Mayor Ginther’s vision for Columbus, America’s Opportunity City, is that every 4-year-old in Columbus has access to a high-quality prekindergarten education. To meet this goal, the City must engage organizations that are positioned to assist in this effort.

Therefore, the Department of Education requests permission to contract with FutureReady Columbus to provide ongoing technical support for the CeeHiVE data platform and to expand collaboration between educators and community partners. CeeHiVE is a cloud-based web application that prekindergarten providers use to assimilate enrollment, assessment and attendance data and allows teachers to make real-time decisions on instruction. CeeHiVE can help improve program outcomes and increase effectiveness through its unique dashboard and reporting capabilities.

Previously, support for the CeeHiVE data platform was funded by the Department of Education and included in a contract with FutureReady, along with other services. This year, the Department of Education requests to fund the CeeHiVE program separately. Ordinance 0495-2019 provided funding to FutureReady Columbus to help to implement a kindergarten readiness success strategy that focuses on prekindergarten awareness, prekindergarten expansion, prekindergarten research, and a universal prekindergarten funding strategy. In previous years, these scope of services were combined.

This contract is being awarded pursuant to Section 329, which allows for the City to negotiate not-for-profit service contracts. This organization was selected due to their prior experience and success in providing the same services in 2018.

FISCAL IMPACT: Funding for this contract ($130,000.00) is available within the 2019 Department of Education General Fund budget.

To authorize the Director of the Department of Education to enter into a contract with FutureReady Columbus to provide ongoing technical support for the CeeHiVE data platform, a program necessary to achieve the Mayor’s goal that every 4-year-old in Columbus has access to a high-quality prekindergarten education; to authorize the expenditure of $130,000.00 from the General Fund. ($130,000.00)

career” approach to education and workforce excellence in the Columbus region; and

1. BACKGROUND: This legislation authorizes the Director of Public Utilities to enter into a professional engineering services agreement with Evans, Mechwart, Hambleton & Tilton (EMH&T) for the Franklinton Area Stormwater System Improvements Project, in an amount up to $2,528,145.64, for Division of Sewerage & Drainage, Stormwater Section CIP No. 610910-100001.

The City of Columbus Division of Sewerage and Drainage (DOSD) initiated CIP 610910-100001 to develop master planning and detailed design plans for constructing storm sewers and/or detention facilities to improve stormwater system capacity in the Franklinton Area. The goal of this project is to mitigate street and structural flooding caused by insufficient capacity of the Renick Run storm sewer system, south of I-70 and north of Renick Run Pump Station. The project area is bounded on the north by I-670, south by Hart Rd, west by Wheatland Ave. and east by SR-315 and I-71 freeway.

The Community Planning Area: 54 - Franklinton

2. FUTURE MODIFICATION(S): Phase II is anticipated to follow Phase I, Phase I having an anticipated completion date of September 2020.

3. TIMELINE:
   Notice To Proceed: June 2019
   Phase I Completion: September 2020
   Phase II Completion: December 2021
4. ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:
Franklinton Area is one of the Blueprint areas where Green Infrastructures will be constructed along with sanitary inflow/infiltration reduction. The insufficient storm sewer capacity prohibits installation of green infrastructure because of lack of free flow outlets. The Renick Run storm sewer system is also downstream of a Designed Sanitary Relief. Increasing capacity and mitigating street flooding will also mitigate the frequency of combined sewer overflow to the streets. By improving storm sewer capacity, this project will mitigate street flooding and encouraging future re-development in the Franklinton Area.

5. BID INFORMATION: The selection of the firm providing the professional engineering services has been performed in accordance with the procedures set forth in Columbus City Code, Section 329, "Awarding professional service contracts through requests for proposals." The evaluation criteria for this contract included: 1. Proposal Quality including Demonstrated Understanding of Project, 2. Environmental Considerations, 3. Project Team, 4. Past Performance on Similar Projects, 5. and Local Workforce.

An evaluation committee reviewed the proposals and scored them based on the criteria mentioned above. The Department of Public Utilities recommends the agreement be awarded to EMH&T.

The Contract Compliance Number for EMH&T is 31-0685594 (expires 1/19/20, MAJ, DAX #004214).

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against EMH&T.

6. 1. BACKGROUND: This legislation authorizes the Director of Public Utilities to renew (Renew #1) a professional engineering agreement with Arcadis, U.S., Inc. for the Blueprint Miller Kelton-Newton/Bedford project, CIP 650870-101201. This Sanitary Sewers’ project is being completed as part of the City’s Blueprint Columbus program. This project will construct various types of green infrastructure (GI) throughout the neighborhood which will provide a higher water quality within the region by treating the surface runoff before it discharges to the waterways. The project will also rehabilitate the existing sanitary sewer laterals and install or redirect new roof downspouts so as to reduce inflow and infiltration (I&I) within the sanitary sewer system which will result in fewer water in basements (WIBs), reduced sanitary sewer flows and decreased sanitary sewer overflows (SSOs). This contract renewal will provide the funding necessary to conduct additional public meetings and outreach, complete the designs of the GI and private property work as well as the assembly of the bid documents for each of the phases.

To date, the consultant has conducted the required field investigations, property investigations, storm sewer cleaning and televising, hydraulic modeling & alternative analysis to determine the preferred alternative within the Miller Kelton Newton Bedford planning area. The consultants have used this data to assemble the 30% project plans and are currently working towards their 60% plan submittal.

Future work will concentrate on completing the project construction plans, assembling the construction documents, bidding the work and conducting engineering services during construction.

Planning Area: the project is located within the Near East (Miller-Kelton) #62

The Division of Water would like to add funding to this Ordinance for work on their Newton/Bedford Water Line Improvements Project under CIP No. 690236-100120.

The water line work will be bid concurrently with the sewer project. The same design firm will be utilized because the work areas overlap, and the same survey and base maps can be utilized. This will allow for significant cost savings in the design of the project. The two projects will then be bid and constructed together.
which will reduce the construction impact to the neighborhood since all of the work will be completed by one contractor.

