BACKGROUND:

The Department of Public Service and Department of Development are engaged in the redevelopment of the American Addition Subdivision. Specifically, the Department of Public Service is engaged in four (4) phases of the American Addition Infrastructure Improvement (PID 590131-10003/2639 Dr E) Public Project (“Public Project”). The City passed Ordinance Number 0652-2012 on April 2, 2012, which generally authorized the City Attorney to spend City funds to acquire the fee simple title and lesser real property interests to complete
all four (4) phases of the Public Project (collectively, “Real Estate”). Pursuant to Ordinance Number 0652-2014, Resolution Number 0018x-2014, which passed on January 28, 2013, Ordinance Number 0906-2013, which passed on April 29, 2013, and Ordinance Number 1149-2013, which passed on June 3, 2013, the City Attorney acquired all of the Real Estate associated with Phase One (1) of the Public Project.

Pursuant to Ordinance Number 0652-2012, the City Attorney is presently engaged in acquiring the Real Estate necessary to complete Phases Two (2) and Three (3) of the Public Project. The City also adopted Resolution Number 0139x-2014 on September 8, 2014, which declared the City’s immediate necessity and intent to appropriate some of the Real Estate associated with Phases Two (2) and Three (3) of the Public Project. Furthermore, the City intends to appropriate the remainder of the Real Estate in the event the City Attorney is unable to perform either of the following (i) locate the owners of the Real Estate; or (ii) agree with the owners of the Real Estate regarding the amount of just compensation for the Real Estate. Accordingly, this resolution declares the City’s immediate necessity and intent to appropriate the remainder of the Real Estate for Phases Two (2) and Three (3) of the Public Project.

CONTRACT COMPLIANCE Nº: Not applicable.

FISCAL IMPACT: Not applicable.

EMERGENCY JUSTIFICATION: Emergency action is requested in order to allow for the acquisition of the remainder of Real Estate in order to complete Phases Two (2) and Three (3) of the Public Project without unnecessary delay, which will preserve the public peace, health, property, safety, and welfare.

To declare the City’s immediate necessity and intent to appropriate the remainder fee simple title and lesser real property interests for the Department of Public Service, American Addition Infrastructure Improvement, Phases Two (2) and Three (3), (PID 590131-10003/2639 Dr E) Public Project; and to declare an emergency. ($0.00)

WHEREAS, it is in the City’s best interest to declare the City’s necessity and intent to appropriate the remainder of fee simple title and lesser property interests (i.e. Real Estate) being acquired by the City Attorney for the Department of Public Service, American Addition Infrastructure Improvement, Phases Two (2) and Three (3), (PID 590131-10003/2639 Dr E) Public Project (i.e. Public Project);

WHEREAS, an emergency exists in the usual daily operations of the Department of Public Service, because declaring the City’s immediate necessity and intent to appropriate the remainder of Real Estate for Phases Two (2) and Three (3) of the Public Project prevents delay in completing the Public Project, which will preserve the public peace, property, health, welfare, and safety; and now, therefore,

Matter Type: Ordinance

Council Variance Application: CV14-059

APPLICANT: Connie J. Klema, Atty.; 145 East Rich Street, 2nd Floor; Columbus, OH 43215.

PROPOSED USE: Three-unit dwelling and single-unit dwelling (carriage house) on one lot.

ITALIAN VILLAGE COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The undeveloped site is zoned R-4, Residential District. The requested Council variance will allow the construction of a three-unit dwelling and a rear single-unit carriage house on one lot. Other variances are included for maneuvering, stacked parking, and fronting on a public street with reductions to lot width, lot area, building line, minimum side yard, rear yard, and required parking for one space. A Council variance is necessary because the R-4, Residential District permits a maximum of four dwelling units in one building, but does not permit two residential buildings on one lot. Staff finds that the proposal will not add incompatible uses to the area as there are other carriage houses within this community. The request is consistent with the recent development pattern in historic urban neighborhoods, and building design will conform to the Italian Village Commission requirements.

To grant a variance from the provisions of Sections 3332.039, R-4, Residential district; 3312.25, Maneuvering; 3312.29, Parking space; 3312.49, Minimum numbers of parking spaces required; 3332.05, Area district lot width requirements; 3332.15, R-4 area district requirements; 3332.19, Fronting on a public street; 3332.21(D),
Building lines; 3332.26, Minimum side yard permitted; and 3332.27, Rear yard, of the Columbus City codes; for the property located at 150 DETROIT AVENUE (43201), to permit a three-unit dwelling and a single-unit dwelling above a detached garage (a carriage house) on one lot with reduced development standards in the R-4, Residential District (Council Variance # CV14-059).

WHEREAS, by application No. CV14-059, the owner of property at 150 DETROIT AVENUE (43201), is requesting a Council Variance to permit of a three-unit dwelling and a rear single-unit dwelling above a detached garage (a carriage house) on one parcel with reduced development standards in the R-4, Residential District; and

WHEREAS, Section 3333.039, R-4, Residential District, allows a maximum of four units in one building, but does not permit two residential buildings on one lot, while the applicant proposes to construct a three-unit dwelling and a rear single-unit dwelling above a detached garage (a carriage house) on the same lot; and

WHEREAS, Section 3312.25, Maneuvering, requires every parking space to have sufficient access and maneuvering area anywhere on a lot, while the applicant proposes to allow maneuvering over and through the parking space in the driveway north of the single-car attached garage, and the parking space on the south side of the carriage house; and

