The Director of Public Utilities entered into a contract with Oracle Elevator Company for Elevator Maintenance Services, Facilities Equipment Maintenance Project #1401.3 for the Division of Sewerage and Drainage. The Southerly Wastewater Treatment Plant, Jackson Pike Wastewater Treatment Plant and Sewer Maintenance Operation Center have various styles of elevators that need to be inspected, maintained and repaired on a routine and emergency basis. The work to be performed under this contract will be mainly Elevators and their associated equipment and systems that require inspection, testing, troubleshooting, maintenance, and repair or replacement of failed components. The work may also include updating of software for the various units and their associated equipment.

The Department of Public Utilities advertised and solicited competitive bids in accordance with Columbus City Code Chapter 329 (Solicitation SA005332). Twenty-six (26) bids were solicited (2 MBR, 2 M1A, 22 MAJ), and three (3) bids (3 MAJ) were received and opened on March 26, 2014. The apparent low bidder, Fujitec America Inc., had requested to withdraw their bid in accordance with CMSC paragraph 102.13, within the specified 48 hours. This request was due to the vendor incorrectly summarizing their pricing on a monthly rather than a yearly basis. It would present an extreme hardship on the company to honor these prices.

After review of the bids, it was determined that Kone Inc. was non-responsive due to adding contract provisions not provided in the documents. The Division of Sewerage and Drainage then recommended an award be made to the lowest, responsive and responsible bidder Oracle Elevator Company.

The original contract was for a period of one year with three (3) one year renewal options on a year to year
basis upon mutual agreement, availability of funding and Columbus City Council approval. The Division of Sewerage and Drainage is utilizing the second extension option. This is the 3rd year of a four (4) year contract. This modification Number 2 will extend the contract through and including September 14, 2017.

Although the vendor’s original bid document used the name Oracle Elevator Company this ordinance is being written to utilize the complete name of Abell Elevator Service Company dba Oracle Elevator Company. This is the name as registered with the Department of the Treasury, Internal Revenue Service, (W-9 attached) and as registered with the City of Columbus, Vendor Services. The same FID number is utilized as has been in the past.

The Development Department is in contract with McKay Lodge Fine Arts Conservation Laboratory, Inc., Oberlin, Ohio, for the restoration of the Firefighters Memorial and associated memorial works on the east bank of the Scioto River. McKay Lodge was unanimously selected from a bid the Development Department posted in June 2015. Since going into contract with McKay Lodge, members of the Firefighter's Union and volunteers started a complete redevelopment of the memorial site. The new landscaping will complement the restored riverfront creating a contemplative place of remembrance that when complete, will have panoramic views of the new Veterans Memorial on the west riverbank.

In view of the larger redevelopment effort, Development was asked to expand its restoration project to include rerouting the gas line and pressure regulator for the Memorial’s eternal flame to the interior of an adjacent column. The gas line/ regulator are currently exposed and run alongside the exterior of the northwest column. The request was made for safety and aesthetic reasons. It will be more cost effective and efficient to have this completed concurrently with the planned restoration work contracted to McKay Lodge. This way, the work, which involves removing the stone cap of the Memorial and drilling through a stone column, can be completed under the direction of an expert in stone restoration. The cost estimate provided by McKay Lodge to reroute the gas line/regulator is $16,954.00 to which, a 20% contingency reserve in the amount of $3,391 has been added for a total cost of $20,345.00.

($35,638.83)
WHEREAS, it is necessary to authorize the Municipal Court Clerk to enter into contract with Interactive Intelligence Group, Inc. for the purchase of software maintenance and support for the Municipal Court Customer Interaction Center (CIC) phone system; and

WHEREAS, this agreement is being established in accordance with the sole source provisions of the Columbus City Code, Chapter 329; and

WHEREAS, an emergency exists in the usual daily operation of the Municipal Court Clerk's Office in that it is immediately necessary to authorize the Clerk to enter into contract with Interactive Intelligence Group, Inc. for the purchase of software maintenance and support services for the Municipal Court CIC phone system, thereby preserving the public health, peace, property, safety, and welfare; now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Municipal Court Clerk be and is hereby authorized to enter into a one year contract with Interactive Intelligence Group, Inc. for the purchase of software maintenance and support services for the Municipal Court CIC phone system in the amount of $35,638.83, pursuant to the sole source provisions of City Code Chapter 329.

SECTION 5. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
gutters, downspouts, and lightning protection, and other such work as may be necessary to complete the contract in accordance with the plans and specifications set forth in the Invitation for bid (IFB).

The Community Planning Area is “N/A” since the Watershed Management Office is located outside the City of Columbus planning area.

2.0 ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT: The current roof is not properly installed and is at risk of leaking and causing operational problems in the Watershed Management Office (WMO). The WMO staff is responsible for water quality protection and operations and maintenance of the city reservoirs and surrounding city parks and city-owned property. Watershed Protection Specialists protect city property and preserve water quality. A high quality water supply source provides Columbus area residents with excellent drinking water at a reasonable cost. No public input or community outreach was sought for development of this project.

3.0 CONSTRUCTION CONTRACT AWARD: The Department utilized a formal competitive process to advertise and bid this job pursuant to Columbus City Code 329. The Director of Public Utilities publicly opened three bids in Bid Express on June 1, 2016 from: Smith Roofing & Sheet Metal - $176,766.50 (originally $253,086.50; see Section 4.0 below); K & W Roofing - $179,789.85; and Phinney Industrial Roofing - $233,358.00 (upon bid tab correction).

4.0 BID WAIVER: Smith Roofing & Sheet Metal’s total bid price as indicated in Bid Express was $253,086.50, which was the highest of the three submitted bids. However, upon review of the bid Item No. 2, a lump sum was used by Smith Roofing and Sheet Metal rather than a unit price as requested. When the unit price was applied, the total for this bid item was $76,800 (compared to $1,440 and $1,920 for the other two bidders), indicating an obvious error had been made by Smith Roofing.

Smith Roofing stated that a lump sum was mistakenly used and subsequently clarified how the lump sum translated to the unit price. This clarification changes the total bid amount indicated in Bid Express and results in Smith Roofing as the lowest bidder at $176,766.50.

In order to allow the Director of Public Utilities to award to the lowest bidder notwithstanding the obvious error, thereby saving over $3,000, the Department is requesting the provisions of formal competitive bidding be waived in order to contract with Smith Roofing & Sheet Metal LLC.

4.1 PRE-QUALIFICATION STATUS: Smith Roofing & Sheet Metal LLC and all proposed subcontractors have met code requirements with respect to pre-qualification, pursuant to relevant sections of Columbus City Code Chapter 329.

Smith Roofing & Sheet Metal’s Contract Compliance Number is 27-0828913 (expires 6/3/17, Majority) and their DAX Vendor Account No. is 002803. Additional information regarding all bidders, description of work, contract time frame and detailed amounts can be found on the attached Information form.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against Smith Roofing & Sheet Metal LLC.

5. FISCAL IMPACT: A transfer of funds within the Water Build America Bonds Fund will be necessary as well as an amendment to the 2016 Capital Improvements Budget.

WHEREAS, upon clarification of the lump sum error the bid amount was reduced to $176,766.50, resulting in Smith Roofing & Sheet Metal being the lowest bidder; and

WHEREAS, it is in the City's best interest to waive the provisions of Chapter 329 of the Columbus City Code related to competitive bidding in order to award to Smith Roofing & Sheet Metal, thereby saving over $3,000; and

WHEREAS, it is necessary to authorize the Director of the Department of Public Utilities to award and execute a construction contract for the Watershed Misc. Imp’s - Watershed Management Roof Replacement Project to Smith Roofing & Sheet Metal LLC; and

1.0 BACKGROUND: This Ordinance authorizes the Director of Public Utilities to modify and increase the professional engineering services agreement with CH2M Hill Engineers, Inc. for the Dublin Road Water Plant Treatment Capacity Increase Project, for the Division of Water Contract No. 1009.

The original agreement as well as Modification No. 1 provided for preliminary and detailed design of the project.

Modification No. 3 provided for final detailed design services of treatment improvements and to continue Engineering Services During Construction.

Modification No. 4 provided funding for a continuation of Engineering Services During Construction.

Modification No. 5 provided funding for a continuation of Engineering Services During Construction for Parts 1 through 5.

This Modification (No. 6) will also provide funding to continue Engineering Services During Construction, including performing site visits to determine if work is proceeding in accordance with the contract documents, submittal review, responding to Contractor’s request for information and preparation of record drawings, etc. This modification is anticipated to fund these services through March 2017.

PLANNING AREA:
Not Applicable. There is no single planning area associated with this project because the DRWP serves multiple planning areas.

Total (Orig. + Mods 1 - 6) $46,532,936.00
Modification No. 7 (future) $ 3,500,000.00
$50,032,936.00

1.2. Reasons additional goods/services could not be foreseen:
This was a planned contract modification identified in the original contracting legislation Ordinance No. 0938-2010, the first contract modification Ordinance No. 1925-2011, the second contract modification Ordinance No. 1059-2013, the third contract modification Ordinance No. 2644-2013 the fourth contract modification Ordinance No. 0360-2015, as well as the fifth contract modification Ordinance No. 0011-2016.

1.3. Reason other procurement processes are not used:
The current consultant is familiar with the project and has completed all the work to date on the current design path. Bidding the work to another consultant will further delay the project and will result in higher costs due to bringing the new consultant up to speed on the project and put the City at high risk of not meeting anticipated future water quality regulation deadlines.

1.4. How cost of modification was determined:
The Consultant prepared an estimate based on the scope of work for the remainder of services during construction. City Project Manager and associated staff reviewed and approved these cost summaries.

2. ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:
This project is necessary to meet anticipated demand projections for the Dublin Road Water Plant service area and to comply with impending regulations associated with the Stage 2 Disinfection Byproduct Rule. The project will also address compliance with drinking water nitrate regulations. Providing an adequate and safe supply of drinking water is essential to economic growth and development. The proposed capacity increase of plant production was recommended by the Water Beyond 2000 Phase III report. This was confirmed by the Comprehensive Water Master Plan. Both of these studies included a public input and outreach component. The project will evaluate the most cost effective and efficient methods to operate and maintain the Dublin Road Water Plant.

3. CONTRACT COMPLIANCE INFO: 32-0100027, expires 12/2/16, Majority; DAX Vendor No.: 006247.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against CH2M Hill Engineers, Inc.

4. FUTURE CONTRACT MODIFICATION(S): Future contract modifications will be requested to continue engineering construction services through the end of construction. One future modification is anticipated but this could be modified based on fiscal/funding constraints.

5. FISCAL IMPACT: A transfer of funds within the Water G.O. Bond Fund will be necessary as well as an amendment to the 2016 Capital Improvements Budget.

Background: This ordinance authorizes the Finance and Management Director to enter into an agreement to establish one (1) UTC contract for the option to purchase Overhead Door Parts to be used by various City agencies to perform repairs on overhead doors. The term of the proposed option contract is through August 31, 2018. The contract may be extended for one (1) additional year, subject to mutual agreement by both parties. The Purchasing Office opened formal bids on June 16, 2016. The Purchasing Office advertised and solicited competitive bids in accordance with the competitive bid section of the City Code (Solicitation RFQ001558). Forty Three (43) bids were solicited; two (2) bids were received. The Purchasing Office is recommending award to the overall lowest, responsive, responsible, and best bidder as follows:
Kelly and Askew Inc: CC005616 expires: 03/28/2018 Catalog Award $1.00
Total Estimated Annual Expenditure: $40,000.00
This company is not debarred according to the Excluded Party Listing System of the Federal Government or prohibited from being awarded a contract according to the Auditor of State Unresolved Findings for Recovery Certified Search.
Fiscal Impact: Funding to establish this option contract is from the General Fund. City agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.
Waiver Explanation: A waiver of regulations is being requested as the current City Code does not provide the ability to award due to the requirements of chapter 329.05 competitive sealed bidding. Kelly and Askew did not submit manufacturer catalogs as requested in the bid. The purchasing office requested and the vendor has agreed to supply all items available for sale from four manufacturers that provide overhead door parts that City may purchase under the terms of the contract. Within its response, Kelly and Askew submitted a price list that included approximately 95% of the items the City requires, based on historical purchases. Kelly and Askew did not submit with its bid a full-line catalog, which would cover the other 5% of items. After bid opening, the Purchasing Office negotiated with Kelly and Askew to include this full-line catalog into the award.
30-Day Designation: This ordinance is being submitted as 30-day legislation.