The water line improvements are located within the “62 - Livingston Avenue” Community Planning Area and includes the area bounded by Mooberry, Livingston, Eighteenth, and Miller Avenue.

1.2 **Reasons additional goods/services could not be foreseen.**

This modification was anticipated.

1.3 **Reason other procurement processes are not used:**

Re-bid of the project will likely result in a higher project costs as much of the project history would be lost and would need to be rediscovered by another consultant unless the new RFP was won by the same consultant. In such a case, we would have missed significant time in acquiring and evaluating the new proposals without significant benefit.

1.4 **How cost of modification was determined:**

A cost estimate for the proposed scope of work was prepared by Arcadis and reviewed by DOSD and DOW. The total renewal includes total labor cost (direct labor multiplied by the hourly cost multiplier).

2. **PROJECT TIMELINE:** It is anticipated that this renewal will be for a term of 2 years.

The duration of the design phase for the Newton/Bedford Water Line Improvements Project is 24 months. Part of the Consultant’s scope of work is to provide record drawings after the construction of this project is completed, therefore, it is estimated that the end of this agreement will occur in 2023.

3. **CONTRACT COMPLIANCE NO.:** 57-0373224 | MAJ | Exp. 03/19/2021 | Vendor #: 009409

4. **EMERGENCY DESIGNATION:** Emergency designation is not requested.

5. **ECONOMIC IMPACT:** This project is being completed as part of the City’s Blueprint Columbus program. Community outreach is big part of these projects and the initial public meetings have been held. Subsequent meetings with other interested, neighborhood committees have also been held to inform them of the potential
This project includes replacing or rehabilitating approximately 2,300 linear feet of 8-inch water mains within the project area. Replacement of these water lines will improve water service, decrease burden on water maintenance operations, and reduce water loss.

The Neighborhood Liaison(s) will be contacted and informed of this project during the design phase. Further community outreach may result through the Neighborhood Liaison Program.

6. **FISCAL IMPACT:** This ordinance authorizes the expenditure of up to $988,928.03 from the Sanitary Sewer General Obligation Bond Fund 6109, and $28,345.14 from the Water General Obligation Bond Fund 6006, for a total expenditure of $1,017,273.17. Embankments and riprap at the John R. Doutt Upground Reservoir require periodic maintenance to repair erosion and slumping.

This project will repair the inboard portion of the crest of the Upground Reservoir. Repair work includes: geotextile repair, earthwork, clearing and grubbing; and riprap slope protection. Work also includes restoration of selected erosion rill formations on the southern outboard slope of the reservoir embankment utilizing vegetative filter socks, growing media, seeding and mulching, and other such work as may be necessary to complete the contract, in accordance with the plans and specifications set forth in the Invitation For Bid.

2. **ECONOMIC IMPACT/ADVANTAGES; COMMUNITY OUTREACH; PROJECT DEVELOPMENT; ENVIRONMENTAL FACTORS/ADVANTAGES OF PROJECT:**

As central Ohio continues to grow, additional water supply sources must be developed. To address the growing needs, three upground reservoirs located near the Scioto River in northwestern Delaware County were recommended in the Water Beyond 2000 study as a way to supplement the water supplies needed to support projected economic development in Franklin County. The John R Doutt Upground Reservoir, the largest of the three recommended, was constructed and put in use in 2015. This project is to maintain this reservoir to allow for continued use of this important infrastructure.

During the initial design and construction of the reservoir public meetings were held and environmental reviews performed and permits issued by OEPA and ACOE.

This $200,000.00 expenditure is allocated to support the City’s partnership with WDB for the implementation of the 2019 Restoration Academy Program. The program will identify individuals, through WDB and their partnering agencies, to receive a myriad of programs and services including work experience opportunities, health assessments, and life and occupational skills training, etc. designed to assist participants with successfully transitioning back into the community and workforce. This partnership is necessary because
the City does not offer many of the specialized services critical to the success of this program.

**EMERGENCY DESIGNATION:** This legislation is submitted as emergency to provide for continued, uninterrupted services.

**FISCAL IMPACT:** This ordinance authorizes the Executive Director of the Civil Service Commission to enter into a not-for-profit service contract with the Workforce Development Board of Central Ohio (WDB) and expend $200,000.00 which was budgeted in the 2019 General Fund Budget for this expense.

To authorize the Executive Director of the Civil Service Commission to enter into a not-for-profit service contract with the Workforce Development Board of Central Ohio (WDB) for the 2019 Restoration Academy Project; to authorize the expenditure of $200,000.00 from the General Fund; and to declare an emergency. **SECTION 3.** That this contract is being awarded under the relevant provisions of City Code Chapter 329 relating to awarding not-for-profit service contracts.

**SECTION 4.** That the monies in the foregoing Section 2 shall be paid upon order of the Executive Director of the Civil Service Commission and that no order shall be drawn or money paid except by voucher, the form of which shall be approved by the City Auditor.

**SECTION 5.** That the funds necessary to carry out the purpose of this ordinance are hereby deemed appropriated, and the City Auditor shall establish such accounting codes as necessary.

**SECTION 6.** That the City Auditor is authorized to make any accounting changes to revise the funding source for all contracts or contract modifications associated with this legislation.
SECTION 7. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor, or ten days after passage if the Mayor neither approves nor vetoes the same.