WHEREAS, Section 3312.29, Parking space, allows stacked parking spaces for dwellings, but those stacked spaces may not be counted as required spaces, while the applicant proposes one stacked space in the shared driveway in tandem with single-car attached garage of the three-unit dwelling to be counted in the total number of provided parking spaces; and

WHEREAS, Section 3312.49 Minimum numbers of parking spaces required, requires two (2) parking spaces per dwelling unit for eight (8) spaces total, while the applicant proposes seven (7) parking spaces; and

WHEREAS, Section 3332.05, Area district lot width requirements, requires a minimum lot width of fifty (50) feet in the R-4, Residential District, while the applicant proposes to construct dwellings on an existing lot that is thirty (30) feet wide; and

WHEREAS, Section 3332.15, R-4 area district requirements, requires that a dwelling containing three (3) or four (4) dwelling units shall be situated on a lot with an area which equals or exceeds 2,500 square feet of lot area per dwelling unit, while applicant proposes a three-unit dwelling and a carriage house on a 3375± square foot lot, totaling 843.75± square feet of lot area per dwelling unit; and

WHEREAS, Section 3332.21(D), Building lines, requires the building setback line to be the average distance of building setbacks on contiguous lot or parcels, but in no case less than ten (10) feet, while the applicant proposes a building line of 5.92± feet along Detroit Avenue as shown on the Site Plan; and

WHEREAS, Section 3332.19, Fronting on a public street, requires a dwelling unit to have frontage on a public street, while the applicant proposes no frontage for the carriage house; and

WHEREAS, Section 3332.26, Minimum side yard permitted, requires three-unit dwellings in the R-4 district to have side yards of no less than five (5) feet on a minimum lot width of fifty (50) feet, while the applicant proposes a minimum side yard of 3.25 feet for the three-unit dwelling along the west property line on an existing lot that is thirty (30) feet wide; and

WHEREAS, Section 3332.27, Rear yard, requires a rear yard totaling no less than twenty-five (25) percent of...
the total lot area, while the applicant proposes no rear yard for the carriage house; and

WHEREAS, the Italian Village Commission recommends approval; and

WHEREAS, the City Departments recommend approval of the requested variances because the proposal will not add incompatible uses to the area as there are other carriage houses within this community. The request is consistent with the recent development pattern in historic urban neighborhoods; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 150 DETROIT AVENUE (43201), in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

LEGISLATION NUMBER: 0047-2015
Drafting Date: 12/19/2014
Current Status: Passed
Version: 1
Matter Type: Ordinance

BACKGROUND:

The City manages real property located at 7000 State Route 104, Columbus, Ohio 43137 {Franklin County Tax Parcels 010-242552, 010-242553, & 010-242554} commonly known as the Jackson Pike Waste Water Facility ("Facility"). The AEP Ohio Transmission Company, Inc., an Ohio corporation ("AEP"), desires temporary ingress and egress access rights on the City's property to maintain AEP's existing electric utility facilities and appurtenances (Harrison-Beatty 138kV line) already located on the Property pursuant to an easement described and recorded in Deed Book 1715, Page 586, Recorder’s Office, Franklin County, Ohio ("Improvement"). The Department of Finance and Management reviewed AEP’s access request and supports granting AEP’s ingress and egress access at no cost, because (i) AEP's ingress and egress access via the Facility is temporary; (ii) AEP’s proposed temporary ingress and egress access to the Improvement is only via a route approved by the City; and (iii) AEP will restore all property at the Facility affected by AEP’s ingress and egress access to the Improvement. Accordingly, this ordinance authorizes the director of the Department of Finance and Management to execute any instrument(s) or agreement(s), as approved by the City Attorney, necessary for AEP to gain temporary, nonexclusive ingress and egress access on the City's Property to the Improvement.

FISCAL IMPACT: Not applicable.

EMERGENCY JUSTIFICATION: Emergency action is requested so to not delay AEP’s maintenance of the Improvement, which will preserve the public peace, health, property, safety, and welfare.
To authorize the director of the Department of Finance and Management to execute any instrument(s) or agreement(s), as approved by the City Attorney, necessary for the AEP Ohio Transmission Company, Inc., an Ohio corporation, to gain temporary, nonexclusive ingress and egress access rights to access AEP's existing electric utility facilities on the Jackson Pike Waste Water Treatment Facility; and to declare an emergency. ($0.00)

WHEREAS, it is in the City’s best interest to authorize the director of the Department of Finance and Management to execute any instrument(s) or agreement(s) necessary for the AEP Ohio Transmission Company, Inc., an Ohio corporation (i.e. AEP), to gain temporary, nonexclusive ingress and egress access via the City’s real property located at 7000 State Route 104, Columbus, Ohio 43137 {Franklin County Tax Parcels 010-242552, 010-242553, & 010-242554} commonly known as the Jackson Pike Waste Water Facility (i.e. Facility) in order for AEP to maintain existing electric utility facilities and appurtenances (Harrison-Beatty 138kV line) already located on the Property pursuant to an easement described and recorded in Deed Book 1715, Page 586, Recorder’s Office, Franklin County, Ohio (i.e. Improvement);

WHEREAS, it is in the City’s best interest to grant AEP ingress and egress access via the Facility for no monetary consideration, because (i) AEP’s ingress and egress access of the Facility is temporary; (ii) AEP’s ingress and egress access to the Improvement is only via a route approved by the City; and (iii) AEP will restore all property at the Facility affected by AEP’s ingress and egress access to the Improvement;

WHEREAS, it is in the City’s best interest for the City Attorney to approve all instrument(s) or agreement(s) associated with this ordinance; and