WHEREAS, Overhead Door Parts are used to maintain facilities and meet other needs by various City
Agencies; and
WHEREAS, the Purchasing Office advertised and solicited formal bids on June 16, 2016 and selected Kelly and Askew; and

BACKGROUND:
The City possesses title to a sewer utility easement described and recorded in Instrument Number 201512040170609, Recorder’s Office, Franklin County, Ohio (“Easement”). SECTION 5. That for reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, nor ten days after passage, if the Mayor neither approves nor vetoes the same.

Background: Pursuant to Ordinance 1401-83, the City conveyed by quit-claim deed its property located at 115 Gift Street to the Boys Club of Columbus, Inc., now the Boys and Girls Clubs of Columbus, Inc., an Ohio nonprofit corporation, recorded in Vol. 03194, Pg. H08, Instrument No. 198308170111041, Recorder’s Office, Franklin County, which was subject to a reversionary interest retained by the City should the property ever be used for other than benevolent and charitable purposes. Due to changes in demographic and programmatic needs of the Franklinton neighborhood, the Boys and Girls Clubs of Columbus, Inc. wishes to sell the property located at 115 Gift Street and move its operations to 85 Clarendon Avenue to better serve the needs of both the Franklinton and Hilltop neighborhoods. The City desires to support the move as it will enable the Boys and Girls Clubs of Columbus, Inc. to expand its programming and services to better serve the youth of the Franklinton and Hilltop neighborhoods.

This legislation authorizes the Director of Finance and Management, on behalf of the City, to enter into a Memorandum of Understanding (MOU) with the Boys and Girls Clubs of Columbus, Inc. to outline certain commitments of the parties relating to conditions for the City to release its reversionary interest in the 115 Gift Street property and is presented as an emergency measure.

Fiscal Impact: There is no fiscal impact associated with the execution of the Memorandum of Understanding (MOU).

Emergency Justification: Emergency action is requested to allow the Boys and Girls Clubs of Columbus, Inc. to proceed in a timely manner with a real estate sale agreement and meet transaction deadlines for closing.

To authorize the Director of Finance and Management, on behalf of the City, to enter into a Memorandum of Understanding (MOU) with the Boys and Girls Clubs of Columbus, Inc. regarding the plans and commitments of the parties relating to the property located at 115 Gift Street; to authorize the Director to execute those documents necessary to release of the City’s reversionary interest in said property; and to declare an
emergency. ($0).

WHEREAS, pursuant to Ordinance 1401-83, the City conveyed by a quit-claim deed its property located at 115 Gift Street to the Boys Club of Columbus, Inc., now the Boys and Girls Clubs of Columbus, Inc., an Ohio nonprofit corporation, recorded in Vol. 03194, Pg. H08, Instrument No. 198308170111041, Recorder’s Office, Franklin County, which was subject to a reversionary interest retained by the City should the property ever be used for other than benevolent and charitable purposes; and

WHEREAS, due to changes in demographic and programmatic needs of the Franklinton neighborhood, the Boys and Girls Clubs of Columbus, Inc. wishes to sell the property located at 115 Gift Street and move its operations to 85 Clarendon Avenue to better serve the needs of both the Franklinton and Hilltop neighborhoods; and

WHEREAS, the City is supportive of the move to the 85 Clarendon Avenue location as it will enable the Boys and Girls Clubs of Columbus, Inc. to expand programs and services to better serve the youth of the Franklinton and Hilltop neighborhoods; and

WHEREAS, the MOU will outline certain commitments of the City and the Boys and Girls Clubs of Columbus, Inc. relating to the conditions for the City to release its reversionary interest in the 115 Gift Street property; and

WHEREAS, an emergency exists in the usual daily operation of the City in that it is immediately necessary to authorize the Director of Finance and Management to enter into a Memorandum of Understanding (MOU) with the Boys and Girls Clubs of Columbus, Inc. to allow the Boys and Girls Clubs of Columbus, Inc. to proceed in a timely manner with the real estate transactions contemplated thereby, preserving the public health, peace, property, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Finance and Management be, and hereby is, authorized to enter into a Memorandum of Understanding (MOU) with the Boys and Girls Clubs of Columbus, Inc. to outline certain commitments of the parties relating to the conditions for the City to release its reversionary interest in the 115 Gift Street property located at 115 Gift Street, Columbus, Ohio.

SECTION 2. That the Director of Finance and Management be, and hereby is, authorized to execute those documents, as approved by the Department of Law, Real Estate Division, necessary to release the City’s reversionary interest contained in Vol. 03194, Pg. H08, Instrument No. 198308170111041, Recorder’s Office, Franklin County to the 115 Gift Street property.

SECTION 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.
Rezoning Application Z16-006

APPLICANT: SBA Towers IX, LLC; c/o Stephen V. Cheatham, Atty.; Buckley King; 600 Superior Avenue East; Suite 1400; Cleveland, OH 44114.

PROPOSED USE: Monopole telecommunications antenna.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (4-0) on June 9, 2016.

GREATER SOUTH EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site consists of a single undeveloped parcel zoned in the CPD, Commercial Planned Development District. The requested CPD, Commercial Planned Development District will allow the construction of a monopole telecommunications antenna that is not permitted by the existing CPD District. The proposed CPD text includes appropriate use restrictions and commitments for setbacks, site access, buffering and landscaping, site and elevation plans, and building materials. A variance to reduce the required setback of the antenna from the adjacent residentially-zoned property is included in the request. This variance is supported because the placement of the antenna almost anywhere on this property would require a setback variance, and the applicant worked with staff on finding a suitable location on the site that was least impactful to the adjacent residential developments. The site is located within the planning area of the Brice-Tussing Area Plan (1990), which recommends commercial and parks/open space land uses at this location. The requested CPD, Commercial Planned Development District is compatible with the commercial development pattern along Gender Road while allowing for the additional use of a monopole telecommunication antenna with appropriate development standards.

To rezone 3647 GENDER ROAD (43110), being 3.96± acres located on the west side of Gender Road, 202± feet south of Upperridge Drive, From: CPD, Commercial Planned Development District, To: CPD, Commercial Planned Development District (Rezoning # Z16-006).

WHEREAS, application No. Z16-006 is on file with the Department of Building and Zoning Services requesting rezoning of 3.96± acres from CPD, Commercial Planned Development District, to CPD, Commercial Planned Development District; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the Greater South East Area Commission recommends approval of said zoning change; and

WHEREAS, the City Departments recommend approval of said zoning change because the requested CPD, Commercial Planned Development District is compatible with the commercial development pattern along Gender Road while allowing for the additional use of a monopole telecommunication antenna with appropriate development standards; now, therefore:

SECTION 2. That a Height District of thirty-five (35) feet is hereby established on the CPD, Commercial Planned Development District on this property.
SECTION 3. That the Director of the Department of Building and Zoning Services be, and is hereby authorized and directed to make the said change on the said original zoning map and shall register a copy of the approved CPD, Commercial Planned Development District and Application among the records of the Department of Building and Zoning Services as required by Section 3311.12 of the Columbus City Codes; said plans being titled, “LOCATION PLAN,” “ENLARGED SITE PLAN,” “FENCE DETAILS,” and “SITE ELEVATION,” dated June 13, 2016, and signed by John J. COMMERCIAL PLANNED DEVELOPMENT TEXT

Proposed Zoning District:  CPD, Commercial Planned Development District
Property Address:  3647 Gender Road (43110)
Property Owner:  T&R Development, Inc.
Applicant:  SBA Towers IX, LLC
Application Number:  Z16-006
Date:  June 1, 2016

INTRODUCTION: Applicant SBA Towers IX, LLC seeks to rezone 3647 Gender Road, Canal Winchester, for those uses permitted below. The proposed CPD text herein provides applicable limitations for 3647 Gender Road. The purpose of this rezoning and development is the construction of a wireless communications facility, as permitted in a CPD district and meeting a public necessity. Please see the Property Owner’s October 12, 2015, letter attached hereto as Exhibit 1, the content of which is incorporated herein. The Property Owner has contracted with Applicant SBA Towers IX, LLC to develop a cell phone tower on the property that is the subject of this Gender-Refugee Rezoning Application. The Property Owner owns the multifamily apartments adjacent to the site known as the Moors Apartments as well as the retail center directly east of Gender Road known as the Gender Towne Center. Both Applicant SBA Towers IX, LLC and the Property Owner believe the ideal location for the erection of a cell phone tower in the area is the southeast corner of the property as shown on Exhibit 2 referred to below. This location provides the least proximity impact to the residences. Moreover, the residential buildings closest in proximity to the site of this wireless communications facility are owned by a related entity to the Property Owner. Additionally, by locating this wireless communications facility where proposed herein, the free space available on the remaining balance of the site is maximized. Although the future use of the remaining balance of the site is undetermined at this point, the property is zoned for commercial use so any future use would not conflict with a cell phone tower.

1. PERMITTED USES: Those uses contained in Sections 3351, 3353, 3355, 3356, 3357 (a drive-thru carryout is the only C-5 use permitted under this Columbus City Code provision) and 3361 of the Columbus City Code, with the following prohibitions: Garage Repair; Poultry Shop; Facilities that utilize gasoline sales or pumps; Car Wash; Sale of Mobile Homes; Automobiles Sales; Freestanding Fast Food; Sale, maintenance, and servicing of motor vehicles, off-premise graphics, and billboards.

2. DEVELOPMENT STANDARDS: Unless otherwise specified herein, the site shall be developed in accordance with Chapter 3356, C-4, Commercial District.

A. Density, Height, Lot and/or Setback Commitments:

SETBACKS: Front setbacks shall be in accordance with the C-4 District. Side and rear setbacks, however, shall be ten feet (10’).
B. **Access, Loading, Parking and/or Other Traffic-Related Commitment:**

1. Access shall be as shown on the “Location Plan”. Any adjustments to site access shall be reviewed and may be approved by the Department of Public Service, Division of Traffic Management.

2. Further, in compliance with the Columbus City Code Section 4309.17, Applicant SBA Towers IX, LLC shall provide a right-of-way dedication of sixty feet (60’) from centerline along Gender Road.

C. **Buffering, Landscaping, Open Space and/or Screening Commitments:**

Applicant SBA Towers IX, LLC proposes that the entire site as shown on Exhibit 2, which is attached hereto as a “Location Plan,” shall be landscaped in accordance with the following standards applicable:

1. A buffer on the west side of the property line will be maintained with arborvitae.

2. When any development occurs, except for the erection of a monopole telecommunications antenna, the west buffer shall be extended along the south property line.

D. **Building Design and/or Interior-Exterior Treatment Commitments:**

Buildings shall be constructed with a combination of the following materials: glass and associated metal work, brick and brick paving, split-faced concrete block, wood siding, asphalt shingles, wood shingles, stone, asphalt parking lot, stucco, metal canopies, precast concrete, fabric awnings, concrete paving and curbs, ceramic tile and porcelain tile, as accent points.

The materials which are not approved and shall not be used in the construction of this development are as follows: concrete block (facing streets), aluminum siding, gravel parking lots and plywood on vertical surfaces.

E. **Dumpster, Lighting, Outdoor Display Areas and/or Other Environmental Commitments:**

N/A

F. **Graphic and Signage Commitments:**

All signage and graphics shall conform to Article 15 of the City of Columbus Graphics Code as it applies to C-4, Commercial District.