BACKGROUND:
In an effort to improve the enforcement of nuisance abatement codes against the blighting and destructive influence of properties that become public nuisances, this code change creates a mechanism for allowing Civil Penalties of up to a $1,000 per day for the most severe public nuisance properties.
This process is designed to continue to ensure the due process for the property owner while also protecting neighborhoods from the debilitating impact that a blighting, public nuisance property creates. This new code will likely provide for quicker resolution than either the current civil or criminal complaint process allows for, while also being able to address nuisance properties held by corporate entities in a more effective manner. Funds collected through these prescribed fines would be directed into the Land Management Fund to help maintain, stabilize, and acquire blighting properties throughout the city.
While this code change would apply to all properties, both commercial and residential, it would be most effective when commercial properties are involved, or with multi-family apartments, hotels/motels, and landlords that own multiple properties that do not meet code requirements. This process would also serve as a deterrent, and encourage other property owners and landlords to maintain their properties in a code complaint manner and thus prevent other properties from reaching the point of having a blighting influence on their surrounding neighborhood.

FISCAL IMPACT: No funding is required for this legislation.
To enact and repeal various sections of the Columbus Nuisance Abatement Code in order to create and administer civil penalties for owners of properties who fail to comply with notices of violation and correct code violations that create public nuisances.

WHEREAS, in an effort to improve the enforcement of nuisance abatement codes against the blighting and destructive influence of properties that become public nuisances, this code change creates a mechanism for allowing Civil Penalties of up to a $1,000 per day for the most severe public nuisance properties; and

WHEREAS, this process is designed to continue to ensure the due process for the property owner while also protecting neighborhoods from the debilitating impact that a blighting, public nuisance property creates; and

WHEREAS, this new code will likely provide for quicker resolution than either the current civil or criminal complaint process allows for, while also being able to target properties held by corporate entities in a more effective manner; and

WHEREAS, funds collected through these prescribed fines would be directed into the Land Management Fund to help maintain, stabilize, and acquire blighting properties throughout the city; and

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Columbus City Codes are hereby supplemented by the enactment of new section 4701.90, reading as follows:

4701.90 Procedures for finding a public nuisance.
A. Whenever the director determines that there exists a public nuisance, as defined in section 4703.01(F), or when notices issued pursuant to sections 4701.09, 4701.11 or 4709.05 do not alleviate such determination, he or she shall issue a notice of violation to the owner of the structure setting forth the conditions that cause the structure to be a public nuisance and advising the owner that the public nuisance must be abated. If the conditions that cause the structure to be a public nuisance include violations of the Nuisance Abatement Code, then prior to declaring a public nuisance under this section the director shall confirm that appropriate notices have been issued in accordance with sections 4701.09, 4701.11 or 4709.05 and shall document non-compliance with said notices. Such notice of violation shall:
1. Be in writing;
2. Describe the structure alleged to be a public nuisance;
3. Identify the sections of the Ohio Revised Code or the Nuisance Abatement Code of which the structure is in violation and specific conditions which are the basis for the determination that the structure is a public nuisance;
4. Order the owner to abate the public nuisance and identify the specific conditions that must be corrected in order to constitute abatement;
5. Specify a reasonable time for compliance with the order to abate;
6. Advise the owner of the right to appeal the notice of violation to the property maintenance appeals board;
7. Advise the owner that if the order to abate the conditions indicated in the notice of violation is not complied with by the specified date of compliance, the director may do any, or all, of the following:
   a. Initiate a civil and/or criminal action against the owner to enforce the order.
   b. Cause the conditions indicated in the notice of violation to be corrected by city personnel or private contractor and charge the costs of such correction as a lien upon the owner's structure or land, including but not limited to correction by demolition of the structure.
   c. Assess a civil penalty against the owner pursuant to section 4709.995 of $1,000.00 for each calendar day that the owner fails to comply with the order to abate the public nuisance by the specified date as required in the notice of violation.
B. When a notice of violation is served it shall be served upon the owner by any one of the following methods:
1. Personal service;
2. Certified mail, return receipt requested;
3. Residence service at the owner's address by leaving a copy of the notice of violation with a person of suitable age and discretion then residing therein;
4. Publication in a newspaper of general circulation in Franklin County:
   a. The notification shall be published a minimum of once per week for three (3) consecutive weeks; and
b. A copy of the newspaper with a copy of the notice marked, shall be mailed to the party at the last known address and the notice shall be deemed received as of the date of the last publication;

5. Regular mail service to an address that is reasonably believed to be a place of residence of the owner or a location at which the owner is reasonably believed to receive mail regularly;

6. Posting of the notice of violation on the structure, except that if the structure is vacant, then the notice shall be posted on the structure and one of the above methods of service shall also be used.

C. When the notice of violation has been served as provided herein, it shall be effective as to any person having any interest in the structure whether recorded or not at the time the order was issued, and shall be effective against any subsequent owner as long as the conditions specified in the notice of violation remain and the public nuisance has not been abated as ordered.

1. Background
The City of Columbus, Department of Public Service, received a request from Jackson Reynolds on behalf of his client, Legacy Village Condominiums LLC, to sell an approximate 2,803 square foot or 0.064 acre portion of the unimproved east/west alley right-of-way south of E. Broad St. between S. Broadleigh Road and S. Chesterfield Road.

Sale of this right-of-way will be incorporated into the multi-family development of the property adjacent to the
above noted Right of Way owned by Legacy Village Condominiums LLC. The Department of Public Service has agreed to sell the right-of-way as described within the legal description below and attached exhibit, and extinguishes its need for public right-of-way. Per current practice, comments were solicited from interested parties, including City agencies, private utilities and the applicable area commission, before it was determined that, subject to the retention of a general utility easement for those utilities currently located within this right-of-way, the City will not be adversely affected by the transfer of this right-of-way. The Department of Public Service submitted a request to the City Attorney's Office asking that they establish a value for this right-of-way, and a value of $9,905.00 was established. This request went before the Land Review Commission on February 21, 2019, and it was voted to recommend the above referenced right-of-way be transferred to Legacy Village Condominiums LLC, at the cost of $9,905.00.

2. FISCAL IMPACT
The City will receive a total of $9,905.00 and funds are to be deposited in Fund 7748, Project P537650, as consideration for the transfer of the requested right-of-way.