WHEREAS, an emergency exists in the usual daily operation of the City, because immediately permitting AEP ingress and egress access via the Facility prevents delay in maintaining the Improvement, which will preserve the public peace, property, health, welfare, and safety; and now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS, OHIO:

SECTION 1. The director of the Department of Finance and Management is authorized to execute any instrument(s) or agreement(s) necessary for the AEP Ohio Transmission Company, Inc., an Ohio corporation (i.e. AEP), to gain temporary, nonexclusive ingress and egress access via the City’s real property located at 7000 State Route 104, Columbus, Ohio 43137 {Franklin County Tax Parcels 010-242552, 010-242553, & 010-242554} commonly known as the Jackson Pike Waste Water Facility (i.e. Facility) in the route approximately described and depicted in the map attachment, Exhibit A, which is fully incorporated into this ordinance for reference, in order for AEP to maintain existing electric utility facilities and appurtenances (Harrison-Beatty 138kV line) already located on the Property pursuant to an easement described and recorded in Deed Book 1715, Page 586, Recorder’s Office, Franklin County, Ohio (i.e. Improvement).

SECTION 2. The City Attorney is required to approve any instrument(s) or agreement(s) associated with this ordinance.

SECTION 3. For the reasons stated in the preamble of this ordinance, which are made a part of this ordinance, this ordinance is declared an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten (10) days after its passage if the Mayor neither approves nor vetoes this ordinance.
1. BACKGROUND
The Department of Public Service has a Recycling and Yard Waste Public Relations Campaign contract with Murphy Epson to provide consulting, marketing, and outreach services for the curbside recycling program. This ordinance authorizes a contract modification to extend the contract end date to 3/31/2015 to allow completion of existing projects.

The contract was originally put in place through a bid award authorized by Ordinance 1766-2011 for work needed in conjunction with what would eventually become the City’s yard waste and recyclables contract with Rumpke of Ohio, approved by Ordinance 0088-2012 on February 1, 2012. The City of Columbus, in its continual efforts to be environmentally friendly and a “Green” community, determined it was in the best interest of the City to make changes to the terms and conditions of the City’s yard waste and recyclables contract with Rumpke of Ohio. Ordinance 0976-2013 authorized changes to be made to the terms and conditions of that contract. The changes included splitting the five recycling collection zones into ten zones and expanding the program’s services to multi-family dwellings.

Those changes required marketing and outreach efforts for resident education that were anticipated to end 12/31/2014. Extending the Recycling and Yard Waste Public Relations Campaign contract allowed this effort to be done by the consulting team already familiar with the program, allowing the marketing and outreach efforts to continue uninterrupted during the period of program change and expansion. The marketing and outreach effort in support of the zone change and program expansion to multi-family dwellings is not yet complete. This legislation authorizes the contract term to be extended to 3/31/2015 so these efforts can be completed.

This contract modification is executed to extend the term of the contract and does not require additional funds to be legislated. The total amount of the contract is as follows:

- $330,000.00 Original Contract Amount (EL012329)
- $100,000.00 Amount of Modification #1 (EL013025)
- $30,000.00 Amount of modification #2 (EL015084)
- $135,000.00 Amount of modification #3 (EL015564)
- $0.00 Amount of modification #4 (this modification)
- $595,000.00 Total contract amount including all modifications

Searches in the System for Award Management (Federal) and the Findings for Recovery list (State) produced no findings against Murphy Epson, Inc.

2. FISCAL IMPACT
No additional funds are requested. This modification is to extend the contract end date only.

3. EMERGENCY DESIGNATION
Emergency action is required to allow the completion of the marketing and outreach service related to this period of program expansion.

4. Contract Compliance
The contract compliance number for Murphy Epson, Inc., is 311263605 and expires 05/06/2016.
To authorize the Director of Public Service to extend the contract end date with Murphy Epson, Inc., for the
WHEREAS, Ordinance 1766-2011 authorized the Director of Public Service to enter into contract with Murphy Epson, Inc., in the amount of $330,000.00 (EL012329) for consulting services for the City's curbside recycling program; and

WHEREAS, Ordinance 1167-2012 authorized the modification and increase of this contract, by up to $100,000.00, to perform additional outreach events and conduct promotions related to the curbside recycling program; and

WHEREAS, Ordinance 2457-2013 authorized the modification and increase of this contract, by up to $30,000.00, to perform additional outreach events and conduct promotions related to the curbside recycling program; and

WHEREAS, in its continuing efforts to be an environmentally friendly and "Green" community, the City of Columbus determined it was necessary to make changes to the terms and conditions of the City’s yard waste and recyclables contract with Rumpke of Ohio (approved by Ordinance 0976-2013); and

WHEREAS, the changes in the City’s yard waste and recyclables contract with Rumpke of Ohio require marketing and outreach efforts for resident education; and

WHEREAS, Ordinance 0639-2014 extended the contract an additional year to allow the marketing and outreach effort to be done by the consulting team already familiar with the program; and

WHEREAS, additional time is needed to complete these marketing and outreach efforts; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Public Service, in that it is immediately necessary to modify the contract in order to allow the completion of the marketing and outreach efforts related to this period of program expansion, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of the Department of Public Service be and is hereby authorized to modify the Recycling and Yard Waste Public Relations Campaign contract with Murphy Epson, Inc., 1650 Watermark Drive, Suite 210, Columbus, Ohio, 43215, to extend the contract end date to 03/31/2015.

SECTION 2. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

Council Variance Application: CV14-058

APPLICANT: Connie J. Klema; 145 East Rich Street, 2nd Floor; Columbus, Ohio 43215.

PROPOSED USE: A single-unit dwelling and a three-unit dwelling (carriage house) on one lot.

