**Contact Email Address:** lecady@columbus.gov

**Body**

**What:**

Council member Maryellen O'Shaughnessy will host a public hearing on sidewalk and driveway construction and repair (Columbus City Codes, Chapter 905) on Tuesday, September 20, 2005.

The purpose of Chapter 905 of Columbus City Code is to protect the health, safety, and welfare of all persons by way of preventing and/or abating hazardous sidewalk and driveway approach conditions within the public rights-of-way of the City of Columbus by establishing minimum standards relative to:

- \* The maintenance and construction of sidewalks and driveway approaches within the public right-of-way
- \* The control and abatement of hazardous sidewalks and driveway approaches within the public right-of-way

Proposed revisions to this existing code are designed to enhance the City's ability to perform this purpose. Currently proposed revisions include:

- \* Extending enforcement authority for this Code to the City's Development Department, i.e. Code Enforcement Division
- \* Specific documentation of the associated notification and appeal procedures
- \* Specific documentation of associated code violation criteria
- \* Authorization for the Public Service Director to initiate sidewalk repairs where abutting private property owners have failed to make necessary repairs after having received notice to do so from the City. The cost of these repairs would then be assessed against those owners as a part of their property taxes if they choose not to reimburse the City for those costs at the time of construction.

Chapter 905 does not address, and nor will this public hearing, the subject of sidewalk construction where sidewalks do not currently exist. This hearing is scheduled to discuss Chapter 905 specific issues, as described above.