**Background:**
This legislation authorizes the Director of the Department of Technology, on behalf of the Columbus Public Health Department, to enter into a contract with Accela Inc. for annual software licensing, hosting fee, and maintenance and support services for the Envision Connect system utilized by the Environmental Health unit. This contract will provide service from July 1, 2019 to June 30, 2020 at a cost of $113,382.71. The Envision Connect agreement was most recently established by authority of ordinance 2315-2018, passed September 17, 2018, establishing purchase order PO148740.

The original contract (EL000490) was established by the Health Department in 2000 with Decade Software Company. Decade Software Company was acquired by Accela in November 2014.

The Envision Connect system provides Columbus Public Health the ability to operate the Environmental Health unit by providing an extensive array of services such as tracking and maintaining information associated with inspections, historical data of restaurants and other businesses, tracking sanitation standards data, vector control for mosquitoes, environmental reviews, accounts receivable/payable and billings, as well as statistics and analysis regarding the Environmental Health unit. Services provided by Accela under this contract will provide telephone support services, software licensing, maintenance, update training, upgrades and enhancements, and application hosting services. Without this service, the Columbus Public Health Department would lose the ability to operate the Environmental Health unit, which could result in the failure to meet requirements mandated by the State of Ohio.

Accela, Inc. is the sole provider of software licensing, hosting, maintenance and support for Envision Connect software. As such, this ordinance is being established in accordance with the sole source provisions of the Columbus City Code, Section 329.07.

**Emergency:**
Emergency action is requested to expedite authorization of this contract in order to facilitate and maintain uninterrupted services from the supplier.

**Fiscal Impact:**
In 2017 and 2018, funds totaling $100,919.19 and $107,983.53 respectively, was legislated for software license, hosting and support services for the Envision Connect system. The cost for 2019 software license, hosting and support services for Envision Connect is $113,382.71. Funds were budgeted and available within the Department of Technology, Information Services Operating Fund.

1. BACKGROUND
This legislation authorizes the Director of Public Service to modify and increase an existing contract with Columbus Asphalt Paving, Inc., for the Intersection Improvements - Hamilton Road at Livingston Avenue Safety Project PID 100927 in an amount up to $30,000.00.

Ordinance 1758-2017 authorized the Director of Public Service to enter into a contract with Columbus Asphalt Paving for the construction of the Intersection Improvements - Hamilton Road at Livingston Avenue Safety Project PID 100927 and to provide for construction administration and inspection services.

The project work consists of relocating four COTA bus stops, the construction of two bus pull-offs (one on Livingston Avenue east of Hamilton Road and one on Hamilton Road south of Livingston Avenue), installation of new signage warning pedestrians to watch for vehicles and for drivers to yield, crosswalk modifications, and the installation of sidewalk on Hamilton Road and Livingston Avenue to connect the new bus stop locations to exiting walk and service roads adjacent to bus pull off areas.

A modification to the contract is needed to add funds to pay for additional unanticipated Maintenance of Traffic costs. Project utility relocation issues resulted in additional costs to the contractor requiring additional funding to complete the contract.

The original contract amount, no inspection: $283,533.87 (PO082481, Ord. 1758-2017)
The total of Modification No. 1, no inspection: $30,000.00 (This Ordinance)
The contract amount including all modifications: $313,533.87

Searches in the System for Award Management (Federal) and the Findings for Recovery list (State) produced no findings against Columbus Asphalt Paving.

2. UNPLANNED MODIFICATION
This is an unplanned modification that is necessary to cover the cost of unforeseen work needed for the project. Project utility relocation issues resulted in increased Maintenance of Traffic costs to the contractor requiring additional funding to complete the contract. This unforeseen expense exceeded the project’s contingency amount. It was deemed to be more cost efficient to modify the existing contract than to bid this part of the work.

3. CONTRACT COMPLIANCE
The contract compliance number for Columbus Asphalt Paving is CC004394 and expires 11/21/19.

4. Pre-Qualification Status
Columbus Asphalt Paving and all proposed trades subcontractors have met City Code requirements with respect to pre-qualification, pursuant to relevant sections of Columbus City Code Chapter 329.
5. **FISCAL IMPACT**
Funding in the amount of $30,000.00 is available within the Streets and Highways Bond Fund, Fund 7704, Project P530086-100034 (Intersection Improvements - Hamilton Road at Livingston Avenue Safety Project PID 100927) within the Department of Public Service.

6. **EMERGENCY DESIGNATION**
Emergency action is requested to prevent delays in the construction schedule.
To authorize the Director of Public Service to enter into a contract modification with Columbus Asphalt Paving in connection with the Intersection Improvements - Hamilton Road at Livingston Avenue Safety Project; to authorize the expenditure of up to $30,000.00 from the Streets and Highways Bond Fund; and to declare an emergency. WHEREAS, it has become necessary to modify the contract in an amount up to $30,000.00 for the purpose of performing additional Maintenance of Traffic work; and

SECTION 2. That the expenditure of $30,000.00 or so much thereof as may be needed, is hereby authorized in Fund 7704 (Streets and Highways Bond Fund), Dept-Div 5913 (Traffic Management), Project P530086-100034 (Intersection Improvements - Hamilton Road at Livingston Avenue Safety Project PID 100927), in Object Class 06 (Capital Outlay) per the accounting codes in the attachment to this ordinance.

The Department of Public Utilities entered into a contract with Watershed Organic Lawn Care for the purpose of inspecting the performance of, and maintaining the City’s bio-retention basins. The City of Columbus is committed to investing in green infrastructure. As part of this commitment, the City has built a number of bio-retention basins in the right-of-way and/or on City owned property.

Bio-retention basins are engineered, shallow depressions that treat stormwater runoff using pollutant removal mechanisms that function in natural ecosystems: settling, filtration, absorption, microbial breakdown and nutrient assimilation. Surface runoff is directed into the bio-retention area where it temporarily ponds before infiltrating through mulch and a soil media planted with vegetation. The infiltrated water percolates into soils and, if necessary, enters a perforated underdrain that discharges into a water body or storm drain system.

