SA005700 - INS. BROKERAGE AND RISK ENGINEERING SVS.

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

The City of Columbus is seeking Request For Proposals (RFP) to identify qualified insurance brokers, insurance agencies, or insurance agents to provide insurance brokerage services for the City's Property and Casualty, Boiler & Machinery, Aviation, General Liability, and Excess Liability Insurance programs. The Contractor(s) will be responsible for soliciting underwriting to provide options and solutions that take every opportunity to contain cost, improve coverage for the City's property and casualty, boiler & machinery, aviation, general liability, and excess liability insurance, and to develop, recommend, and implement risk engineering and management programs for each area of insurance coverage. The qualified Contractor must possess the resources, flexibility, innovation, and commitment to service that provides the City with the highest level of service and value for the identified insurance programs and any other insurance coverage that may be desired or required by the City during the proposed term of the brokerage contract. The City requires that its Contractor(s) have the capability, expertise, and service commitment to negotiate equally with every insurance underwriter and to maintain strong, unbiased relationships with all underwriters, and to excel in all other areas of services requested in this RFP.

Qualified aviation insurance brokers, insurance agencies, or insurance agents may respond based on providing services for the City's aviation insurance program as a separate program. The City reserves the right to award brokerage services as a whole for its insurance programs, or to award aviation brokerage services separately should that result in the best benefit to the City.

SA005694 - DOSD ENG-BLUEPRINT HILLTOP VARIOUS PRJTS

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), for Capital Improvements Project 650870-100801 - Blueprint Hilltop - Palmetto/Westgate, CIP 650870-100802 - Blueprint Hilltop - Eureka/Fremont, CIP 650870-101201 - Blueprint Miller/Kelton - Newton/Bedford, CIP 650870-101202 - Blueprint Miller/Kelton - Kent/Fairwood pursuant to Columbus City Code 329.14. Proposals will be received at the Division of Sewerage and Drainage, 1250 Fairwood Avenue, Room 1021, Columbus, Ohio 43206 until 4:30 PM on Friday, January 30, 2015.

The scope of work for this project is to perform all the requisite investigation, evaluation, formulation and design work to prepare construction documents for the remediation of inflow and infiltration (I/I), and the improvement of water quantity and water quality within the project area(s) using Integrated Solutions. The City envisions these Integrated Solutions will focus on removing sufficient amounts of I/I and providing positive treatment of stormwater with GI prior to its discharge into storm sewers. This work must be done in complete conformance with the current version of the City of Columbus Stormwater Design Manual and the Construction and Materials Standards of Columbus (CMSC). It is envisioned that a significant portion of this work shall consist of reviewing and renovating privately-owned drainage systems (storm and sanitary) in the project area(s) shown in Exhibits G and H. The emphasis for privately owned drainage systems will be on residential properties. Commercial systems may require more specific consideration.

Another aspect of the work for this project is the possible re-purposing of Columbus Land Redevelopment Office (Land Bank), abandoned, and vacant parcels for the implementation of Green Infrastructure (GI). The City wishes to explore viable GI and low-impact development (LID) technologies which could be constructed on these vacant or abandoned parcels/lots within the project area. The ENGINEER shall be expected to identify specific parcels or groups of parcels that the DOSD should acquire for the purposes of demolishing houses and installing large-scale GI and low impact development technologies.

It is further envisioned that the GI will be in the right of way (ROW), Land Bank re-purposed, abandoned, and/or vacant parcels or on other City-owned property. The ROW GI may include, but not limited to, pervious sidewalks, street trees, traffic-calming bump-outs and/or various types of rain gardens.

1. The firm or team must possess sufficient previous experience in the design and construction of sanitary and stormwater infrastructure, I&I remediation as well as Green Infrastructure facilities. This shall include a firm or team having successfully completed the design of two (2) projects utilizing Green Infrastructure in the mitigation of SSO overflows and/or stormwater flooding;
2. successfully completed the design of two (2) I&I projects of similar or larger size and complexity as that of the Miller/Kelton Inflow and Infiltration Remediation Project; and;
3. having successfully constructed, calibrated and applied two (2) models of similar or larger size and complexity as required for this project. This shall include applying such models to stormwater, open channel, and green infrastructure design, at a minimum.

Proposals will be reviewed by the City and the City will enter into contract negotiations with the four (4) highest ranked offerors. Each offeror shall receive a single project. If negotiations fail with an offeror they shall be terminated and the City will enter into contract negotiations with the next highest ranked offeror. This process will continue until all contracts are successfully negotiated.

SA005703 - DOSD-ENG-SCIOTO MAIN SAN PUMP STATIONS

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), for Capital Improvements Project Number 650886-100000 -- SCIOTO MAIN SANITARY PUMP STATIONS pursuant to Columbus City Code 329.14. Proposals will be received at the Division of Sewerage and Drainage, 1250 Fairwood Avenue, Room 1021, Columbus, Ohio 43206 until 4:30 P.M. on Friday, January 30, 2015.

General Project Descriptions

The purpose of this project is to perform tasks, such as: specialized engineering investigations; make recommendations; perform detailed engineering calculations; perform Large Diameter Sewer Condition Assessment of the Scioto Main; prepare construction plans for the rehabilitation of Scioto Main Trunk Sewer manholes; design and prepare detailed plans, and specifications to provide localized protection to mitigate water in basement (WIB) occurrences at previously identified locations; design and prepare detailed plans, and specifications to provide structural modification to WCLPP hydraulic components to improve the overall operation of key components of the West Columbus Local Protection Project (WCLPP) during Scioto River flood events.

