request to the Director to allow the improvement to remain. If the Director allows the improvement to remain, the responsible party must do all of the following:
1.) Submit a new or renewal dock/stake permit application
2.) Submit a signed Responsibility Form
3.) Keep the dock or stake permit current and valid.

If at any time the responsible party fails to renew their dock or stake permit by the annual March 15 deadline, the improvement shall no longer be approved and must be removed at the expense of the responsible party.

In areas where it is necessary, as determined by the Director, a single set of wood or properly reinforced steps may be approved to access the dock as part of an approved path. Installation of new stairs must be in compliance with City of Columbus building codes. The stairs must not be set in concrete.

18. In cases where there are violations with the land stewardship agreement, contiguous property owners shall have up to one calendar year from the notice of violation to resolve said violations. If the violations are not resolved after one year, the Director may revoke the private dock, stake or mooring permit.

19) The five (5) foot wide path to allow access to the private dock or stake (as described in Columbus City Code 921.01-8 (N) may be mown, but must be maintained in as natural a condition as possible and may not include cement, mortar, bricks or boardwalks. The Director must approve the location of this path. The path must follow the most direct line to the shoreline that affects the least amount of vegetation or natural features of the City of Columbus property. Permission to cut down trees or alter the landscape to create a path will not be granted, except that cutting of trees and brush less than 1” in diameter at the ground may be approved on a limited basis with permission.

a) When necessary due to site conditions, the following improvements may be considered for a permit.
   i) Washed river gravel on top of filter fabric, not to exceed three (3) inches in depth.
   ii) Pavers or natural stones not to exceed sixteen (16) inches in diameter and not to be set closer that six (6) inches together.
   iii) Options “i” and “ii” combined provided all conditions of both are met.

b) Paths may not be approved if the following conditions exist:
   i) If location of the path would threaten rare or endangered species of plants or wildlife. The Ohio Department of Natural Resources shall be considered the naming authority for these species.
   c) Areas of shoreline that are within designated Nature Preserve areas will not be permitted any modifications to accommodate a dock or path, but may be approved if the naturally existing conditions are acceptable (pursuant to City Code (Title 9, Chapter 921.01-8 (A)(2)).

20) The installation of facilities conducive to human habitation; including but not limited to household furnishings, water or electrical lines or hook ups, living quarters, sewers, toilets, or fueling facilities are not permitted on any private
floating or permanent dock.

21) Electrical service existing as of the effective date of these Administrative Rules on City of Columbus property that was previously authorized by the City of Columbus in writing will be allowed to remain until such time as there is a failure to submit an annual permit application with the applicable rental fee. In the event of a failure to submit an annual permit application the electrical service must be removed by the contiguous property owner at their expense. If the contiguous property owner fails to remove the electrical service the City may do so. Future dock permits will not be considered until the electrical service is removed.

For as long as the electrical service remains, the adjacent property owner must provide and maintain a lath marker where the electric line crosses the private property line onto City property and a like marker near the dock marking the same. The marker should indicate, in writing, “under-ground electric - do not dig”. The material for the marker should be the same as markers used for roads and highways that is flexible plastic, which would not pose any threat of impaling a person. Failure to maintain these markers in accordance with this section at all times will be cause for immediate suspension or revocation of the dock permit.

In the event that there is any question as to whether the installation or the device meets all codes, the permit holder will be required to submit a letter from a licensed electrical contractor stating that he/she has personally inspected the device and installation and affirming that the installation and the device meets all City, State and Federal codes.

Solar powered, battery operated or self contained generator operated devices may be approved by the Director. Before any such device is installed the property owner must provide a sketch of the proposed electrical devices to be installed in connection with the dock permit. This sketch must include all lights, outlets, and related accessories. If the permit holder elects to use an extension cord to power a permitted electrical device at a dock then the cord may only be used when the permit holder is at the dock actively using the device. Extension cords must be plugged into a GFCI (ground fault circuit interrupter) outlet on the adjacent, private property. At all other times the extension cord must be removed from the park property.

The quantity of lights must be kept to a minimum, and are limited to the path and dock/stake/mooring. All lights must be directed downward and not toward the water, other residences or parks areas.

22) A hand powered or mechanical boatlift will be permitted so long as all other rules pertaining to docks are followed. Lifts that require electricity must comply with the established electric service rules contained within these Administrative Rules (item #21). Application for a boatlift must be in writing as part of the proposed dock plan and include specifications of the lift device.

23) No pilings may be driven through the water into the riverbed. Guide or support poles attached to the dock (or lift device) must have flat feet that rest on the riverbed or use non-driven spuds. Spuds must be removable using common hand tools and the permit holder must be able to demonstrate this upon request of the Recreation and Parks Department. Failure or inability to remove the spuds will be considered grounds for revoking dock privileges.