The City is currently responsible for the maintenance of 6 sites with 98 basins located in or around the Riversouth area of downtown, W. Broad St. at Starling called Group A. There are 36 sites with 88 basins/wetlands and 20 swales located at Griggs, O’Shaughnessy, Hoover Reservoirs, Idlewild Drive, American Addition, Crawford Farms, Watershed Roadway Improvements Part 2 at Hoover Reservoir and Watershed Roadway Improvements Part 3 at Griggs Reservoir, Smokey Row Booster Station Drainage Project, Dublin Road Water Plant Treatment Capacity No. 3 and Dublin Road Water Plant Treatment Capacity Increase, the Barthman Parsons Blueprint Green Infrastructure Pilot Projects Phase I & II, Brentnell Avenue and Bar Harbor, Blueprint Clintonville Glenmont Avenue, Briggs Road Detention Basin retrofit, Reservoir Pollution Reduction Project at Hoover Reservoir at Twin Bridges site 24, American Addition Phase 2&3, and Weisheimer Road called Group B. Each site may have multiple basins, swales, or other types of green infrastructures. Additional sites may be added in the future. All facilities are located in Franklin, Fairfield, and
Delaware Counties. The primary requirements are to inspect the green infrastructure components and repair or replace them if necessary, and to provide general maintenance. All of the green components were built pursuant to plans, and will be maintained according to those plans. The City reserves the right to make changes to the plan if the plants do not perform to plan due to unforeseen conditions. The contractor will work with Watershed Maintenance staff when performing maintenance at the basins, located at the reservoirs.

The Division of Sewerage and Drainage - Stormwater Section is in need of adding two more sites to the contract. We are adding 66 bio-basins on the Schreyer-Springs project and 42 bio-basins on the Weisheimer-Indian Springs project.

The original contract was established for a period of one (1) year with two (2) renewal options on a year to year basis upon mutual agreement, availability of funding and Columbus City Council approval. The current year’s agreement is for the third year of the contract and is for the period of September 1, 2019 through and including August 31, 2020. This modification includes an additional $0.00. If unforeseen issues or difficulties are encountered that would require additional funding, a modification would be required.

Future modifications will be required to incorporate additional green infrastructures into this contract as facilities are constructed and turned over to the City for maintenance. Other sites will come online over the next several years. The Clintonville area is slated for 600 Rain Gardens under several Blueprint plans, we may pick up several of these Rain Gardens toward the tail end of the contract. The Division of Water has added several sites to this contract and is planning to add another in the next year. The Division of Transportation had added the West Broad Street site at Starling and may add more sites in the future. All Transportation projects that have storm sewer features such as bio-basins will be maintained by the Division of Sewerage and Drainage.

The Division of Water owns several of the sites listed in this contract. The Division of Water decided it was more cost effective for them to provide funding and have the Division of Sewerage and Drainage manage the contract instead of hiring more personnel to manage their portion.

1. Amount of additional funds: Total amount of additional funds needed for this contract modification No. 4 is ADD $0.00. Total contract amount including this modification is $673,756.54.
2. Reason additional funds were not foreseen: No additional funds are being requested at this time. When the original contract was established it was known that additional sites would be added from time to time throughout the contract and therefore additional funds may be required.
3. Reason other procurement processes not used: Work under this modification is a continuation of services included in the scope of the original bid contract. No lower pricing more attractive terms and conditions are anticipated at this time.
4. How cost was determined: The cost, terms and conditions are in accordance with the original agreement.

1. BACKGROUND:

This legislation is to authorize the Director of Public Utilities, the Director of Public Service, the Director of Recreation and Parks, and the Director of Finance and Management to enter into an Administrative Order of Consent (AOC) with the United States Environmental Protection Agency (USEPA). On June 4, 2019, the USEPA delivered to the City of Columbus a proposed AOC that addresses alleged Clean Water Act (CWA) and National Pollutant Discharge Elimination System (NPDES) permit violations that the U.S. Environmental Protection Agency observed in the City of Columbus Municipal Separate Storm Sewer System (MS4). The proposed AOC contains proposed orders to bring the Columbus MS4 into compliance with the CWA and the City’s MS4 NPDES permit.

The City will confer with USEPA to finalize the terms of the proposed AOC. The proposed AOC does not require the payment of civil administrative penalties. The proposed AOC requires the payment of stipulated civil
administrative penalties only if the City does not complete the actions required in the final AOC pursuant to a schedule contained therein. By entering into the final AOC, the City will neither admit nor deny the factual allegations as set forth in the AOC, but will agree to undertake all actions required by the terms and conditions of the AOC.

2. **EMERGENCY:** Emergency status is requested in order to meet timelines for the AOC.

3. **FISCAL IMPACT:** It is anticipated that the final AOC will require the City to undertake certain capital improvement projects and obtain professional services to complete actions required in the AOC. These capital improvement projects and professional services agreements are subject to separate Council approval and appropriation.

To authorize the Director of Public Utilities, the Director of Public Service, the Director of Recreation and Parks, and the Director of Finance and Management to enter into an Administrative Order of Consent with the United States Environmental Protection Agency; and to declare an emergency. 1. BACKGROUND
This legislation authorizes the Director of Public Service to execute agreements with and to accept funding from the Ohio Department of Transportation (ODOT) to support work performed as part of the Pedestrian Safety Improvements - SRTS Sidewalks - McGuffey and Duxberry project, PID 100964.

The aforementioned effort will culminate in sidewalk installation along both sides of Duxberry Avenue from Lexington Avenue to Hamilton Avenue and along both sides of McGuffey Road from Duxberry Avenue to the terminus of the existing sidewalk just north of Clinton Street.