ITALIAN VILLAGE COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. This variance will conform an existing
dwelling and permit the construction of a three-unit dwelling above eight garage parking spaces (carriage
house) on the same lot. Other variances are included for maneuvering, stacked parking, and fronting on a
public street with reductions to lot area, side yards, and rear yard. A Council variance is necessary because the
R-4, Residential District permits a maximum of four dwelling units in one building, but does not permit two
residential buildings on one lot. Staff finds that the proposal will not add incompatible uses to the area as there
are other carriage houses within this community. The request is consistent with the recent development pattern
in historic urban neighborhoods, and building design will conform to the Italian Village Commission
requirements.

WHEREAS, by application No. CV14-058, the owner of property at 60 EAST HUBBARD AVENUE
(43215), is requesting a Council variance to permit a three-unit dwelling (a carriage house) on the rear of a lot
developed with a single-unit dwelling, with reduced development standards in the R-4, Residential District; and
WHEREAS, Section 3333.039, R-4, Residential District, allows a maximum of four units in one building, but does not permit two residential buildings on one lot, while the applicant proposes to construct a rear three-unit dwelling above a detached garage (a carriage house) on a lot developed with a single-unit dwelling; and

WHEREAS, Section 3312.25, Maneuvering, requires every parking space to have sufficient access and maneuvering area anywhere on a lot including aisles or circulation areas, while the applicant proposes to allow maneuvering over and through parking spaces in the garage and driveway connecting to Short Alley; and

WHEREAS, Section 3312.29, Parking space, allows stacked parking spaces for dwellings, but those stacked spaces may not be counted as required spaces, while the applicant proposes four stacked spaces in the garage of the three-unit dwelling to be counted in the total number of provided parking spaces; and

WHEREAS, Section 3332.15, R-4 area district requirements, requires that a dwelling containing three (3) or four (4) dwelling units shall be situated on a lot with an area which equals or exceeds 2,500 square feet of lot area per dwelling unit, while applicant proposes a three-unit dwelling carriage house with an existing single-unit dwelling on a 6,851.25 ± square foot lot, totaling 1,871± square feet of lot area per dwelling unit; and

WHEREAS, Section 3332.18(D), Basis of computing area, requires that the a residential building shall occupy alone or together with any other building no greater than fifty (50) percent of the lot area, while the applicant proposes sixty-seven (67) percent lot coverage; and

WHEREAS, Section 3332.25, Maximum side yards required, requires the sum of the widths of the side yards to be a maximum of 10.15 feet, while the applicant proposes a maximum side yard of zero (0) feet for the proposed three-unit dwelling; and

WHEREAS, Section 3332.26, Minimum side yard permitted, requires a minimum side yard of five (5) feet, while the applicant proposes zero (0) feet for the proposed three-unit dwelling; and

WHEREAS, Section 3332.27, Rear yard, requires a rear yard totaling no less than twenty-five (25) percent of the total lot area, while the applicant proposes no rear yard for the three-unit dwelling (carriage house) and a rear yard totaling twelve (12) percent for the single-unit dwelling; and

WHEREAS, the Italian Village Area Commission recommends approval; and

WHEREAS, the City Departments recommend approval of the requested variances because the proposal will not add incompatible uses to the area as there are other carriage houses within this community. The request is consistent with the recent development pattern in historic urban neighborhoods; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

1. Background:
The City of Columbus, Department of Public Service, received a request from NAS 6, LLC, asking that the City sell a 0.0615 acre portion of the undeveloped east/west right-of-way south of West Mound Street between Clarendon and Whitehorn Avenues, adjacent to property owned by NAS 6, LLC, located at 2157 West Mound Street. Transfer of this right-of-way will facilitate the improvement of access and parking facilities for the adjacent residential properties, owned by NAS 6, LLC. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way. A value of $945.00 was established for this right-of-way. A request for mitigation of the cost of the aforementioned right-of-way was submitted by NAS 6, LLC. After review of the request, the Land Review Commission voted to recommend the above referenced right-of-way be transferred at no cost to NAS 6, LLC.

2. FISCAL IMPACT:
To authorize the Director of the Department of Public Service to execute those documents required to transfer a 0.0615 acre portion of the undeveloped east/west right-of-way south of West Mound Street between Clarendon and Whitehorn Avenues, adjacent to property owned by NAS 6, LLC, located at 2157 West Mound Street.

WHEREAS, the City of Columbus, Department of Public Service, received a request from NAS 6, LLC, asking that the City transfer a 0.0615 acre portion of the undeveloped east/west right-of-way south of West Mound Street between Clarendon and Whitehorn Avenues, adjacent to property owned by NAS 6, LLC, located at 2157 West Mound Street, to them; and

WHEREAS, acquisition of the right-of-way will provide additional parking and improved access for existing residential properties owned by NAS 6, LLC, located at 2157 West Mound Street; and

WHEREAS, the City of Columbus, Department of Public Service, Division of Infrastructure Management, by this transfer, extinguishes its need for this public right-of-way; and

WHEREAS, per current practice, comments were solicited from interested parties, including City agencies, private utilities and applicable area commissions, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way to NAS 6, LLC; and

WHEREAS, the Department of Public Service submitted a request to the Department of Law, Real Estate Division, asking that they establish a value for this right-of-way; and

WHEREAS, a value of $945.00 was established for this right-of-way; and

WHEREAS, NAS 6, LLC submitted a request for mitigation of the cost of the aforementioned right-of-way to the Land Review Commission; and

WHEREAS, after a review of the request, the Land Review Commission voted to recommend that the above referenced right-of-way be transferred at no cost to NAS 6, LLC; and now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

BACKGROUND: The Community Development Service Area Designation, based on 2010 Census data, describes criteria to identify the geographic area of the City eligible for Community Development Block Grant (CDBG)-funded activities to improve blighted, deteriorated, or deteriorating conditions. It represents an identifiable residential community and its associated commercial areas.