24) All floating docks, stakes and associated structures not previously authorized by the City prior to the effective date of these Administrative Rules must be designed and constructed to have the least impact visually and physically upon the City of Columbus owned property and dock must be maintained in a safe condition. Permittees must make every reasonable effort to construct and operate the authorized dock or stake(s) in a manner so as to minimize any adverse impact on fish, wildlife and natural environmental values including water quality.

25) Permitted docks and stakes must properly display the annual permit and property address (address must include at least the house numbers in three (3) inch high letters) on the dock structure or stake(s). The permit and address shall be placed on the dock or stake and face the open navigable water, visible to patrol watercraft.

26) The primary purpose of the private floating dock structure shall be as a safe mooring for permitted watercraft. This regulation does not exclude the permit holder, his/her family and guests from legally fishing from the dock. Personal property used in connection with recreational water activities, such as chairs, dock boxes, mooring lines, and so forth, shall be permitted on dock structures so long as such property is not otherwise prohibited by paragraph 18, this Section.
or other Sections of these Rules. Private docks may not have any items attached to them or be used for any purpose other than safe mooring of permitted watercraft. Guest watercraft meeting code requirements, may moor to the permit holder’s dock, however if the duration exceeds sixteen (16) hours on any date, the permit holder must obtain a temporary permit from the Columbus Recreation and Parks Permit and Rental Services Section, and all related regulations apply.

27) Requests for modifications or renovations to an existing dock must be in writing and approved by the Director. No work shall commence until the Director’s written approval is received by the property owner. The property owner is hereby authorized to make minor repairs to the dock and associated structure when necessary to ensure the safety of the users. These repairs must use identical replacement materials and may not alter the appearance or dimensions of the permitted structure. No chemical treatments may be applied (paint, waterproofing, etc.) while the dock structure is in the water or sitting on City of Columbus owned property.

28) Private boat docks, stakes, associated structures and fixtures, other encroachments or private property discovered on or attached to City of Columbus park land without permission or in violation of Columbus City Code or these Rules will be considered abandoned and may be removed and disposed of by the Recreation and Parks Department; the Columbus Division of Power and Water acting as an agent of the Recreation and Parks Department under the terms of the “Water Supply Reservoir Cooperative Management Agreement”, or by any law enforcement officer within their jurisdiction.

a) Prior to removing abandoned private, personal property from City of Columbus property, the City will send notice to the contiguous property owner to allow them the opportunity to remove the personal property on their own. A letter sent via first class, U.S. mail to the name and address listed on the county auditor’s web site for the contiguous property requesting removal within 30 days shall be deemed sufficient notice.

The Recreation and Parks Commission and the Director of the Columbus Recreation and Parks Department hereby adopt and authorize these Administrative Rules.
A Sign Language Interpreter will be made available provided the Planning Division Office is given a reasonable notice of at least forty-eight (48) hours prior to the scheduled Regular meeting time. To schedule, please call 645-0663. To confirm the meetings, contact staff.

GENERAL RULES AND REGULATIONS

DEPARTMENT OF PUBLIC SERVICE
DIVISION of INFRASTRUCTURE MANAGEMENT
CITY OF COLUMBUS, OHIO

SUBJECT: SPECIAL HAULING PERMITS (SHP)

EFFECTIVE DATE: 12/22/14

PURPOSE:

These rules and regulations are necessary to mitigate the deterioration of streets, highways, bridges, utilities and other City-owned structures caused by overweight and oversized vehicles. Sections 5577.01 to 5577.15 of the Ohio Revised Code address the weight and dimension limits for such vehicles. Section 4513.34 of the Ohio Revised Code and Section 2139 of the Columbus City Code authorize the Director of Public Service to issue permits for those loads that exceed the statutory weight and dimension limits contained in the Ohio Revised Code. These limitations and provisions described below are the general requirements placed on the operation of the over dimension and overweight vehicles traveling on roadways and are in addition to specific provisions stated on the Special Hauling Permit (SHP) or its attachments. For reference or detailed information, please refer to the ODOT Special Hauling Permits Operational Guide or contact the City of Columbus Permit Section.

GENERAL PERMIT REQUIREMENTS:

1. No application for a Special Hauling Permit (SHP) shall be approved unless the application is legible and complete.
2. A copy of the current and valid Special Hauling Permit (SHP) issued by the City of Columbus(COC) shall be in the possession of the driver at all times during the progress of transportation and shall be shown on demand to any law enforcement officer, Ohio State Highway Patrol or to any employee of City of Columbus. The SHP shall be clearly legible and free of any markings, writing, symbol, logo, letterhead, characters or inscriptions that are not part of the SHP as transmitted by COC (an additional tele-facsimile header is allowed).
3. The permission granted in the SHP restricts the movement of the vehicle(s) or object(s) to the highways specified, between the points designated, and within the time allotted. Permittee shall check the route for abnormal, changed, or unknown/unusual conditions which may exist during any transport. Permits are only lawful on city streets. At the discretion of the local authority provided in the Ohio Revised Code, they are not valid on the interstate system, US routes, and state routes under the authority of the state of Ohio. Permittee shall obtain permission to travel county or township roads or local streets not part of the City of Columbus Roadway System within the city from the proper governmental agencies.
4. No vehicle(s) or object(s) being transported under a SHP shall be parked on the roadway at any time except in case of an emergency, in which case permittee shall be responsible for obtaining adequate protection for
the traveling public while such vehicle or object is parked. The vehicle(s) shall not be loaded or unloaded while on the roadway.