G. **Miscellaneous:**

1. The development of a wireless telecommunications facility shall be permitted, including a monopole tower of a height not to exceed 135 feet and associated support structures and facilities as depicted on Exhibit 3 attached hereto and titled “Location Plan,” “Enlarged Site Plan,” “Fence Details,” and “Site Elevation.” Collectively, the “Location Plan,” “Enlarged Site Plan,” “Fence Details,” and “Site Elevation” are the Site Plan, and the distance of the base of the monopole tower will be approximately 140 feet from the boundary of the nearest residentially-zoned district.

The wireless telecommunications facility shall be developed in accordance with the Site Plan. The Site Plan may be slightly adjusted to reflect engineering, topographical or other site data developed at the time that
development and engineering plans are completed. Any slight adjustment to the Site Plan shall be reviewed and may be approved by the Director of the Department of Building and Zoning Services or his or her designee upon submission of the appropriate data regarding the proposed adjustment. Applicant SBA Towers IX, LLC requests that a variance to the following apply to it:

2. Under City of Columbus Zoning Code 3353.05-C-2 (D)(4), “[t]he base of all monopole telecommunication antenna sites and associated support structures shall be set back 200 percent of the total height of the antenna from all residentially zoned districts. All support structures shall meet district setbacks.” The sufficient ground for this request for a variance to the foregoing City of Columbus Zoning Code provision is that (i) the owner of the commercial property affected by the erection of the cell tower is also the owner of the residential property located on the southwest side of the property line.

3. CPD CRITERIA:

A. Natural Environment:
The property is not flat (significant grade elevation changes currently exist) with no natural features and no vegetation other than grass in some areas. The Developer (previous Applicant) intended to regrade site so that grade elevation changes were minimized and the site became functional. That proposed development added landscaping in the form of trees and low shrubs to meet city standards and to improve the curb appeal of the property. The site disposed of rain through absorption into the soil and through runoff to the adjacent streets. Drainage was installed.

B. Existing Land Use:
The existing land use is presently zoned CPD, Commercial Planned Development. To the north is a single family residential development. To the west and to the southwest are AR-12 developments. The Developer (previous Applicant)/Owner is the developer for both the single family residential and the AR-12 developments, as well as the development immediately across the street at 3550 Gender Road.

C. Transportation and Circulation:
Curb cuts and the internal circulation patterns are shown on the Site Plan.

D. View and Visibility:
The development of the subject site and the location of the building and access point considerations will not adversely impact on the visibility and safety of the motorists and pedestrians.

E. Emissions:
No adverse effect from the proposed development.

F. Behavior Patterns:
The proposed development will enhance the commercial and residential development which already exists in this area.

SECTION 4. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.
**Background:**
This ordinance will authorize the assignment of all past, present and future contracts, agreements and purchase orders done by the City of Columbus with Decade Software Company, LLC (Federal Identification #: 770564825) to Accela, Inc. (Federal Identification #: 94 - 2767678), which acquired Decade Software in 2015. This authorized change will reflect a company name and federal identification change for all contracts and purchase orders established with Decade Software Company, LLC.

This ordinance also authorizes the Director of the Department of Technology to continue an agreement with Accela, Inc., formerly Decade Software Company, LLC, for annual software maintenance and support services for the EnvisionConnect system utilized by the Environmental Health Section. The original contract (EL000490) was established by the Health Department in 2000 and provided language that allows for annual renewals. The most recent agreement was established under ordinance 1214-2015, passed June 1, 2015, through purchase order EL017249. This ordinance will provide funding for the service period from July 1, 2016 to June 30, 2017 at a cost of $103,748.70.

The EnvisionConnect system provides Columbus Public Health the ability to operate the Environmental Health Section by providing an extensive array of services such as tracking and maintaining information associated with inspections, historical data of restaurants and other businesses, tracking sanitation standards data, vector control for mosquitoes, environmental reviews, accounts receivable/payable and billings as well as statistics and analysis regarding the Environmental Health Section. Services provided by Accela, Inc. under this contract renewal include telephone support services, software maintenance, training, upgrades and enhancements, and application hosting services. Without this service, the Columbus Public Health Department would lose the ability to effectively operate the Environmental Health Section, which could result in the failure to meet requirements mandated by the State of Ohio.

Accela, Inc. is the sole provider of maintenance and support for EnvisionConnect software. As such, this ordinance is being established in accordance with the sole source provisions of the Columbus City Code, Section 329.07.

**Fiscal Impact:**
In 2014 and 2015, $94,317.00 for each year was legislated for annual software license, hosting and support service fees for the EnvisionConnect with Decade Software Company, LLC. The cost for the 2016 is $103,748.70. This expenditure is budgeted and available within the Department of Technology, Information Services Operating Fund. The contract aggregate total including this renewal is $1,276,376.70.

**Emergency Designation:**
Emergency action is requested to expedite authorization of this contract in order to initiate services from the supplier at the prices proposed.

**Contract Compliance:**
Vendor Name: Accela, Inc. CC#: 94-2767678 Expiration Date: 12/10/2016

LEGISLATION NUMBER: 1728-2016

DRAFTING DATE: 6/21/2016

CURRENT STATUS: Passed

VERSION: 1

MATTER TYPE: Ordinance

BACKGROUND: The purpose of this legislation is to authorize the Director of Finance and Management to establish purchase orders for Computer Parts and Accessories from an established State of Ohio Contract (STS-033 Schedule 534242) for various agencies within the City of Columbus with Insight Public Sector. This contract was not bid but negotiated by the State of Ohio; however, it has been determined to be the most cost-effective method of obtaining the needed parts.

The current contract for computer parts and accessories does not meet the current needs for the City. Insight Public Sector will provide the City with the products it needs to purchase along with the ability to purchase those products through our E-catalog system via a punch out directly to their website.

Insight Public Sector is a state contractor for Computer Parts and Accessories. Allowing City agencies to access this state contract will give agencies the opportunity to purchase computer parts and accessories through the e-catalog system.

Ordinance Number 582-1987 authorized City agencies to use State of Ohio Department of Administrative Services contracts when deemed cost effective. This ordinance asks that the Finance and Management Director be authorized to establish purchase orders of up to $100,000.00 without further Council approval for the State of Ohio STS-033, schedule number 534242.

Bid Information: State of Ohio Term Contracts exists for this purchase.

Insight Public Sector, CC# 363949000 (expires 10/07/2016).

This company is not debarred according to the Federal Excluded Parties Listing or the State Auditor's Findings For Recovery Database.

This ordinance is being submitted as an emergency because Computer Parts and Accessories are necessary in the work environment of various city agencies and any discontinuation of this product would negatively affect the delivery of valuable public services. The current contract for this service is with Ogis Communications Group Inc. (OCG). (FL006257). OCG cannot supply the City with the products needed through our catalog system at the negotiated price. This causes delays and inconsistencies with our supply chain.

FISCAL IMPACT: Funding to establish this option contract is from the General Fund. City Agencies will be required to obtain approval to expend from their own appropriations for their estimated annual expenditures.

To authorize and direct the Finance and Management Director to issue purchase orders up to $100,000.00 for Computer parts and accessories with Insight Public Sector for various City agencies from an existing Cooperative State of Ohio Term Contract established for such purpose by the State of Ohio, Department of Administrative Services Purchasing Office, with Insight Public Sector; and to declare an emergency.
WHEREAS, the various City Agencies need to purchase Computer Parts and Accessories; and

WHEREAS, it has been determined that the current State of Ohio contract (STS 033 Schedule Number 534242) with Insight Public Sector has been established for such purpose and is the most cost-effective method for obtaining the needed parts; and

WHEREAS, Ordinance Number 582-87 authorized City agencies to use State of Ohio Department of Administrative Services contracts when deemed cost effective

WHEREAS, this ordinance addresses Purchasing objectives of 1) maximizing the use of City resources by obtaining optimal products/services at low prices and 2) providing effective option contracts for City agencies to efficiently maintain their supply chain and service to the public; and

WHEREAS, an emergency exists in the usual daily operation of the various City departments in that it is immediately necessary to authorize the Director of Finance and Management to issue purchase orders with Insight Public Sector, thereby preserving the public health, peace, property, safety, and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Finance and Management Director be and is hereby authorized to issue purchase orders with Insight Public Sector for up to $100,000.00 for each City agency for Computer Parts and Accessories in accordance with the existing State of Ohio Term Contract (STS-033 Schedule 534242) established by the State of Ohio Purchasing Office Insight Public Sector.

SECTION 2. That for the reason stated in the preamble here to, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

1. BACKGROUND

This legislation authorizes the Director of Public Service to modify and increase an existing contract with Double Z Construction Company, in the amount of up to $30,000.00, for the Roadway Improvements- Smoky Row Road project.

This modification will fix problems with stormwater drainage and ponding at the intersection of Summit View and Smoky Row Road. This was not an anticipated modification. After initial completion of the improvement project at this intersection the Department of Public Service received 311 service requests and noticed that
areas showed signs of standing water after rain events. Most of these areas will be corrected at no charge to the City as it was included in the original project scope of work. It has been determined there are other areas that were not addressed during the design and construction of this improvement. This modification will fund changes to significantly improve roadside drainage throughout the project corridor while addressing concerns of the residents.

Double Z Construction Company from the original contract with Public Service still has some remaining punch list work to complete on this project. It is most cost effective to have them finish the remaining punch list work and make these fixes at the same time. The modification will save time and construction fees as opposed to initiating a procurement effort for another construction contract specific to this project.

The original contract amount: $2,041,933.85 (EL017138, Ord. 1251-2015)
The total of Modification No. 1: $30,000.00
The contract amount including all modifications: $2,071,933.85

Searches in the System for Award Management (Federal) and the Findings for Recovery list (State) produced no findings against Double Z Construction Company.

Pre-Qualification Status
Double Z Construction and all proposed subcontractors have met code requirements with respect to pre-qualification, pursuant to relevant sections of Columbus City Code Chapter 329.

2. CONTRACT COMPLIANCE
The contract compliance number for Double Z Construction Company is 31-1788042 (Vendor Number 005966) and expires 3/8/17.

3. FISCAL IMPACT
Funds in the amount of $30,000.00 are available for this project within the Streets and Highways Bond Fund, Fund 7704, within the Department of Public Service. Cancellation of unused funds from a purchase order from the Pedestrian Safety Improvements-Fairwood Avenue Sidewalks project is necessary to provide the needed funds. Amendment to the 2016 Capital Improvements Budget is necessary to establish sufficient cash and authority in the proper project.

4. EMERGENCY DESIGNATION

This ordinance authorizes the Director of the Department of Development to enter into a contract with Alvis in support of physical improvements for a planned substance abuse and treatment center. This ordinance also authorizes an appropriation and expenditure of $250,000.00 within the Special Income Tax fund.

Alvis is a nonprofit human services agency that has been serving the central Ohio community since 1967, and Alvis programs are accredited by the American Correctional Association, Commission on Accreditation of Rehabilitation Facilities (CARF), and the Ohio Department of Mental Health and Addiction Services.

Alvis has recently purchased a property located at 1289-1293 Livingston Avenue, the intended use of which will be to provide the Columbus community with a center for substance abuse treatment, trauma-informed treatment for victims of human trafficking, and other services to improve the overall health, welfare, and strength of the community, including financial literacy, workforce development, and education.

The organization plans to partner with Heart of Ohio, Primary One Health, and Columbus Public Health (health care and mental health services); Community Mediation Services (eviction prevention), PNC (financial literacy); Amethyst, Homeport, and Habitat for Humanity (housing); Mentoring Center (mentoring); and Accenture (GED tutoring).

Monies from the City of Columbus are requested to fund roof replacement, removal of sinks from individual rooms, painting, install new flooring, add interior doors, install signage, and wire the building for phone/internet/video conferencing. Additional capital improvement needs may include replacement of the HVAC system. This building was previously used as a physician's office and the rooms could be fairly easily converted for group and individual counseling.

