SCOPE: The City of Columbus, Ohio is inviting professional engineering consulting firms, or teams including such firms, to submit Proposals to furnish professional services for the City of Columbus, Department of Public Utilities, Division of Sewerage and Drainage (DOSD), for Capital Improvements Project Number(s) 650870-109151 - Sunrise/Glenn Integrated Solutions Project; 650870-109152- Edgehill/Meadow Integrated Solutions Project; 650870-115153-Highland/Harris Integrated Solutions Project; 650870-116154 -Yale/Edwin Integrated Solutions Project; 650870-116155-Green/Glenwood Integrated Solutions Project; pursuant to Columbus City Code 329.28. Proposals will be received at the Division of Sewerage and Drainage, 1250 Fairwood Avenue, Room 1021A, Columbus, Ohio 43206 until 4:30 PM on February 12th, 2016.

The scope of work for this project is to perform all the requisite investigation, evaluation, formulation and design work to prepare construction documents for the remediation of inflow and infiltration (I/I), and the improvement of water quantity and water quality within the project area(s) using Integrated Solutions. The City envisions these Integrated Solutions will focus on removing sufficient amounts of I/I and providing positive treatment of stormwater with GI prior to its discharge into storm sewers. This work must be done in complete conformance with the current version of the City of Columbus Stormwater Design Manual and the Construction and Materials Standards of Columbus (CMSC). It is envisioned that a significant portion of this work shall consist of reviewing and renovating privately-owned drainage systems (storm and sanitary) in the project area(s) shown in Exhibits G and H. The emphasis for privately owned drainage systems will be on residential properties. Commercial systems may require more specific consideration.

Another aspect of the work for this project is the possible re-purposing of Columbus Land Redevelopment Office (Land Bank), abandoned, and vacant parcels for the implementation of Green Infrastructure (GI). The City wishes to explore viable GI and low-impact development (LID) technologies which could be constructed on these vacant or abandoned parcels/lots within the project area. The ENGINEER shall be expected to identify specific parcels or groups of parcels that the DOSD should acquire for the purposes of demolishing houses and installing large-scale GI and low impact development technologies.

It is further envisioned that the GI will be in the right of way (ROW), Land Bank re-purposed, abandoned, and/or vacant parcels or on other City-owned property. The ROW GI may include, but not limited to, pervious sidewalks, street trees, traffic-calming bump-outs and/or various types of rain gardens.