5. The driver of the permitted vehicle must comply with all laws, rules, regulations or credentials covering the movement of traffic over highways and streets and Commercial Motor Vehicle operations.

6. SHPs will not generally be issued for built-up loads that are divisible into legal loads or loads that have not been loaded to the least over dimension or the least overweight. However, miscellaneous items may, however, be transported on the same vehicle with an over dimensional piece or pieces as long as the miscellaneous items do not add to the over dimension. It is not necessary to identify these miscellaneous items. If, in the event of an extenuating circumstance, an SHP is issued for a divisible load in which two or more pieces add to the over dimension or over weight, such load shall be adequately described.

7. An SHP is void at any time that road, weather or traffic conditions make travel unsafe, as determined by the State Highway Patrol or local law enforcement.

8. Movement of mobile homes, manufactured structures, office trailers, and park model recreational vehicles is prohibited when wind velocity exceeds 25 mph on the roadway or 15 mph on bridges.

9. The duration of the SHP shall not extend beyond the expiration date of the insurance policy filed with the Department.

10. The original permit and any attachments as issued must be carried in the cab of the vehicle during movement.

11. The permittee is solely responsible for renewing its permit prior to its expiration date. The City of Columbus shall not issue any notice prior to expiration of said permit. The permittee is also responsible for ensuring that the permit accurately describes the vehicle and load. The permit is null and void if there are any inaccuracies contained in the description of the vehicle or load.

TYPE OF PERMITS:

A. SINGLE TRIP

1. Single Trip permits will be issued for a specific origin and destination. This permit may also include a return to the stated point of origin. This type of permit would be appropriate when a load is needed at a job site and is then returned to the point of origin all within the effective dates of the permit.
   Application must include the specific route proposed.

2. Single Trip permits will be issued for vehicles that are over 120,000 pounds gross weight and/or over 90 feet in length and/or over 11 feet in width and/or above 13'-6" in height.

3. Single Trip permits are issued to the specific truck or commercial tractor used for the load or loads. When indicated on the application, various trailers may be used. On overweight configurations, the trailers must be identical as far as number of axles, axle spacing, axle weights, and number of tires on each axle and the sizes of those tires.

4. Permittee will have 5 consecutive days to move the vehicle.

B. CONTINUING ANNUAL PERMITS (LESS THAN 120,000 LBS. GVW)

1. When more than one load needs to be moved, a 365 day continuing permit may be issued to a specific vehicle including an approved load for repeated one-way movement between the same two points over prescribed routes. This permit may also include a return to the stated point of origin. Maximum duration of validity is 365 days.

2. The permit is issued to the truck or commercial tractor. When indicated on the application, various trailers may be used. On overweight configurations, the trailers must be identical as far as number of axles, axle spacing, axle weights, and number of tires on each axle and the sizes of those tires.

3. The load, in addition to being under 120,000 lbs. gross weight, must not be greater than 13'-6" in height and not greater than 11 feet in width. If any of these conditions exist, a single trip permit must be obtained per Section A.

C. CONSTRUCTION EQUIPMENT (UNDER 120,000 LBS. GVW)

1. This specialized permit is used for the frequent movement of over width construction machinery to and from job sites. To qualify for this permit, the vehicle and load must be legal in accordance with Section 5577.04 through 5577.05 of the Ohio Revised Code. Maximum duration of validity is 365 days.
2. Loads may consist of small dozers, backhoes, or other similar equipment being transported on straight trucks or on equipment trailers pulled by trucks, or on semi-trailers hauled by commercial tractor. Field office trailers towed on their own undercarriages may also be included. The permit is issued to the truck or commercial tractor. When indicated on the application, various trailers may be used.

3. Be alert for overhead obstructions and be aware that posted limits, including those on pavements and bridges, must be obeyed.

4. The load, in addition to being under 120,000 lbs. gross weight, must not be greater than 13'-6" in height and not greater than 11 feet in width. If any of these conditions exist, a single trip permit must be obtained per Section A.

5. Revisions may be issued upon request at no charge whenever construction impedes movement along the assigned route. Request may be made by calling the Permit Office at 614-645-7497.
