Department of Columbus Public Health

Department Description

Columbus Public Health (CPH) protects, promotes and monitors the health of the public by:

- Assuring compliance with public health laws, mandates and regulations
- Establishing policy to address health issues and emerging health threats
- Providing preventive, environmental, community, clinical and home-based services

Department Mission

Columbus Public Health is a leader in improving the health and safety of Columbus by monitoring community health status, identifying and addressing public health threats, enforcing laws that protect the public's health, and providing services to prevent and control disease.

Strategic Priorities for 2011

From the Columbus Covenant:

Neighborhoods

- Provide services to prevent, investigate and control infectious diseases, including communicable disease outbreaks, sexually transmitted infections, and foodborne and water-borne illnesses.
- Continue to provide high quality clinical services for children and families including sexual health, immunization, dental, and prenatal services. Staff will continue to reduce barriers to service by providing such services as translation and evening hours.
- Columbus Public Health will lead the city's ongoing efforts to combat the current epidemic of obesity by implementing strategies to make Columbus an active and vibrant community. Programming and initiatives dedicated to these efforts include Get Active Columbus, Healthy Children Healthy Weights, the Institute of Active Living, farmers markets and community gardens, bike and walking paths, Creating Healthy Communities Network, Women Infant and Children (WIC) and the Healthier Choices Committee.
- Provide public health services, such as immunizations, tuberculosis testing, and prenatal services for immigrants and refugees and other vulnerable residents.
- Continue to work with the Columbus Neighborhood Health Centers, Inc. (CNHC) and others groups to help support quality primary care for as many as possible.
- Maintain social work staff in neighborhood pride centers and other venues to assist vulnerable residents. The goal is to protect residents' health and safety,

primarily by linking them to needed health and social services and through the community-focused public health nursing corps.

Safety

- Continue departmental and community planning to prepare for and respond to a range of disasters or emergencies, including bioterrorism. Community leadership, public education and staff training will continue in 2011 with an emphasis on providing the highest level of public health protection possible for all Columbus residents.
- Implement a year round seasonal influenza initiative to better protect Columbus residents and workplaces.

Education

- Coordinate with other city departments and agencies to enhance the safety of children near and around schools.
- Improve health in minority and lower income communities, including African American and Latino populations, through neighborhood-based Health Advisory committees and partnership initiatives.
- Continue school inspection services and collaborative efforts with Columbus City School nurses to respond to children's pressing health needs.

Customer Service

Continue the community education program for Columbus residents-SIGNS. This
program provides information to the public on the safety of restaurants, pools,
schools and other venues inspected by the Environmental Health Division.
Transition to enhanced mobile web technology will improve efficiency.

Peak Performance

- Continue e-mail notification system to provide important public health information to subscribers through Columbus Public Health's website.
- Enhance technology in the vital statistics area to allow for computer scanning and storage of birth and death certificates and regular access to data reports, including real time analysis of Franklin County residents.
- Expand quality improvement, safety and workforce training efforts in order to pursue public health accreditation status.

2011 Budget Notes

- The 2011 budget for Columbus Public Health allows for continued provision of public health services that are mandated, services that meet the priorities contained within the Columbus Covenant, and a variety of programs that the Board of Health deems essential.
- The city will provide \$4.9 million in funding to the Columbus Neighborhood Health Centers, Inc., the same level as provided in 2010.
- The department will continue to address increasing public health and community imperatives, including pandemic disease outbreaks with the addition of two positions that will monitor disease outbreaks and promote infection control.
- Both the dental clinic program, which serves uninsured clients, and the dental sealant program, which provides preventive sealants to low income school children, will continue in 2011.
- Additional general fund moneys are being allocated for translation services to better serve the growing non-English speaking population. The amount available for these contracts in 2011 totals \$219,000.