This ordinance adopts the Community Development Service Area Designation through 2024. The Community Development Service Area incorporates the planning and application aspects of the CDBG program and represents a continued commitment to providing decent housing and suitable living environments and expanding economic opportunities.

Currently, the City's CDBG-funded programs using the Community Development Service Area Designation include Neighborhood Commercial Development, Neighborhood Support Fund, and the Land Reutilization Program.

Historically, a Census-based study and analysis of the City has been completed every ten years to determine blighted areas. The Community Development Service Area map is submitted as an attachment to this legislation.

This ordinance is submitted as an emergency to ensure timely submission to HUD.

FISCAL IMPACT: None directly, although designation is associated with CDBG program.

WHEREAS, under the provisions as set forth in the various federal statutes, the City is required to submit the Community Development Service Area Designation which describes criteria used to identify the area of the City of Columbus eligible for Community Development Block Grant funds for activities intended to improve blighted, deteriorated, or deteriorating conditions; and

WHEREAS, the Community Development Service Area Designation is attached; and

WHEREAS, the current Community Development Service Area Designation shall apply through 2024 until 2020 Census data are made available to replace outdated 2010 Census data on which it is based; and

WHEREAS, an emergency exists in the usual daily operation of the city in that it is immediately necessary to authorize the extension of the aforesaid designation to ensure timely submission to HUD, thereby preserving the public peace, health, safety, and welfare; NOW, THEREFORE,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:
SECTION 1. That the City of Columbus hereby adopts the 2014-2024 Community Development Service Area Designation as the City's determination of a blighted area eligible for Community Development Block Grant (CDBG)-funded programs and activities.

1. BACKGROUND
The Division of Traffic Management is responsible for maintaining the city's signs, signals and pavement markings. As a part of this activity, the city receives an annual allocation of funds from the county's $5.00 Auto License Tax. The City of Columbus uses these funds for maintenance and upgrade work on arterial streets within city limits that are the responsibility of the Franklin County Engineer. The county allocates the money based on motor vehicle registrations within Columbus limits. After receipt, the city deposits the funds into its County Auto License Tax Fund (Fund 264) and the funds transferred to the Street Construction Maintenance and Repair Fund No. 265 when the maintenance activity is completed.

This ordinance authorizes the movement of funds from fund 264 to fund 265 by internal bill. This ordinance appropriates all funds in an amount necessary to carry out the purpose of this ordinance and not to exceed cash received from Franklin County in 2015.

2. FISCAL IMPACT
Actual and anticipated receipts into the County Auto License Tax Fund are estimated to be sufficient to support this appropriation and give The Division of Traffic Management the ability to invoice for time and material work done on arterial streets owned by Franklin County, and to meet revenue projections of the Street Construction Maintenance and Repair Fund which supports the Division of Traffic Management.

3. EMERGENCY DESIGNATION
The department requests emergency designation for this ordinance in order to provide for this appropriation taking effect immediately to promote efficient accounting practices and maintain prudent cash flow to division operating funds.
To authorize the appropriation of funds within the County Auto License Tax Fund; to authorize the Director of Public Service to expend said monies or so much thereof as may be needed for Franklin County Engineer-approved roadway construction and maintenance projects undertaken by the Division of Traffic Management; and to declare an emergency.

WHEREAS, the Division of Traffic Management is responsible for maintaining the city's signs, signals and pavement markings; and

WHEREAS, the city receives an annual allocation of funds from the county's $5.00 Auto License Tax for Franklin County Engineer-approved projects completed by the city on arterial streets within city limits; and

WHEREAS, these funds are deposited into the city's County Auto License Tax Fund and are used to reimburse costs incurred by the Division of Planning and Operations within other funds; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Traffic Management, Department of Public Service, in that an appropriation of funds is immediately necessary to allow these monies to be used for said purposes and to promote and reinforce efficient accounting practices and maintain prudent cash flow to division operating funds, thereby preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That from the unappropriated balance of the County Auto License Tax Fund, Fund 264, and from all monies estimated to come into said fund from any and all sources and unappropriated for any other purpose during the fiscal year ending December 31, 2015, these funds are hereby authorized to be moved to fund 265 by internal billing.

SECTION 2. That all funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated in an amount not to exceed funds received from Franklin County in 2015, and the City Auditor shall establish such accounting codes as necessary.

SECTION 3. That the monies appropriated in Section 2 shall be paid upon order of the Director of Public Service and that no order shall be drawn or money paid except by voucher, the form of which shall be approved by the City Auditor.

SECTION 4. That the Director of Public Service be and hereby is authorized to expend these monies or so much thereof as may be needed to pay internal billings for Franklin County Engineer-approved roadway construction and maintenance work undertaken by the Division of Traffic Management in and for the City of Columbus.