**Fiscal Impact:** $250,000.00 is available for expenditure within the Special Income Tax fund.

**Emergency action is requested in order that funding be made available to Alvis to expedite the renovation and opening of the facility, so that Alvis can immediately provide the necessary services to**
the community.

To authorize the Director of the Department of Development to enter into contract with Alvis, Inc.; and to authorize the appropriation and expenditure of $250,000.00 within the Special Income Tax fund, and to declare an emergency. ($250,000.00)

WHEREAS, the problem of opiate addiction in both Columbus and nationwide has the potential to put families, neighbors, and communities at risk, and requires an immediate and comprehensive response; and

WHEREAS, victims of human trafficking often experience intolerable suffering and are subject to exploitation, abuse, and trauma, for which they may require intensive, ongoing holistic treatment and support services; and

WHEREAS, Alvis, Inc. has admirably served the Columbus community since 1967 through its family and children’s programs, workforce development initiatives, and services for the community of those with developmental disabilities; and

WHEREAS, Alvis seeks to renovate the building at 1289-1293 Livingston Avenue to provide the Columbus community with a center for substance abuse treatment, trauma-informed treatment for victims of human trafficking, and other services to improve the overall health, welfare, and strength of the community, including financial literacy, workforce development, and education; and

WHEREAS, it has become necessary in the usual daily operation of the Department of Development to authorize the Director to enter into contract with Alvis, Inc. to provide financial support to Alvis’ efforts in developing a comprehensive treatment facility to serve those members of the community that are most at-risk; now, therefore,

WHEREAS, in light of the persistent and acute struggle that the scourge of opiate addiction presents to the community, emergency action is requested so that funding can be made immediately available to Alvis to expedite the renovation and opening of the planned treatment center without delay; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of the Department of Development is hereby authorized to enter into contract with Alvis, Inc. in support of a planned opiate addiction and human trafficking treatment and support center.

SECTION 2. That the City Auditor is hereby authorized to appropriate $250,000.00 in the Special Income Tax fund, fund 4430, subfund 443001, to the Department of Development, in Object Class 03 - Contractual Services, per the accounting codes in the attachment to this ordinance.

See Attached File: Ord 1733-2016 Legislation Template.xls

SECTION 3. That the expenditure of $250,000.00 or so much thereof as may be needed pursuant to the
actions authorized in SECTION 1, is hereby authorized in the Special Income Tax fund, fund 4430, subfund 443001, in Object Class 03 - Contractual Services, per the accounting codes in the attachment to this ordinance.

Version: 1
Matter Type: Ordinance

Need: The Civil Service Commission needs to modify the contract and increase the maximum authorized expenditure in the contract with The Ohio State University for pre-employment physicals and cardiovascular stress testing of public safety recruits in preparation for Police and Fire Academy classes. This modification is required in order to add funds for upcoming academy classes. Funding is typically added yearly or prior to each academy class in order to avoid tying up money in the event of changes to class dates. The contract’s requirements cannot be awarded through other procurement processes since this is a professional services contract that has already been awarded through the regular Request for Proposals process. The prices for the services provided in this contract have not increased since the initial contract was approved.

Bid Information: In 2013, the City of Columbus Civil Service Commission published a Request for Proposals (SA005185) for these services and accepted proposals through January 8, 2014. Two proposals were submitted; an evaluation committee reviewed these proposals and selected The Ohio State University (Ordinance 0403-2014).

Emergency Designation: Emergency legislation is requested in order to allow sufficient time for the Department of Public Safety to continue to schedule police and fire applicants for upcoming recruit classes.

Contract Compliance Number: 31-6025986, governmental agency, no expiration date.

FISCAL IMPACT: Funding for this service was budgeted in the Civil Service Commission’s 2016 general fund budget.

To authorize and direct the Executive Director of the Civil Service Commission to modify and increase the contract with The Ohio State University for the administration of pre-employment physicals and cardiovascular stress testing of public safety recruits; to authorize the expenditure of $82,500.00 from the General Fund; and to declare an emergency ($82,500.00).
WHEREAS, the City of Columbus Civil Service Commission initially accepted proposals from qualified companies for medical services for pre-employment physicals and cardiovascular stress testing of public safety recruits; and

WHEREAS, the Civil Service Commission awarded the contract to The Ohio State University in 2014; and

WHEREAS, it is necessary to modify the contract for upcoming academy classes; and

WHEREAS an emergency exists in the usual daily operation of the Civil Service Commission in that it is immediately necessary to modify and increase the contract with Ohio State University in order to continue scheduling public safety recruits in preparation for upcoming academy classes, and thereby preserving the public peace, property, health, safety and welfare; now therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS

SECTION 1. That the Executive Director of the Civil Service Commission be and is hereby authorized to modify and increase the contract with The Ohio State University for the purpose of administering pre-employment physicals and cardiovascular stress tests to public safety recruits for the Divisions of Police and Fire.

SECTION 3. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND:

DoT requires services from a managed security provider in order to comply with federal and state regulatory requirements. These requirements include Payment Card Industry Data Security Standards (PCI DSS), IRS Publication 1075, and the Health Information Portability and Accountability Act (HIPPA). Complying with these regulations requires advanced expertise and tools not available with current staff and systems.

As SecureWorks technology and services are already imbedded within the City’s technology infrastructure, it is not in the City’s best interests to procure additional service through alternate procurement methods; doing so with another vendor would involve significant additional and unnecessary transition costs. Additionally, the City's PCI compliance project started with SecureWorks in 2013. The City worked closely with SecureWorks to achieve PCI compliance in 2014 and wish to leverage SecureWorks' understanding of the City’s environment and PCI compliance efforts to date to ensure the City’s compliance posture.

This ordinance authorizes the Director of the Department of Technology to renew and modify an agreement with SecureWorks, Inc., for managed technology security services. The original agreement (EL011963) was authorized by ordinance 0818-2011, passed June 13, 2011. The agreement was most recently renewed and modified by authority of ordinance 1344-2015, passed July 23, 2015, through purchase order EL017481. This renewal will provide service for the period August 26, 2015 through August 25, 2016, at a cost of $264,349.64.

This ordinance also authorizes the Director of the Department of Technology to modify the current contract term period of August 26, 2015 through August 25, 2016 to increase funds by $14,907.00 to pay for additional security services under the contract. The aggregate total of the ordinance for funding is $279,256.64.

Contract modification in the amount of $14,907.00

1.1 Amount of additional funds to be expended: $14,907.00

The original contract amount and subsequent year’s 2 - 5 total: $708,006.36
Modification #1 (2012) total: $58,336.76
Modification #2 (2014) total: $111,347.24
Modification #3 (2015) total: $112,303.89
Modification #4 (2016) total: $14,907.00
Total: $1,004,901.25

1.2 Reason additional goods/services could not be foreseen:
The incorporation of Police technology, the need for PCI compliance, and additional firewall services was not known at the time of the original agreement. SecureWorks realigned their service offerings for firewall and log vault service to stay current with evolving technologies, ensuring that the new services aligned with the City's ongoing firewall re-architecture project required more time than was foreseen.

1.3 Reason other procurement processes are not used:
As SecureWorks technology and services are already imbedded within the City’s technology infrastructure, it is not in the City’s best interests to procure additional service through alternate procurement methods; doing so with another vendor would involve significant additional and unnecessary transition costs.

1.4 How cost of modification was determined:
The cost of the additional services was negotiated with SecureWorks.

SecureWorks was awarded a contract through their amended offer to solicitation SA003789 authorized under Ordinance 0818-2011, passed June 13, 2011. That agreement included provisions for annual renewal, subject to mutual agreement and approval of proper City authorities. It is not in the City's best interests to procure this service through competitive procurement, as transitioning to another vendor would entail significant start-up costs already incurred with the existing vendor. Furthermore, there is an immediate need to obtain service to assist the City with PCI compliance. As such, this ordinance requests a waiver of competitive bidding requirements of Columbus City Code, in accordance with section 329.

FISCAL IMPACT:
In 2014 and 2015, the Department of Technology legislated $289,213.07 and $284,533.34 respectively with SecureWorks, Inc. for managed technology security services. This year (2016), the cost for the renewal and modification of managed technology security services with SecureWorks, Inc. is $279,256.64. Funding for these services are available within the Department of Technology, Information Services Division, Information services Operating fund. The aggregate contract total including this renewal is $1,269,250.89.

EMERGENCY:
Emergency action is requested to expedite prompt contract execution and related payment of services.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1: That the Director of the Department of Technology be and is hereby authorized to renew an agreement with SecureWorks, Inc. for managed technology security services, with an associated coverage term period from August 26, 2016 through August 25, 2017, in the amount of $264,349.64 and to modify the current agreement with SecureWorks, Inc. to increase funding in the amount of $14,907.00, with a coverage term period of August 26, 2015 through August 25, 2016. BACKGROUND:
This ordinance authorizes the Director of the Department of Technology, on behalf of the Department of Public Utilities (DPU), to enter into an agreement with Canadian Time Systems (dba Key Tracer Systems Inc.) for maintenance and support services on an electronic key management system. The term of this maintenance and support agreement is for the term period August 16, 2016 to August 15, 2017 at a cost of $22,480.00.

DPU requires a key management system to automate management of vehicle assignments through its automated vehicle location (AVL) system. Benefits of the system include: increased security and control over vehicles, preventing unauthorized key access; increased productivity and reduced liability; and reduction in the number of lost or misplaced keys. The system was originally procured by solicitation SA005016 and authorized by Ordinance 2422-2013, passed by Columbus City Council on December 16, 2013 for $174,085.00 under (EL015195).

This ordinance also requests approval to continue services provided by Canadian Time Systems (dba Key Tracer Systems Inc.) in accordance with sole source procurement provisions of Chapter 329 of the Columbus City Code; as it has been determined that Key Tracer Systems Inc is the sole distributor of the Key Tracer System, and does not utilize distributors or re-sellers for warranty services (hardware or software support) of its product.

FISCAL IMPACT:
In 2013, $174,085.00 was legislated for the procurement of the Key Tracer System. This year (2016), passage of this ordinance will authorize the expenditure of $22,480.00 for maintenance and support bringing the aggregate total to $196,565.00. Funds have been identified and are available within the Department of Technology, Information Services Operating Fund.

BACKGROUND: Community Reinvestment Areas (CRAs) have been designated by Columbus City Council under the general guidelines of Ordinance 1698-78. Such areas allow for granting real property tax incentives to encourage industrial, commercial and residential growth.

Columbus City Council (Council) by Ordinance 2849-2015, adopted November 23, 2015, designated the Hamilton-161 Community Reinvestment Area as a “Community Reinvestment Area” pursuant to Chapter 3735 of the Ohio Revised Code. Effective December 17, 2015, the Director of the Ohio Development Services Agency determined that the aforementioned area designated in the aforementioned Council Ordinance contained the characteristics set forth in Ohio Revised Code Section 3735.66 and confirmed that area as a “Community Reinvestment Area” pursuant to said Chapter 3735.

As part of the new Hamilton Quarter development, a 330-acre mixed-use district at Hamilton Road and State Route 161, Hamilton Crossing BL LLC, a single-purpose entity established to invest in a 25-acre site to support the corporate office relocation of Big Lots, Inc., proposes to construct a new approximately 300,000-square-foot corporate office campus and one or more associated parking structures at the southwest quadrant of State Route 161 and Hamilton Road. This corporate campus will be the future corporate headquarters facility for Big Lots, Inc. and will be leased to Big Lots, Inc. or one of its affiliates. The campus will comprise approximately 25 acres and all or part of parcels 010-286113; 010-286114; 010-221377; 010-280216; and 010-247887 within the City of Columbus in Franklin County.