The general project boundary is the middle section of the Scioto Main Trunk Sewer and tributary sewers starting just south of Griggs Dam, and then proceeding in a southerly direction to West Broad Street.

General Design Requirements

The lead ENGINEER shall be responsible for all work necessary to establish and/or verify existing tributary area conditions; proposed sanitary design flows in existing and extended sewer systems impacted by this improvement; securing existing plan information; perform additional investigations as required to design these improvements; perform a trunk sewer condition assessment investigation, prepare required hydraulic calculations; summarize all preliminary design findings, investigations, and recommendations into a PDR draft and final reports; collect all necessary site survey information; prepare construction drawings, cost estimate(s), specifications, and bid documents; investigate need for and document all required construction permits (such as zoning, electrical, building, regulatory (EPA, City, etc.)); prepare, submit, and secure all such construction permits; review construction shop drawing submittals and associated documents during construction of this project.

The lead ENGINEER shall submit information to document prior experience and qualifications of the Design Team members. The team shall have previous experience in the design of sanitary pump stations, and the rehabilitation of sanitary sewer manholes and large diameter sanitary sewers. Team members shall be capable of submitting observations and/or recommending design changes for efficient sanitary sewer repair or pump station design.

The lead ENGINEER shall also include team members which have completed the condition assessment of a minimum cumulative total of 5,000 linear feet of 84 inch and larger diameter sewer or completed 3 projects of a similar nature. The ENGINEER shall also include a CCTV contractor capable and experienced with inspection of sewers of this diameter, conditions and methods referenced having a minimum of 3 years continuous successful experience performing inspection work as stated herein. The ENGINEER shall be responsible for all work necessary to generate the Technical Memorandum and delivery of the consolidated inspection records.

As part of the submitted proposal (RFP), the ENGINEER shall provide to the City a draft condition assessment work plan which addresses overall issues anticipated with this work, such as; overall task approach, procedures to address difficult access issues, methods (include ventilation methods to be used to control cloudy visual conditions found in sewers), coordination issues (public, private, etc.), and other pertinent information.

The team members shall research various alternatives and recommend the most economical and best solution to the City. The final project submittal will include the production of all design documents,

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

drawings, specifications and contract documents required to construct the proposed facilities. This work shall also include utility conflict sewer redesign and shop drawing review services during construction. The lead ENGINEER shall submit a report, perform a large diameter condition assessment for the Scioto Main, provide a technical memorandum and deliver consolidated inspection records for the condition assessment, provide one (1) set of pump station (or alternative solution) construction plans in CC drawing format with specification documents, provide one (1) set of sanitary sewer and manhole rehabilitation construction plans in CC drawing format with specification documents, and complete all project tasks (excluding construction coordination phase) for this project within 365 days after the notice to proceed is issued.

Proposals will be reviewed by the City and the City will enter into contract negotiations with the one (1) highest ranked Offeror. One Offeror shall receive this project. If negotiations fail with an Offeror they shall be terminated and the City will enter into contract negotiations with the next highest ranked Offeror. This process will continue until a contract is successfully negotiated.

Contact Name: Christina Burden

Contact Telephone Number: 645-8508

Contact Email Address: ckburden@columbus.gov

RULE AND REGULATION 15-01

January 2015

Department of Public Utilities

SUBJECT: MEDICAL CERTIFICATION PROGRAM-RESIDENTIAL WATER AND SEWER ACCOUNTS

Pursuant to the authority granted under Columbus City Codes Chapter 1101, the Director of the Department of Public Utilities hereby adopts, establishes and publishes this rule and regulation to be effective at the earliest date allowed by law. This rule and regulation supersedes Division of Water rule and regulation entitled "Medical Emergency/Residential Accounts", published September 28, 1991 as Rule and Regulation No. 91-5. This rule and regulation is in addition to any established requirements that have not be superseded or rescinded by this or any previous act.

APPLICATION:

Any Residential Water and Sewer account located within the City of Columbus distribution system where it is determined that disconnection of water service would be especially dangerous to the health of a permanent resident of a household as determined by a medical professional.

GENERAL REGULATION:

If disconnection of water service would be especially dangerous to the health of a permanent resident of a household as determined by a medical professional, the Department of Public Utilities may approve medical certification that will prevent disconnection for a thirty (30) day period.

A medical certification form must be filled out completely and signed by a medical professional. If the occupant is not the owner of the property, the account must either be in the name of the occupant, or written permission from the property owner to make a payment extension must be submitted, with the completed

medical certification form. The medical certification form must include the name of the person being certified, a statement that the person is a permanent resident of the household, the certifying medical professional's name, address, and phone number, the diagnosis or nature of the condition, the type of medical equipment that requires a constant supply of tap water, if applicable, and a statement signed by the certifying medical professional that the disconnection of service would be especially dangerous to the health of the person being certified. The Department of Public Utilities reserves its right to request additional documentation to approve medical certification requests.

An approved medical certification will prevent the disconnection of water service for a period of thirty (30) days from the date of the approval by the Department of Public Utilities. There is a limit of two (2) medical certifications per household in any twelve (12) month period. In a case of consecutive medical certification applications, the account must have no past due balances before a second certification will be granted. If payment is not received at the expiration of the certification period, water service will be terminated in accordance with section 1101.03 of the Columbus City Code.

Where the water service is still on, the signed medical certificate must be delivered to and received by the Department of Public Utilities at least 72 hours prior to the turn-off date on the termination notice.

If water service has been turned off, one third (1/3) of the total account balance (including arrearage and amount currently due) must be paid, the medical certificate must be received by the Department of Public Utilities and approved, and the remaining balance will be put on an extension payable in thirty (30) days. Entry into the property may be required for turn on.