SECTION 5. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

(2) Indicate which proposed subcontractors are licensed construction trade subcontractors, as defined in 329.01;
(3) State, via affidavit, that the bidder?s proposed licensed construction trade subcontractors are prequalified responsible or prequalified provisionally responsible at the time of bid due date;

This form should be used to request any revisions to the originally submitted subcontractor list or listed in the contract. Columbus City Code Section 329.20 states the following:

Complete and submit Forms B7, B8, and B9 (found in Section II, entitled "Bid Forms") to fulfill the responsibility provision requirement of your bid.
F. MISCELLANEOUS PROVISIONS

LOCAL PREFERENCE PROVISIONS
Columbus City Code Section 329.212 requires the contracting agency to follow local preference procedures if the lowest, responsive, responsible, and best bid is not from a local bidder, and one or more responsive, responsible, and best bids submitted by local bidders are within 1% of that non-local bid. Submission of bid constitutes bidder's acknowledgement and acceptance of these provisions.

The Local Preference provisions are as follows:
(1) The contracting agency shall notify, in writing, any local bidders within 1% of the non-local bid that they may be awarded the contract if they meet the lowest bid price, and shall provide a copy of this notification, in writing, to the non-local bidder who submitted the lowest, responsive, responsible bid.
(2) The notified local bidder(s) shall have two (2) business days from the date of notification to inform the city in writing if they agree to meet the lowest bid price and to provide a revised bid to demonstrate the same.
(3) If one notified local bidder agrees to meet the lowest price and the city is satisfied that the revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to that local bidder.
(4) If two or more notified local bidders agree to meet the lowest bid price and the city is satisfied that one or more of the revised bids is the lowest, responsive, responsible, and best, the city shall award the contract to such local bidder with the lowest original bid.
(5) If no notified local bidder agrees to meet the lowest price or if the city is not satisfied that any notified local bidder's revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to the bidder with the lowest, responsive, responsible, and best bid.
(6) Submission of a revised bid does not constitute a tie bid for the purposes of Section 329.212.

The provisions of this section shall not apply to joint ventures unless all members of the joint venture are local businesses, as defined in section 329.01 of Columbus City Code.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section 329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the environmental preference in Section 329.17 shall be applied second.

ENVIRONMENTAL PREFERENCE PROVISIONS
Columbus City Code Section 329.01(n) allows for the city to give preference to an environmentally preferable bidder. An environmentally preferable bidder is a bidder or offeror whose bid or offer consists of materials, supplies, equipment, construction and/or services which have a lesser or reduced effect on human health and the environment when compared to competing materials, supplies, equipment, construction and services that serve the same purpose. This comparison may consider any aspect of the procurement cycle, including but not limited to raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the material, supply, equipment, construction, or service. To be considered an environmentally preferable bidder or offeror, the bidder or offeror must clearly specify in their bid how their materials, supplies, equipment, construction or services qualify their bid or offer as 'environmentally preferable'.

In evaluating bids for construction services, preference will be given to an environmentally preferable bidder who offers a construction service equal to or superior to that of a non-environmentally preferable bidder where the environmentally preferable bid does not exceed by more than five (5) percent (up to a
maximum of twenty thousand dollars ($20,000) the lowest, responsive, responsible, and best bid from any non-environmentally preferable bid. The environmentally preferable bidder will be required to demonstrate to the city agency procuring the construction service how their bid is equal to or superior to that of a non-environmentally preferable bidder and how the bid meets the agency's specifications as required above.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section 329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the environmental preference in Section 329.17 shall be applied second.

Examples of practices that would meet the definition of environmentally preferable shall include, but are not limited to:

a. Construction Site Waste Management Plan: Has the bidder adopted a construction site Waste Management Plan for its company in conformance with LEED New Construction - Material and Resource Credit 2.1 (Construction Waste Management) that will result in at least 50% (by weight) of the construction debris generated on site being reused or recycled?

b. Fleet Policy: Has the bidder adopted a fleet policy for reducing vehicle emissions from its fleet of on and off-road vehicles? The policy should include, at a minimum, an anti-idling directive for its construction sites, use of ultra-low sulfur diesel and/or alternative fuels (such as biodiesel), and a schedule for replacing or retrofitting current vehicles with emission reduction technologies.

c. Project-Specific Environmental Proposal: Has the bidder proposed the use of materials, supplies, equipment, or construction practices having a lesser or reduced effect on human health and the environment? PLEASE NOTE: Any proposed substitutions for materials or supplies must comply with City's standard specifications and the or equal? requirements of the bid.

Does the bidder meet the definition of Environmentally Preferable Bidder?

YES? NO?

If yes, please attach a copy of bidder's construction site waste management plan or fleet policy, as well as documentation on the adoption and implementation of said policy by the bidder. If making a project specific environmental proposal, the bidder must submit documentation citing its environmental benefits. All documentation must be received at time of bid submission for receipt of environmental preference. Documentation attached: 

CONTRACT PERFORMANCE AND PAYMENT BOND

The successful bidder will be required to secure a contract performance and payment bond in the amount of 100 percent of the contract price, including the guarantee period, in accordance with Columbus City Code Section 329.14 and the current edition of the City of Columbus, Ohio Construction and Material Specifications (CMS), to assure the faithful performance of the work.

The performance and payment bond shall be issued by a guaranty company authorized to do so under the Ohio Revised Code or by a surety who is: (1) a resident of this state; (2) worth, in the aggregate, double the sum to be secured, beyond the amount of their debts; and (3) have property liable to execution in the state equal to the sum to be secured.

All bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety financial statement, and current Ohio Department of Insurance Certificate of Compliance. Failure to
execute the contract and file an acceptable performance and payment bond(s) shall be cause for cancellation of the award and the city may file a claim under the bond.

If a contractor has not commenced his work within a reasonable time, or does not carry the same forward with reasonable progress, or is improperly performing his work, or has abandoned, or fails or refuses to complete a contract entered into under Section 329 of the Columbus City Code, the director of the contracting agency shall make a finding to that effect and so notify the contractor in writing, and the rights of the contractor to control and supervise the work shall immediately cease, per the CMS.

