SA003391 - CARBON DIOXIDE 30 TON TANK LEASE

THE CITY BULLETIN
BIDS WANTED - PURCHASING OFFICE AND OTHER DIVISIONS

CARBON DIOXIDE STORAGE UNIT LEASE INFORMATION REQUESTED

This is a request for information pertaining to the leasing of a bulk storage tank capable of an equivalent storage and delivery capacity to the tanks listed below.

The Parsons Avenue Water Plant in Columbus, Ohio has four (4) Tomco model 3075-C 60,000 lb. capacity carbon dioxide storage units. Each unit is equipped with a low temperature air-cooled Copeland refrigeration condensing unit charged with refrigerant R-404A and an external electrically heated vaporizer.

GENERAL SITE CONDITIONS AND SERVICE REQUIREMENTS

An existing unit suffered a vaporizer fire, and has reached it's useful service life. A leased unit put in it's place or adjacent to it, and piped in to the existing feed system is the desired solution. A suitable pad, piping and electricity may already be in place, and moving the old unit aside with a crane, to place the new unit, may be the only site prep needed

Existing Service contracts for the existing storage vessels will not be altered to cover annual service and inspections of the leased vessel at this time. Service and Maintenance shall be included in the lease terms, and if not included, it must be stated clearly in the proposal

Please also note that the use of recovery equipment may be necessary when servicing refrigeration systems in order to comply with the U.S. Environmental Protection Agency regulations prohibiting the venting or release of refrigerants to the atmosphere.

TERMS OF POTENTIAL CONTRACTS

The City seeks proposals to have a unit delivered, installed and maintained on site for 3 to 5 years. The contract will most likely be three years initially, to be paid in yearly payments, due to the City's financial process. A new City Purchase Order authorizing payment will be created once each 12 months of the lease, to effect lease payment. No prepayment of more than one year is possible.

INSPECTION REPORTS

A detailed preventive maintenance and inspection report shall be required and delivered to the Parsons Avenue Water Plant Maintenance Manager within ten (10) working days of the actual service date. The reports are to show operating conditions of the unit and also list any repairs that have been made. The reports should have a checklist style format to ensure that the serviceman performs individual item checks as required.

PRE-BID INSPECTION

Arrangements can be made to visit the plant site and look at this equipment prior to submitting proposals. October 7th an onsite inspection may be made by contacting Gene White, plant maintenance manager at 614-645-3227 between the hours of 7:00 am and 3:30 pm Monday through Friday to RSVP.