Big Lots, Inc. will retain and relocate 750 full-time permanent positions from their current headquarters located at 300 Phillipi Road to the Project Site with an associated annual payroll of $65,000,000 and create 5 new full-time permanent positions with an associated new annual payroll of approximately $362,500. The project involves a total investment of approximately $40,000,000 - $65,000,000. All investments related to real property improvements, approximately $30,000,000 - $45,000,000, will be borne by Hamilton Crossing BL LLC, the site owner, with the balance related to the acquisition of machinery, equipment, furniture, fixtures, and other cost. This investment range is the result of an evolving project budget related to the site parking solution and campus finishes.

The Department of Development recommends a Community Reinvestment Area property tax abatement of one-hundred percent (100%) for a period of ten (10) years on real property improvements related to the commercial office space portion of the project. This proposal is consistent with the Columbus Tax Incentive Policy for Community Reinvestment Area projects.

The Columbus City School District has been advised of this project and, pursuant to Ohio Revised Code 3735.671(A)(1), has approved the 100%/10-year abatement for Hamilton Crossing BL LLC and Big Lots, Inc. A copy of the Columbus City School District Resolution approving the abatement is attached which was contingent upon the execution of a Community Reinvestment Area Compensation Agreement between the City
of Columbus and the Columbus City School District.

**FISCAL IMPACT:** No funding is required for this legislation.

BACKGROUND: Ordinance No. 1078-2013 authorized the City Auditor to enter into a contract with Vinimaya Inc. to implement the vMarketPlace, in conjunction with the implementation of the City’s new financial system. The vMarketPlace is an electronic catalog administered by the Purchasing Office. It is made available to City staff, allowing them to purchase items from universal term contracts. Currently, there are over 175 contracts in the electronic catalog, with over 2 million distinct items. The electronic catalog aggregates catalog content from City contracts and externally manages the content for a single site.

The original contract with Vinimaya, Inc. was awarded through a bid waiver. The company was identified during the original selection of the City’s financial planning system in 2013. Vinimaya, Inc. presented as a potential sub-contractor during the Request for Proposals phase for the financial planning system. Although the general contractor was not selected, the City wished to contact with Vinimaya, Inc.

The Finance and Management Department, Purchasing Office, respectfully requests a waiver of the competitive bidding provisions of the Columbus City Codes to continue the City’s contractual relationship with Vinimaya, Inc. The contract will transfer from the City Auditor to the Finance and Management Director. The term of the proposed contract will be one year, with two one-year renewal options, dependent upon City Council approval of funding.

Council Variance Application: CV16-026

APPLICANT: Automotivezone, Inc.; c/o Donald Plank, Atty.; 145 East Rich Street, 3rd Floor; Columbus, OH 43215.

PROPOSED USE: Retail automotive parts store with distribution facility.

GREATER HILLTOP AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is developed with a former automotive parts store and service facility in the C-4, Commercial District. The requested Council variance will permit the establishment of a new retail automotive parts store with an on-site distribution facility, and will conform the site’s setbacks that were reduced by a right-of-way dedication. The applicant proposes a retail automotive parts store in the existing building which is permitted in the C-4, Commercial District, but also plans a distribution facility to serve nearby stores which is classified as an M, Manufacturing use. Variances needed due to the right-of-way dedication include reductions to landscaping and screening requirements and the parking setback line. The site is located within the planning area of The Greater Hilltop Plan Amendment (2010), which recommends Regional Mixed Use for the site. The requested use is consistent with the development pattern of this section of the West Broad Street Corridor, which includes mostly C-4 commercial uses and some industrial uses. Staff is in support of the request to allow storage and distribution of automotive parts in the existing building in association with a retail automotive parts store, with the condition that parking lot screening be provided to mitigate any impacts of the distribution component parking/loading areas on the commercial corridor.

To grant a Variance from the provisions of Sections 3356.03, C-4 permitted uses; 3312.21(D)(1), Landscaping and screening; and 3312.27, Parking setback line, of the Columbus City Codes; for the property located at 3833 WEST BROAD STREET (43228), to permit a retail automotive parts store with distribution facility in the C-4, Commercial District (Council Variance # CV16-026) and to declare an emergency.
WHEREAS, by application No. CV16-026, the owner of property at 3833 WEST BROAD STREET (43228), is requesting a Variance to permit a retail automotive parts store with distribution facility in the C-4, Commercial District; and

WHEREAS, Section 3356.03, C-4 permitted uses, prohibits distribution facilities, while the applicant proposes a distribution facility on site with the retail automotive parts store; and

WHEREAS, Section 3312.21(D)(1), Landscaping and screening, requires headlight screening that is 4 feet in width, while the applicant proposes headlight screening that is 2 feet in width; and

WHEREAS, Section 3312.27, Parking setback line, requires a parking setback of 10 feet, while the applicant proposes a parking setback of 2 feet; and

WHEREAS, The Greater Hilltop Area Commission recommends approval; and

WHEREAS, City Departments recommend approval of the requested variance to allow a light industrial use (storage and distribution of automotive parts) to be permitted in the existing building in association with a retail use (automotive parts store). This proposal will permit a retail/distribution facility that is consistent with the development pattern of the West Broad Street corridor; and

WHEREAS, said ordinance requires separate submission for all applicable permits and a Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variances will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public roads, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 3833 WEST BROAD STREET (43228), in using said property as desired;

WHEREAS, an emergency exists in the usual daily operation in the City of Columbus in that it is immediately necessary to pass this ordinance to begin construction as soon as possible for the immediate preservation of the public peace, property, health and safety; now, therefore,

The Department of Technology (DoT) has identified several projects as part of its comprehensive fiber installation plan. Some involve and are being funded by other departments, though DoT maintains oversight of all fiber projects, including the solicitation and review of project bids.

This legislation authorizes the Director of the Department of Technology to enter into a contract with Gudenkauf Corporation to install fiber optic cabling at the Online Computer Library Center (OCLC). The OCLC is "a nonprofit, membership, computer library service and research organization dedicated to the public purposes of furthering access to the world's information and reducing information costs," and houses multiple internet service providers and alternate data center capabilities. The center is one of 5 projects identified in DoT’s 2016 Spring Fiber Optic Construction project list, which is shown below, along with the funding department: (see attachment 1819-2016 SpringFiber Bid detail) for each locations cost.

- The OCLC Data Center - Department of Technology
- Police Substation 10 - Department of Public Safety
- Police Substation 3/17 - Department of Public Safety
- Police Substation 14/20 - Department of Public Safety
- 2700 Impound Lot Rd. - yet to be determined

Early in 2016, in compliance with Columbus City Code Chapter 329, DoT prepared and posted a formal bid on the City's solicitation web site for the above noted projects. While the bid was posted, the Department held a pre-bid “walk-through” providing contractors with an opportunity to examine the fiber route. The bid solicitation included a fixed contingency amount of $60,000 ($12,000 for each project) in the event that additional service work is required to complete the project. The bid amount received from the sole bidder includes the contingency. On Wednesday, June 22nd at 11:00 a.m., the Department of Technology received

Columbus City Bulletin (Publish Date 07/23/16)
and opened one (1) bid via Bid Express number 682016 as follows:

This company is not debarred according to the Federal excluded parties listing or prohibited from being awarded a contract according to the Auditor of State unresolved findings for recovery certified search.

This ordinance authorizes the Director of the Department of Technology to contract with Gudenkauf to install fiber optic cabling at the OCLC Data Center only. It also authorizes the expenditure of $226,569.55 for this purpose, which includes the above noted $12,000 contingency.

PROPOSED USE: Multi-unit residential development.

FIFTH BY NORTHWEST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The applicant has received a recommendation of approval from Staff and the Development Commission for a concurrent rezoning (Ordinance No. 1820-2016; (Z16-008)) to the AR-3, Apartment Residential District to allow the development of a 153-unit apartment building. The requested variances modify landscaping and screening, parking setback line, minimum number of parking spaces required, building lines, and rear yard requirements. These reduced development standards are supportable because the variances are for what is considered a compatible use and is reflective of higher-density infill development in close proximity to West Fifth and West Third Avenues which are commercial corridors.

To grant a Variance from the provisions of Sections 3312.21(D)(1), Landscaping and screening; 3312.27, Parking setback line; 3312.49, Minimum number of parking spaces required; 3333.18, Building lines; and 3333.24, Rear yard, of the Columbus City Codes; for the property located at 1341 NORTON AVENUE (43212), to permit a 153-unit apartment building with reduced development standards in the AR-3, Apartment Residential District (Council Variance # CV16-011).

WHEREAS, by application No. CV16-011, the owner of property at 1341 NORTON AVENUE (43212), is requesting a Council variance to permit a 153-unit apartment building with reduced development standards in the AR-3, Apartment Residential District; and

WHEREAS, Section 3312.21(D)(1), Landscaping and screening, requires the width of headlight screening to be 4 feet in width, while the applicant proposes headlight screening of 2 feet in width where the parking setback has been reduced to 2 feet, as noted on the Site Plan; and

WHEREAS, Section 3312.27, Parking setback line, requires a parking setback line of 25 feet, while the applicant proposes a parking setback line of 2 feet, as shown on the Site Plan; and

WHEREAS, 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces per dwelling unit, while the applicant proposes 1.14 parking spaces per dwelling unit, a reduction from 230 required spaces to 175 spaces; and

WHEREAS, 3333.18, Building lines, requires a building setback line of 25 feet, while the applicant proposes a building setback line of zero feet, as shown on the Site Plan; and

WHEREAS, 3333.24, Rear yard, requires a rear yard totaling no less than 25 percent of the total lot area, while the applicant proposes to permit parking in the rear yard, as shown on the Site Plan; and
WHEREAS, the Fifth by Northwest Area Commission recommends approval; and

WHEREAS, City Departments recommend approval because the requested variances are for what is considered a compatible use and reflective of higher-density infill development in close proximity to West Fifth and West Third Avenues which are commercial corridors; and

WHEREAS, said ordinance requires separate submission for all applicable permits and a Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 1341 NORTON AVENUE (43212), in using said property as desired; now, therefore:

Current Status: Passed
Version: 1
Matter Type: Ordinance
Council Variance Application: CV16-037

APPLICANT: Red Herring Productions; 566 West Rich Street; Columbus, OH 43215.

PROPOSED USE: Mixed commercial/industrial development.

FRANKLINTON AREA COMMISSION RECOMMENDATION: Approval.

EAST FRANKLINTON REVIEW BOARD RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is developed with a former industrial building and is located within the Dodge Park Sub-District of the EF, East Franklinton District. Ordinance No. 3046-2015, passed December 14, 2015 (Council Variance # CV15-056), permitted the property to be used for warehousing, art gallery, and artisan manufacturing uses. The applicant proposes to also use the building for theatrical performances, and fitness, dance and acting classes, which are uses that are not permitted in the Dodge Park Sub-District. The East Franklinton District is an urban, mixed-use zoning classification that was established in 2013 as a new zoning tool to implement the land use recommendations of the East Franklinton Creative Community District (EFCCD) Plan (2012). The EFCCD Plan recognizes that each district within East Franklinton should incorporate a diverse mix of land uses, and recommends the maintenance of existing quality commercial and industrial structures on West Rich Street in the Dodge Park Sub-District, promoting the conversion of such structures into mixed-use buildings as opportunities arise. The proposed mixed use of theater, multi-purpose studio, warehousing, artisan manufacturing, and art gallery within an existing industrial building is consistent with the recommendations of the EFCCD Plan. The East Franklinton Review Board supports the request and a Certificate of Approval will be required for the building as part of the site compliance review process.

To grant a variance from the provisions of Section 3323.19, Uses, of the Columbus City codes; for the property located at 566 WEST RICH STREET (43215), to permit warehousing, art gallery, artisan manufacturing, theatrical performances, and fitness, dance, and acting classes in the EF, East Franklinton District, and to repeal Ordinance No. 3046-2015, passed December 14, 2015 (Council Variance # CV16-037).