The director shall forthwith give written notice to the sureties on the bonds of such contractor of such action. If, within ten days after the receipt of such notice, such sureties on the contract performance and payment bond or any one or more of them notify the director in writing of their intention to enter upon and complete the work covered by such contract, such sureties shall be permitted to do so and the director shall allow them thirty days, after the receipt of such notice in writing, within which to enter upon the work and resume construction, unless such time is extended by the director for good cause shown. If such sureties do not carry the same forward with reasonable progress, or if they improperly perform, abandon, or fail to complete the work covered by any such contract, the director shall complete the same in the manner provided in this section. In the event the sureties on the contract performance and payment bond, or any one or more of them, notify the director in writing of their intention to enter upon and complete the work covered by such contract, and then fail or refuse to do so, any additional costs reasonably incurred by the director as a result of such failure or refusal shall be computed by the director and become the liability of such surety, which is not limited by the amount of the contract performance and payment bond. If the surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such additional costs from the surety.

If, after receiving notice of the action of the director in terminating the control of the contractor over the work covered by his contract, the sureties on such contract performance and payment bond do not within ten days give the director the written notice provided for in this section, the director shall cause that portion of the work which remains uncompleted to be re-estimated and relet in accordance with the requirements applicable to original bids; or in the event the director determines with the approval of the Mayor an extraordinary emergency exists, he may contract for the completion of the work without advertising the bids if he considers it to be in the best public interest.

Before entering into a contract for the completion of any such improvement, the director shall require a contract performance and payment bond with sufficient sureties each in an amount equal to one hundred per cent of the estimated cost of completing the work, and conditions relating to the bonds of original contractors shall apply to such bonds.

If the cost of completing any such improvement exceeds the portion of the contract price remaining unpaid to the original contractor at the time of his default, such excess shall be computed by the director and becomes the liability of such contractor or surety or both. If either the contractor or surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such excess cost from the contractor and the sureties upon his contract performance and payment bond, and the amount so collected shall be paid into the city treasury to the credit of the fund from which the excess cost was originally paid.

CONTRACT AFFIDAVIT

Form C3, "Contract Signature Affidavit" shall be used if the individual signing the contract is NOT an Officer or Member of the Company. As with Form C1, this should only be submitted when necessary by the successful bidder. It should not be submitted with the bid.
CONTRACT COMPLIANCE REQUIREMENTS
The City of Columbus encourages the participation of city certified minority and female business enterprises. While participation of and/or partnering with city certified minority and female owned businesses is not a condition of bid award, it is strongly encouraged.

Bidders will be given seven (7) business days after the bid submittal date to update expired contract compliance information for renewal of numbers or to initially apply for a number. If said information has not been updated within 7 business days from the bid submittal date, the bid may be deemed non-responsive and may no longer be considered. All contractors and subcontractors who are party to a contract as defined in Columbus City Codes must hold valid contract compliance certification numbers before the contract is executed. The City is not responsible for notifying bidders of expired contract compliance numbers after bid submission.

F. MISCELLANEOUS PROVISIONS

LOCAL PREFERENCE PROVISIONS
Columbus City Code Section 329.212 requires the contracting agency to follow local preference procedures if the lowest, responsive, responsible, and best bid is not from a local bidder, and one or more responsive, responsible, and best bids submitted by local bidders are within 1% of that non-local bid. Submission of bid constitutes bidder’s acknowledgement and acceptance of these provisions.

The Local Preference provisions are as follows:
1. The contracting agency shall notify, in writing, any local bidders within 1% of the non-local bid that they may be awarded the contract if they meet the lowest bid price, and shall provide a copy of this notification, in writing, to the non-local bidder who submitted the lowest, responsive, responsible bid.
2. The notified local bidder(s) shall have two (2) business days from the date of notification to inform the city in writing if they agree to meet the lowest bid price and to provide a revised bid to demonstrate the same.
3. If one notified local bidder agrees to meet the lowest price and the city is satisfied that the revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to that local bidder.
4. If two or more notified local bidders agree to meet the lowest bid price and the city is satisfied that one or more of the revised bids is the lowest, responsive, responsible, and best, the city shall award the contract to such local bidder with the lowest original bid.
5. If no notified local bidder agrees to meet the lowest price or if the city is not satisfied that any notified local bidder’s revised bid is the lowest, responsive, responsible, and best, the city shall award the contract to the bidder with the lowest, responsive, responsible, and best bid.
6. Submission of a revised bid does not constitute a tie bid for the purposes of Section 329.212.

The provisions of this section shall not apply to joint ventures unless all members of the joint venture are local businesses, as defined in section 329.01 of Columbus City Code.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section 329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the environmental preference in Section 329.17 shall be applied second.

ENVIRONMENTAL PREFERENCE PROVISIONS
Columbus City Code Section 329.01(n) allows for the city to give preference to an environmentally preferable bidder. An environmentally preferable bidder is ?A bidder or offeror whose bid or offer consists of materials, supplies, equipment, construction and/or services which have a lesser or reduced effect on human health and the environment when compared to competing materials, supplies, equipment, construction and services that serve the same purpose. This comparison may consider any aspect of the procurement cycle, including but not limited to raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the material, supply, equipment, construction, or service. To be considered an environmentally preferable bidder or offeror, the bidder or offeror must clearly specify in their bid how their materials, supplies, equipment, construction or services qualify their bid or offer as ?environmentally preferable?."