The Department of Public Service previously applied to ODOT to secure funding from the Safe Routes to Schools (SRTS) program, which aims to improve safety and mobility of children by encouraging them to walk and bicycle to school, to subsidize construction of the project. ODOT subsequently approved said application and awarded the City up to $492,075.00 for that purpose.

2. FISCAL IMPACT
None at this time. The grant will pay 100% of project allowable costs up to a maximum of $492,075.00. The City is responsible for any costs above the capped amount. If necessary, a separate ordinance authorizing the encumbrance and expenditure of capital funds to support any anticipated construction costs in excess of the SRTS award amount will be submitted to City Council at a later time.

3. EMERGENCY DESIGNATION
Emergency action is requested to facilitate the execution of requisite agreements and the receipt and acceptance of awarded SRTS program funds as soon as reasonably practicable so as to prevent unnecessary delays in the completion of the project.

Tasks associated with this project include all outfall sampling, laboratory analysis, laboratory data evaluation, report generation, and project management. Additional data collection and analysis will be performed to determine to what extent property values increase or decrease as a result of the installation of GI, to evaluate changes in other selected social and economic indicators, and to evaluate the effect of GI on habitat and bio diversity.

As a non-profit organization, the Ohio State University, Office of Sponsored Programs will ensure continued compliance with the City’s Stormwater NPDES permit, to measure the performance of GI installations for the purpose of improving the design and planning of future projects, to measure the economic, social, and environmental impact of a large-scale GI project on the community in which it is installed.

1. BACKGROUND
This legislation authorizes the Chief Innovation Officer to enter into a professional services agreement with Central Ohio Transit Authority, hereafter referenced as COTA, in an amount of up to $144,900.00 to provide integration into Multimodal Trip Planning and Common Payment System and other professional services as necessary. Work includes, but is not limited to, development and software services using Genfare or a software development company of COTA’s choosing.
The Smart City Challenge is a U.S. Department of Transportation (USDOT) grant program seeking to “create a fully integrated, first-of-its kind city that uses data, technology and creativity to shape how people and goods move in the future.” In 2016, the City of Columbus, acting through the Department of Public Service, applied for and won the Smart City Challenge, receiving a $40 million dollar grant from USDOT and a $10 million grant from the Paul G. Allen Family Foundation (Vulcan).

As part of Columbus’ overall response to the Smart City Challenge, efforts were focused on a system that will provide travelers with a single, common payment platform, known as the Common Payment System (CPS) that integrates with the Multimodal Trip Planner Application (MMTPA). The benefits of providing travelers with a centralized, account-based payment system, are increased convenience and customer satisfaction, as well as improved access to mobility options through integration with transportation providers. Travelers will be able to fund accounts using a variety of payment methods such as credit cards, debit cards, and cash via pre-paid debit cards or COTA Smartcards. Users will be able to reload CPS accounts via COTA’s ticket vending machines and point of sale retailers.

Searches in the Excluded Party List System (Federal) and the Findings for Recovery list (State) produced no findings against COTA.

Due to the nature of the USDOT and Vulcan grant reimbursements, professional support for the Smart City Challenge Program will be awarded in annual funding phases. Additional contract modifications may occur throughout the four-year Smart City Challenge grant period. There is no current planned modifications to this contract.

2. CONTRACT COMPLIANCE
The contract compliance number for COTA is CC004318 and will be updated prior to execution of the agreement.

Rezoning Application Z19-006

APPLICANT: Wilcox Communities LLC; c/o; Jeffrey L. Brown, Atty.; 37 West Broad Street, Suite 460; Columbus, OH 43215.

PROPOSED USE: Multi-unit residential development and a self-storage facility.

DEVELOPMENT COMMISSION RECOMMENDATION: Approval (4-0) on May 9, 2019.

CITY DEPARTMENTS’ RECOMMENDATION: Approval. The site consists of a single parcel developed with several single-unit dwellings zoned in the L-AR-12, Limited Apartment Residential District. The applicant proposes the L-AR-1, Limited Apartment Residential and L-M, Limited Manufacturing districts to permit an apartment complex with a density of 18.31 units/acre (Subarea 1) and a self-storage facility (Subarea 2). The limitation text establishes supplemental development standards that address density, access, sidewalks, landscaping, tree preservation, building design, and lighting controls, and includes site plan and building elevation commitments. The site is within the planning area of the Far North Area Plan (2014), which recommends medium density residential uses at this location for properties that are consolidated into one development area as is the case for this site. Although the proposed L-M, Limited Manufacturing District is not consistent with the Plan’s land use recommendation, staff notes that this subarea is located along a rail corridor and provides screening from the proposed residential to the east. Both proposals contain development standards that ensure compatibility and connectivity with adjacent developments. The commitment to preserve existing trees further justifies the proposed density in the L-AR-1 district and compliments the adjacent multi-unit residential developments.

To rezone 259 PARK RD. (43085), being 18.25± acres located on the south side of Park Road, 230± feet west of Storrow Drive, From: L-AR-12, Limited Apartment Residential District, To: L-AR-1, Limited
Apartment Residential District and L-M, Limited Manufacturing District (Rezoning #Z19-006).