WHEREAS, by application No. CV16-037, the owner of property at 566 WEST RICH STREET (43215), is requesting a Council variance to permit warehousing, art gallery, artisan manufacturing, theatrical performances, and fitness, dance, and acting classes in the EF, East Franklinton District; and

WHEREAS, Ordinance No. 3046-2015, passed December 14, 2015 (Council Variance # CV15-056), permitted warehousing, art gallery, and artisan manufacturing in the EF, East Franklinton District; and

WHEREAS, additional uses for theatrical performances, and fitness, dance and acting classes are requested; and

WHEREAS, Section 3323.19, Uses, lists warehousing, art gallery, performance theaters, fitness classes (yoga, pilates), and dance and acting classes as “not permitted” and artisan manufacturing only as an accessory use in the EF, East Franklinton Dodge Park Sub-District; and

WHEREAS, the Franklinton Area Commission recommends approval; and
WHEREAS, the East Franklinton Review Board recommends approval; and

WHEREAS, the City Departments recommend approval of the requested variance because the proposed mixed use of theater, multi-purpose studio, warehousing, artisan manufacturing, and art gallery within an existing industrial building is consistent with the recommendations of the East Franklinton Creative Community District Plan. The East Franklinton Review Board supports the request and a Certificate of Approval will be required for the building as part of the site compliance review process; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 566 WEST RICH STREET (43215), in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That a Variance from the provisions of Section 3323.19, Uses, of the Columbus City codes; is hereby granted for the property located at 566 WEST RICH STREET (43215), insofar as said section prohibits warehousing, art galleries, artisan manufacturing, theatrical performances, and fitness, dance, and acting classes in the Dodge Park Sub-Area of the EF, East Franklinton District; said property being more particularly described as follows:

Council Variance Application: CV16-043

APPLICANT: Continental Real Estate Companies; c/o Jeffrey L. Brown, Atty.; 37 West Broad Street, Suite 460; Columbus, Ohio 43215.

PROPOSED USE: Housing for the elderly, assisted living, and memory care facilities.

FAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. This 13.6± acre site is undeveloped and is identified as Subarea 2 within a CPD, Commercial Planned Development District established in 2005 (Ordinance # 0493-2005; Z04-036). The current zoning of this site allows most C-4 uses, a car wash, and fuel sales. The applicant proposes the development of a 274.122-unit facility for senior independent housing, assisted living, and memory care units. The variance is required because, although the adjacent Subaria 1 of the same CPD district permits such institutional uses, Subarea 2 does not. The applicant also requests a variance to the required number of parking spaces from 183 spaces to 130 spaces. This requested reduction is consistent with other housing for the elderly developments. The site is within the planning area of the Broad-Blacklick Area Plan (2011), which recommends “Employment Center” uses for this location. This classification includes uses such as business and professional offices, technology park clusters, research and development, light industrial operations, and visitor service establishments, with retail only as a secondary use. While the proposed development does not fit the typical interpretation of this recommendation, the facility will include a number of employees and is consistent with the broader pattern of medical services associated with Mount Carmel East.

To grant a Variance from the provisions of Sections 3356.03, Permitted uses; 3361.02, Permitted uses; and 3312.49, Minimum number of parking spaces required; for the property located at 6336 EAST BROAD STREET (43213), to permit housing for the elderly, assisted living, and memory care facilities in the CPD, Commercial Planned Development District (Council Variance # CV16-043).

WHEREAS, by application No. CV16-043, the owner of property 6336 EAST BROAD STREET (43213), is requesting a Council variance to permit housing for the elderly, assisted living, and memory care facilities in the CPD, Commercial Planned Development District; and

WHEREAS, Ordinance # 0493-2005, passed on March 28, 2005 (Rezoning Application Z04-036), rezoned this site as Subarea 2 within the CPD, Commercial Planned Development District; and

WHEREAS, Section 3356.03, Permitted uses, does not permit housing for the elderly, assisted living, or memory care uses within this subarea, while the applicant proposes to permit said uses; and
WHEREAS, Section 3361.02, Permitted uses, specifies C-4 district and limited C-5 uses, and does not permit housing for the elderly, assisted living, or memory care uses, which are I, Institutional District uses, within this subarea, while the applicant proposes to permit said uses; and

WHEREAS, Section 3312.49, Minimum number of parking spaces required, requires 1.5 parking spaces for each unit, a requirement of 183 parking spaces for 274 units, while the applicant proposes 130 parking spaces; and

WHEREAS, City Departments recommend approval because the request is consistent with the uses permitted in the adjacent Subarea 1 of the same CPD district and with the broader pattern of medical services associated with Mount Carmel East; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 6336 EAST BROAD STREET (43213), in using said property as desired; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

BACKGROUND: This legislation appropriates funding for the joint Ohio State University ("OSU") - Columbus Division of Police ("CPD") Crime Interdiction Security Initiative. A long-standing, mutual-aid collaboration has been in place between both agencies with established guidelines for mutual assistance and use of resources to address criminal activity and emergencies that occur across jurisdictional lines. One of the provisions of the 2016-2017 MOU is that OSU will reimburse the City of Columbus Division of Police for all overtime and benefit costs for sworn CPD officers who work overtime for initiative activities. The maximum amount of OSU reimbursement to the City for these costs is $150,000.00 per academic year. The second year of the MOU agreement term will begin with the 2016-2017 academic year.

The initiative activities and timing are determined via collaborative planning by OSU and CPD personnel. Examples of law enforcement activity would include student move-in/out times, the start of academic classes and high profile campus events. The 2016-2017 OSU academic year and the initiative are concurrently scheduled and will begin August, 2016.

EMERGENCY DESIGNATION: Emergency legislation is necessary to expedite the appropriation of the
funding for the OSU Crime Interdiction Security Initiative in time for the start of project activities to begin in August, 2016.

FISCAL IMPACT: This ordinance authorizes the appropriation of $150,000.00 for CPD sworn overtime expenditures and benefits for the OSU Crime Interdiction Security Initiative. All funds appropriated are reimbursable from OSU through an OSU-CPD MOU. The 2014-15 academic year grant-reimbursable expenditures were $137,297.79, and the 2015-16 academic year grant-reimbursable expenditures were $137,303.54.

To authorize an appropriation of $150,000.00 from the unappropriated balance of the General Government Grant Fund to the Division of Police for the OSU Crime Interdiction Security Initiative (2016-2017); and to declare an emergency ($150,000.00).

WHEREAS, The Ohio State University and the City of Columbus Division of Police entered into an MOU establishing guidelines for mutual assistance and use of resources to address criminal activity and emergencies that occur across jurisdictional lines; and

WHEREAS, The Ohio State University will provide reimbursement to the City of Columbus Division of Police for all overtime and benefit costs for sworn CPD officer who work overtime for the initiative activities up to a maximum of $150,000.00 per academic year; and

WHEREAS, an appropriation is needed to cover the costs associated with the academic year 2016-2017 OSU Crime Interdiction Security Initiative; and

WHEREAS, pending establishment of the OSU Crime Interdiction Security Initiative (2016-2017) appropriation, City General Funds will be expended for CPD Interdiction costs; and

WHEREAS, funds need to be made available at the earliest possible time because the 2016-2017 OSU academic year and Crime Interdiction Security Initiative activities are concurrently scheduled and begin August, 2016; and

WHEREAS, an emergency exists in the usual daily operation of the Division of Police, Department of Public Safety in that it is immediately necessary to appropriate $150,000.00, thereby preserving the public peace, property, health, safety and welfare; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

Council Variance Application: CV16-042

APPLICANT: Christopher Bruzzese; 1398 Goodale Boulevard; Columbus, OH 43212.

PROPOSED USE: Medical office as an accessory use within an apartment complex.

FAR EAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site is developed with a 100-unit supportive housing apartment complex for formerly homeless and/or low income families and is zoned in the L-AR-12, Limited Apartment Residential District. The applicant proposes to convert part of the club house building into a medical office suite to serve the residents of the complex. Staff supports this request noting that the addition of a small on-site medical office to improve the quality of life for residents of an existing supportive housing complex will not introduce an inappropriate or incompatible use to the area.

To grant a Variance from the provisions of Section 3333.02 ARLD, Apartment residential district uses, of the Columbus City Codes; for the property located at 5560 CHANTRY DRIVE (43232), to permit an accessory medical office suite within an apartment complex in the L-AR-12, Limited Apartment District (Council Variance # CV16-042).

WHEREAS, by application No. CV16-042, the owner of property at 5560 CHANTRY DRIVE (43232), is requesting a Council variance to permit an accessory medical office suite within an apartment complex in the L-AR-12, Limited Apartment District; and

WHEREAS, Section 3333.02, AR-12, ARLD, and AR-1, apartment residential district use, prohibits accessory institutional uses in the AR-12, Apartment Residential District, while the applicant proposes an on-site medical office suite to serve the residents of an apartment complex; and

WHEREAS, the Far East Area Commission recommends approval; and

WHEREAS, City Departments recommend approval of the requested variance because the proposed medical office suite will provide a much-needed service to the residents of the apartment complex. The addition of this small institutional-type use will not introduce an inappropriate or incompatible use to the area; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificate of Occupancy for the proposed use; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and
WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 5560 CHANTRY DRIVE (43232), in using said property as desired; now, therefore:

**Background:** Over the past several years Recreation & Parks have been adding security cameras to the recreation centers as well as some of the special use facilities. KNS holds the current maintenance contract for the Recreation and Parks Department as well as contracts with Public Utilities, Health, Public Service and City Hall Security Office. KNS also holds the current contract for all City security that uses the Genetec operating system, so any work needed to be done has to go through them.

The Department is requesting the waiver of the formal bidding provisions of the Columbus City Codes to enter into a contract with KNS Services, Inc. as they are currently under contract with City Security for their upgrades and maintenance on the systems they over see as well as hold the Genetic license with the City.

1. BACKGROUND
On December 7, 2015, the US Department of Transportation (USDOT) announced the Smart City Challenge, a program to demonstrate how advanced data and intelligent transportation systems (ITS) technologies and applications can be used to reduce congestion, keep travelers safe, protect the environment, respond to climate change, connect underserved communities, and support economic vitality.

On January 11, 2016, Columbus City Council passed Ordinance 0064-2016 supporting the City’s application to the Smart City Challenge.

The USDOT notified the City on March 12, 2016 of its selection as one of seven Smart City Challenge Finalists. As a Finalist, the City received $100,000 in federal funding to support the development of its second round grant application and related planning activities.

On June 23, 2016, the USDOT notified the City of Columbus of its selection as the winner of the Smart City Challenge. As the winner, the City will receive $40 Million in federal funds, $10 million in private funds from Vulcan, Incorporated, and a variety of materials, services and equipment from USDOT Smart City Challenge partners. In assembling its winning proposal, the City also assembled its own team of partners, who have additionally committed resources in the form of materials, in-kind services, and equipment.

The USDOT currently has nine (9) Smart City Challenge partners, and the City of Columbus has seventeen (17) partners. The USDOT partners include Paul Allen’s Vulcan, Mobileye, Autodesk, Amazon Web Services, NXP, Alphabet’s Sidewalk Labs, US Department of Energy, AT&T, and DC Solar. The USDOT has continued to announce new partners throughout the Smart City Challenge, and new partners may be announced in the future. The City partners include Franklin County, Ohio, American Electric Power, The Ohio State University, the Columbus Partnership, Ohio Department of Transportation, Battelle, Greater Columbus Arts Council, Experience Columbus, Mid-Ohio Regional Planning Commission, Honda of America, HERE, Inc., Peloton, SPARC, Mass Factory, INRIX, Econolite, and FleetCarma. The list of City partners may also grow.

This legislation authorizes the Director of Public Service to sign agreements with USDOT, Vulcan, or others in connection with the award of the Smart City Challenge grant, the expenditure of those grant funds through additional council action, if needed, and the return of unused Smart City Challenge grant funds if any should remain at the end of the grant. This legislation also authorizes the Director of Public Service to enter into agreements with organizations or individuals to accept contributions of materials, services, equipment, grants, or other type of assistance related to the Smart City Challenge, to administer the contributions according to the terms and conditions of the agreements, and authorizes the return of any contributions if required at the end of
the term of the agreement.