In evaluating bids for construction services, preference will be given to an environmentally preferable bidder who offers a construction service equal to or superior to that of a non-environmentally preferable bidder where the environmentally preferable bid does not exceed by more than five (5) percent (up to a maximum of twenty thousand dollars ($20,000)) the lowest, responsive, responsible, and best bid from any
non-environmentally preferable bid. The environmentally preferable bidder will be required to demonstrate
to the city agency procuring the construction service how their bid is equal to or superior to that of a
non-environmentally preferable bidder and how the bid meets the agency’s specifications as required above.

For construction contracts procured under Columbus City Code Section 329, Article III, and if Section
329.212 applies to the evaluation, the local preference in Section 329.212 shall be applied first and the
environmental preference in Section 329.17 shall be applied second.

Examples of practices that would meet the definition of “environmentally preferable” shall include, but are
not limited to:

a. Construction Site Waste Management Plan: Has the bidder adopted a construction site Waste
Management Plan for its company in conformance with LEED New Construction ? Material and Resource
Credit 2.1 (Construction Waste Management) that will result in at least 50% (by weight) of the construction
debris generated on site being reused or recycled?

b. Fleet Policy: Has the bidder adopted a fleet policy for reducing vehicle emissions from its fleet of on
and off-road vehicles? The policy should include, at a minimum, an anti-idling directive for its construction
sites, use of ultra-low sulfur diesel and/or alternative fuels (such as biodiesel), and a schedule for replacing
or retrofitting current vehicles with emission reduction technologies.

c. Project-Specific Environmental Proposal: Has the bidder proposed the use of materials, supplies,
equipment, or construction practices having a lesser or reduced effect on human health and the
environment? PLEASE NOTE: Any proposed substitutions for materials or supplies must comply with
City’s standard specifications and the ‘or equal’ requirements of the bid.

Does the bidder meet the definition of Environmentally Preferable Bidder?

YES? NO ?

If yes, please attach a copy of bidder’s construction site waste management plan or fleet policy, as well as
documentation on the adoption and implementation of said policy by the bidder. If making a project specific
environmental proposal, the bidder must submit documentation citing its environmental benefits. All
documentation must be received at time of bid submission for receipt of environmental preference.
Documentation attached: ?

**CONTRACT PERFORMANCE AND PAYMENT BOND**

The successful bidder will be required to secure a contract performance and payment bond in the amount of
100 percent of the contract price, including the guarantee period, in accordance with Columbus City Code
Section 329.14 and the current edition of the City of Columbus, Ohio Construction and Material
Specifications (CMS), to assure the faithful performance of the work.

The performance and payment bond shall be issued by a guaranty company authorized to do so under the
Ohio Revised Code or by a surety who is: (1) a resident of this state; (2) worth, in the aggregate, double the
sum to be secured, beyond the amount of their debts; and (3) have property liable to execution in the state
equal to the sum to be secured.

All bonds signed by an agent must be accompanied by a surety power of attorney, most recent surety
financial statement, and current Ohio Department of Insurance Certificate of Compliance. Failure to
execute the contract and file an acceptable performance and payment bond(s) shall be cause for cancellation of the award and the city may file a claim under the bond.

If a contractor has not commenced his work within a reasonable time, or does not carry the same forward with reasonable progress, or is improperly performing his work, or has abandoned, or fails or refuses to complete a contract entered into under Section 329 of the Columbus City Code, the director of the contracting agency shall make a finding to that effect and so notify the contractor in writing, and the rights of the contractor to control and supervise the work shall immediately cease, per the CMS.

The director shall forthwith give written notice to the sureties on the bonds of such contractor of such action. If, within ten days after the receipt of such notice, such sureties on the contract performance and payment bond or any one or more of them notify the director in writing of their intention to enter upon and complete the work covered by such contract, such sureties shall be permitted to do so and the director shall allow them thirty days, after the receipt of such notice in writing, within which to enter upon the work and resume construction, unless such time is extended by the director for good cause shown. If such sureties do not carry the same forward with reasonable progress, or if they improperly perform, abandon, or fail to complete the work covered by such contract, the director shall complete the same in the manner provided in this section. In the event the sureties on the contract performance and payment bond, or any one or more of them, notify the director in writing of their intention to enter upon and complete the work covered by such contract, and then fail or refuse to so complete, any additional costs reasonably incurred by the director as a result of such failure or refusal shall be computed by the director and become the liability of such surety, which is not limited by the amount of the contract performance and payment bond. If the surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such additional costs from the surety.

If, after receiving notice of the action of the director in terminating the control of the contractor over the work covered by his contract, the sureties on such contract performance and payment bond do not within ten days give the director the written notice provided for in this section, the director shall cause that portion of the work which remains uncompleted to be re-estimated and relet in accordance with the requirements applicable to original bids; or in the event the director determines with the approval of the Mayor an extraordinary emergency exists, he may contract for the completion of the work without advertising the bids if he considers it to be in the best public interest.

Before entering into a contract for the completion of any such improvement, the director shall require a contract performance and payment bond with sufficient sureties each in an amount equal to one hundred percent of the estimated cost of completing the work, and conditions relating to the bonds of original contractors shall apply to such bonds.

If the cost of completing any such improvement exceeds the portion of the contract price remaining unpaid to the original contractor at the time of his default, such excess shall be computed by the director and becomes the liability of such contractor or surety or both. If either the contractor or surety fails to pay such amount, the director shall certify the facts to the Columbus City Attorney, who shall proceed to collect such excess cost from the contractor and the sureties upon his contract performance and payment bond, and the amount so collected shall be paid into the city treasury to the credit of the fund from which the excess cost was originally paid.