WHEREAS, application #Z19-006 is on file with the Department of Building and Zoning Services requesting rezoning of 18.25± acres from L-AR-12, Limited Apartment Residential District, to L-AR-1, Limited Apartment Residential District and L-M, Limited Manufacturing District; and

WHEREAS, the Development Commission recommends approval of said zoning change; and

WHEREAS, the City Departments recommend approval of said zoning change because the requested L-AR-1, Limited Apartment Residential District is consistent with the land use recommendation for medium density residential uses in the Far North Area Plan. Although the proposed L-M, Limited Manufacturing District is not consistent with the Plan’s land use recommendation, staff notes that the site is located along a rail corridor and includes screening from the proposed residential to the east. Both proposals contain development standards that ensure compatibility and connectivity with adjacent developments. The commitment to preserve existing trees further justifies the proposed density in the L-AR-1 district and compliments the adjacent multi-unit residential developments; now, therefore:

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That the Official Zoning Map of the City of Columbus, as adopted by Ordinance No. 0179 -03, passed February 24, 2003, and as subsequently amended, is hereby revised by changing the zoning of the property as follows:

259 PARK RD. (43085), being 18.25± acres located on the south side of Park Road, 230± feet west of Storrow Drive, and being more particularly described as follows:

LIMITATION TEXT

PROPOSED DISTRICT: L-AR-1, Limited Apartment Residential District, L-M, Limited Manufacturing District
PROPERTY ADDRESS: 257 Park Road, Columbus, OH 43085
OWNER: Parkview Village, LLC
APPLICANT: Wilcox Communities LLC
DATE OF TEXT: 6/6/19
APPLICATION: Z19-006

1. INTRODUCTION: The site is zoned for multi-family development with the requirement for constructing a public street thru the development to connect Park Road with Alta Drive. The western boundary of the site borders an active railroad track. The applicant wants to reallocate the multi-family units adjacent to the railroad tracks to the east of the proposed public street connector. Keeping the residential units away from the railroad track would create a better community.

In place of those residential units, the applicant proposes self-storage. This use would provide a better buffer to the railroad tracks and provide for additional storage space in this area.

Prior to approval of a site compliance plan for the area comprising this rezoning application, documentation will need to be provided from the railroad operator that the roadway improvements extending into the frontage of Tax Parcel ID: 250-000026 may be constructed.

1. Street trees shall be planted evenly spaced along public streets at a ratio of not less than one tree per thirty (30) feet of frontage where there are no existing trees.

This ordinance authorizes Columbus City Council to enter into a grant agreement with J. Jireh Development Corporation in support of the organization’s Youth Summer Enrichment program.

The objectives for the JJDC Youth Summer Enrichment Program are to address nutrition/wellness, food
production, children's education, and job training. The JJDC Youth Enrichment Program was established for children who are in foster care at Franklin County Children Services and the students at Fairwood Alternative Elementary School. The vision for the summer camp is to cause learning through gardening, because it teaches children and adults to make healthier food choices and take better care of their environment, all while making learning more exciting for them.

This summer enrichment program plays a significant role in enhancing the physical, emotional, and spiritual well-being necessary to build a healthy and socially-sustainable community. This summer camp results in a broad range of positive physical and psychological well-being outcomes for the youth and The Community of Kimball Farms.

JJDC will conduct surveys for the students, parents, and teachers. These surveys will measure change-over-time when used to monitor pre-program conditions against post-program conditions. They will be used to gather extensive data regarding perceptions of participants when it is important to judge a participant’s motivation during a program, and they will ensure the consistent collection of data because all respondents receive exactly the same questions in exactly the same way.

**Fiscal Impact:** Funding is available within the Neighborhood Initiative subfund.

**Emergency action** is requested in order to avoid any delay in the delivery of the Summer Enrichment programming.

To authorize City Council to enter into a grant agreement with J. Jireh Development Corporation in support of the organization’s Youth Summer Enrichment program; to authorize an appropriation and expenditure within the Neighborhood Initiatives subfund; and to declare an emergency. ($15,000.00)

SECTION 2. That for the reasons stated in the preamble hereto, which is hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and after its passage and approval by the Mayor.

BACKGROUND

The purpose of this ordinance is to create new sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes; to update and clarify Code sections pertaining to campaign finance disclosure for officeholders, candidates, ballot issue committees, PACs, PCEs, and other required filers in the City of Columbus.
In the past few years, Mayor Andrew J. Ginther and City Council have proposed and passed reforms that make municipal elections in Columbus more transparent to the public. A recent Supreme Court decision in *Citizens for Responsibility and Ethics in Washington v. Federal Election Commission and Crossroads Grassroots Policy Strategies* opened the door for greater disclosure from the groups paying for election period communications, including dark money. In 2018, Mayor Ginther proposed and Council passed amendments to the City Codes that force disclosure of these forms of political contributions and expenditures, as well as setting contribution limits for municipal candidates and contributors, requiring auditing of campaign finance reports, and creating a system to report and investigate alleged violations.

Upon additional review of these sections, it became clear the further updates were necessary to align with state and federal law, as well as to ensure the maximum disclosure allowable by law. The new sections enacted will also provide additional definitions and reorder some of the previous language in these sections to increase clarity. There are four key areas for updates:

- Definitions added and/or edited, such as expanding the definition of “agent” to include those who would reasonably appear to authorize expenditures on behalf of campaign committees, as well as to expand the amount of time given to file election period communication reports from twenty-four (24) to forty-eight (48) hours
- Updating filing requirements to mirror state and federal laws by requiring independent expenditure entities to disclose all individual donors that contribute equal to or exceeding an aggregated amount of $200 to the entity
- Raising the dollar limit requirements of those filing election period communication reports - more closely mirroring the requirements of campaign finance reports by changing amount required for filing by individuals who pay for their own communications from $100 to an aggregated amount of $1000.
- Revising the penalty and process for these code sections; also adding language indicating that a municipal ballot committee that receives a contribution from an entity that is unable or unwilling to identify donors must properly dispose of the contribution.

This ordinance will further the City’s efforts to enhance disclosure and transparency in its campaign finance laws and minimize the influence of dark money on the City’s elections.

To enact new sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes and to repeal current sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes; to update and clarify Code sections pertaining to campaign finance disclosure for officeholders, candidates, ballot issue committees, PACs, PCEs, and other required filers in the City of Columbus.