The City will be introducing additional legislation in addition to this ordinance to award professional service contracts related to the Smart City Challenge. As the City deploys the Smart Columbus program, additional legislation will be introduced to City Council for expenditure of grant funds and City funds associated with the agreements being authorized with this legislation.

2. FISCAL IMPACT

Approval of this legislation will allow the Department of Public Service to accept grants funds, materials, services, equipment, and other assistance and to enter into agreements with USDOT and USDOT Smart City Challenge partners Vulcan; Mobileye; Autodesk; Amazon Web Services; NXP; Alphabet’s Sidewalk Labs; US Department of Energy; AT&T; DC Solar; and any future partner announced by USDOT. In addition, this legislation will allow the Department of Public Service to accept materials, services, equipment and other assistance and to enter into agreements with its Smart Columbus partners Franklin County, Ohio; American Electric Power; The Ohio State University; the Columbus Partnership; Ohio Department of Transportation; Battelle; Greater Columbus Arts Council; Experience Columbus; Mid-Ohio Regional Planning Commission; Honda of America; HERE, Inc.; Peloton; SPARC; Mass Factory; INRIX; Econolite; FleetCarma, and any future Smart Columbus Partners announced by the City. As a part of its winning Smart City application, the City has committed to a local match of $8 million in capital funds over the four-year Smart Columbus deployment, which will be brought to City Council for passage at a future time.

3. EMERGENCY DESIGNATION

Emergency action is requested to allow the Department of Public Service to accept grant funds, materials, services and equipment, to enter into agreement with USDOT; current and future USDOT Smart City Challenge partners; and Smart Columbus partners, and expend those funds in accordance with the conditions of the Smart City Challenge grant award, and to meet critical deadlines imposed by the Smart City Challenge.

To authorize the Director of Public Service to execute agreements for grants, materials, services, equipment, and other assistance related to the Smart City Challenge; to authorize the acceptance and expenditure of grant funds, or acceptance and use of other materials, services, equipment, or other forms of assistance; to authorize the return of unused funds or contributions at the end of the agreement period; and to declare an emergency. **BACKGROUND:** The City of Columbus, Department of Public Service, received a request from 85 North High Street, LLC asking that the City transfer a 0.142 acre portion of the Elm Street right-of-way west of North High Street and east of Wall Street. Transfer of this right-of-way will permit future economic development on the adjacent property owned by 85 North High Street, LLC. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way. The Department of Public Service submitted a request to the Department of Law, Real Estate Division, for the purpose of establishing a value for this right-of-way. A value of $61,780.00 was established for this right-of-way based upon the reservation of general utility easement. On June 23, 2016, the Land Review Commission unanimously approved the request of 85 North High Street LLC to acquire, at no cost, an approximately 6,187 square foot (0.142 acres) section of Elm Street between North High Street and Wall Street, subject to reservation of a general utility easement. This recommendation for full cost mitigation was made in recognition of the applicant’s commitment to provide public parking under the terms of a pending Economic Development Agreement.

**BACKGROUND:**

This legislation authorizes the Director of the Department of Technology to renew a contract with Manpower Professional Services, DBA Experis US, Inc., in the amount of $88,398.75, for professional services to support DoT projects and initiatives. The term period is from September 11, 2016 through September 10, 2017. Previously the Department of Technology exercised due diligence establishing the original contract by undergoing a formal competitive bid process and procured this service in 2015 through solicitation SA005854 (at which time Experis US Inc. was the only vendor to respond) by authority of ordinance 1511-2015, passed July 27, 2015 and establishing (EL017486). The original contract allowed for two (2) additional renewals under the same terms and conditions subject to mutual agreement and approval by proper City authorities. This ordinance represents the first renewal option.

This ordinance also authorizes the Director of the Department of Technology to modify the current contract for added services and application rewrites above and beyond the original specifications, in the amount of $61,601.25. The term period is from September 11, 2015 through September 10, 2016. The total amount of funding associated with this ordinance is $150,000.00.

The Department of Technology requires these professional services to ensure added services and application rewrites above and beyond the original specifications. This agreement will provide professional services to support DoT projects, enhancements and other initiatives.

1. Amount of additional funds to be expended: $61,601.25
   Original contract amount: $342,200.00
   Modification 1: $61,601.25
Amount of original contract and modification: $403,801.25

2. Reason additional goods/services could not be foreseen:
   Due to unforeseen circumstances this modification was needed to continue with additional professional services in order to ensure added services and application rewrites above and beyond the original specifications.

3. Reason other procurement processes are not used:
   The vendor Experis US Inc. has the current contract and was originally selected via solicitation SA005854 authorized under ordinance 1511-2015, therefore it would not be in the best interests of the City to procure these services from another vendor.

4. How cost of modification was determined:
   The vendor is charging the same prices as identified in the original agreement with all other terms and conditions remaining the same.

This ordinance also authorizes the appropriation and transfer of cash and appropriation from other projects within the Information Services Bonds Fund, and will amend the 2016 Capital Improvement Budget (CIB), passed by Columbus City Council May 2, 2016 via ordinance 0960-2016, to accommodate for the additional expenditure authorized by this ordinance.

**EMERGENCY:**
Emergency action is requested to expedite authorization of this contract in order to continue services from the supplier at the prices proposed.

**FISCAL IMPACT:**
In 2015 the Department of Technology legislated $342,200.00 (via ord. no. 1511-2015) for services provided by Manpower Professional Services DBA Experis US Inc. The funding needed for this expenditure/ordinance will come from transferring funds and appropriation from Department of Technology, Information Services Division, Capital Project # P470047-100011 (Enterprise System Upgrades - Applications; Carryover funds), in the amount of $150,000.00 as identified in Section 3 of this ordinance to Capital Project # P470050-100006 (E-Gov Initiatives - Sharepoint). BACKGROUND: Each flu season, the Immunizations Program at Columbus Public Health offers flu shots to the residents of Columbus and Franklin County. To ensure having the vaccines that are needed for the upcoming flu season, pre-booking through the manufacturer, Sanofi Pasteur, is the most reliable method of ordering those vaccines. Pre-booking also guarantees on-time delivery and 340B Program pricing. Therefore, competitive bidding is being waived in order to secure our reservation to purchase the vaccine. This ordinance authorizes the Director of Finance and Management to establish a purchase order with Sanofi Pasteur in the amount of $51,614.22 for the purchase of Fluzone Influenza Virus vaccines.

Due to the potential health and safety risk of the upcoming flu season, and in order to ensure availability of flu vaccine, emergency action is hereby requested. Sanofi Pasteur’s contract compliance number is 980033013 and expires 4/15/18.

FISCAL IMPACT: Monies for this purchase order were budgeted in the Health Special Revenue Fund for fiscal year 2016.

To authorize the Director of Finance and Management to establish a purchase order with Sanofi Pasteur for the purchase of Fluzone Influenza Virus vaccines for Columbus Public Health; to waive the competitive bidding provisions of City Code; to authorize the expenditure of $51,614.22 from the Health Special Revenue Fund to pay the cost thereof; and to declare an emergency. WHEREAS, Columbus Public Health is in need of vaccines for 2016; and,

WHEREAS, Columbus Public Health needs to place a reservation with the flu vaccine manufacturer, Sanofi Pasteur, to be able to purchase the needed vaccines; and,

WHEREAS, it is in the City’s best interest to waive competitive bidding in order to meet the manufacturer’s pre-booking deadline that will reserve the vaccines Columbus Public Health needs; and,

WHEREAS, in order to ensure availability of necessary vaccines, emergency action is hereby requested; and,

WHEREAS, an emergency exists in the usual daily operation of Columbus Public Health in that it is immediately necessary to establish a purchase order with Sanofi Pasteur for the preservation of the public health, peace, property, safety and welfare; Now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Director of Finance and Management is hereby authorized to establish a purchase order with Sanofi Pasteur for the purchase of various vaccines.

SECTION 3. That this Council finds it is in the best interest of the city to waive the relevant provisions of Chapter 329 of City Code relating to competitive bidding to permit the aforementioned purchase.

SECTION 4. That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

SECTION 5. That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this ordinance.

SECTION 6. AN16-006

BACKGROUND: This ordinance is being submitted to set forth the municipal services and zoning conditions the city of Columbus will provide upon annexation of a territory located in Orange Township. This ordinance is required by the Ohio Revised Code (ORC) as enacted by the General Assembly of the State of Ohio. An annexation petition has been filed with Delaware County for this property. A service ordinance must be passed before the annexation meeting takes place before the Board of County Commissioners of Delaware County. Information regarding municipal services that would be available, should the subject site be annexed, has been compiled and is reflected in this ordinance. If the petition is approved by the County Commissioners, a second City ordinance accepting the annexation will be necessary to complete the process. The time frames specified in the ORC require that this legislation be filed as emergency.

FISCAL IMPACT: The statement of municipal services and zoning conditions for a proposed annexation area has no fiscal impact. While provision of the stated services does represent cost to the City, annexation of land also has the potential to create revenue to the City.

To set forth a statement of municipal services and zoning conditions to be provided to the area contained in a proposed annexation (AN16-006) of 7.63 ± acres in Orange Township to the city of Columbus as required by the Ohio Revised Code; and to declare an emergency.

WHEREAS, a petition for the annexation of certain territory in Orange Township was duly filed on behalf of DDM Polaris LLC and Two Polaris Company LLC on July 6, 2016; and

WHEREAS, a hearing on said petition is scheduled before the Board of County Commissioners of Delaware County on August 8, 2016 and

WHEREAS, the Ohio Revised Code requires that before said hearing the Municipal Legislative Authority shall adopt a statement indicating what services, if any, the municipal corporation will provide to the territory.
proposed for annexation upon annexation; and

WHEREAS, the Ohio Revised Code requires that before said meeting the Municipal Legislative Authority adopt an ordinance stating zoning buffering conditions; and

WHEREAS, the property is located within the boundaries of the adopted Far North Plan; and

WHEREAS, upon annexation, properties will have uniform access to City services as they become available; and

WHEREAS, an emergency exists in the usual daily operation of the Department of Development in that it is immediately necessary to present this ordinance to the Delaware County Board of Commissioners in accordance with the Ohio Revised Code all for the preservation of the public peace, property, health safety and welfare; now, therefore,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the city of Columbus will provide the following municipal services for 7.63 ± acres in Orange Township upon the annexation of said area to the city of Columbus:

Public Safety: The city of Columbus, Department of Public Safety will be able to provide the appropriate level of safety related services to the proposed annexation area. Such services will include police and fire protection as well as emergency medical service to the subject property.

While the petitioner for annexation may have proposed future development plans for the property in question, the Department of Public Safety requests that the City exercise its discretion in the coming development planning and review process to ensure any future development will be properly served by the Department of Public Safety. Discussions between the City and the present property owner or any future developers regarding post annexation changes in zoning or other changes to the property should include the Department of Public Safety and the Department of Development to ensure any proposed development of the annexation property may be adequately accommodated. Specific details for safety services are dependent upon the parameters of future development that is ultimately approved by the City.

Sanitation: Single family homes would qualify for city provided 90-gallon front curb or 300-gallon alley refuse service, the method of which to be determined by Division of Refuse Collection management. Any other development would require compliance with Title 13 requirements; Commercial/business uses are required to provide their own refuse collection.

Transportation: Maintenance will be available for any additional right-of-way that may be included in this annexation request. If this annexation contains existing signalized intersections, those intersections and signals are subject to Transportation Division Policy, which appeared in the December 6, 2003 Columbus City Bulletin, and any subsequent updates thereto.

Water: This site consists of two parcels. The parcel adjacent to Old State Road (APN 31834103007000) is served by DelCo water. The existing water service from DelCo is permitted to remain, however, any new service must be provided by the City of Columbus, Water Division. Future service to the site will be served by an existing 12-inch water main located at the intersection of S. Old State Road and Polaris Parkway, the...
extension and connection to which will be made at the owner’s expense.

