

## Trade Four Wheels for Two

Did you know that half of all trips made are within five miles of the home, yet more than 3/4 of these are made in a vehicle?

When possible, hop on your bike instead of in your car.

## Recycling Power

Did you know that recycling a single aluminum can saves the same amount of energy needed to power a TV for four hours? Drop your can in a recycling bin to save some energy.

## What's on Tap?

Drinking from the tap is a great bargain, just a few pennies for 5 gallons. Installing WaterSense-labeled aerators, showerheads and turning off the water while you brush your teeth are ways to conserve water and save.

## Flip a Switch

Conserving energy is as easy as flipping a light switch off when leaving a room or putting your computer to sleep at night. Switching to CFL or LED lights can save money and energy.