**WHEREAS**, the voters of the City of Columbus expanded the City’s authority to regulate campaign finance limits and disclosure by a vote of 104,967 yes to 42,484 no on November 4, 2014; and

**WHEREAS**, Mayor Andrew J. Ginther and Columbus City Council previously expanded municipal candidate and ballot issue committee disclosure requirements; and

**WHEREAS**, a recent United States Supreme Court ruling allows the City to require disclosure of “dark money”; and
WHEREAS, it is now necessary to create new sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes, and to repeal current sections 107.02, 107.03, 107.04, and 107.05, to provide greater clarity and maximize the disclosure of any dark money spent in City elections; and

WHEREAS, this ordinance builds on the Mayor and Council’s past work to enhance disclosure and transparency in its campaign finance laws and minimize the influence of dark money on the City’s elections, ensuring the health, safety and welfare of Columbus residents; now, therefore

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:

SECTION 1. That new sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes are hereby enacted, reading as follows: SEE ATTACHMENT

SECTION 2. That existing sections 107.02, 107.03, 107.04, and 107.05 of the Columbus City Codes are hereby repealed and replaced as provided herein.

SECTION 3. That this ordinance shall take effect and be in force from and after the earliest period allowed by law.

Background: This ordinance authorizes the Mayor of the City of Columbus to execute a new annexation agreement (the “New Agreement”) with the Columbus Regional Airport Authority (CRAA). The New Agreement will expire twenty (20) years from the effective date of the executed agreement (the “Original Term”). The New Agreement will automatically renew for up to two (2) additional five (5) year periods (“Renewal Terms”) thereafter unless notice to terminate the New Agreement is provided by the City or CRAA at least ninety (90) days before the date the Original Term or Renewal Term would otherwise expire.

The New Agreement will replace the existing Annexation Agreement (the “Original Agreement”) entered between the City of Columbus (the “City”) and the Rickenbacker Port Authority (“RPA”) on September 9, 1996 to establish for each party obligations related to annexation of RPA property to the City (the “Original Agreement”). The Original Agreement was extended by an amendment executed on December 27, 2007 between Columbus and the CRAA, successor to the RPA. The Original Agreement was further modified by a Second Amendment executed February 29, 2008 (authorized by Ordinance 1839-2007), a Third Amendment executed on May 8, 2017 (authorized by Ordinance 1008-2017), and a Fourth Amendment executed on December 11, 2018 (authorized by Ordinance 3212-2018).

The Fourth Amendment to the Original Agreement expires July 31, 2019. The City and the CRAA believe that it is necessary to create a New Agreement to incorporate updated provisions, processes, and maps as it relates to the development of the property owned by the CRAA (the “Property”) that they wish to annex into the City. The New Agreement also outlines how and when City services will be provided to Property. The City will also ask in future legislation for Columbus City Council to approve $15 million in City capital investment for public infrastructure projects (to be mutually determined) to support economic development in the area.
Emergency action is requested due to the approaching expiration of the Fourth Amendment of the Original Agreement.

**Fiscal Impact:** No funding is required for this legislation.

To authorize the Mayor to execute a new annexation agreement with the Columbus Regional Airport Authority and to execute any and all other documents and instruments necessary and incident thereto; and to declare an emergency.

**Whereas,** the new annexation agreement ("New Agreement") with the Columbus Regional Airport Authority ("CRAA") will expire twenty (20) years from effective date of the executed agreement (the Original Term); and

**Whereas,** the New Agreement will automatically renew for up to two (2) additional five (5) year periods (Renewal Terms) thereafter unless notice to terminate the New Agreement is provided by the City or CRAA at least ninety (90) days before the date the Original Term or Renewal Term would otherwise expire; and

**Whereas,** the New Agreement will replace the existing Annexation Agreement (the “Original Agreement”) entered between the City of Columbus (the “City”) and the Rickenbacker Port Authority ("RPA") on September 9, 1996 to establish for each party obligations related to annexation of Rickenbacker property to Columbus (the "Original Agreement"); and

**Whereas,** the Original Agreement was extended by an amendment executed on December 27, 2007 between Columbus and the CRAA, successor to the RPA; and

**Whereas,** the Original Agreement was further modified by a Second Amendment executed February 29, 2008 (authorized by Ordinance 1839-2007), a Third Amendment on May 8, of 2017 (authorized by Ordinance 1008-2017), and a Fourth Amendment executed on December 11, 2018 (authorized by Ordinance 3212-2018); and

**Whereas,** the Fourth Amendment to the Original Agreement expires July 31, 2019; and

**Whereas,** the City and the CRAA believe that it is necessary to create a New Agreement to incorporate updated provisions, processes, and maps as it relates to the development of the property owned by the CRAA (the “Property”) that they wish to annex into the City; and

**Whereas,** the New Agreement also outlines how and when City services will be provided to Property; and

**Whereas,** the Department of Development will also ask in future legislation for Council to approve $15 million in City capital investment for public infrastructure projects (to be mutually determined) to support economic development in the area; and

**WHEREAS,** this Council deems it to be in the best economic interests of the City, and for the further reason that the approaching expiration of the Fourth Amendment of the Original Agreement presents an emergency in the usual daily operations of the Department of Development such that authority to extend the Agreement should be authorized immediately, all for the further preservation of the public health, safety, and welfare, **now therefore;**

**BE IT ORDAINED BY THE COUNCIL OF THE CITY OF COLUMBUS:**

**Section 1.** That the Mayor is hereby authorized to execute a New Annexation Agreement between the City and the CRAA to expire twenty (20) years from the effective date of the executed agreement (the “Original Term”) and automatically renew for up to two (2) additional five (5) year periods (“Renewal Terms”) thereafter unless notice to terminate the New Agreement is provided by the City or CRAA at least ninety (90) days before the date the Original Term or Renewal Term would otherwise expire, and to include such other provisions therein, and to execute such other additional documents and instruments as are necessary and incident thereto.
Section 2. That for the reasons stated in the preamble hereto which are hereby made a part hereof, this ordinance is hereby declared to be an emergency measure and shall take effect and be in force from and immediately after its passage and signature by the Mayor, or within 10 days thereafter if the Mayor neither signs nor vetoes the same.