**Sewers:** All sanitary and storm sewers required shall be constructed privately by the owners and developers at their own cost and expense with no cost to the City.

**Sanitary:** This site can be served by an existing 8” sanitary sewer mainline, CC-12296, located within both parcels. As the property develops, a mainline extension to the east may be required. Mainline extension design and construction costs shall be the responsibility of the property owner and/or developer. The parcels are located within the Delaware County Contract Area #1 which restricts the proposed population density to 16.5 people per acre.

**Storm:** All storm sewers necessary for development/redevelopment of the area shall be designed in accordance with design policy and applicable codes in effect at the time of development.

**SECTION 2.** If this 7.63 ± acre site is annexed, and if the city of Columbus permits uses in the annexed territory that the city of Columbus determines are clearly incompatible with the uses permitted under current county or township zoning regulations in the adjacent land remaining within Orange Township, the Columbus City Council will require, in the zoning ordinance permitting the incompatible uses, the owner of the annexed territory to provide a buffer separating the use of the annexed territory and the adjacent land remaining within Orange Township. For the purpose of this section, “buffer” includes open space, landscaping, fences, walls, and other structured elements: streets and street right-of-way; and bicycle and pedestrian paths and sidewalks.

**SECTION 3.** That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor or ten days after passage if the Mayor neither approves nor vetoes the same.
The USDOT notified the City on March 12, 2016 of its selection as one of seven Smart City Challenge Finalists. Each Finalist received $100,000 in federal funding to support concept development and planning activities. The second round application was due May 24.

- Improving access to jobs through increased public transit efforts and autonomous vehicles.
- Building on our strength as a national logistics hub by optimizing the movement and delivery of freight.
- Connecting visitors through real-time event, transit, traffic, and parking tracking.

PROPOSED USE: Shared living facility and associated offices.

NORTHEAST AREA COMMISSION RECOMMENDATION: Approval.

CITY DEPARTMENTS' RECOMMENDATION: Approval. The site consists of an undeveloped parcel zoned ARLD, Apartment Residential District, and I, Institutional District. The requested Council variance will permit a 56,000± square-foot, 120-bed shared living facility for victims of domestic violence. The facility will also provide on-site counseling, crisis intervention, office areas, a children’s play area, and other support services. A variance is necessary because shared living facilities, although permitted in higher-density apartment residential districts, are prohibited in the ARLD district. The accessory office and support uses are also prohibited in the ARLD district. A shared living facility of this type is also not permitted in the I district even though facilities such as assisted living, nursing, and rest homes are permitted. The site is located within the Northeast Area Plan (2007), which recommends low density residential uses for this location. Given the existing zoning which could potentially allow for a site density significantly higher (17.4 units/acre), this proposal is supported because it produces less residential density and is more consistent with the Plan’s land use recommendation. The proposal also includes significant setbacks and open space as reflected in the site plan. A parking space reduction of 70 required parking spaces has been incorporated into the request, and is supported because the proposed office and accessory space will serve only the residents of the facility and will not generate additional parking demands.

To grant a Variance from the provisions of Sections 3333.02, AR-12, ARLD, and AR-1, apartment residential district use; 3349.03, Permitted uses; and 3312.49(C), Minimum numbers of parking spaces required, of the Columbus City Codes; for the property located at 2241 NORTH CASSADY AVENUE (43219), to permit a shared living facility with accessory on-site counseling, crisis intervention, and general office areas with a reduction in the required number of parking spaces in the ARLD, Apartment Residential District and I, Institutional District (Council Variance # CV16-028) and to declare an emergency.

WHEREAS, by application No. CV16-028, the owner of the property at 2241 NORTH CASSADY AVENUE (43219), is requesting a Variance to permit a shared living facility with accessory on-site counseling, crisis intervention, and general office areas with a reduction in the required number of parking spaces in the ARLD, Apartment Residential District and I, Institutional District; and

WHEREAS, Section 3333.02, AR-12, ARLD, and AR-1, apartment residential district use, prohibits shared living facility and accessory office uses in the ARLD, Apartment Residential District, while the applicant proposes a 56,000± square-foot, 120-bed shared living facility with accessory on-site counseling, crisis intervention, and general office areas; and

WHEREAS, Section 3349.03, Permitted uses, only permits shared living facilities for assisted living, nursing and rest homes, while the applicant proposes a 56,000± square-foot, 120-bed shared living facility for victims of domestic violence with accessory on-site counseling, crisis intervention, and general office areas; and

WHEREAS, Section 3312.49(C), Minimum numbers of parking spaces required, requires 1 parking space per 400 square feet for a shared living facility, and 1 parking space per 450 square feet of general office space; a minimum total requirement of 136 parking spaces for 35,426 square feet of shared living facility space and 20,766 square feet of office space, while the applicant proposes 66 parking spaces; and

WHEREAS, the Northeast Area Commission recommends approval; and

WHEREAS, City Departments recommend approval of the requested Council variance because the proposed
shared living facility produces less residential density than the underlying ARLD and I zoning districts, and is more consistent with the Northeast Area Plan’s land use recommendation for low density residential development. The proposal also includes significant setbacks and open space; and

WHEREAS, said ordinance requires separate submission for all applicable permits and Certificates of Occupancy for the proposed uses; and

WHEREAS, said variance will not adversely affect the surrounding property or surrounding neighborhood; and

WHEREAS, the granting of said variance will not impair an adequate supply of light and air to adjacent properties or unreasonably increase the congestion of public streets, or unreasonably diminish or impair established property values within the surrounding area, or otherwise impair the public health, safety, comfort, morals, or welfare of the inhabitants of the City of Columbus; and

WHEREAS, the granting of said variance will alleviate the difficulties encountered by the owners of the property located at 2241 NORTH CASSADY AVENUE (43219), in using said property as desired; and

WHEREAS, Emergency exists so that the organization may proceed with the project and receive funding so that shelter services they provide are not interrupted,

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

2016 Special Event Application and Park Rental Fees

In researching park rates for dozens of the largest cities around the country we identified that there is no formula that can be copied to determine park rental costs in Columbus. Rates fluctuate from city to city, with many downtown city parks renting for thousands per day. Columbus’ riverfront park rental fees have remained at $50/hour since 2000. For 2016, the fee changes below are still based on a $50/hr model for events that are free of admission, but the fee is doubled for private/gated events (still much less than other cities).

In the past, as riverfront parks were brought on-line there was no consistency in how park fees were applied. Now that the riverfront parks are connected, uniformity is needed to allow for more efficient management of the parks. Through policy accompanying these rates, each park will now have its own identity and purpose. Uniformity will be visible through implementation of a rental structure based on blocks of time. In the block structure all available riverfront parks can be reserved for a half-day (6 hour) or full day (12 hours), with features such as the Bicentennial Park stage and North Bank Pavilion being made available for an additional fee.

It is also necessary to recognize that event set-up creates an impact on public access to riverfront parks. With several major festivals and over thirty race events scheduled for 2016, event set-up could easily affect the visitor experience. We will continue to provide free community events with one (1) set-day and one (1) tear-down day, per park, at no-charge (Mon-Fri only), however, private/gated events, and those choosing to extend set-up over multiple days, will now pay for use.

2016 Projected Park Rental Fees

SEE ATTACHED DOCUMENT
Policy for Regional and Neighborhood Parks

- There is no park rental fee for use of a regional or neighborhood park. However, events must rent all facilities located in the designated park for all event days.

Parks with an Enclosed Shelter House:
- Shelter house time blocks must be rented for all event dates, or times that building access is requested- (8a-12p, 1p-5p, 6p-11p). If multiple blocks are rented the hour between rental blocks is free. In order to reserve the entire day, all 3 blocks must be rented. No set-up day charges to parks outside of the downtown boundaries.
- Goodale Park: Gazebo wedding site must be rented at current rate (no charge for gazebo if set-up occurs on Mon-Thurs).
- Whetstone Park: 3 of 4 wedding time slots must be rented on event day in order to reserve full day ($1500). No charge for wedding slots if event occurs on a city holiday.

Race Event Policy/Fee Changes (Summary)
In order to more efficiently manage the race event permitting process and minimize impact on downtown businesses, public transportation and city departments we propose the following changes. Changes will allow the City to recover costs incurred by all City Departments involved in the permit process (CRPD, CPD, CFD, Public Service), establish custom course fees for new courses outside of downtown, and to establish pre-approved courses which originate at traditional race venues (McFerson Commons, Columbus Commons, Huntington Park and Genoa Park). A base limit of 1000 participants will now be required for a road course, and all race permits issued for parks with enclosed shelter houses will now recognize the facility “block rental” times established by the Permits Office.

APPEALS:
See Appeals Agenda.

POLICY ITEM:
Proposed City Code change to amend Section 3307.09 of the Columbus City Code, Title 33, in order to clarify the appropriate standard for the granting of an area variance.

BACKGROUND: This ordinance amends the provisions regarding variances in Chapter 3307 of the Columbus Zoning Code, Title 33, in order to bring the Code’s provisions into alignment with the Ohio Supreme Court’s stated standards for the granting of a variance. This change will not affect or alter the requirements for the granting of a special permit.

This change is being sought to eliminate confusion to the public over the legal standard required for granting a variance and to provide the appropriate direction to the Board of Zoning Adjustment as to when the granting of an
area variance is appropriate.

**2016 Special Event Application and Park Rental Fees**

In researching park rates for dozens of the largest cities around the country we identified that there is no formula that can be copied to determine park rental costs in Columbus. Rates fluctuate from city to city, with many downtown city parks renting for thousands per day. Columbus' riverfront park rental fees have remained at $50/hour since 2000. For 2016, the fee changes below are still based on a $50/hr model for events that are free of admission, but the fee is doubled for private/gated events (still much less than other cities).

In the past, as riverfront parks were brought on-line there was no consistency in how park fees were applied. Now that the riverfront parks are connected, uniformity is needed to allow for more efficient management of the parks. Through policy accompanying these rates, each park will now have its own identity and purpose. Uniformity will be visible through implementation of a rental structure based on blocks of time. In the block structure all available riverfront parks can be reserved for a half-day (6 hour) or full day (12 hours), with features such as the Bicentennial Park stage and North Bank Pavilion being made available for an additional fee.

It is also necessary to recognize that event set-up creates an impact on public access to riverfront parks. With several major festivals and over thirty race events scheduled for 2016, event set-up could easily affect the visitor experience. We will continue to provide free community events with one (1) set-day and one (1) tear-down day, per park, at no-charge (Mon-Fri only), however, private/gated events, and those choosing to extend set-up over multiple days, will now pay for use.

Policy for Regional and Neighborhood Parks

- There is no park rental fee for use of a regional or neighborhood park. However, events must rent all facilities located in the designated park for all event days.

Parks with an Enclosed Shelter House:

- Shelter house time blocks must be rented for all event dates, or times that building access is requested- (8a-12p, 1p-5p, 6p-11p). If multiple blocks are rented the hour between rental blocks is free. In order to reserve the entire day, all 3 blocks must be rented. No set-up day charges to parks outside of the downtown boundaries.
- Goodale Park: Gazebo wedding site must be rented at current rate (no charge for gazebo if set-up occurs on Mon-Thurs).
- Whetstone Park: 3 of 4 wedding time slots must be rented on event day in order to reserve full day ($1500). No charge for wedding slots if event occurs on a city holiday.
**Race Event Policy/Fee Changes (Summary)**

In order to more efficiently manage the race event permitting process and minimize impact on downtown businesses, public transportation and city departments we propose the following changes. Changes will allow the City to recover costs incurred by all City Departments involved in the permit process (CRPD, CPD, CFD, Public Service), establish custom course fees for new courses outside of downtown, and to establish pre-approved courses which originate at traditional race venues (McFerson Commons, Columbus Commons, Huntington Park and Genoa Park). A base limit of 1000 participants will now be required for a road course, and all race permits issued for parks with enclosed shelter houses will now recognize the facility “block rental” times established by the Permits Office.
